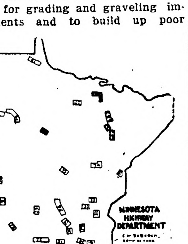
St. Paul, Minn.—Speeding the big state highway development program, C. M. Babcock, Minnesota highway commissioner, during the last thirty days, has ordered and approved projects for nearly $4,400,000 of new construction in nearly fifty scattered localities, in addition to organizing the $3,000,000 a year maintenance force with 1,000 patrolmen covering the entire 7,000-mile trunk highway system.

The accompanying progress map shows approximate locations of the various undertakings. Many other new projects are to follow rapidly, Commissioner Babcock announced, under the department policy to spread benefits with all possible speed.

Projects shown on the map are mainly for grading and graveling improvements and to build up poor stretches in long mileages of otherwise good roads, it was explained. Two paving projects ordered on state account are the extension of the St. Paul-Minneapolis pavement from Salida into St. Cloud, to serve northwestern Minnesota traffic, and on Superior boulevard, a heavy traffic artery running west from Minneapolis. The first is 17 and the second 4 miles in length.



State Map Showing Approved Road Projects.

Commissioner Babcock put all other trunk highways in two classes: Better than average roads and roads to be improved as traffic requires and funds permit.

The Index to the progress map follows:

REDS THREATEN SCANDINAVIA

400 Foreign Bolshevists Arrested Are to be Expelled from Country.

Copenhagen.—The police of Stockholm have discovered documents showing that it is intended to start a simultaneous Bolshevist revolution in Sweden, Finland and Norway.

This information was received here concerning the alleged revolutionary plot uncovered Thursday as a result of the arrest of a Bolshevist leader in Kiruna, in the iron mining district of Sweden.

Papers also were found implicating 400 foreign Bolshevists staying in Sweden who will be arrested and expelled from the country, it is said.

FREIGHT CUT IS AUTHORIZED

Lower Rates on Fruit and Vegetables Permitted by I. C. C.

Washington.—Reduction of freight rates on vegetables and melons from the Pacific coast to territories east of Chicago, ranging from 8 to 33½ cents a hundred pounds, was authorized by the Interstate Commerce commission.

The rates, which are permitted to go into effect on one-day notice by carriers, were proposed by vegetable and fruit shippers of the coast in conference with representatives of railroads held in Northern and Southern Pacific coast cities.

Gov. Edwards to Review Wet Parade.

New York.—New Jersey is to have an anti-dry parade on July 4, and Governor Edwards has written to the director of the Hudson County branch of the national association against the prohibition amendment, accepting an invitation to review it. Crowds blocked 11 streets in New York in a rush to enlist for the anti-dry parade to be staged in that city July 4, according to reports reaching here. Many women were in the crowds.

Des Moines Drug Stores Raided

Des Moines, Iowa.—Sheriff W. E. Robb, assisted by deputies, police and prohibition enforcement officers, swept down on fifteen large retail drug stores in Des Moines and seized liquor estimated to be worth $300,000.

Canadian Roads Cut Wages

Montreal.—Canadian railways, following the action of the roads across the border, took preliminary steps to cut wages 12 per cent July 1, and later to revise working conditions.

LAND IN DEMAND

Why Western Canada Can Take Her Pick of Settlers.

Opportunities and Conditions There Appeal to the Most Desirable—Possibilities of Country Proved.

While Canada wants settlers, and is pursuing every legitimate means to secure them, it is realized, as pointed out by Hon. J. A. Calder, minister of immigration and colonization, that selection is necessary, and in order to keep undesirables out of the country legislation is passed that will doubtless have this effect. As pointed out by the minister, the class of settlers which Canada stands most ready to welcome are those who desire:

Opportunity to acquire good farm land, either free or at a cost within their means.

Opportunity to live in a country under healthful conditions and liberal laws and among an intelligent and friendly people.

Opportunity to live in a country where children receive free public education and where all children are enabled to start in the battle of life with, as nearly as possible, equal advantages.

Opportunity to live in a country where industry applied to the land will produce something more than the bare necessities of life, and will afford within reasonable time comfort and independence.

Opportunity to live in a country where ambition is not handicapped by any creed, birth, or class, but where every citizen has the right to aspire to the highest position in his or her chosen walk in life.

These are the conditions which will appeal to the most desirable people for this or any country, conditions which, to a certain degree, make an automatic selection of the fittest.

Canada possesses farm lands in large areas which may be had free or at a cost within the reach of the settler of limited means. Vast areas are available for settlement within reasonable distances of railways. Land values have in the last quarter of a century received a tremendous impetus, so that any good farm land which can still be secured in its raw state at reasonable prices is an attraction. Such lands today are probably more attractive to the settler than were the free homesteads of the pioneer era. The country has been tried out; its possibilities have been proved; the trails have been blazed; the foundations have been laid. Railroads, telephones and public roads have been provided; market towns dot the prairies and other agricultural districts; schools, churches, and all the marks of modern conditions of life abound. Records which have been taken over a period of years establish the fact that Western Canada's grain production is greater per acre than that of probably any other new country. It is worthy of note that the production of grain per acre in many of the older countries has increased with the intensified farming methods which the very high cost of land made necessary. This condition does not yet obtain to any extent in Canada, and yet the yield compares favorably with some such countries in which the cost of land is very much greater than it is in the farming districts of the Dominion. In most cases present owners of Canadian farm land who are not cultivating it themselves are willing to sell at moderate prices and on terms arranged for the convenience of the purchaser, provided that the purchaser is prepared to go into actual operation and bring the land under cultivation and cause it to produce. That is the kind of settler which Canada wants and to whom it extends open arms.—Advertisement.

Many Kinds of Honey

There are more kinds of honey than you think. There is honey that is black and sour; honey that is red; honey that is poisonous, honey that is green and honey that is rose color. Many of us have eaten honey that is white, and most of us know honey that ranges in color from pale yellow to brown. Honey is of many flavors, depending on the kind of blossoms the bees work on.

Before Books Were Plentiful

The almanac and the family Bible constituted the home library some two hundred years ago. The weather predictions in the almanacs of 100 years ago were occasionally right, and when so proved in any locality the fame of the predicter was proclaimed abroad, at the corner groceries and tavern bars of the land.

Work is an excellent distraction but there are so many others that are pleasanter.

Useful Garden Tool.

An ordinary putty knife is one of the most useful tools which the amateur gardener can use. It serves many purposes and is especially useful in setting out small plants. It is an efficient instrument for cleaning other tools, is found convenient at harvesting time, and when the day's work is over will remove the accumulation of soft earth from the shoes in a speedy and satisfactory manner. It can be tucked into the side pocket, occupying but little space, and be ready for use at any time. By all means add a putty knife to your list of garden tools.

Dire Threat.

Two powerful negro stevedores, who had had some sort of falling out, were engaged in unloading a vessel at a St. Louis dock. Uncomplimentary remarks and warnings of intended violence were exchanged whenever the two passed each other with their trucks.

"You jest keep on pesticatin' around wid me," declared one of the men, "an' you is gwine be able to settle a mighty big question for de scienific folks!"

"What question dat?" asked the other.

Got Skin Disease?

Purify Your Blood

A great part of the maddening and mortifying skin troubles that plague humanity are due solely to disorders of the blood. Relief from these can be had only by removing from your blood stream the impurities that cause the itching.

For this you must take an internal blood remedy. Outside applications have no effect on the cause of the torture. Their relief is shortlived. You must get right after the blood itself.

S.S.S., the famous old herb remedy, has helped enrich the blood of thousands, and relieved their itching skin torture, during the last fifty years.

Get S.S.S. from your druggist today, and after starting with it write us a history of your case, addressing Chief Medical Advisor, 837 Swift Laboratory, Atlanta, Georgia.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Attend the big sale Saturday.

People do not realize that the legislature was particularly responsive to the Red River Valley needs during the past session. In the Northwest Monthly, Superintendent C. G. Selvig points several laws that were passed as follows:

1. Sow thistle eradication law, $15000 appropriated.
2. $20000 appropriated for Barberry eradication.
3. $25000 appropriated for Red Lake River Survey.
4. Red River Valley Live Stock Association appropriation increased annually.

In the same issue is a statement of big happenings of the year at the Agricultural School, Crookston.

Northwest School Developments

1. New dining hall opened in October costing $88,000. 2. Concrete roadway, Crookston to school completed. 3. Soldiers' memorial dedicated, October 5, 1920.

4. Largest farmers' week meetings and winter shows held in February.

The entire valley is interested in these developments as well as the continued advance and strengthening of farm bureau work, particularly with reference to grain, potato, wool, dairy and stock marketing and financing.

Have your hair cut and shaving done at the City Barber Shop.

Every voter should be out to the school election Saturday July 16.

The American Friends Auxiliary of 2637 twenty-seventh ave. South, Minneapolis, are calling for second hand clothing and shoes for the suffering children in all parts of Europe.

Minnesota farmers have voted solidly against construction of transcontinental "pleasure highways" before the country is provided with good farm-to-market roads.

The first returns from balloting in the nationwide farm bureau referendum show a unanimous demand for developing market roads rather than a few interstate boulevards, the Minnesota Farm Bureau federation announces.

The vote is upholding the farm bureau federation in its defense of the Dowell bill, now before congress and its opposition to the Townsend bill, federation officers said. The Dowell bill corresponds, on a national scale, to the road policy adopted in Minnesota, according to C. M. Babcock, highway commissioner. The Townsend pill, on the other hand, provides for the creation of another federal commission, and would give this commission dictatorial powers over state road construction, farm bureau officials believe.

The Jefferson Highway

The Red Lake Falls Gazette says that if The Greenbush Tribune opposes the building of an all-weather road between Karlstad and Strathcona it will be hard to get the Jefferson re-routed that way. Why, bless your heart that road has been out there these many years and has never been taken in out of the rain. Most of it is on the mail route and Mr. Hanson, the carrier, has never missed a day on account of too wet roads. When a little more work has been put on the new state road to Strathcona it will be one of the best roads in the state. It has perfect road material.—Karlstad Advocate.

The Advocate had a lengthy article on one of its other pages that seemed to favor the old Pembina Trail for the J.H. It states that the county commissioners have decided to build the bridge near Ellert this year. That is alright, as the more roads and bridges that are built, the better for the country as a whole.

Speaking of the condition of the east route at the time of the rains around the "Fourth," he says, "we talked to people who had been to Holt during the day and they said the road was so rough and cut up after the rains that it was almost impassable."

But nothing was said of the big 55 horse power caterpillar tractor and road grader that has been working on this road between Thief River Falls and Holt. They have been tearing up and rebuilding the road, a mile at a time, and where-ever they are working that mile is almost impassable.

The proposed east route would run from Thief River Falls to, one and a half miles north of Strathcona, over the Babcock Trunk Highway from the first mentioned city to Roseau. Commissioner Babcock has patrolmen at work on this road all the time and it is the intention to make it an all weather roads as fast as it can possibly be done.

E. T. Eide brot his family down from Spooner Saturday for an extended visit at the home of Mrs. Eide's parents parents, Mr. and Mrs. O. Hoell.

Ludwig Monson and Jesse Sorum departed for Ortenville and Grand Forks Saturday to drive back to Holt autos belonging to the United Land Co.

Mrs. Edwin C. Johnson returned from Thief River Falls Wednesday where her little daughter Verna, who had another operation for absess last Friday is getting along as well as could be expected.

The three day tour of the Red River Valley has been cut to two days to accommodate representatives of state departments who are expected to go on this tour. The start will be made from Crookston July 28th.

A big crowd attended the auction sale of the United Land Company in this village Saturday afternoon. A lot of village lots and acreage in Woodland addition were sold.

Andrew Engstrom purchased the cottage, now occupied by Mr. and Mrs. Leo Horien, and will probably move to town this fall. Mrs. Torger Ness and Mrs. C. L. Heinze drew the two free lots in Woodland addition. E. S. Moe bid in three lots located between the Mission church and Axel Nelson's residence and then drew the free one adjoining these.

The band boys from Red Lake Falls furnished the music for the occasion and the two cafes served the free lunches.

Flood Relief

Pueblo. Colo., July 7, 1921
The Weekly News
Holt, Minn.

Because it is impossible the Red Cross to thank individually the members of the Free Mission Sunday School and the Ladies Aid, of Holt, Minn., I am asking you in behalf of the Organization to thank them.

The size of the task of rehabilitation of 2500 families left destitute by the flood, is stupendous and the amount of money necessary is very great. For your share in making the completion of this task possible, not only the Colorado Disaster Relief for the American Red Cross but also the suffering people of the Pueblo flood are grateful.

An official receipt is being enclosed with this letter.

Sincerely,
A. W. Jones
Director General

Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

Kernels Culled From News of Moment in All Parts of the World—Of Interest to All the People Everywhere.

Washington

Washington—Favorable reports on the Willis-Campbell antibeer bill was ordered by the senate judiciary committee.

Washington—The state department was awaiting a further report of the killing of two Americans by highway robbers in the Tampico district in Mexico.

Washington — European dispatches, received in semi-official circles, tended to confirm press reports that Premier Lenine of Russia has imprisoned Leon Trotsky.

Washington—Senator I. O. Wolcott (dem., Del.), resigned from the senate to accept the chancellorship of his state. His term would have expired March 4, 1923.

Washington—The house bill authorizing an increase of the Philippine island debt limit from $15,000,000 to $30,000,000, was passed by the senate and sent to conference.

Washington—Immigrants from Germany will fall short about 5,000 of the number allowed to come in during June under the immigration bill, officials of the immigration bureau estimate.

Washington—The shipping board steamer Mopang struck a mine as it entered Euygas harbor in the Black sea, July 5, and sank in five minutes, according to reports to the board. There was no loss of life.

Washington—General John J. Pershing became chief of staff of the United States Army, relieving Major General Peyton C. March, who was given leave of absence effective until his retirement from active service in November.

Washington—Plans of senate leaders to begin a series of three day recesses next week were disrupted by insistence of advocates of soldier bonus, maternity and agriculture relief bills, that such measures be disposed of.

Washington—In expectation of a message soon from President Harding urging temporary postponement of the bonus bill, greater speed with tariff and tax legislation. Senate leaders believed they already had mustered sufficient votes to lay aside the bonus measure.

Washington—A presidential proclamation announcing that the war with Germany and Austria-Hungary formally came to an end on July 2, 1921, when the President signed the joint resolution, probably will be necessary for legal reasons, Attorney General Daugherty indicated.

Washington — A decrease in employment of 2.9 per cent during June, as compared with May, is indicated by a survey made by the Department of Labor reports from 1,328 firms, employing normally 1,600,000 persons. The decrease since January in these establishments, situated in 65 principal industrial centers, has been 6.2 per cent, a statement issued said.

Northwest

Fort Dodge, Iowa—Francis Senn, stunt flier, fell 200 feet in his airplane near Storm Lake and his physicians say he probably will die.

Seattle — The Scandinavian American bank here, a large institution, will not open for business, having been turned over to the state supervisor of banks.

Billings, Mont.—John Parkington, a florist, is in a hospital here suffering from what is thought to be a fractured skull caused by being hit by a hailstone.

Helena, Mont—C. S. Fortman, removed as postmaster here several months ago, was arraigned in the United States district court on a charge of misappropriation of public funds following his indictment on four counts last week by the grand jury.

Domestic

Quincy, Ill.—Mr. and Mrs. Chester Phillips of Macon, Ill., were killed and their 4-year old child hurt near Colman, Ill., when their auto was struck by a train.

Leavenworth, Kan.—Jack Johnson, former heavyweight pugilistic champion, will meet Harry Wills for the Negro championship at Jersey City, N. J., August 22.

Wichita, Kan.—The National Wheat Growers' association, through its secretary E. E. Kelly, here, advised all farmers to hold their new wheat if possible, as the rush to market of grain testing high in moisture is tending to force down the price.

Denver—Robert Knott, 55, real estate operator, was standing at a business corner when someone threw a giant firecracker at his feet. The firecracker exploded and Knott fell dead.

New York—Fifteen thousand delegates, representing 80,000 Christian Endeavor societies throughout the country and the world gathered in this city for their sixth world's convention.

Springfield, Ill. — Governor Len Small wrecked the machinery for enforcement of the state bone dry prohibition law. He vetoed every cent of the appropriation of $150,000 made to the attorney general for this purpose.

Cheyenne — Approximately three-fourths of the 1,000 men stationed at Fort D. A. Russell have applied for a discharge, according to Colonel T. A. Dugan, commandant.

San Francisco—The estate of the late Franklin K. Lane, former secretary of the interior, will not total more than about $10,000, according to a petition filed in superior court here.

New York—Suicides in New York were more prevalent among married persons than single ones in 1920, it was shown in the report of Chief Medical Examiner Morris, made public.

Belaire, Mich.—A heavy rainfall extinguished a fire that had destroyed the business district and was threatening to destroy the entire town. Property damaged was estimated in the neighborhood of $300,000.

Chicago—Eight men are dead, 36 others are injured, 10 so seriously that they may die, and property damage is unofficially estimated at $2,500,000, the result of an explosion in the Standard Oil company's refining plant at Whiting, Ind.

Sporting

Boston, Mass.—Jack Malone of St. Paul won an easy victory over Pal Red at Braves Field, winning every one of the 12 rounds.

Cleveland, Ohio—The Grand Circuit harness horse racing season of 1921 opened at North Randall. Close finishes, fast time and a large first day crowd marked the event.

New York—James S. Mitchell, former national champion hammer and weight thrower, died after a three months' illness. He was born in Tipperary, Ireland about 57 years ago.

Tacoma, Wash. — Tommy Milton won the 250 miles automobile race on the Tacoma speedway. Milton's time for the 250 miles was 2 hours 34 minutes, with an average of 98 miles an hour.

Cleveland, Ohio — Injuries received by Ty Cobb, manager of the Detroit Tigers, in sliding into a base in a game with Cleveland probably will keep the star outfielder out of the game for at least three weeks.

Alan Track, Idaho—Mike Gibbons, St. Paul middleweight, defeated A. Sommers of Spokane, claimant of the Pacific coast middleweight championship, when Sommers' seconds threw the towel into the ring after one minute of fighting in the eleventh round of a scheduled 12-round fight.

Jersey City — Jack Dempsey of America, world's heavyweight champion, knocked out Georges Carpentier of France, challenger, here in Tex Rickard's mammoth arena, before a record crowd. The knockout came in the fourth round of the scheduled 12-round bout.

Mankato—Louis Bloemka, a student at the Mankato Commercial college, was drowned here last night in the Minnesota river.

Windom—Fire destroyed the residence of W. E. Moode, here, together with all its contents. The origin of the fire is unknown.

Little Falls—Rudolph Mattieson, 20 years old, of Swanville, was drowned in the Platte river, near Graceville. He could not swim and got into water over his depth.

Minneapolis — John Swanson, 25 years old, died at the General hospital as the result of being crushed by the wheels of a freight train in the St. Paul road yards.

Hibbing—By defeating Hibbing here 9 to 7, Chisholm won the firt half pennant in the Mesaba Range league. Chisholm deserved the trophy, it being its first pennant in ten years.

Waseca—A summer colony will be established on Clear Lake, near Waseca, an organization of business and professional men, having purchased a tract of land for this purpose.

Granite Falls—A verdict giving C. S. Maginley $45,000 damages in his suit against the Chicago, Milwaukee and St. Paul railroad was returned by a jury in the district court here.

St. Paul—During the fiscal year 1921, ended July 1, 1921, Minnesota received $11,686,823.93 in special taxes of the gross earnings nature, and inheritance taxes, Henry Rines, state treasurer, announced.

Fergus Falls—Twelve thousand persons gathered in the grandstand and on hillsides to watch the first performance of the historic pageant of Ottertail county and Fergus Falls given at the county fair grounds.

Minneapolis—With six states represented and an enrollment of 500 members from Minnesota present, the annual state Epworth league institute opened a week of daily sessions at Groveland, Lake Minnetonka.

St. Paul—The law which requires that 10 per cent of the receipts of boxing contests be turned over to the state has netted $66,449.73 since the law went into effect July 15, 1915, Ray P. Chase, state auditor, said.

Minneapolis — Prohibition enforcement in South Dakota is more efficient than in Minnesota, according to Emerson E. Hunt, northwest supervising agent, who has returned from a tour of inspection through South Dakota.

Crosby—Farmers report that a whirlwind struck Carlson lake, a small body of water and caused a waterspout. The spout tapered to a point which was several hundred feet in the air. The lake was nearly emptied.

Duluth—Fred B. Ferguson, a bank teller, was killed and F. F. Leach, his cousin, was seriously bruised and burned when an automobile in which they were riding overturned here, after skidding and striking a curb.

St. Paul—About 30 employes of the automobile license department, under Secretary of State Mike Holm, have been laid off. This was made possible by the letting up of the rush of applications for automobile licenses.

Rochester—Elmer Lee, Negro arrested with W. L. May, about a week ago, on a charge of stealing automobile tires from a St. Charles concern, was sentenced to 60 days in the county jail here. May is now serving an indefinite sentence at St. Cloud.

St. Paul—The railroad and warehouse commission issued an order reducing commission charges and charges for weighing livestock to schedules approximating those in effect in 1919. The commission adopted the recommendations of R. J. Wells, state supervisor of stockyards in South St. Paul.

Minneapolis—Present conditions of sugar beets in Minnesota point to record crop, H. A. Douglas, president of the Minnesota Sugar company, said. The dry weather has not hurt the crop and has made the beets go farther in the ground for moisture, tending to make a better product.

St. Charles—A wind and rainstorm in this section of the state caused damage estimated at $100,000. A 60-mile gale brought .6 inch of rain in thirty minutes. Telephone and electric power and light connections were cut off. The barn on the farm of Louis Koenig was razed and the house badly damaged. Other farms suffered heavily. Hundreds of trees were blown down in the city. Heaviest damage is to small grain crops, driven into the ground by the downpour. Many cornfields were leveled.

St. Paul—Minnesota Thursday night ended the fiscal year with the largest cash reserve in the state treasury that there has been in the history of the state, M. J. Desmond, deputy state auditor, announced. Books will be balanced in the office of Henry Rines, state treasurer, to show the financial standing at the close of the fiscal year.

St. Paul—F. A. Wildes, state superintendent of mines, who has been in charge of the state department at Hibbing for 15 years, will be moved to St. Paul and will have his office in the State Capitol, Ray P. Chase, state auditor, announced.

Tracy—T. B. Roberts, of Pierre, S. D., president of the Yellow and Black Trail association, has issued the call for the annual meeting at Tracy July 20 and 21.

Balaton—A movement is on foot here to have all of the English speaking churches of the city select one pastor and conduct services in but one of the churches.

Ivanhoe—Because the bids exceeded the amount of money available, the board of education rejected all proposals presented for the erection of a new school building here.

Wabasha—Harry York, Frank Catture and Augsut Beltz of Hammond were fined $100 and costs each in justice court here for manufacturing moonshine and home brew.

Duluth—Receipts of the Duluth police court over the Fourth of July totaled $1,532.24, the largest amount ever turned over to the city treasurer for a single day's business.

St. Paul — Damages estimated at $100,000 was done by a fire that destroyed 20 farm buildings belonging to Henry Schroeder on the Rice st. Road near McCarron's lake.

Marshall—A farmers' co-operative creamery has been organized by the dairymen in the vicinity of Russell. The company will be incorporated with a capital stock of $20,000.

Luverne—The Commercial club here is considering furnishing suitable hitching places for farmers' teams following a request to the council that it arrange a suitable hitching ground.

St. Paul—Osteopaths cannot prescribe morphine or use narcotics in the practice of their profession, according to an opinion given by Rolla L. Smith, assistant attorney general.

Minneapolis—Pearl Garret, aged 4, is in a serious condition in General hospital from burns suffered when matches with which she was playing in the yard of her home ignited her clothing.

Minneapolis—Minnesota Committee for the Relief of German Children reported that more than 1,000,000 German children were fed last week in the 20,271 kitchens maintained by the committee.

Canby—Chris Christianson, aged 58, a farmer, was badly injured when a team of horses trampled upon him. Christianson was feeding the team when an automobile passed, frightening the animals.

Pipestone—Rains and cooler weather have been of great benefit to the crops in this section of the state. All small grains and corn and potatoes are in good shape, while corn never was so far advanced as now.

Northfield—The third regular convention of the Young People's Luther League and Choral Union of the Southern Minnesota district of the Norwegian Lutheran Church of America met here at St. Olaf College heights.

Fergus Falls—Threshers of this locality held a meeting here and planned to organize a mutual liability insurance company. Action was taken following passage to the new law which compels them to carry liability insurance for their employes.

Duluth—Deliberating twenty minutes a jury in circuit court here Thursday awarded Mrs. Thilja Bloomstrom, mother of five small children, $7,500 damages from Mrs. Lettie Campbell, for alienating the affections of her husband. Mrs. Bloomstrom sued for $20,000.

Waubun, Minn.—The Chippewas of the village of Waubun have petitioned the committee on Indian affairs in congress asking that appropriations be made from the Chippewa tribal funds, and condemning dilatory measures on the part of congress which relate to such funds.

Minneapolis—With prohibition's second anniversary ushering in a new federal enforcement administration and falling on the eve of a new Minneapolis police administration, officials were concerned over reports from municipal court, the clearing house for most offenders, showing that drunkeness is taking a marked upward turn. It is still short of the pre-prohibition indulgence but it is more than twice as prevalent as it was the first year of prohibition.

St. Paul—In a ruling handed down by C. H. Christopherson, Assistant Attorney General, relative to the application of the commission merchant's license law to dealer's handling general farm produce outside of hay, grain, straw and livestock, Mr. Christopherson took the position that the generally understood definition of the term "commission merchant" was broadened out by the legislature for the express purpose of doing away with frauds that have been perpetrated in the past upon hsippers by irresponsible dealers masquerading as wholesalers or as retailers. The law as written and as affirmed by Mr Christopherson's opinion makes all dealers in farm produce, in cities of the first class, other than those who buy direct of the farmer and settle with him in such fashion that the transaction is completed at the time the goods are delivered, "commission merchants" in the sight of the law. Such dealers, in cities of the first class, whether their general business is wholesale or retail, are required by the law to take out a commission merchant's license and to make out a bond to the state in an amount sufficient to protect shippers against loss.

St. Cloud—The suit of J. M. Arrowwood, former banker of Kimball, who sought $200,000 damages against F. E. Pearson, A. H. Turritin, O. J. Brandvold and Andrew P. Rotert, all present or former state banking officials, and several other defendants, was dismissed by Judge John A. Roeser on motion of the defense.

Zumbrota—Frank Friese, living in Minneola township, near here, was killed when struck by an automobile driven by Harry Starz, also of Minneola township. Friese was putting on side curtains of his auto when struck.

COULD BEAT HANDS SHUCKING HIS CORN

At Least J. A. White Would Bet So, After Being Relieved of Dyspepsia by Tanlac.

"My wife and myself have had stomach trouble," says Mr. J. A. White, residing on the Leestown Pike, R. F. D. No. 6, near Lexington, Ky., "and have both been nervous and run down.

"We could not see anything without suffering afterwards and could not sleep at night. We were regular nervous dyspeptics. We tried many remedies without permanent benefit until we heard of Tanlac. I got this medicine and began using it. We noticed immediate results. We are both greatly improved by Tanlac. We give all credit for the change of health to Tanlac. It is a remarkable medicine.

"I personally feel so good that I told my hands a day or two ago that I could beat any of them shucking corn. I meant it and believe I could have beat 'em all."

Of all the maladies that afflict humanity chronic dyspepsia, such as Mr. and Mrs. White suffered from, is probably the most prevalent, and hours might be consumed in describing the sufferings, mental and bodily, of the victims of chronic dyspepsia.

A morbid, unreal, whimsical and melancholy condition of the mind, aside from the nervous physical suffering, is the usual state of the average dyspeptic, and life seems scarcely worth living.

Tanlac, the celebrated medicine, was designed especially for overcoming this distressing condition and millions of people have taken it with the most astonishing and gratifying results. It seems to go straight to the spot, toning up and invigorating every organ of the body.

Consistent Attitude.

"What are your opinions on this momentous question?"

"I haven't changed my mind," replied Senator Sorghum.

"But I don't know what your opinions were."

"I mean that I haven't changed my mind about refusing to go on record on the subject until my constituents make it absolutely necessary."

BACK GIVEN OUT?

Is a dull, constant backache slowing you up? Are you tired and achy—tortured with sharp, stabbing pains? Do you find it impossible to be happy or enjoy your work? Then, look to your kidneys! When they weaken, the system becomes overloaded with uric acid and backache, sharp pains, headaches, dizzy spells and urinary disorders naturally follow. Help your kidneys with Doan's Kidney Pills. Doan's have brought new health to thousands.

A North Dakota Case

Mrs. A. Decklemann, Cando, N. D., says: "Several years ago I suffered dreadfully with kidney trouble. My back always gave me trouble, being so weak and lame and it ached constantly through my kidneys. When I bent over, sharp pains took me and I could hardly straighten. I had nervous headaches, too. Doan's Kidney Pills cured me and I haven't needed a kidney medicine since."

DARLING BABY BRIGHTENS HOME

Children's Laughter a Pleasing Sound

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We had six children die almost at birth. From one hour to nineteen days is all they have lived. Before my next one was born I took a dozen bottles of your Vegetable Compound, and I can say that it is the greatest medicine on earth, for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Everybody says 'That is a very healthy looking baby.' You have my consent to show these few lines to anybody."—Mrs. C. W. BENZ, 131 3rd Avenue, Altoona, Pa.

Mrs. Janssen's experience of interest to childless wives.

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."—Mrs. H. H. JANSSEN, Millston, Wis.

Mrs. Held of Marinette, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:

Marinette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and you may use my letter as a testimonial."—Mrs. H. B. HELD, 330 Jefferson St., Marinette, Wis.

There are many, many such homes that were once childless, and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it acts as a natural restorative for ailments as indicated by backache, irregularities, displacements, weakness and nervousness.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once darkened by illness and despair.

NOT A PROPER COMPARISON

Ten-Year-Old Quickly Seized on Weak Point in Argument Put Forth by His Daddy.

Writers have long vied in their efforts to describe properly the toothsomeness, as well as the downright stupidity, of the ordinary domestic hen.

Lawrence, age ten, for a number of years has been able to provide the most ample concrete evidence of his due appreciation of the former, but it was only recently that the latter was brought forcibly home to him.

After vainly trying for some time to drive an obstreperous hen from the garden, he called to his father. "I can't get this old hen out!"

His father remarked that if General Pershing had given up that easily he never would have driven the Germans out of France.

Germans out of France.

Lawrence promptly replied: "That was different. The Germans knew what General Pershing was trying to do!"

Just Like a Brother

It was Mary's birthday, and her young man had teasingly told her that he was going to give her a rose for each year of her age. Fearfully Mary waited for his flowers to arrive. She wondered whether he really knew how old she was. But when a basket containing four dozen arrived she breathed a sigh of relief.

That night she thanked him for them. Just as she ended it her little brother came into the room. He went over to the flowers and was studying them fixedly when the young man asked: "Do you think your sister's flowers are pretty?"

"Yes, sir, I do," little brother answered, "but what made you send twenty too many?"

CATS CONFINED TO "RANGE"

Chicago Man Reports Success in Novel Plan for Keeping Pets From Straying Far Afield.

Another western idea was adapted to city uses the other day when a south-sider, who once rode the range on the Colorado plateaus, staked out his cats to keep them at home. The plan worked fine and now the feline animals get the air every day at the ends of tether ropes.

The cat owner found that every time he opened the cellar door the pets made a break for the open, frequently staying away for days and returning with blackened eyes and scratched hides. He thought of the tether plan, but the first trial was not a success, as the cats slipped the nooses from their necks. He then evolved a semi-hobble plan and tied the heavy string to one of the cat's hind legs, attaching the other end of the string to a stake driven in the back yard.

This system proved effective and now every day three of the cats take their exercise around their tether stakes.—Chicago Journal.

HARDING ASKS BONUS DELAY

Abandons Plans for a Joint Speech to Address Senate Session

'TIME TO PAY DEBTS'

Bill Directs Treasury Secretary to Collect Interest on Allied Loans; Peace Delay in Europe Is Scored by Solon.

Washington.—President Harding has appeared before the senate to ask for temporary postponement of the soldier bonus bill. The bonus practically was the only subject touched upon in the address.

Appeared in Person.

It was the second time President the first time being immediately after he was inaugurated when he presented in person his cabinet nominations at an executive session. He has addressed one joint session of congress, when he read his message at the opening of the special session.

Decision to address the senate on the bonus bill at the earliest opportunity was reached by the president in conference with the republican leaders at the White House while the senate was debating the measure. Senators Lodge and Curtis were said to have given him assurance that a motion to re-commit the bonus bill would be adopted.

When the senate resumed consideration of the soldier bonus bill, Senator Norris, republican, Nebraska, introduced an amendment "directing" the secretary of the treasury to collect interest due on allied debts, the fund to be set aside to pay the bill's expense.

Why is it the governments cannot pay their interest?" Senator Norris said, adding that in some cases it probably was impossible and in a few instances that the entire loans would be lost.

"But in the main the foreign governments are paying interest on their own bonds just as we are," he said.

$922,000,000 Interest Due.

Senator Norris said he was advised by the treasury that accrued interest on the foreign loans on May 15, was $992,000,000. Greece and Cuba, alone, he said, had paid all the interest.

Senator Reed, democrat, Missouri, suggested to the European nations that they apply toward their debts "money they are spending in fights over there."

"It is time to get out of dreamland," he added. "It is time for Europe to stop fighting and to begin paying."

"Since this great league of nations came along," said Senator Norris, "the European nations have spent more in warfare and in attempting to subdue rebellious peoples than would pay all the interest they owe."

Senator McCumber attacked the Norris amendment, declaring he could see no reason why the receipts from the foreign loans should be applied to any specific indebtedness.

IRISH DISORDERS CONTINUE

Incendiaries Fire Belfast Stores; Police Are Fired On.

Belfast.—Incendiarism which was the worst feature of Sunday's disorders, has increased, there being frequent outbreaks. A fire at Short Strand, where the corporation stores are situated, was quenched, but several groceries in the Leopold district were burned out. The police were fired upon in York street but no one was hit.

There was much excitement throughout the evening, with revolver and rifle firing in several districts. No serious casualties have been reported. Several persons, however, had to be taken to hospitals for the treatment of injuries from assaults other than shooting.

Depression Causes Cited.

Washington.—Restrictions of credit, decreased demand from European consumers and faulty distributive methods were given by witnesses before a special joint commission of the house and senate as the principal causes of agricultural depression.

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

During the War.

"Please help an unfortunate man," whined the beggar.

"What's the matter with you?" asked the crusty old gentleman.

"I was injured during the war."

"Don't you try to make me believe you are a war hero."

"I didn't say that, sir, and I wouldn't try to impose on a gentleman who's as smart as you are," said the beggar, with an insinuating air. "I was struck by a truck in the fall of 1917."—Birmingham Age-Herald.

GROW HIGHLY PRIZED COTTON

Virgin Islands Produce Long-Staple Variety That Is Almost Extinct in the United States.

Cotton raising has become one of the principal industries of the Virgin Islands, Uncle Sam's newest territorial possession, according to Bulletin No. 1, Sea Island Cotton in St. Croix, of the Virgin Islands agricultural experiment station, just issued by the United States Department of Agriculture.

Sea-island cotton, the much-prized, long staple variety which has been rendered almost extinct in continental United States by the boll weevil, is the basis of the Virgin Islands industry. The area devoted to it, while as yet small, produced an average yield of 1,000 pounds of seed cotton to the acre in 1919 and 1920. One of the plats at the government experiment station produced at the rate of 4,450 pounds of seed cotton.

Mary Marcia had come to spend the day with relatives and had been told not to leave the yard.

During the morning she spied some little folks at a distance and went off. I had been telling her how naughty it was to go out of the yard, when our next-door neighbor joined the group.

Knowing how fond she was of the neighbor, I said: "Now, Mary Marcia, tell uncle where you went."

For a moment she looked at the ground, then exclaimed: "Oh, I'm not talking now."—Chicago Tribune.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They get the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Americans who contribute to the Red Cross would feel amply repaid for their generosity if they could see what it means to hundreds of thousands of war weary sufferers in the Balkans. Here is a widowed Roumanian mother with her five children just after a visit to a Red Cross relief station. Similar work is being done for Russian refugees driven from home.

As a Modern Filipino Actually Looks

There are hundreds of thousands of this type of young men in the Philippines. They are to be the future rulers of the destinies of the islands.

The Filipino has been much misrepresented in the United States. This is largely because the Sunday supplements have made a specialty of portraying the semi-naked non-Christian hill tribes as "typical" Filipinos, which is far from the truth.

The total population of the Philippines is 10,350,640, of which 9,495,272 are Christians and civilized, and have been so for 300 years, possessing a culture and refinement that will compare favorably with that of other countries. The number of non-Christians is 855,368, and only a small percentage of them are uncivilized. They are fast becoming educated, and will ultimately make good citizens.

Seventy per cent of the inhabitants of the Philippines over ten years of age, according to the last census, are literate. This is a higher percentage of literacy than that of any South American country, higher than that of Spain, and higher than that of any of the New Republics of Europe whose independence is being guaranteed by the Allies.

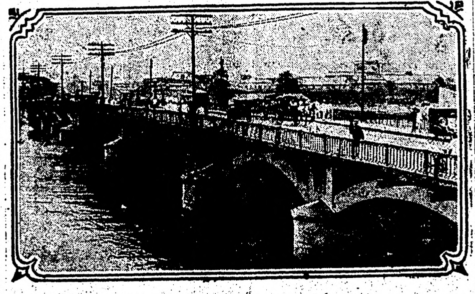
A Passing Landmark of Old Manila

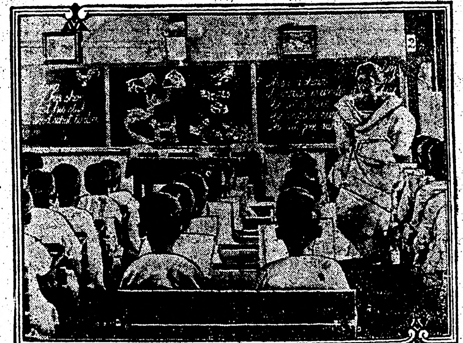


This is a photograph of the famous old Bridge of Spain, Manila. It is now a departed landmark of the Philippines, for its place has been taken by one of the finest bridges in the entire Orient, the new Jones bridge.

The Jones Bridge is named in honor of the late Congressman W. A. Jones of Virginia, author of the Jones law of 1916 which promised the Filipinos independence upon the establishment of a stable government.

The old Bridge of Spain is called "the mother of Manila's bridges." The original bridge was built of pontoons sometime between the years 1590 and 1600, being known as the Bridge of Boats. The stone bridge shown above was built about 1630. It was twice damaged by earthquakes, and was once partly demolished by a flood.

Schools Are Making Filipinos An English Speaking Race



This is the type of schoolroom that is rapidly making an English speaking nation out of the 10,500,000 inhabitants of the Philippines.

If a teacher in a public school in the Philippines desires to punish a child, she doesn't have to apply the ruler. She simply sentences the offending pupil to remain away from school a few days!

This is the most severe punishment she can inflict, for Filipino children take an almost abnormal pleasure in going to school and acquiring an education. The all-Filipino legislature, in response to the popular demand for "schools, and still more schools," is constantly increasing its appropriations for education, but the schools can scarcely be constructed fast enough to care for the ever-increasing enrollment. The school enrollment is now 892,000 without any compulsory attendence laws. When Dewey sailed into Manila Bay there were 2,100 private schools in the islands. Today there are 6,500 schools and colleges, with 17,000 Filipino teachers and about 1,000 other teachers, 341 of whom are Americans.

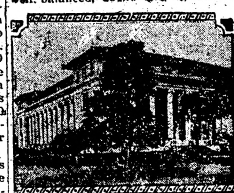
The University of the Philippines is the center of learning of the entire Orient, and is the pride of the Filipino people. It has an enrollment of 3,500 students. Santo Tomas university of Manila, older than Harvard, is another famous seat of learning.

The school system includes normal schools, agricultural colleges, twenty-seven farm schools, a nautical school and a school for the deaf and blind.

The Filipino pupil, in addition to learning English and in addition to his regular studies, learns basket making, embroidery and hat weaving, the trades peculiar to the islands, as well as the domestic sciences and pedagogy. There are more positions than can be filled by the trade school and commercial college graduates. The trade and agricultural schools produced $1,176,850 worth of goods in 1919.

There is nothing that the Filipino people take more pride in and that they are more grateful to the United States for, than their school system, which has been declared by many competent critics to be one of the finest in the world. While the system was implanted in the islands by Americans, every cent of the cost has been cheerfully borne by the Filipino people. The schools are making an English speaking race of the Filipino nation. English is the official language, and it is declared w'l continue to be when independence is granted.

"The Filipino boys and girls are well balanced, docile and industrious



University of the Philippines which Has an Enrollment of 3,500 Students.

pupils," says Junius B. Wood, who was sent to the islands by the Chicago Daily News to investigate conditions there. "To attend school is a privilege to a Filipino child or young man, not an unwelcome duty. In the cities those who work days go to school at night.

"Today there is hardly a barrio where youngsters cannot be found who speak English. One-third of the house of representatives and eighteen of the twenty-four senators speak English. In the next election, in 1922, the young men of the new schools will be stepping into control, and the first great goal of the public-school system will have been reached."

The big road grader was idle for several days last week, waiting for repairs, which finally came and the crew started work again last week Thursday, about a mile north from town.

Mr. and Mrs. H. B. Young moved out of the telephone rooms Wednesday and into their little home in the north part of town. Miss Lilly Rustad now has charge of the telephone office.

Mr. Tripp has the first mile of grading done on the state road, east from the C. L. Heinze corner, just north of town. This is going to make a splendid road and will have lots of travel when it is finished.

Mr. and Mrs. Bently Nelson and baby returned to their home at Grand Forks Sunday accompanied by Mr. and Mrs. Edwin Nelson of Roseau, Miss Gladys Hagberg and master Myrom Adams of this place whom will make them a short visit.

The road condition bulletin of the state highway department under date of July 16th, lists trunk highway No. 32 from Thief River Falls to Greenbush as being in fair condition. We fully expect to soon see this road listed as being in good condition.

County Agent Taylor informs us that it is being reported that owners of threshing rigs must carry insurance on their machines and the men who run them,- but that the supreme court has decided otherwise and that they do not have to carry insurance.

Ludwig Monson returned Monday from Ortonville with autos for the United Land Co. He was accompanied by Messrs Robertson & Dittelfson of Ortonville who came up to look after business with the Chris Norbeck farm which they purchased last fall.

Good snowfall 2:55 Thursday.

Mud Lake Farmers Meeting

The Farm Bureau Unit held a good meeting Tuesday night at the Wilson school in Mud Lake. Mr. Nesom soil specialist and Mr. Olmstead extension speaker, both from University Farm, Miss Newman the county social worker, and County Agent Taylor, were all present and made addresses. The meeting was enjoyed by all, they are planning a meeting each month. Many of the farmers in this unit are signing up for tuberculine testing. Farmers are beginning to realize the importance of the work, and more should sign up, as the state and federal departments are very liberal in the settlements when cows are condemned and appraised.

Five head were sent down from Grygla last week and all showed signs of tuberculosis and were killed.

Speed Demons Coming

"With the best dirt track drivers in the country racing at Thief River Falls on August 6th, the closing day of the 20th annual Pennington County Fair, people of the Northwest will have the opportunity to witness the greatest display of speed ever put on in the state before," Secretary Herbert Fuller has announced. Entry blanks have been forwarded to the leading speed demons in the racing game and indications point to the greatest assemblage of race pilots ever gathered in the Northwest.

Special inducements are being offered to such stars Sig Haugdahl, Fred Horey, Louis Disbrow and O. T. Barr, to enter against a field of challengers as, Les Allen, Rowe Rowe Brainerd, Ted Rick and others. Negotiations have been opened with some of these drivers already and by the end of the week, Secretary Fuller expects to have the majority of them signed up for the meet. O. T. Barr, Les Allen and Rowe Brainerd are contenders for this year's championship and are forcing Sig Haugdahl to the limit to keep his title. So if these bitter rivals for the trophy are signed, one of the closest and speediest battles ever contested can be assured.

As a feature attraction for the four days of the fair, Secretary Fuller has signed up the crack All-American auto polo team to play the Pacific Coast aggregation in a four game series. A hot battle can be expected since these veterans know all tricks of the game. "No game in all sportdom offers the thrills, action and excitement that auto polo does," the Secretary stated, "and it is so sensational that that the spectator is kept on his toes every minute of play."

Labor —that's the Big Cost in Painting

LABOR accounts for about three-quarters of the entire cost of a painting job. Materials cost only about one-quarter—so the possible saving in cost between the best and the cheaper materials is not worth consideration.

And by specifying the best paint, and getting years of extra wear, you save the big labor cost of frequent re-painting. You get the most economical job in the end.

PATTON'S Sun-Proof PAINT

—is longer-lasting because it is richer in linseed oil. It will not peel or blister if applied to surfaces fit for painting. It forms a tough film of protection against time and weather.

Let us tell you more about this cut-cost paint.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

ULSTER BALKS IRELAND PEACE

Craig Issues Statement on His Return to Belfast from London Conferences

POINTS TO ELECTIONS

Says Peoples of North Ireland "Detremined" Own Parliament by the Ballot; Lloyd George and De Valera Meet Thursday.

London.—The Irish negotiatons have taken an unexpected development. Sir James Craig, the Ulster premier, on leaving for Belfast, made an important statement, which appears to forbid any hope of assembling a conference such as Premier Lloyd George proposed between himself, Mr. De Valera and the Ulster premier.

The Ulster leader maintains that the Sinn Feiners themselves by contesting the elections for the northern parliament on a platform of "no partition" in which they were roundly defeated, have recognized Ulster's claim to self-detrmination, and so far as his words have been interpreted for the present, he seems to wash his hands of any further participation in the peace negotiations.

Statement Issued.

The official announcement issued at the close of a long conference between the premier and Mr. De Valera says:

"The conversations between Mr. Lloyd George and Mr. De Valera will be resumed Thursday."

This ordinarily would permit the British public and Ireland still to indulge in confident hope that a satisfactory settlement would ultimately be reached. But Sir James Craig's statement, which was given out in the form of an interview, has put rather a damper on the hopeful spirit.

Nothing is allowed to leak as to what takes place behind the closed doors of the cabinet room, and the secrecy even extends to a tacit agreement to put no questions on the subject in parliament.

Though it had been thought possible from the first that Ulster might adopt such an attitude this sudden dashing of hopes that a peace conference would be assembeled as an outcome of the separate negotiations of the prime minister with De Valera and Craig, comes somewhat as a shock to the public.

Premier May Find Way.

The Ulster premier now declares bluntly that the British government must reach its own agreement with DeValera and that Ulster is determined to maintain its present status, thus repudiating the whole Sinn Fein argument that Ulster is in the minority and must bow to the majority in Ireland.

There is some hope, however, that when Mr. Lloyd George meets Mr. De Valera again on Thursday, he may be able by some means to rescue the negotiations from the apparent deadlock.

PRISONERS RIOT; SIX SHOT

Inmates Fire Pittsburgh Penitentiary in Attempt to Escape.

Pittsburgh.—Prisoners in the western penitentiary here Monday broke all bounds of discipline, fired four buildings and for a time kept the institution in an uproar, while prison guards, deputy sheriffs and policemen, reinforced by armed citizens, battled to put down the disorder. Six convicts were shot and two others cut in the battle. Prison officials said that three or four of the wounded may die.

The outbreak, timed to start with the ringing of the fire gong began in the diningroom, where the convicts sought to detract the attention of the guards from the fires, prison officials said. Alarms sounded from four places in the institution almost simultaneously, when guards discovered the prisoners had fired the buildings with any material available.

Some 600 prisoners had just taken their seats in the big diningroom when one sent a soup bowl careening down a long table. Instantly the room was in an uproar.

THEFT OF BIG SUM CHARGED

Hormel Packing Co. Employe Widely Known as Poultry Fancier.

Austin, Minn.—Embezzelment of "at least $150,000" from George A. Hormel & Co., packers, has been admitted by R. J. Thompson, comptroller of the company, in a statement issued jointly with officers of the concern.

Thomson is widely known in this section of the country as president of the Oakdale poultry farm near here.

Farmers' Debts Increase.

Washington.—Mortgage debts of American farmers more than doubled in the decade between 1910 and 1920, it is reported by the census bureau. The increase in mortgage charges against farms owned by their operators was 132.5 per cent, or from $1,720,172,851 in 1910 to $4,012,711,213, in 1920. The mortgages amounted in 1920 to 29.1 per cent of the value of the farms against debts of 27.3 percent of the values of 1910. The values of the farms in 1920, the reports said, was $13,772,729,610

The Queer Kilometer.

Col. Theodore Roosevelt told at an American Legion banquet a story about a fake soldier.

"Like most fakes," said Colonel Roosevelt, "he gave himself away. He was describing how he got his medals, and he made the fighting so fierce that one of his listeners said with a sneer:

"'Under all that machine gun fire it's a wonder you didn't get hit.'

"'I would have got hit for sure,' said the fake hero, 'if I hadn't crouched down in a kilometer.'"

SYMPTOMS WOMEN DREAD

Mrs. Wilson's Letter Should Be Read by All Women

Clearfield, Pa.—"After my last child was born last September I was unable to do all of my own work. I had severe pains in my left side every month and had fever and sick dizzy spells and such pains during my periods, which lasted two weeks. I heard of Lydia E. Pinkham's Vegetable Compound doing others so much good and thought I would give it a trial. I have been very glad that I did, for now I feel much stronger and do all of my work. I tell my friends when they ask me what helped me, and they think it must be a grand medicine. And it is. You can use this letter for a testimonial if you wish."—Mrs. HARRY A. WILSON, R. F. D. 5, Clearfield, Pa.

The experience and testimony of such women as Mrs. Wilson prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound will correct such troubles by removing the cause and restoring the system to a healthy normal condition. When such symptoms develop as backaches, bearing-down pains, displacements, nervousness and "the blues" a woman cannot act too promptly in trying Lydia E. Pinkham's Vegetable Compound if she values her future comfort and happiness.

Foreign Wheat Yields.

The wheat yield of Australia is expected to be between 125,000,000 and 130,000,000 bushels, of which 100,000,000 are available for export. The current yield is the largest since 1916-17, although not the record year. The latest estimate for the 1920-21 wheat crop of India gives the total at 23,600,000 acres, as against 28,600,000 acres for the corresponding forecast of last year. The yield will be very much smaller proportionately than last year.

"And then the American saw a pair of flashing black eyes, and he spent hours chasing a red cloak round and round the town."

MRS. KABER IS FOUND GUILTY

Woman Accused of Hiring Assassins to Stab Husband Given Life Term.

NO APPEAL TO BE TAKEN

Relatives and Counsel Pleased With Lesser Penalty — Defendant in Stupor as Jury Deliberates—Committed Two Years Ago.

Cleveland, O.—Mrs. Eva Catherine Kaber has been found guilty of murder in the first degree, but with a recommendation for mercy, by the jury which tried her on a charge of plotting the killing of her husband, Daniel F. Kaber, in their home in Lakewood, a suburb of Cleveland, July 3, 1919.

Mrs. Kaber, lying limp in the arms of a deputy sheriff after an all-night stupor, was sentenced to life imprisonment in the Ohio reformatory for women at Marysville. Under the Ohio law there is no hope for pardone under such a verdict. Mrs. Kaber collapsed during the trial and during one session was carried from the court room screaming in a hysterical faint.

Kaber, a wealthy manufacturer, two years ago was found dying with 24 stabs in his body. Mrs. Kaber reported to the police that the house had been robbed. Witnesses at the trial testified that Mrs. Kaber a few days before the murder had stored her silverware in the house of a friend. The doctor who attended the dying man quoted him as saying: "My wife had a hand in this."

Francis W. Poulson, attorney for Mrs. Kaber, said he would not appeal. Another of Mrs. Kaber's counsel said he was well satisfied with the verdict. The expression was made by County Prosecutor Edward C. Stanton.

Marian McArdle, Mrs. Kaber's daughter, who was with her mother when she was told of the verdict by Attorney Poulson, said she was well pleased with the verdict, according to Mr. Poulson.

Mrs. Kaber was said by her attorneys to have been practically unconscious while the jury was trying to reach a verdict.

The jury was brought in a few minutes later and made official report of the verdict. Mrs. Kaber, limp in the arms of a deputy sheriff, was asked if she had anything to say. She merely shook her head, indicating that she had not. Judge Bernon then pronounced sentence. Mrs. Kaber was carried back to her cell in the jail.

The jury took only three ballots, it was said, the first two being nine for mercy and three for first degree murde without mercy. Before balloting the jury had discarded the insanity plea.

Though Ms. Kaber was suspected of being allied in her husband's death at the time, insufficient evidence was found then by officials on which to formally charge her with the crime. For two years Moses Kaber, the aged father of the murdered man, doggedly kept working on the mystery with the aid of private detectives, suspicion pointing stronger and stronger toward Mrs. Kaber.

20,000,000 FLEE RUSSIA TO ESCAPE STARVATION

Berlin.—More than 20,000,000 people, seeking to escape death by starvation, are fleeing Central Russia, according to reports in Russian immigrant circles here.

The immense wave of hunger has reached Petrograd and Moscow, intensifying the already bad situation in those cities.

The heat and drouth are intense and crops are a failure, the soviet government admits, which they term a national calamity.

JAPAN IS STILL HOLDING OUT

Disarmament Parley Preliminaries Mark Time Pending Reply.

Washington.—Diplomatic preliminaries to disarmament conference have gone into a period of quiescence while Japan deliberates whether to consent to submission of far eastern problems considered essential by this government if a serious disarmament effort is to be attempted.

So far as could be learned no word had come to the state department in response to the informal explaining made to Japan relative to the probable scope of the conference. Officials, however, made no secret of their continued confidence that Japan eventually would join Great Britain, France Ital, and China in accepting full participation in the discussions.

BOY LIVES WITH SHOT IN HEART

Life in Balance for Several Days; He Leaves Hospital Two Weeks Later.

SHOT WHILE AT PLAY

Doctors Say It Is the Most Remarkable Case in History of Hospital—Seven Buckshot Pellets Lodged in Heart Muscles.

Paterson, N. J.—Alive with seven pellets of buckshot in the muscles of his heart, and apparently suffering slight, if any, ill effects, is the remarkable case of twelve-year-old Lawrence Setterfield, of Bloomingdale, N. J., according to doctors of the Paterson General hospital.

The boy was accidentally shot on May 1. He left the hospital two weeks later, having prevailed on his parents and the staff docters to let him do so, declaring he was all right, and did not want to stay indoors any longer. His pleading won the consent of the attending surgeons, but not before a further X-ray examination was made.

The result showed the pellets all remaining in the muscles of the heart. They could be seen moving around when the boy was taking long breaths, according to the statement made by Dr. Samuel Thompson, of the hospital staff.

Remarkable Case.

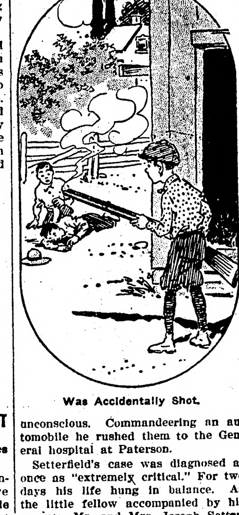
"When this little fellow was first brought in," Dr. Thompson said, "he hovered between life and death for several days. When he left here he was apparently none the worse for his accident. I find his case one of the most remarkable ever entered in this hospital, or that has occurred in Passaic county during my memory. It is almost beyond belief."

On Sunday, May 1, the boy, with his two cousins, Thompson Yatman, six years old, and William Yaturn, fourteen years old, were playing around the grounds of the Yatman home in Bloomingdale. Thompson went into the Yatman barn and brought out an old shotgun belonging to his father. It was the old story, "we did not know it was loaded."

The children began the usual boyish game of "bandits." The old shotgun in the hands of Thompson, youngest of the three, was discharged. Part of the load of shot struck William Yatman in the left leg and a scattering of the shot penetrated Lawrence Setterfield's left side, lodging in the heart muscle.

Life Hung in Balance.

Hearing the report, the father of Thompson and William ran out of his house and found his eldest son and his nephew lying on the ground partly unconscious. Commandeering an automobile he rushed them to the General hospital at Paterson.



Was Accidentally Shot.

Setterfield's case was diagnosed at once as "extremely critical." For two days his life hung in balance. As the little fellow accompanied by his parents, Mr. and Mrs. Joseph Setterfield, walked out of the hospital, the surgeons who attended him shared his happiness.

Though William, his cousin, was less seriously wounded, he did not leave the hospital, being still confined to bed.

The heart is surrounded by a muscular structure that propels the blood by alternate contractions and dilations.

Sues Doctor Who Cut Up Son's Body.

Denver.—Declaring that the physician had no right to perform the autopsy, Mrs. Florence B. Loomis, mother of William C. Baker, has brought suit for $15,000 against Dr. Matt R. Root, who used the knife to determine the cause of the boy's death so he could report to the city authorities.

Boy Has Committed Nine Burglaries.

New York.—Fourteen years old, with nine burglaries already to his credit, was the record of which Howard Ward boasted when arrested. Howard and a chum, Oscar Anderson, were arrested after pedestrians said they had seen the boys at work on a safe in a shoe store.

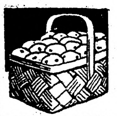
Work, forgetting all responsibility of time, appreciation or censure; enjoy it or make believe you do, and in time you really will. Somebody has said the thing which is needed most in every day life is imagination; the little child has a happy time in "making believe." Never get too old to make believe.

We have extraordinary powers of persuasion when they are exercised over ourselves.—Dickens.

Cheerfulness and content are great beautifiers, and are famous preservers of youthful looks; depend upon it.

HELPFUL HINTS.

When preparing new potatoes, use a piece of sacking to rub off the skin; they may be cleaned much quicker than by scraping.



When carrying kindling or light wood, a fine help is a piece of strong canvas or carpet with leather handles riveted into it. Have it 45 by 27 inches. Another help in getting in light wood is to spread an old awning or oil cloth on the ground near the window of the wood cellar, heap on a good quarter of the load of kindling and draw it down through the window. Repeating until it is all moved in half the time it takes to carry and throw it in by armfuls.

A good milk bottle-opener is a horseshoe nail. The nail makes a good nut pick and has the advantage of being inexpensive.

Milk bottles should be carefully wiped before opening them, for more than one reason. Hands which may not have been very clean may have handled the bottle, or bits of glass may have been chipped off and will fall into the glass when the milk is poured out.

A granite dish may be a source of danger, for bits of the enamel, sharp as glass, may be mixed with the food. Never strike the side of a granite dish with a metal spoon. A wooden spoon is the best utensil to use at any time; it does not hurt the hand with much stirring and never gets hot in a cooking utensil on the stove.

Water drained from cooked rice makes a delicate starch to use for starching thin dresses.

Potatoes to be dry, mealy and digestible should be drained as soon as they are cooked; remove the cover and allow the steam to escape, shaking the kettle to hasten the process. Then they may be mashed or served in any way desired.

Lemons are cooling to the blood, antiseptic and cleansing. The juice of half a lemon in a glass of water upon rising is considered a tonic and a mild laxative. To treat a cold a pint of hot lemonade with not too much sugar, taken just upon retiring, is one of the best of home remedies.

TEMPTING TABLE TRIFLES.

For those who enjoy a meat with a sweet sauce, this dish will appeal:

Spiced Tongue.—Takes a fresh calf's tongue, put to cook in boiling water and simmer until tender. Peel off the skin and put it into a saucepan with the following: to four tablespoonfuls of butter, bubbling hot, add one cupful of small onions, one red pepper, one and one-half teaspoonfuls of salt, two tablespoonfuls of vinegar, two small carrots, one-half pound each of dates and raisins all chopped, then add a pint of the liquor in which the tongue was cooked and simmer one hour. Remove the tongue, thicken the sauce and pour over the tongue.

Date and Apple Salad.—Pour boiling water over a pound of dates and place on a plate to dry after draining. Remove the stones and cut each in quarters. Pare and quarter apples and cut into matchlike strips, squeeze over a little lemon juice. Sprinkle with salt, paprika and a dash of ginger. Serve with French dressing on lettuce.

The common potato contains all of the inorganic elements of the body except flourine. It is especially rich in potassium salts, which are good for nerve and muscle.

Nellie Maxwell

Commercially Speaking.

An author was showing a visitor over his half-completed house. She was evidently disappointed: "In your books," she said, "you describe baronial halls and splendid castles. But when you start building you put up a little house like this. It's frightfully disappointing. Why do you do it?" "Words," said the author, "are cheaper than stones."

Elder-Down Duck.

There are two varieties of elder duck—the common elder and the king's elder, the latter supplying the down which is exported from Greenland, while that of the former comes mainly from Iceland. Ten thousand pounds of down is obtained annually from the latter country. The elder is larger than the common duck. The drake is black with a white back, while the female is brown with white spots.

FARMER'S WIFE NEARLY STARVED

Mrs. Peterson Says She Was Afraid to Eat on Account of Trouble That Followed.

"I weighed just a hundred and three pounds when I began taking Tanlac, but now I weigh a hundred and twenty-two pounds," declared Mrs. Amy Peterson, the wife of a prosperous farmer of Lakeville, Mass., a suburb of New Bedford.

"I had acute indigestion," she said, "and no one knows how I suffered. I had cramping pains in my stomach that were almost unbearable, and I suffered no end of distress from gas and bloating. Why, I was actually starving to keep from being in such awful misery, and I lost thirteen pounds in weight. Sometimes I wonder how I lived through it all, and I just thought there was no hope for me. I was restless night and day and was easily irritated, and some nights I slept so little it didn't seem that I had been to bed at all.

"But now I feel as strong and well as if I had never been sick a day in my life, and I just know Tanlac is the best medicine in the world. I haven't a touch of indigestion now, and every time I sit down to the table I can't help but feel thankful to Tanlac. I have a wonderful appetite and have gained back all my lost weight and six pounds besides. I am simply overjoyed to be feeling so well, and I just praise Tanlac everywhere I go."

Tanlac is sold by leading druggists everywhere.—Advertisement.

Get Ready for Hot Weather By Purifying the Blood

Many people simply melt in summer. They can't work or enjoy life. They lack vitality. Ten to one their blood is impoverished.

Rich, wholesome blood is the basis of vitality. If you have it, you sturdily withstand summer temperatures. But if your blood is poor, loaded with poisons that should be cast out, you are limp and useless in "shirtsleeve" weather.

EMPRESS LOST HER AITCHES

Eugenie's Struggles With Unfamiliar English Must Have Been Amusing to Her Hearers.

Dr. Ethel Smith, the well-known composer, who was for 30 years an intimate friend of the late Empress Eugenie, tells the following amusing story concerning their first meeting:

"The occasion I am speaking of, when I first came into personal contact with her, was a meet of the harriers, which took place, at her special request, at Farnborough hall. She came out onto the gravel sweep in front of the house, and her manner was more gracious and winning than any manner I had previously seen, as she bowed right and left to the awe-struck field, saying repeatedly:

"'Put on your 'ats; I pray you, put on your 'ats.'

"The master then was presented, and she really and truly did remark to him—as, if you come to think of it, she naturally would—'I 'ope the 'ounds will find the 'are near the 'ouse.'"—Chicago American.

Babies have imagination. Only a baby could treat a cookie as if it were both a toy and an edible.

Poisonous Fumes in Workshop.

The village smithy and the plumber's or tinsmith's shop may be not so harmless as they have been supposed. From researches of more than a quarter of a century, Dr. James Gardner, English health officer, concludes that nearly invisible hot fumes, spreading from the chimneys of these workshops, carry a considerable charge of benzene and napthalene, with manganese and other metallic poisons; and that the inhalation of these vapors tends to affect the skin and respiratory and nervous systems. The eventual result may be some form of skin disease, rheumatism, pneumonia or even cancer. Collecting the poisonous material in a cup or hood for the chimney is a suggested remedy.

Another Way.

"Did you hear about that home brew blowing up?"

"Yes," replied Uncle Bill Bottletop, "if the appropriations for prohibition enforcement don't hold up, maybe we can curb the liquor evil by bringin' it under the regulations provided for handling high explosives."

It would take seventeen guardian angels and half dozen policemen to keep some men out of trouble.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

D. B. Bakke Writes of Their Journey

[The following letter was written by Mr. Bakke, to the editor, sometime ago, but we have been unable to publish it until this week.—Editor.]

We left Thief River Falls June 4th, in the forenoon and did not stop, except for dinner at Halstad, before we came to Wahpeton, N. D.

Sunday forenoon there was a sprinkling of rain and black lowering clouds in the west. The road was fine, our speed 30 to 43 miles, and the black cloud was left behind.

We thought the south part of N. D. had nice farms and good roads but all the way from the north border at White Rock, S. D. to the south border, at Yankton S. D. the farms were something worth seeing and some must have cost a small fortune. And the highways were in such condition that one could travel at any speed without feeling a bump or a shock.

At Yankton we were taken over the Missouri River by a ferry boat over into Nebraska. Our route was directly south until we came to Columbus about 70 miles west from Omaha.

The country and its roads were the same as in South Dakota.

At Columbus we had the best of accommodations of any where on the whole trip. From Columbus west to North Platte we encountered some rain, but not to hinder us any.

North Platte city was one of hold up peoples. For instance, a cup of coffee and sandwich were 30c, coffee and egg sandwich 40c, and so on for almost anything one wanted.

We were told we could not follow the Platte river to Denver, or any road on account of rain and washouts, but we decided to go to almost any other town, and started out and found roads in bad condition. The car went over places where water and mud was several inches deep and had only one accident that delayed us 2 1-2 hours. We arrived in Cheyenne, Wyoming at dark, about 8:30. It took us sometime to find a hotel, that we could stay in, for all we found were up in the second story, but luck was with us and we found one and got rooms, but Oh my! too swell for Holt people, but charges were not more than expected. My wife and daughter had a room on the second floor, Willie and myself on the fifth floor, but our room had 2 beds and was just as nicely furnished as those on the second floor.

It was about nine in the forenoon we started out from Cheyenne and before we left, filled our bottle with coffee and baskets with eatables, and only 10 minutes drive south we camped on a small hill and had a sight before us that gave us all a surprise, for west and south as far as we could see, the Rocky mountains were covered with snow. To us it appeard only 8 or 10 miles away, when in fact it was nearly 70.

From Cheyenne to Boulder is only some 70 miles but it took us until 3 o'clock to get to our destination as we had to make several detours, as roads and bridges were gone.

It took us 6 days to travel 1300 miles.

The Nash Sedan proved to be splendid, no car passed by us but we went by every one in sight, no trouble of any kind, not even pumped up tires.

Speed Demons Coming

"With the best dirt track drivers in the country racing at Thief River Falls on August 6th, the closing day of the 20th annual Pennington County Fair, people of the Northwest will have the opportunity to witness the greatest display of speed ever put on in the state before," Secretary Herbert Fuller has announced. Entry blanks have been forwarded to the leading speed demons in the racing game and indications point to the greatest assemblage of race pilots ever gathered in the Northwest.

Special inducements are being offered to such stars Sig Haugdahl, Fred Horey, Louis Disbrow and O. T. Barr, to enter against a field of challengers as, Les Allen, Rowe Rowe Brainerd, Ted Rick and others. Negotiations have been opened with some of these drivers already and by the end of the week, Secretary Fuller expects to have the majority of them signed up for the meet. O. T. Barr, Les Allen and Rowe Brainerd are contenders for this year's championship and are forcing Sig Haugdahl to the limit to keep his title. So if these hitter rivals for the trophy are signed, one of the closest and speediest battles ever contested can be assured.

As a feature attraction for the four days of the fair, Secretary Fuller has signed up the crack All-American auto polo team to play the Pacific Coast aggregation in a four game series. A hot battle can be expected since these veterans know all tricks of the game. "No game in all sportdom offers the thrills, action and excitement that auto polo does," the Secretary stated, "and it is so sensational that that the spectator is kept on his toes every minute of play."

Labor —that's the Big Cost in Painting

LABOR accounts for about three-quarters of the entire cost of a painting job. Materials cost only about one-quarter—so the possible saving in cost between the best and the cheaper materials is not worth consideration.

And by specifiying the best paint, and getting years of extra wear, you save the big labor cost of frequent re-painting. You get the most economical job in the end.

PATTON'S Sun-Proof PAINT

—is longer-lasting because it is richer in linseed oil. It will not peel or blister if applied to surfaces fit for painting. It forms a tough film of protection against time and weather.

Let us tell you more about this cut-cost paint.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

Get Back Your Health

Are you dragging around day after day with a dull backache? Are you tired and lame mornings—subject to headaches, dizzy spells and sharp, stabbing pains. Then there's surely something wrong. Probably it's kidney weakness! Don't wait for more serious kidney trouble. Get back your health and keep it. For quick relief get plenty of sleep and exercise and use *Doan's Kidney Pills*. They have helped thousands. *Ask your neighbor!*

A North Dakota Case

L. J. Halverson, Wakefield Ave., Grafton, N. D., says: "I suffered quite a bit with my kidneys. My back gave me the most trouble. It ached constantly and I could hardly straighten when I bent. I could hardly get out of bed my back was so stiff and lame. The kidney secretions passed too freely. I used Doan's Kidney Pills and a few boxes cured me of the disorder."

Only two Western states surpassed this mark, California, with collections of $308,737,060. and Missouri, with collections of $211,572,374.

Stillwater—With 28 chairs draped in black in memory of their dead members, three survivors of the "Last Man's club," formed July 21, 1881, by 32 soldier comrades of Company B. First Minnesota Infantry, gathered at the Sawyer house, the original meeting place, to fulfill a pledge made 40 years ago. An undraped chair will symbolize the attendance of the only other survivor Charles Lockwood of Langdon, N. D., who is too old to leave his home. The three "last men" are P. O. Hall, 82 years old, at Atwater, Minn.; Adam Marty, 83 years old, of St. Paul, and John S. Goff, 77 years old, of the Soldiers' home, Minneapolis.

St. Paul—Plans for organization of a Minnesota farm financing corporation for the pooling of agricultural credits in the state and using them where the seasonal demand is the greatest were authorized by directors of the Minnesota Farm Bureau federation, meeting at the od capitol, in connection with the midwest conference of officers and directors of farm bureaus from 12 states. Under the plan, proposed by L. E. Potter, president of the Minnesota federation, a committee of bankers and farmers will be named to work out details. Conferences preliminary to the organization of the corporation will be conducted in various sections of the state through the local co-operative associations.

Motley—Constable Otto Beckner of Motley has been bound over to the district court by Justice C. A. Couillard, charged with dereliction of duty. The charge grew out of the fight at Motley July 7 in which Eugene Leroy was killed while, it is alleged he and three others were resisting arrest.

St. Paul—An effort to co-ordinate the schedules of all railroads running livestock trains will be attempted by a committee formed to regulate the flow of livestock to the South St. Paul market, L. W. Kube, traffic manager of the St. Paul Union Stock Yards company, announced.

Rochester—A sheriff's posse captured an inmate of the state hospital, who for 48 hours had roamed the woods devoid of clothing.

Luverne—Lawrence, 16-year old son of Mr. and Mrs. Emary Farrest, had his back broken by being run over by the bull wheel of a binder.

Crosby—The call of matrimony has caused the resignation of the first and only woman elected to office in the village of Crosby, as village treasurer.

Luverne—Receding waters of the Sioux river, near Sioux Falls, disclosed a dismantled automobile, stolen from Frank Thone, of Beaver Creek, four months ago.

Granite Falls—Lawrence Undesser, aged 14, of Renville, was seized with cramps while swimming in a small lake and was drowned before help could reach him.

Duluth — Benjamin Willis How, treasurer and director of the Kelly-How-Thompson company, is dead here. Mr. How was prominent in business and civic affairs.

Minneapolis—Grain in terminal elevators and flour mills in Minneapolis is now 5,000,000 bushels in excess of what it was a year ago, according to a bulletin of the Minneapolis Traffic association.

Winona—Union religious services, a military parade and ball opened the 17th annual convention of the United Spanish-American War Veterans, department of Minnesota, and the Women's auxiliary.

Luverne—At the annual meeting of the stockholders of the Tri State Mutual Grain Dealers Fire Insurance company a dividend of 50 per cent was voted and $10,000 was ordered added to the surplus fund.

Winona—Learning that his name was being signed to checks, E. J. Stoyke, Stewartville, came here to investigate. Lester Fohl was arrested as he landed from an excursion boat. He is the son-in-law of Stoyke.

Bagley—Explosion of dynamite caps, with which they were working on a road near here, cost Hans Peterson his left hand, part of his right and possibly the sight of one eye, and severely injured Stanley Olson.

Alberta—Robbers looted the safety deposit vault of the Alberta State bank here, taking Liberty bonds and other securities in an undetermined amount and also robbed the strongbox at the Great Northern railroad station.

Pipestone—Fire caused by lightning wrecked the interior of the general store owned by C. F. Harwood, at Hatfield, seven miles from here. Villagers formed a bucket brigade and prevented the flames from spreading to adjoining buildings.

Farmington—Rev. D. J. Moran of Farmington was elected commander of the American Legion posts of the Third Congressional district, which held a one-day meeting here. Seventy five delegates were present, two delegates being sent from each post.

Hibbing—John Owens' 17-year old son, Donald, principal witness for the state, testified that Dominick Tapero, who was alleged to have been killed by Owens, had threatened his father and that Owens told his son he was forced to shoot to protect himself.

St. Paul—Governor J. A. O. Preus directed a coal trade inquiry to be made by the state department of agriculture. The prospective supply of coal, prices and practices of the trade are to be investigated, under the instructions given by the governor to Commissioner N. J. Holmberg.

Albert Lea—"You should be more careful where you drive, papa," were the only words said by Mervil, 3-year old son of Ed Piper, farmer, when he arose to his feet after his father had severed his right arm just below the shoulder with a binder sickle. The child had followed his father to the field and lay hidden in the standing wheat.

Duluth—To make an annual midsummer inspection of 9,000,000 acres of state forests in northeastern Minnesota a party of forestry men headed by a state supervisor left here. For three weeks the party will travel by land and water, the guests of fieldmen of the state service. The first lap of the tour will be made on speeders over logging railroad routes.

St. Paul—The Minnesota supreme court denied the motion for a reargument in the case of the state of Minnesota against A. C. Townley, president of the national Nonpartisan league, and Joseph Gilbert, former Minneosta state manager, both convicted of violating the state law against interfering with enlistments. The defendants are given a stay of 30 days in which to apply to the supreme court of the United States for a review.

St. Paul—A parasite is killing fish in the lakes of Minnesota, in some cases 100 times as many fish being killed by the parasite as are taken from the lakes by hook and line, Carlos Avery, state game and fish commissioner, estimated. Specimens of the parasite on the carcass of a large pike were placed in alcohol and sent to Professor William A. Riley of the department of zoology of the University of Minnesota to be examined. The parasite is about the size of a tick. The protracted heat wave and low water of this year undoubtedly had a large part in spreading the parasite, Mr. Avery said.

St. Paul—Through ignorance, many social and fraternal organizations, small drug and confectionery stores and small theaters defraud the government out of thousands of dollars of luxury and amusement taxes, said C. R. Nash of the St. Paul internal revenue office, whose field forces are checking up taxation sources in St. Paul.

Slayton—Fire originating in a livery barn at Garvin, destroyed that structure, three adjoining buildings and eight automobiles, entailing a loss estimated at $30,000. The Tracy fire department helped overcome the flames

DRESSMAKER MADE WELL

Followed a Neighbor's Advice and Took Lydia E. Pinkham's Vegetable Compound

Vernon, Tex.—"For three years I suffered untold agony each month with pains in my sides. I found only temporary relief in doctor's medicine or anything else I took until my husband saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with good results and advised me to try it. I was then in bed part of the time and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go about my work and do my housework besides. You are welcome to use this letter as a testimonial as I am always glad to speak a word for your medicine."—Mrs. W. For China's Health.

Effective work in health education has been accomplished through the school children in China. The American Junior Red Cross members have thrown their efforts into the work already done by welfare organizations. In the fifth health campaign conducted by the Y. M. C. A. the juniors loaned their services in addition to contributing money. They took part in the health parades, carrying large models of flies, mosquitoes, rats and other enemies to health. The older boys conducted open-air classes in the market places, where regular instruction in personal hygiene was given to children and incidentally to the grownups who were looking on. They distributed handbills and gave street-corner lectures on health. Being born actors, they advanced the cause greatly by giving health plays. Part of the contribution from the national children's fund is used in making a survey of "gutter snipes," the destitute children in Shanghai, and in furthering the campaign against blindness.

DEMAND FOR TANLAC BREAKS ALL RECORDS

Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Unprecedented—Over 20,000,000 Bottles Sold in Six Years—Foreign Countries Clamor for It.

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact, the marvelous success achieved by this medicine is not only phenomenal, but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equaled in the history of the drug trade in America.

Fame Is International.

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from Great Lakes to the Gulf, Tanlac is known and honored. Millions have taken it with the most gratifying and astonishing results and have pronounced it the greatest medicine of all time.

Tens of thousands of men and women of all ages in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse, have testified that they have been fully restored to their normal weight, health and strength by its use.

Restored to Health.

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour, gassy stomachs, coated tongues, foulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and or terribly dejected, depressed feelings, state that they have been entirely relieved of these distressing symptoms and restored to health and happiness by the use of Tanlac.

Tanlac is sold by leading druggists everywhere.

What's the Difference?

"We have filmed your book, professor," said the moving picture director, "and a check for $5,000 is waiting for you."

"But I hardly feel that I should take it," replied the college professor. "I saw the photoplay and it doesn't resemble the book at all. You see there has been a mistake—"

"Oh, don't let that trouble you. Our scenario writer can turn anything into a photoplay, no matter what it is. By the way, what was the name of your novel?"

"That's what I want to explain," answered the professor. "I made a mistake; instead of sending you my novel I sent you my textbook on algebra."—Cartoons Magazine.

COULDN'T BLAME LITTLE JOE

Small Darky Had a Perfect Defense Against Teacher's Intimation of Disobedience.

At a social gathering of some darkies in a Georgia town two members fell to disputing which had the smarter children. Tom Lee was proclaimed the victor when he came to the front with the following:

"De other day my little boy Joe went to school with his little dawg. De teacher gits mad with mah boy and tells him to go back home as quick as he can and take de dawg an' never bring him back no mo'. Little Joe do jest like de teacher tell him. Bimeby little Joe goes back to de schoolhouse and jest as soon as he sets hisself down a little dawg comes in an' goes right up to where little Joe sets. Den de teacher gits mad again and says: 'Joe, why do you bring back dat dawg when I tell you not to?'

"Den little Joe he stan' up and say, 'Teacher, dis ain't de same dawg; he's anudder one. I got two of him.'"

Sense Qualities.

Instead of there being only five senses as we usually think, there are probably as many as 15. Four distinct senses, for example, are found in the skin. These are heat, cold, pain and pressure. What we usually call touch is a combination of these sense qualities.

DIDN'T SEE ANYTHING FUNNY

Sunday School Scholar Couldn't Quite Realize That His Memory Was a Trifle Faulty.

Edward is something less than five years old. For six days a week he is a 100 per cent mischievous and thoroughly rough-and-ready boy. But on Sundays—well, he'd make Booth Tarkington's Edgar take a second prize. On Children's day Edward was given two lines of a scriptural quotation to repeat when his name was called. They were: "Ask and ye shall receive; seek and ye shall find." Sunday morning Edward reported to his mother letter perfect—as they say backstage. An hour later his teacher called the roll.

"Edward."

No answer—Edward's mind was airplaning.

"Edward—your verse—can you repeat it?"

Edward stood up. "Ask—" he began briskly—"ask and you shall receive—and that will be fine!"

Then, as he sat down amidst great laughter on the part of his classmates, he said, half aloud:

"What's the matter with me? I'm not so funny."—Kansas City Star.

Had Feeling for Daddy.

Maxine was visiting a friend. Her mother told her to return home at four o'clock, and when the time arrived she put away her playthings and prepared to leave. Her friend urged her to play just a little longer, but seriously she replied: "No, Molly, I can't play any longer, for if my daddy comes home from work and I'm gone he will cry his blue eyes out."

Strategy.

"You say this bank was robbed in broad daylight and nobody interfered?"

"Exactly."

"How did that happen?"

"One of the robbers set up a motion picture camera on the sidewalk without any film in it, and briskly turned the crank while his pals brought out the loot."—Birmingham Age-Herald.

SOUTH'S FAMINE STIRS PRESIDENT

Harding Calls on Government and Red Cross to Relieve Conditions in Section

CAN'T MARKET CROPS

Growers in Poverty as Result of Inability to Realize Cash for Year's Work; Pellegra Results From Unbalanced Rations.

Washington.—Alarmed at reports of a threatened "semi-famine" coupled with an epidemic of pellagra in a large section of the southern cotton belt, President Harding has requested both the public health service and the American Red Cross to make an investigation and report what could be done by the federal government to relieve the situation.

The fullest cooperation of all federal agencies in the relief measure is promised by the president, who declared that if found necessary congress would be asked to pass special legislation. He urged that no time be lost in ascertaining the actual conditions and applying to them an effective remedy.

People Can't Sell Cotton.

The threat of "famine and plague," the president wrote to the health service and the Red Cross, seemed to arise from the fact that depressed markets had made it impossible for the people of a large section of the south to sell their stocks of cotton. The resulting shortage of money, he said, apparently had deprived many thousands of the variety of food necessary to ward off pellegra.

The president in his letter to Surgeon General Cumming said:

"I have been greatly concerned to note the public statement from the public health service as to the menace of pellegra and the condition of at least semi-famine in a large section of the cotton belt.

"Immediate and effective measures of amelioration are manifestly demanded if conditions even approximate the gravity suggested by the public health report. It is unthinkable that we should delay for a single day the institution of such measures. Therefore, I am writing to ask you for the most complete possible report that can be made at once—provided there is anything to add to what you have already made public—and especially for suggestion for proper measures to deal with the situation.

Writes to Red Cross.

"I am also writing to Dr. Livingston Farrand, head of the American Red Cross, in the same tenor, and .... I wish you both to be assured of my cooperation and of all aid that can appropriately be given through the executive departments, and to know that if full information about the situaion shall make apparent that legislative action is necessary, I will on a proper showing be prepared to ask the requisite authorization from congress."

FIRE DAMAGES GREAT STEAMER MAURETANIA

Southampton, Eng.—Fire which broke out in the first cabin of the Mauretina of the Cunard line, a sister ship of the old Lusitania, caused damage estimated at many thousands of pounds, and it is said it will take months to repair the vessel.

The fire is supposed to have originated from a lighted cigarette dropped upon the carpet in the main salon.

The Mauretina, at the time of her launching in September, 1906, was the largest steamer in the world.

Hoover Cables Soviet Terms.

Roseburg, Ore.—Roseburg police are flooding northeastern California with telegrams warning the police authorities in that section to be on the lookout for Dr. R. M. Brumfield, alleged murderer of Dennis Russell, who they believed to be headed in that direction.

Fumes Killed Moorhead Boy.

Moorhead.—Argud Erickson, 15, has been found dead in a room in the State Teachers' college, Moorhead, from suffocation resulting from the fumigation of rooms.

Anti-Alien Land Law Valid.

Tacoma, Wash.—The Washington state anti-alien land law which prohibits aliens to own or to lease land and penalizes citizens who enter into leases with aliens, has been declared constitutional by a decision filed in federal court. The decision was rendered by United States Circuit Judge William B. Gilbert of Portland, and United States District Judges Edward E. Cushman of Tacoma and Jeremiah J. Neterer of Seattle. They held the law not in contravention of the constitution.

Shame on Them.

PERHAPS there are a few mothers who do not know the virtues of Fletcher's Castoria. Perhaps there are a few who know that there are imitations on the market, and knowing this demand Fletcher's. It is to ALL motherhood, then, that we call attention to the numerous imitations and counterfeits that may be set before them.

It is to all motherhood everywhere that we ring out the warning to beware of the "Just-as-good". For over thirty years Fletcher's Castoria has been an aid in the upbuilding of our population; an aid in the saving of babies.

And yet there are those who would ask you to try something new. Try this. Try that. Even try the same remedy for the tiny, scarcely breathing, babe that you in all your robust womanhood would use for yourself. Shame on them.

CASTORIA

Your Friend, the Physician.

The history of all medicines carries with it the story of battles against popular beliefs: fights against prejudice: even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moment's call be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the littlest babe, and that it is a good thing to keep in the house. He knows.

He couldn't sleep. He had read that if one would put the tips of the fingers of one hand against the tips of the fingers of the other, one could go to sleep immediately and the next thing would be daylight.

He decided not to tell his wife. With the lights out he placed the tips of his fingers together and lay still for several minutes. Then he moved slightly and was quiet again for several minutes. Naturally after a time he began to squirm, but he kept the finger tips together.

The wife, noticing the restlessness and the finger tip performance, inquired irritably:

"Edward, what in the world are you doing?"

"Nothing," he sheepishly replied, and soon was asleep from the fatigue of holding the finger tips together.

Now he doesn't know whether to give credit to the finger tip ordeal or thanks to his wife for breaking the "spell."

Pipestone—Fire caused by lightning wrecked the interior of the general store owned by C. F. Harwood, at Hatfield, seven miles from here. Villagers formed a bucket brigade and prevented the flames from spreading to adjoining buildings.

Farmington—Rev. D. J. Moran of Farmington was elected commander of the American Legion posts of the Third Congressional district, which held a one-day meeting here. Seventy five delegates were present, two delegates being sent from each post.

Hibbing—John Owens' 17-year old son, Donald, principal witness for the state, testified that Dominick Tapero, who was alleged to have been killed by Owens, had threatened his father and that Owens told his son he was forced to shoot to protect himself.

St. Paul—Governor J. A. O. Preus directed a coal trade inquiry to be made by the state department of agriculture. The prospective supply of coal, prices and practices of the trade are to be investigated, under the instructions given by the governor to Commissioner N. J. Holmberg.

Albert Lea—"You should be more careful where you drive, papa," were the only words said by Mervil, 3-year old son of Ed Piper, farmer, when he arose to his feet after his father had severed his right arm just below the shoulder with a binder sickle. The child had followed his father to the field and lay hidden in the standing wheat.

Duluth—To make an annual midsummer inspection of 9,000,000 acres of state forests in northeastern Minnesota a party of forestry men headed by a state supervisor left here. For three weeks the party will travel by land and water, the guests of fieldmen of the state service. The first lap of the tour will be made on speeders over logging railroad routes.

St. Paul—The Minnesota supreme court denied the motion for a reargument in the case of the state of Minnesota against A. C. Townley, president of the national Nonpartisan league, and Joseph Gilbert, former Minneosta state manager, both convicted of violating the state law against interfering with enlistments. The defendants are given a stay of 30 days in which to apply to the supreme court of the United States for a review.

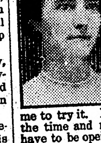
St. Paul—A parasite is killing fish in the lakes of Minnesota, in some cases 100 times as many fish being killed by the parasite as are taken from the lakes by hook and line, Carlos Avery, state game and fish commissioner, estimated. Specimens of the parasite on the carcass of a large pike were placed in alcohol and sent to Professor William A. Riley of the department of zoology of the University of Minnesota to be examined. The parasite is about the size of a tick. The protracted heat wave and low water of this year undoubtedly had a large part in spreading the parasite, Mr. Avery said.

St. Paul—Through ignorance, many social and fraternal organizations, small drug and confectionery stores and small theaters defraud the government out of thousands of dollars of luxury and amusement taxes, said C. R. Nash of the St. Paul internal revenue office, whose field forces are checking up taxation sources in St. Paul.

Slayton—Fire originating in a livery barn at Garvin, destroyed that structure, three adjoining buildings and eight automobiles, entailing a loss estimated at $30,000. The Tracy fire department helped overcome the flames

DRESSMAKER MADE WELL

Followed a Neighbor's Advice and Took Lydia E. Pinkham's Vegetable Compound



Vernon, Tex.—"For three years I suffered untold agony each month with pains in my sides. I found only temporary relief in doctor's medicine or anything else I took until my husband saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with good results and advised me to try it. I was then in bed part of the time and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go about my work and do my housework besides. You are welcome to use this letter as a testimonial as I am always glad to speak a word for your medicine."—Mrs. W. M. STEPHENS, 1103 N. Commerce St., Vernon, Texas.

Dressmakers when overworked are prone to such ailments and should profit by Mrs. Stephen's experience.

Write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., about your health. Your letter will be opened, read and answered by a woman and held in strict confidence.

For China's Health.

Effective work in health education has been accomplished through the school children in China. The American Junior Red Cross members have thrown their efforts into the work already done by welfare organizations. In the fifth health campaign conducted by the Y. M. C. A. the juniors loaned their services in addition to contributing money. They took part in the health parades, carrying large models of flies, mosquitoes, rats and other enemies to health. The older boys conducted open-air classes in the market places, where regular instruction in personal hygiene was given to children and incidentally to the grownups who were looking on. They distributed handbills and gave street-corner lectures on health. Being born actors, they advanced the cause greatly by giving health plays. Part of the contribution from the national children's fund is used in making a survey of "gutter snipes," the destitute children in Shanghai, and in furthering the campaign against blindness.

DEMAND FOR TANLAC BREAKS ALL RECORDS

Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Unprecedented—Over 20,000,000 Bottles Sold in Six Years—Foreign Countries Clamor for It.

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact, the marvelous success achieved by this medicine is not only phenomenal, but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equaled in the history of the drug trade in America.

Fame Is International.

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from Great Lakes to the Gulf, Tanlac is known and honored. Millions have taken it with the most gratifying and astonishing results and have pronounced it the greatest medicine of all time.

Tens of thousands of men and women of all ages in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse, have testified that they have been fully restored to their normal weight, health and strength by its use.

Restored to Health.

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour, gassy stomachs, coated tongues, foulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and of terribly dejected, depressed feelings, state that they have been entirely relieved of these distressing symptoms and restored to health and happiness by the use of Tanlac.

Tanlac is sold by leading druggists everywhere.

What's the Difference?

"We have filmed your book, professor," said the moving picture director, "and a check for $5,000 is waiting for you."

"But I hardly feel that I should take it," replied the college professor. "I saw the photoplay and it doesn't resemble the book at all. You see there has been a mistake—"

"Oh, don't let that trouble you. Our scenario writer can turn anything into a photoplay, no matter what it is. By the way, what was the name of your novel?"

"That's what I want to explain," answered the professor. "I made a mistake; instead of sending you my novel I sent you my textbook on algebra."—Cartoons Magazine.

COULDN'T BLAME LITTLE JOE

Small Darky Had a Perfect Defense Against Teacher's Intimation of Disobedience.

At a social gathering of some darkies in a Georgia town two members fell to disputing which had the smarter children. Tom Lee was proclaimed the victor when he came to the front with the following:

"De other day my little boy Joe went to school with his little dawg. De teacher gits mad with mah boy and tells him to go back home as quick as he can and take de dawg an' never bring him back no mo'. Little Joe do jest like de teacher tell him. Bimeby little Joe goes back to de schoolhouse and jest as soon as he sets hisself down a little dawg comes in an' goes right up to where little Joe sets. Den de teacher gits mad again and says: 'Joe, why do you bring back dat dawg when I tell you not to?'

"Den little Joe he stan' up and say, 'Teacher, dis ain't de same dawg; he's anudder one. I got two of him.'"

Sense Qualities.

Instead of there being only five senses as we usually think, there are probably as many as 15. Four distinct senses, for example, are found in the skin. These are heat, cold, pain and pressure. What we usually call touch is a combination of these sense qualities.

DIDN'T SEE ANYTHING FUNNY

Sunday School Scholar Couldn't Quite Realize That His Memory Was a Trifle Faulty.

Edward is something less than five years old. For six days a week he is a 100 per cent mischievous and thoroughly rough-and-ready boy. But on Sundays—well, he'd make Booth Tarkington's Edgar take a second prize. On Children's day Edward was given two lines of a scriptural quotation to repeat when his name was called. They were: "Ask and ye shall receive; seek and ye shall find." Sunday morning Edward reported to his mother letter perfect—as they say backstage. An hour later his teacher called the roll.

"Edward."

No answer—Edward's mind was airplaning.

"Edward—your verse—can you repeat it?"

Edward stood up. "Ask—" he began briskly—"ask and you shall receive—and that will be fine!"

Then, as he sat down amidst great laughter on the part of his classmates, he said, half aloud:

"What's the matter with me? I'm not so funny."—Kansas City Star.

Had Feeling for Daddy.

Maxine was visiting a friend. Her mother told her to return home at four o'clock, and when the time arrived she put away her playthings and prepared to leave. Her friend urged her to play just a little longer, but seriously she replied: "No, Molly, I can't play any longer, for if my daddy comes home from work and I'm gone he will cry his blue eyes out."

Strategy.

"You say this bank was robbed in broad daylight and nobody interfered?"

"Exactly."

"How did that happen?"

"One of the robbers set up a motion picture camera on the sidewalk without any film in it, and briskly turned the crank while his pals brought out the loot."—Birmingham Age-Herald.

SOUTH'S FAMINE STIRS PRESIDENT

Harding Calls on Government and Red Cross to Relieve Conditions in Section

CAN'T MARKET CROPS

Growers in Poverty as Result of Inability to Realize Cash for Year's Work; Pellegra Results From Unbalanced Rations.

Washington.—Alarmed at reports of a threatened "semi-famine" coupled with an epidemic of pellagra in a large section of the southern cotton belt, President Harding has requested both the public health service and the American Red Cross to make an investigation and report what could be done by the federal government to relieve the situation.

The fullest cooperation of all federal agencies in the relief measure is promised by the president, who declared that if found necessary congress would be asked to pass special legislation. He urged that no time be lost in ascertaining the actual conditions and applying to them an effective remedy.

People Can't Sell Cotton.

The threat of "famine and plague," the president wrote to the health service and the Red Cross, seemed to arise from the fact that depressed markets had made it impossible for the people of a large section of the south to sell their stocks of cotton. The resulting shortage of money, he said, apparently had deprived many thousands of the variety of food necessary to ward off pellegra.

The president in his letter to Surgeon General Cumming said:

"I have been greatly concerned to note the public statement from the public health service as to the menace of pellegra and the condition of at least semi-famine in a large section of the cotton belt.

"Immediate and effective measures of amelioration are manifestly demanded if conditions even approximate the gravity suggested by the public health report. It is unthinkable that we should delay for a single day the institution of such measures. Therefore, I am writing to ask you for the most complete possible report that can be made at once—provided there is anything to add to what you have already made public—and especially for suggestion for proper measures to deal with the situation.

Writes to Red Cross.

"I am also writing to Dr. Livingston Farrand, head of the American Red Cross, in the same tenor, and .... I wish you both to be assured of my cooperation and of all aid that can appropriately be given through the executive departments, and to know that if full information about the situaion shall make apparent that legislative action is necessary, I will on a proper showing be prepared to ask the requisite authorization from congress."

FIRE DAMAGES GREAT STEAMER MAURETANIA

Southampton, Eng.—Fire which broke out in the first cabin of the Mauretina of the Cunard line, a sister ship of the old Lusitania, caused damage estimated at many thousands of pounds, and it is said it will take months to repair the vessel.

The fire is supposed to have originated from a lighted cigarette dropped upon the carpet in the main salon.

The Mauretina, at the time of her launching in September, 1906, was the largest steamer in the world.

Hoover Cables Soviet Terms.

Washington.—Immediate release of the Americans now held prisoners in Russia must be ordered by the soviet government before aid can be rendered the sick and starving in that country by the American relief administration, Secretary Hoover, chairman of the organization, has informed Maxim Gorky at Petrograd in a cable made public here.

Missing Dentist Seen.

Roseburg, Ore.—Roseburg police are flooding northeastern California with telegrams warning the police authorities in that section to be on the lookout for Dr. R. M. Brumfield, alleged murderer of Dennis Russell, who they believed to be headed in that direction.

Fumes Killed Moorhead Boy.

Moorhead.—Argud Erickson, 15, has been found dead in a room in the State Teachers' college, Moorhead, from suffocation resulting from the fumigation of rooms.

Anti-Alien Land Law Valid.

Tacoma. Wash.—The Washington state anti-alien land law which prohibits aliens to own or to lease land and penalizes citizens who enter into leases with aliens, has been declared constitutional by a decision filed in federal court. The decision was rendered by United States Circuit Judge William B. Gilbert of Portland, and United States District Judges Edward E. Cushman of Tacoma and Jeremiah J. Neterer of Seattle. They held the law not in contravention of the constitution.

Shame on Them.

PERHAPS there are a few mothers who do not know the virtues of Fletcher's Castoria. Perhaps there are a few who know that there are imitations on the market, and knowing this demand Fletcher's. It is to ALL motherhood, then, that we call attention to the numerous imitations and counterfeits that may be set before them.

It is to all motherhood everywhere that we ring out the warning to beware of the "Just-as-good". For over thirty years Fletcher's Castoria has been an aid in the upbuilding of our population; an aid in the saving of babies.

Your Friend, the Physician.

The history of all medicines carries with it the story of battles against popular beliefs: fights against prejudice: even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moment's call be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the littlest babe, and that it is a good thing to keep in the house. He knows.

Experimenter Secured Sleep, but Hardly Knows Just Where to Award the Credit.

He couldn't sleep. He had read that if one would put the tips of the fingers of one hand against the tips of the fingers of the other, one could go to sleep immediately and the next thing would be daylight.

He decided not to tell his wife. With the lights out he placed the tips of his fingers together and lay still for several minutes. Then he moved slightly and was quiet again for several minutes. Naturally after a time he began to squirm, but he kept the finger tips together.

The wife, noticing the restlessness and the finger tip performance, inquired irritably:

"Edward, what in the world are you doing?"

"Nothing," he sheepishly replied, and soon was asleep from the fatigue of holding the finger tips together.

Now he doesn't know whether to give credit to the finger tip ordeal or thanks to his wife for breaking the "spell."

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

SEE RECORD CROP

Western Canada Farmers Rejoice Over Bountiful Harvest.

Favorable Weather and Fertile Land Combine to Pour Riches Into the Hands of Agriculturists.

There are those in nearly every state in the Union who have relatives or friends, or someone they have known, who are residents of some of the provinces of Western Canada. They have gone there to carry on the profession and occupation of farming. Their progress has been carefully watched and such news as may come from them or the country that they have taken partial possession of will be read with interest. Important news just now is the condition of the crops. Newspaper correspondents and government representatives are now in a position, after making a careful survey of conditions, to announce that the crop conditions in Manitoba, Saskatchewan and Alberta carry the promise of an early and bountiful harvest and farmers view the outlook with utmost pleasure. Good growing weather has prevailed since seeding and all cereal crops are well advanced. Wheat headed out has long, heavy heads, and big yields are indicated; predictions are being made that the record production per acre in 1915 will be exceeded. Harvesting began in some sections in the early part of August. An interesting feature of the situation is the fact that there are no bad reports from any part of the country from the Red river to the Rocky mountains and from the International boundary to Peace river. There will also be good fruit, vegetable and root crops.

Most remarkable has been the germination of most of the grain. Marquis wheat sown on May 11 was fully headed out on June 30.

Considerable advancement has taken place in the last few years in the growing of corn. Sunflowers are also being grown quite extensively. Both these do wonderfully well. On July 4 the writer was shown a twenty-acre field of corn that had reached a height of upwards of five feet, while a five-acre field of sunflowers close by, was entering for a keen race skyward. Both will doubtless be used for ensilage, to which will be added a splendid crop of alfalfa or sweet clover, which also have proved very successful. Now that corn, sunflowers, sweet clover and alfalfa have taken a liking to the country, it will mean a period of reconstruction in many farming districts, and mixed farming will supersede the period of "grain mining" that, no matter how fertile the soil, no matter how generous it may be in giving forth from its great storehouse of all the properties that have given to Western Canada its well-earned name of the wheat granary of the world, too much may be asked of it; the departure from this into the sphere of more intensive farming, covering many generalities not before indulged in, will add dollars per acre to the value of this productive land. Those who have watched the progress of Western Canada, have been looking for the day when corn and such like can be grown successfully. It has now arrived.

The cattle and dairy industry will be given an impulse that will attract those who have been wedded to this kind of farm life, while none of the interest that may be taken by the grain grower will be lessened. Already there is an influence following the fact that corn and sunflowers can be grown, that is leading to the erection of silos in many parts of the country, all indicating a growing satisfaction as to the great future that lies before it.

Due chiefly to the drop in costs of materials and wages, farmers throughout the prairie provinces are erecting many buildings this year, says the editor and manager of the Prairie Lumberman, who was a visitor to Vancouver a few days ago. A campaign is under way among the retail lumbermen and farmers, urging the erection of 2,000 silos this year, and this is meeting with success, more plans and specifications having been prepared and more structures being under way probably than at any other time in the history of the West.—Advertisement.

Protection Against Radium.

A physician using radium has to insulate himself thoroughly from its effects. Dr. Belcherc of the French Academy of Medicine says they must wear gloves lined with lead, and spectacles containing lead salt; they must handle the radium salts with pincers and sit at the table lined with lead. He is perfecting a lead protector for the heart and lungs, but advises operators to wrap themselves in thin lead sheets.

Jud Tunkins.

Jud Tunkins says nature puts enough scales on a fish to give it more of a bathing suit than some human beings wear.

From Missouri.

"What in the world are you kicking about?" asked the red-headed landlady. "When I took my room you told me there was a single hair mattress on the bed," said the thin boarder. "So I did." "Well, will you please come up to my room and show me the single hair?"

Knows a Lot.

"So your son is home from college?" "Yep." "Has he learned much?" "He certainly has. More than his mother and I have picked up in a lifetime."

MILL CITY GAS BLASTS, FIRES INJURE SCORES

Pedestrians Hurt When Flames Spread Through Sewers Causing Explosions

STORES ARE WRECKED

Flames Spurt High in Air When Heavy Manhole Covers Are Hurled Into Curious Throngs—Demolished Business Places Looted.

Minneapolis—(Special)—Six persons are near death and more than 60 others are seriously injured as the result of a series of sewer gas blasts in the heart of the Minneapolis downtown shopping district early Sunday.

There were seven explosions, over an area of several blocks, which ripped up the streets and demolished several stores, causing heavy losses to stocks and buildings in a score of others.

Big Store in Flames.

Fire department officials who at first feared that flames which broke out in the big Donaldson department store might spread over the downtown district, said that the explosions were due to sewer gas ignited by short circuits in electric power wires in underground conduits.

With the first blast scores of persons rushed to scene despite the efforts of the police to clear the streets, and it was these who were injured in the subsequent explosions which occurred beneath their very feet.

Men in the crowd finally assisted police and firemen in forming a fire line. Hardly had the crowd been driven away from the blazing manholes, however, when a second explosion, across the street, in front of the United Cigar store, wrecked that store and injured more than a score of men and women.

Mob Pillages Store.

Eyewitnesses said that great quantities of merchandise were carried off by a mob which, taking advantage of the excitement, swarmed into the wrecked cigar store.

One man standing near a manhole when the top blew out was thrown several feet and severely bruised. Two other men standing near were thrown down by the force of the explosion and fell into the manhole, from which flames were shooting, as in the case of the earlier explosions. Firemen rushed to their rescue and they were pulled out before being seriously burned.

The third explosion occurred half way up the block on Nicollet avenue. The manhole in front of the Stiles building at this number, caused property destruction, but no one was injured, the crowd by this time being kept away by fire lines established at Fifth street and Seventh street.

The Stiles building is a five-story structure, with jewelry stores on the first floor and offices above.

Stocks Blown in Street.

Every window in the building from the first floor to the roof was blown out, glass falling into the street. The stocks of the Weld & Sons jewelry store and that of the Joseph H. Green jewelry store were blown into the street.

Fear was expressed by firemen and police that the fire would spread through the entire sewer system of the city, but at a late hour it seemed to have confined itself to the downtown district. Fire Chief C. W. Ringer said the fire department was powerless to stop the flames. The electric light and power currents finally were shut off in the hope that further explosions might be prevented.

Similar Blasts 15 Years Ago.

Fifteen years ago a similar explosion occurred and fire spread through the entire sewer system, causing great damge.

SPANIARDS PERILED BY MOROCCO REBEL FORCE

Madrid.—Spanish forces at Mt. Arruit, Morocco, are in a precarious position, it is admitted here. The force is a remnant of General Nacarros' column and surrounded by rebel tribesmen.

Airplanes sent out by Spanish headquarters located the beseiged force and, flying low over the mountains, succeeded in dropping munitions. In the meantime Nacarros' positions are being heavily shelled by the rebels.

Greeks Shell Turkish Forts.

Athens.—Greek waships have shelled the Turkish forts at Trebizond, according to an official announcement which said that the forts replied vigourously to the forty-minute bombardment.

Seek Purdue U Head's Body.

Calgary, Alta.—Another searching party of Swiss guides has been organized to recover the body of W. E. Stone, president of Purdue university, who plunged to his death from Mount Eanon July 16. This information was received here by the Calgary Herald from its correspondent, who now is at Trail Centre camp with the rescue party returning to Banff with Dr. Stone's widow. The educator's son is expected in Banff, from where he will press on to Mount Eanon in quest of his father's body.

ERIN ACCEPTS BRITISH OFFERS

Final Settlement Said to Await Only Official Announcements by Leaders

IRELAND TO BE REPUBLIC

Reported Agreement Would Give Isle Even Greater Freedom Than Canada; Ratification of Conference Decisions Is Awaitde.

Dublin. — Settlement of the Irish question awaits only formal announcement, according to authoritative information here. President DeValera and his cabinet are said to have accepted an enlarged offer from Great Britain which will make Ireland a republic in everything but name.

Ulster's position was reported to have been settled, permitting her to maintain a subordinate parliament until different arrangements can be made.

The cabinet's decision followed the return here of Arthur O'Brien from London. It was commonly reported he carried an important communication from Lloyd George.

Power of Dominion.

Before formal announcement of the agreement is made, it is expected all members of the Irish parliament will be released and permitted to ratify the cabinet's decision. De Valera already had called for such a session this week and arrangements previously had been made for release of those members still in prison. Details of the settlement were withheld but the basis of it is that Ireland is to have the standing of a dominion with even greater power than Canada, it is stated.

Arthur O'Brien's mission in London was carefully guarded. On his return here he conferred with DeValera. It is now believed that De Valera will return to London the latter part of the week, possibly Thursday.

Doomed Man Released.

Dublin.—John J. Egan, who has been incarcerated in the Limerick jail, was liberated Sunday and has reached his home.

Egan was under sentence of death but last week the master of the rolls in habeas corpus proceedings ordered that the prisoner be brought into court. Failure to comply resulted in writs of attachment being issued. It was announced Saturday that the crown attorney had decided to release Egan pending a hearing on the appeal against the habeas corpus proceedings and contempt of court orders.

PEACE OUTLOOK PROMISING

President Hopes Conference Will End Wars, He Says in Speech.

Plymouth, Mass.—A hope that the disarmament conference called by the United States may bring to the world a new era of peace and freedom was expressed by President Harding in an address here at the tercentenary of the landing of the Pilgrims.

Characterizing the international situation as "more than promising," the president asserted that the seed of common tolerance and understanding planted by the fathers here was beginning to bear fruit a thousandfold in the relations between nations.

TAX ON BANK CHECKS IS PLAN OF TREASURY HEAD

Washington.—A tax of two cents on bank checks, a flat license tax of $10 on all automobiles, irrespective of cost or horsepower, an increase of first class postage rates to three cents and an added levy on cigars, tobacco and cigarettes are understood to have been among tax revision suggestions presented by Secretary Mellon to the house ways and means committee meeting in executive session.

Growers Ship First Car.

Fargo.—The first carload of wheat has left North Dakota consigned to the United States Grain Growers, Inc. It was probably the first car shipped in the United States and was shipped from the local growers association organized at Fairmount, Richland county to N. D. Davies, one of the U. S. Grain Growers organizers. It was consigned to St. Paul.

Protests Slur on the South.

Washington.—Representative Byrnes of South Carolina has asked President Harding in a letter to take "appropriate action toward officials who, by misrepresenting conditions, misled you into making the statement" that parts of the South were "actually menaced with famine and plague."

Trade Reaction Still Evident.

Washington.—Business reaction in basic lines of industry still was reflected during July in volume of business, extent of unemployment and depression of production, says the monthly review of general economic conditions issued by the federal reserve board. Copper and zinc were said to suffer from lack of demand and extreme depression of prices. The board declared there had been noticeable improvement in production of cement and structural steel as a result of the increase in building operations.

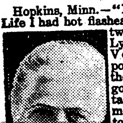
HOW WOMEN OF MIDDLE AGE

May Escape the Dreaded Sufferings of that Period by Taking Mrs. Block's Advice



Hopkins, Minn.—"During Change of Life I had hot flashes and suffered for two years. I saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and got good results from taking it. I recommend your medicine to my friends and you may publish this fact as a testimonial."—Mrs. ROBERT BLOCK, Box 542, Hopkins, Minn.

It has been said that not one woman in a thousand passes this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, sinking spells, spots before the eyes, dizzy spells, nervousness, are only a few of the symptoms. Every woman at this age should profit by Mrs. Block's experience and try Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Winona—A band tournament, under the auspices of the Winona Municipal band, will be conducted here Aug. 14.

Waseca—A. W. McQuire, commander of the Legion post here, was named county commander at a meeting of Waseca county posts here.

Luverne—While crossing a bridge in Kanarani township with a threshing outfit, George Hughes was seriously injured when the bridge collapsed.

Luverne—A special election has been called for Tuesday, Aug. 16, to vote on the issuance of bonds to aid in the erection of an armory there.

St. Paul—The Disabled American Veterans of the World War, with headquarters in St. Paul, filed articles of incorporation with Mike Holm, secretary of state.

Minneapolis—Deputy sheriffs recovered the body of Arthur Menard, aged 30, of Minnetonka Mills, who drowned Sunday while swimming in Lake Minnetonka at Ferndale.

Windom—A special election will be conducted here Aug. 12, for voting on issuance of bonds for a new city hall, armory and for a permanent improvement revolving fund.

Luverne—Loren Forrest, a harvester, received probable mortal injuries when the binder which he was operating passed over his back. The horses had become frightened.

St. Paul—Colonel Paul Doty was elected chairman of the state Board of Registration for Architects, Engineers and Land Surveyors at the first meeting of the board, held in the Governor's office.

Minneapolis—Arthur Price, city fire marshal, and the police were searching Minneapolis for a firebug who has tried to burn two loop hotels. In both cases the buildings were saved by quick action by employes.

Gonvick—Progress is being made in obtaining final surveys of the Red Lake and Clearwater rivers, according to George W. Walker, Thief River Falls, engineer of the Red Lake draining and conservancy district.

Moorhead—Argud Erickson, aged 15, died here when he was overcome by fumes while fumigating a room in the state teachers' college here. His father, Gust Erickson, is in a hospital at Fargo, recovering from the effects of the gas.

St. Paul—The Minnesota supreme court adjourned for its summer recess, and will reconvene Sept. 12. There are 75 cases on the docket now for consideration after the recess, including forest fire claim cases totaling $12,000,000 to $15,000,00.

Ely—Railroad presidents and the most humble switchmen, mining company presidents and ore diggers marched in a body with dinner pails on their arms at the seventh annual picnic of the Vermillion Range Old Settlers' association here.

St. Paul—Explosion of a dynamite bomb thrown on the rear porch of the home of Paul C. Schoor, electrical contractor, badly damaged the rear of the house, shattered windows in adjoining houses, slightly injured Mr. Schoor and his eight-year-old son and rocked distant houses.

Duluth—The Duluth International Potato show will be held October 20 at the local armory under the auspices of the agricultural committee of the local commercial club, it was announced by W. O. Sargent, chairman of the committee. Prize awards totaling $1,000 will be made to exhibitors.

St. Paul—The Minnesota State Highway department is preparing plans for road building projects to be submitted to contractors this fall in conformity with a recommendation of Secretary Hoover that road contracts be let in the fall rather than in the spring to aid the employment situation, it was announced at the State Highway Engineer's office.

St. Paul—Barbers operating soft drink establishments or poolhalls as sidelines have until Sept. 1 to make the necessary changes as prescribed by the rule adopted by the Minnesota state examining board of barbers, Walter Dunlop, secretary, announced. In those shops where soft drinks are being sold, that department must be separated from the barbershop by a solid wall reaching from ceiling to floor, Mr. Dunlop said. However, where a poolroom is operated and no drinks or lunches are served, a six foot partition is sufficient.

St. Cloud—Business men of St. Cloud have subscribed $5,500 for their portion of an armory site to take advantage of the state offer of $25,000 for the building of an armory. At a special election, the voters of the city turned down a proposed bond issue of $75,000 for the erection of an armory the vote being two to one against the proposition.

Canby—Harvey Davis, an electrician, was severely burned when he came in contact with a wire carrying 2,300 volts of electricity. Davis was rendered unconscious and his clothes were burned from him

Ruthton—Fire, caused by lightning, destroyed the big barn on the William Beck farm.

Marshall—J. R. Howard, president of the National Farm Bureau federation, has accepted an invitation to speak at the Lynn county fair here Aug. 31.

Duluth—The government collected $10,500 in fines from the 207 cases disposed of at the term of federal court ending here. Ninety-five per cent of the cases were for violation of federal liquor laws.

Red Wing—After 52 hours of constant shoveling by hundreds of men, the body of Frank Ek, who was buried alive in a cave-in at the sand pit of the Red Wing Filter Sand company was recovered.

St. Paul—A check for $50,000 was received by M. J. Desmond, deputy state auditor, from the Federal governments as state aid for the teaching of agriculture at the University of Minnesota School of Agriculture under provisions of the Morrill act.

Fergus Falls—Henry Kantrud and Alfred J. Nelson were both seriously burned here by a gasoline explosion in the Nelson Bros. garage. Kantrud ran across the street with his clothing ablaze. Bystanders finally tore the burning clothes from his body.

Pipestone—John Toutjes, a blacksmith at Holland, was killed while at work in his shop. He was welding a shaft in the head of a steam threshing engine when the heat caused the piston to explode, a large portion of the steel striking him in the head.

St. Paul—Garfield W. Brown, Glencoe attorney, and prominent in republican politics in Minnesota for several years, was appointed by Governor J. A. O. Preus to succeed Andrew Fritz as state public examiner. The new appointee is a veteran of the World war.

Minneapolis—A spectacular fire which started from a lighted match while the tank of an interurban auto bus was being filled burned 100 gallons of gasoline at the Pure Oil company's filling station, and threatened to spread to 8,000 gallons stored under ground.

St. Paul—Charles F. Staples, former member of the Minnesota railroad and warehouse commission, has been appointed acting director of the bureau of valuation of the interstate commerce commission, according to Washington reports. He succeeds the late Judge C. A. Prouty.

St. Paul—State owned mines in Minnesota have produced revenue of $255,409.97 for the quarter ended July 1, J. P. Funk, mineral land clerk in the office of Ray P. Chase, state auditor, announced. Payments of this royalty of 25 cents a ton on ore have been completed.

Montevideo—John Haga had a narrow escape from death while working on his farm. Haga was driving a harvester when a storm came up. He was unhitching the horses when lightning struck the animals, killing all three. Haga was thrown to the ground by the shock, but was uninjured.

St. Paul—Arguments were heard by Judge Wilbur F. Booth in the United States district court in the case of the Omaha Structural Steel and Bridge company of Omaha against the City of Rochester for $187,000, which the company claims is owed to it for extra work in the construction of a hydro-electric municipal power plant.

Fairmont—District Judge W. L. Converse of South St. Paul, in a decision filed here, holds that the Blue Earth city council has the power to prohibit Sunday "movie" shows. Judge Converse dissolved an injunction obtained by Mark Hanson, manager of a moving picture show at Blue Earth, restraining the city from putting the "Blue Law" ordinance into effect.

Almelund—Four bandits entered the Farmers State bank here, held up the cashier and two customers, took $7,000 to $8,000 in cash and about $6,000 worth of Liberty bonds and escaped in a touring car kept in readiness by a fifth bandit. Almelund is a little inland village in Chisago county, 8 miles north of Center City, the county seat, and about 45 miles north of the twin cities.

Red Wing—A high pressure campaign for regulation of coal distribution has been launched by the Property Owners federation of Red Wing. Economy in public affairs is the aim of the federation, which previously has been active in seeking reduction of fire insurance costs as well as obtaining better insurance for the smaller cities. The federation's coal campaign is supported by the Red Wing Chamber of Commerce.

St. Paul—Investigation of the coal situation in respect to supply for Minnesota, ordered by Governor J. A. O. Preus, will be broadened to include a drive against high prices of fuel, it was announced by J. H. Hay, deputy commissioner of agriculture. In urging lower coal prices, Mr. Hay sent letters to governors of surrounding states and to members of the Minnesota delegation in Congress asking united action in obtaining lower coal prices.

Luverne—Oil has been found on a farm in Springwater township, owned by Julius Eichner. Noticing an oily tinge in the water from a well in use for years, Eicher engaged a prospector to drill the well deeper and at a depth of 600 feet oil bubbled to the surface. An analysis of the oil showed it to be a good grade, according to Eichner.

Bertha—The Bertha baseball team won its twelfth victory of the season when it defeated the Verndale, Brainerd-Little Falls combination by a 4 to 2 score. The local team has lost but two games.

BREAK UP BOY ROBBER GANG

"Bulls" Capture the Youthful Chief Who Promptly Turns State's Evidence.

"LITTLE WOP" IS STAR

Two of the Band Are Seized at Their Desks in School—Juvenile Delinquency Charge Is Greatest Injury to Their Pride.

New York.—"Well, bulls, I guess you got me right. So long as I'm going to do a bit, I'll turn state's evidence."

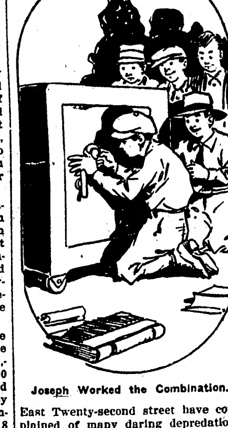
With this announcement couched in correct criminal terminology, "Paddy the Kid," leader of a unique robber band, prefaced the strange story of his outlaw outfit's activities from the date of organization to its disbandment, following the arrest of its five fearless members. "Paddy" was addressing detectives in the East Twenty-second street station, and what he said was corroborated by others of the gang. Read their story; you will be surprised.

First permit an introduction—the gang: Leader, Patrick Murphy (Paddy the Kid), fourteen, of No. 317 East Twenty-first street; Joseph Agassano (Jimmy Valentine, also The Little Wop), seven, of No. 345 East Twenty-first street; Matthew Agostineloo (Skinny), nine, of No. 310 East Nineteenth street; Walter Michaelsky (The Polack), ten, of No. 346 First avenue, and John Rubsha (The Dummy), who lived up to his "alias" and refused to give any information about himself.

Gang Applauds "The Little Wop."

Well, a long time ago—so long the gang hardly remembers it—these boys saw several thrilling moving pictures (the story is now being transmitted from the gang through Detectives Meyers and Gillman) and then tried out a few "stunts." "Golly!" was the unanimous cry after Joseph had opened a safe the boys found somewhere, "the little wop is a Jimmy Valentine!" And the detectives say they were right, only he does the trick by listening to the tumblers fall.

Organization followed with a capital stock of one pistol "found" in an automobile. Courage increased with repeated successes until, for the last 30 days, residents around and in



Joseph Worked the Combination.

East Twenty-second street have complained of many daring depredations by a robber band. Meyers and Gillman were assigned to capture the outlaws, but had no success until the other day when passing the Standard Gas company's plant at Twenty-second street and First avenue, they heard Murphy say:

"It'll be a cinch to crack this crib. This factory is easy to get into."

A little later the officers saw Murphy start to climb the fire escape. It was the beginning of the end. They captured the outlaw before he reached the third rung. Murphy told the names of the rest of the gang and two of them were arrested at their desks in a public school. When the whole outfit had been rounded up in the East Twenty-second street station, a charge of juvenile delinquency was registered against them. This charge was the greatest injury their pride suffered.

Joseph Left His Gun at Home.

Every member appeared proud of his "alias" and not in the least disconcerted by arrest. Joseph, three feet tall and weighing 60 pounds, sucked at a lollypop said to be a part of the loot obtained by the gang.

"I used to carry a loaded gun," Joseph volunteered, "but it got heavy and I left it home. My father has it now."

"Well," commented another member, "I guess we'll bust up now, anyway."

The boys said Joseph worked the combination of a safe in Empire Hat company, No. 316 East Twenty-second street, a week ago, but it took the whole gang to pull the door open. They got $1 08 each.

TELL 'EM TO SEE ME, SAYS TOWNS

Every Time I Sit Down to a Juicy Steak Now I Give Thanks to Tanlac, He Declares.

"Every time I sit down to a juicy steak now I give thanks to Tanlac for taking me off that milk and mush diet I had to live on for a year," said Joseph R. Towns, the well-known and popular proprietor of the Sanitary Meat Market, of Marshall, Mich.

"I had stomach trouble of the worst sort and was going down hill so fast I thought I would have to give up my business. I was so nervous and worried I dreaded to see night come, as it meant little for me and then in the morning I was so fagged out I dreaded to go to my market.

"The money I spent for Tanlac was the best investment I ever made. I never dreamed a medicine could do the work it did for me. Three bottles was all I needed to make me as sound as a dollar. I never felt better or more like working in my life than I do right now. I eat anything I want, my stomach is in good shape and I am brimful of energy. I sleep all night without turning over and get up in the morning as happy as a boy.

"Not only has Tanlac made me feel fit and fine, but I have also gained twenty-five pounds in weight. If anybody wants to know more about what I think of Tanlac let them come to me and I will be glad to tell them. It certainly hasn't an equal."

Found Profit in Twins.

Sometimes it is just a little hard for the father with the three other children to feel joyful when a set of twins arrive. But the janitor of the apartment house on the West side who received two small pickaninnies, duplicates in appearance, was tickled to death.

"I calls 'em Peter an' Paul," he said, with a wide grin. "When I takes 'em out ridin 'in the perambulator nearly all the ladies exclaim about how cute they is. An every day someone gives 'em a quarter or half a dollar. These here boys pay for their board, and then some."

Tokyo Plans for Big Population.

In thirty years greater Tokyo will include about 122,616 acres in area with an approximate total population of 7½ million persons, according to the Yorodzu.

The Tokyo city assembly recently appointed a special commission to which the question of the limits of the city was referred. According to the draft plan submitted, a circle is to be drawn with Tokyo central station in Marunouchi as the center, with a radius of ten miles, and all the towns and villages within the new greater city limits.—Japan Advertiser.

Plan Big Experiment.

The New South Wales Textile Workers' union, writes Trade Commissioner A. W. Ferrin, has proposed to convert the old Parramatta jail buildings into woolen mills and to establish a company to be known as the Co-operative Woolen Mills with a capital of £200,000 ($972,000). It is intended to manufacture the whole of the woolen goods required by the government, to be ultimately converted into clothing for the police force and other government employees.

Mental butterflying at 2 a. m.
A great indoor sport for thoughtless people

One of the surest ways to become physically incapable of doing your best work is to get only snatches of sleep—broken by disturbing dreams.

If your sleep is being disturbed by drinking tea or coffee, you may be sowing the seeds of a nervous breakdown.

Do not wait until your nerves are affected by the drugs, thein and caffeine, in tea or coffee. Protect your strength, vitality and endurance.

Have sound, restful sleep, and wake refreshed and fit for any task.

Postum, the delicious cereal beverage, with its golden-brown richness and coffee-like taste, will let Nature restore your coffee-irritated nerves, and bring you sound, refreshing sleep.

Postum is wholesome and acts in a normal way. It possesses the advantages of a hot drink, without the ill effects of tea or coffee.

Drink Postum for a week or two. See what a difference it will make in you!

"There's a Reason."

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

At all grocers.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Extra Value in Emblems and Sprays for Funerals

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

Washington—Senator R. M. La Follette announced his determination to fight to the end the administration bill for funding the railroad debt through the war finance corporation.

Washington—A number of resolutions relating to withdrawal of American occupation forces from Germany, long pending before the house foreign affairs committee, are not expected to be acted on at this session.

Washington—Secretary of War J. W. Weeks approved orders directing the graves registration service in France to begin closing up its work Aug. 15. Shipment of the last of the dead now designated for return will be made by Oct. 3.

Sporting

Reading, Pa.—Skating a mile in competition in 2:45 3-5, Frank Klopp of Philadelphia, international amateur roller skating champion, established a new world's amateur record.

Newport, R. I.—The Vagrant, owned by Vice Commodore Harold S. Vanderbilt of the New York club, was the winner in the schooner class in the 37½-mile race for the Astor cup.

New York—Mike Gibbons of St. Paul enjoyed a ten-round workout with Augie Ratner of New York in the semi-wind-up of a card at the Dyckman Oval Arena, easily earning the judges' decision after taking every round.

New York—Tex Rickard announced that the bout for the light heavyweight championship of the world between Georges Carpentier and Tom Gibbons probably would be held in Madison Square Garden late in October or early in November.

New York—The state boxing commission refused to permit Bryan Downey and Johnny Wilson, middleweight champion, to box in this state unless they settle in another bout the controversy which arose as a result of their recent contest in Cleveland when Wilson was awarded the referee's decision on a foul.

New York—The Carpentier-Gibbons fight planned here for the first part of October has been postponed several weeks because of the injury which the Frenchman received when he was defeated by Jack Dempsey in Jersey City, July 2. The fight now is scheduled for late in October or the first part of November in Madison Square Garden.

Domestic

New York—Johnny Wilson and Bryan Downey are to fight again. The battle will take place at Jersey City, Labor day, September 5.

Chicago—The nation's hay crop will be about 75 per cent of that gathered last year, according to R. M. White of Duluth, president of the National Hay association.

Quebec—Countless dead grasshoppers floated down the St. Lawrence rivers. Observers could offer no plausible explanation. The insects covered the river from bank to bank.

Austin, Texas—A bill aimed at secret societies, operating under cover of masks, was introduced in the lower house of the Texas legislature by Representative Palman of Cross county.

New York—Members of the Radio Corporation of America and of the Polish ministry of posts and telegraphs signed a contract which will insure for Poland an international high power radio station.

Buffalo, N. Y.—During an electrical illumination of Niagara falls an unidentified girl, apparently about 18 years old, committed suicide by jumping into the Niagara river about 40 feet from the brink of the American falls.

Chicago—The United States Grain Growers (Inc.) announce that 195 elevators have become affiliated with the organization. There were 57 in Nebraska, 74 in North Dakota, 38 in Missouri, 16 in Illinois and two in Oklahoma.

Bluefields, W. Va.—The Mercer county jail here has become so crowded that there is not enough room for those given jail sentences in this term of court. However, a plan was accepted by Judge J. Frank Maynard to meet the emergency. Convicts will be permitted to give bail and take their turns at serving the sentences as other prisoners' terms are completed.

Northwest

Milwaukee—The Milwaukee police are looking for the nerviest burglar of the city. He stole 3,000 bees and a hive from Julius M. Barr.

Mason City, Iowa—Three persons were killed as the result of a headon collision between two freight trains on the Rock Island system here.

Helena, Mont.—Secretaries of state and other state officials gathered here for the seventh annual session of the American Association of Secretaries of state.

Omaha, Neb.—Two persons were drowned in a cloudburst that virtually destroyed Beulah, Wyo., a village fourteen miles west of Spearfish, S. D., according to advices reaching Omaha.

Port Townsend, Wash. — Louise O'Brien, 14 years old, missing from her home all night, was found at daybreak asleep inside the muzzle of a 14-inch gun of the shore batteries at Fort Worden. Other guns at the fort had been fired just before the girl was discovered.

Foreign

Naples—Enrico Caruso, world famous tenor, died here.

Christiania—The draft of a trade agreement between Norway and Russia, which a Norwegian delegation has been negotiating with the Russians at Stockholm, has been approved.

Riga—The discovery of a counter revolutionary plot at Rostov-on-Don and the arrest of its leaders is announced here. The movement was being led by Major General Uktomsky.

Geneva—It is announced that the Swiss federal authorities have given former Kaiser Karl of Austria until the end of August to leave Swiss territory. It is reported that Charles intends to take up his residence in Spain.

Tokio—According to the Ashi Shimbun negotiations have been opened at Harbin, Manchuria, between the Japanese and representatives of the Far Eastern republic at Chita concerning the conditions for the evacuation of Siberia.

Rome—The committee on foreign affairs of the Chamber of Deputies discussed the Silesian question and decided to adhere to the British viewpoint of not sending more troops to Upper Silesia prior to the meeting of the Supreme Council.

Riga—The offer of Herbert Hoover to aid Russia in relieving suffering due to famine on condition that all Americans now held prisoners in Russia be released, has been accepted by the Rusisan authorities, who suggest immediate negotiations in order to realize speedy assistance, according to a dispatch from the Rosta News Agency of Moscow.

Paris—The reparations commission has notified the German government that 29,400 horses, 130,000 sheep and 175,000 horned cattle must be delivered by Germany to the commission in the next six months. This decision comes under the treaty of Versailles.

Budapest—Hungary's financial situation has been further complicated by the intense heat of the last few days which has caused the ink to run on the paper money, making mere smudges of the badly printed bills. Careful capitalists are using refrigerators as safes.

Survivors Tell of Heroism of Captain Who Choose Death With Vessel; 167 Rescued, 30 Missing Believed to Have Perished.

San Francisco.—Oilsoaked wreckage coating the treacheries of Blunt's reef, 190 miles north of here, conceals the mystery of some 30 persons missing in the sinking of the coastwise steamer Alaska from which 17 bodies have been recovered.

Out of the total 214 persons believed to have been aboard, 167 have been saved. The records of the purser went down with the ship and the exact loss of life may never be known, for checking thus far shows that several passengers have been rescued whose names did not appear from the company's list of passengers and crew prepared at Portland, Ore., the city of departure.

Forty-Seven Apparently Dead.

The check thus far indicates that 47 may have perished.

At Eureka, Cal., 40 miles north of the wreck, are 17 bodies, 15 of which have been identified as six passengers, including one woman, and nine of the crew. Meanwhile along the rocky coast patrols continued for the second day a search for the bodies. In hospitals at Eureka were many injured survivors.

A score or more survivors reached San Francisco on the first train from Eureka since their rescue. Outstanding in their recital of tragedies of the fog-enveloped steamer, was the tribute to heroism of Captain Harry Hobey, who went down with his ship, of his officers and crew, and the officers and crew of the rescue steamer Anyox.

Current Drags Ship Ashore.

But one explanation of the wreck was made, when Second Officer D. D. Dupre of the Alaska declared that an uncharted northeast current dragged the fog-bound ship several miles inshore into the reef.

"We thought we were three miles outside the reef, when really we were inside," said Dupre. "An uncharted northeast current had carried us inshore. We observed this curren later when our life craft drifted northerly from the wreck."

FORMER N. D. GIRL IS HELD

Is Material Witness in Slaying of Fiance in Los Angeles.

Fargo.—Mrs. Madalynne Obenchain, a former North Dakota girl, is being held in the county jail at Los Angeles, Cal., as a material witness in connection with the slaying of her fiance, John B. Kennedy, an insurance broker.

Mrs. Obenchain was formerly Madalynne Connor, the daughter of John Connor of Fessenden, who for many years operated a hotel there and who was for several terms mayor of that city.

Mrs. Obenchain attended the grades and high school at Fessenden for a time and later attended the Sisters school at Jamestown. Her father died several years ago and Mrs. Obenchain was last in the state about four years ago when she was in Fessenden to settle the affairs in connection with her father's interests in the hotel.

She sold her interest in the hotel to James Connor, who is at present conducting the hotel there.

LAWYER FOUND DEAD IN CAR

Geo. H. Stillman's Death Near Minot Shrouded in Mystery.

Minot.—George H. Stillman, well known Minot attorney, and one of the state's recognized authorities on commercial law, was found dead in his car in the outskirts of the city Sunday with a bullet wound in his right temple and a revolver clasped in his hand.

The body was found by W. J. Rowan, Minot undertaker, and had been in the automobile since early Saturday evening, several motorists reporting having seen the machine with the man apparently asleep in it Saturday night and Sunday morning.

Posse Nabs Bank Robbers.

Geneva, Minn.—A lone bandit who tried to hold up the Geneva State bank here was captured by a posse of farmers and businessmen after a four-mile chase.

Roach Poison Kills Diner.

Minneapolis.— Cockroach poison accidentally placed in pancakes when mistaken for graham flour, caused the death of one man and poisoned three other persons.

Cabinet Members Approached?

Washington.—The charge that "the dye monopoly headed by the Chemical Foundation company," has sought to influence three members of President Harding's cabinet in an effort to perpetuate its "present exclusive power in this country," is made by Representative Frear, republican, Wisconsin, in a letter to Chairman Penrose of the senate committee, considering the tariff bill. The communication was made public with the announcement that coules would be sent to the president and "others."

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

A circus ticket seller related this incident. They were showing in a small town, and the admission was 50 cents, with children under ten, half-price. At the two o'clock performance a lad of fourteen put down 75 cents and asked for tickets for himself and his sister.

"How old is the little girl?" asked the ticket seller.

"Well," said the boy, "to tell the truth today is her tenth birthday, but she wasn't born until five o'clock in the afternoon."—Boston Transcrit.

BELL-ANS FOR INDIGESTION

Demonstrated on Spot.

Miss R. sends us the story of a clergyman who was attending the commencement exercises at a certain college for girls. The reverend gentleman said with great unction to an interested group, "I approve of the higher education for women because of the refinement, the culture, it inevitably fosters in our young women, and which is so manifest today in all the exercises."

Just then a sweet girl graduate came rushing across the campus, waving her diploma frantically aloft and shouting, "Through, by gosh!"—Boston Transcript.

Physiological.

One Saturday afternoon a woman entered a grocer's shop. After ordering her weekly list of goods the grocer asked her if she would be good enough to take the things with her.

She became indignant.

"Well, ma'am," replied the grocer, "I'm sorry to have to ask you to take them, but I've no one here—my right hand's away with a swollen foot."

The first ingredients of the melting pot are soap and water.

"Sir," exclaimed the artist who had been engaged to entertain the Wadleigh guests, "my contract he call for two songs zis evening. You ask me to sing three. It's one outrage. I sing before zee crowned heads of Europe."

"Oh, that's all right," said Mr. Wadleigh, soothingly. "You are not before the crowned heads of Europe now, but real people. HIS OWN AND SOME OTHERS

Scenario Writer Had His Contribution Returned, With More Than Simple Interest.

Rex Beach, who has forsaken the profession of novelist for the more lucrative one of scenario writer, said at a Hollywood tea:

"It is a common enough thing for a good man to dash off a scenario in a week or so and get $10,000 for it, but scenario writing, nevertheless, isn't all beer and skittles."

Mr. Beach chuckled.

"There's an English poet in our midst," he said, "who recently decided to make his debut in the film world. The other day as I was lunching with him the bell rang and the servant brought in a bulky envelope.

"The English poet examined the typescript in the envelope. Then he ground his teeth.

"'This is what I call rubbing it in,' he snarled. 'I sent the Star Film corporation four scenarios last week, and blamed if they haven't returned me nine.'"

Metal and Paper Money.

Only gold coins are worth their face value by reason of the gold in them at the world rate of $20.67 an ounce. Silver and other coins do not have metal in them that equals their face value. Their value is depreciated by an over issue of paper currency, as has generally occurred in European countries and by the demand for American dollars in bills of exchange to pay for American exports which have been greatly in excess of American imports. Under more normal conditions the demand for bills of exchange in America and other countries about balance, and keep most issues of money at a parity.

Poor Orphans.

"Say, waiter, is this an incubator chicken?"

"I don't know, sir."

"It must be. Any chicken that has had a mother could never get as tough as this one is."

AMUSED HIS NAVAL HOSTS

Lawmaker Eminently Justified His Reputation as a Man of Some Eccentric Doings.

One of the new members of the house of representatives, who is regarded as a somewhat eccentric person, was a continual source of astonishment aboard a transport on her trip to the bomb-dropping experiments off the Virginia capes. Examining an instrument aboard the vessel, and being informed it was a range finder, he inquired how far it would shoot. Being loaned a telescope to make a better examination of the battleship Iowa, he looked through the big end instead of the little one and then complained he could not see anything. He followed this with a denunciation of a naval policy which permitted the purchase of such useless things.

But the thing that interested some of his colleagues most was the fact that he brought no baggage aboard, not even a toothbrush, so far as anybody could find out.

"Why should I bring any baggage?" he asked. "We're only going to be gone four days aren't we?"—Brooklyn Eagle.

Busy Bertha.

The dear old lady was traveling in a compartment of an English train and, what with her knitting and watching the scenery and her guide book, she was enjoying herself about as much as old ladies usually do. Then a young soldier, carrying a rifle, came in and sat opposite her. Immediately she stiffened up and presently said, in no unmistakable tones:

"Sir, will you please put the nozzle of your gun out of the window?"—Harper's Magazine.

Exclusiveness.

"Alice doesn't know her own mind."

"Isn't it in her set?"—Boston Transcript.

Got a Backhander.

"What did Edith say when you asked her for her hand?" "She simply said, 'You take the palm!'"

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Redwod Falls—Carl Kempfert, aged 70, a retired farmer, jumped into a cistern while visiting at the home of a son near here, and drowned.

Moorhead—Clay county has been asked by Carlos Avery, state game and fish commissioner, to set aside a range of townships, to save the prairie chickens from extinction.

Bemidji—Police are endeavoring to find the assailant who wounded Otto Voss of this city, shot while walking along the Soo railroad tracks. The bullet penetrated his chest near the heart.

Ellsworth—I. W. Byers, a former resident of this section, was killed while at work putting up hay on his farm near Hartley, Iowa. A hay stacker fork fell, striking him on the head, breaking his neck.

Winona—The 1922 convention of the Minnesota department of the American Legion will be held at Virginia, it was decided at the third annual convention of the Minnesota department at Winona.

St. Paul—Ten miles an hour will be the speed limit in the downtown district hereafter, according to an order issued by Chief of Police H. J. Creapeau, following three deaths from automobile accidents within a week.

Baudette—Thirteen year old Helen Arnold of this city has a record to be proud of. She made her third rescue from drowning of the year when she swam to the aid of Mrs. Ray Flynn, who was in distress in Four Mile bay.

Moorhead — An expert geologist from the University of Minnesota, has told city officials that an underground lake lies under the city and that there is no danger of exhausting the water supply by tapping for additional artesian wells.

Montevideo—Threshing operations are becoming general in this vicinity. The yield of small grain is coming close to the average. Wheat is going about 10 to 13 bushels to the acre, oats 40 to 50 bushels and barley 20 to 30 bushels.

Winona—Mistaking three patrolmen in the dark for prospective customers, John Mayzek attempted to sell them moonshine and was placed under arrest, police announced. They reported the discovery of five neatly labeled bottles of home made whisky in Mazek's pockets.

Minneapolis—Roy L. Boe who has been chief prohibition inspector for Minnesota under State Prohibition Director Jesse G. Steenson since national prohibition went into effect, has resigned to become the Minneapolis representative of the Cragin Products company's industrial alcohol plant, Chicago.

Winona—Failure to keep the safe locked made the theft of registered Liberty Bonds, valued at $6,000 and other bonds worth $200 and currency and checks totaling $200, from the hardware store of A. J. Larsen, at Mabel in Fillmore county, an easy matter. Entry was effected through a locked rear window.

St. Paul—Judge Wilbur F. Booth of the United States district court awarded the Omaha Structural Steel Bridge company of Omaha, Neb., $51,006.89 against the city of Rochester, for additional compensation due to it as a result of building a hydro-electrical power plant for Rochester during the years 1917 to 1919.

St. Peter—Using more than 600 people in its cast and telling a story that is of absorbing interest throughout Minnesota and Northwest, St. Peter's big historical pageant will be given on Aug. 18 and 19. It will be the most pretentious community enterprise ever attempted by this city, and is expected to attract thousands of visitors.

Baudette—Tommy Gibbons, St. Paul, aspirant for the light heavyweight boxing title, is spending a week in the vicinity of the Lake of the Woods. Gibbons is keeping in fighting trim tramping through the forests in search of a suitable hunting lodge where he and brother Mike may hunt big game this winter.

Jackson — When Mrs. William Schatz saw her two small children carried under the swift current of the Des Moines river near here, she rushed into the water to save them, and she, too, was drowned. Although help was within hailing distance, the tragedy was not revealed until the children's clothing was found on the bank of the stream.

Winona—The cause of the death of John Karsten, aged 28, a farmer of Nedine, near here, whose body was found by a searching party in the weeds on a neighboring farm after an all night hunt, probably will remain a mystery. A coroner's jury here returned a verdict that Karsten met death by a cause unknown, but decided that no evidence of foul play was found.

Thief River Falls—The United States civil service commission will conduct an open competitive examination here Friday Aug. 13 to fill the position of postmasters at Red Lake Falls and Plummer.

Kiester—At a special election here, bonds were voted to install electricity in Kiester.

Blooming Prairie — The Blooming Prairie National Farm Loan association has been organized here.

Gilbert—Robbers enacted a "movie" holdup here and escaped from the Gilbert hotel with $400, and 10 shots were fired.

Warroad—The two-year-old child of Mr. and Mrs. Morris Goodwin of Warroad is dead as the result of chewing a paper of fly poison.

Minneapolis—More than 1,400 farm laborers have been placed on Minnesota farms through the county farm bureaus in the last two months.

Hibbing—Robbers chopped their way into a candy store and removed a 400 pound safe. After reaching a secluded place, the safe was opened and $50 taken.

Dundas—Sam Remington, Sr., is dead here from injuries received when struck by an unidentified automobile driver. The driver of the machine did not stop.

Breckenridge—While playing with his elder brother, Edwin Stevenson, aged 10, was struck below the right ear with a jack-knife, an artery being severed.

Ulen—Ernest McDougal, farmer living near here, was probably fatally injured when he was kicked over the eye by a horse and a section of the skull torn away.

Stillwater—The body of John L. Leffler, aged 72 years, who has been missing two days, was found in Lily lake. Boys playing near the lake found the body.

Ortonville—One man was killed, another perhaps fatally injured and three others knocked unconscious in a boxcar holdup and battle between eight men near this city.

Virginia — Contractors completing the new court house here have announced they expect to have the structure in readiness for the September term of the district court.

Redwood Falls—Two drownings occurred in the Minnesota river Sunday. August Menohow, a young farmer, and H. E. Brocksmith, a transient harvest hand were drowned while swimming.

Minneapolis—Ora Titus, lineman for the Minneapolis General Electric company, who was rescued by firemen while being slowly electrocuted at the top of a power circuit pole, died in the General hospital.

Jackson—The Minnesota Loan and Trust company has bought at par $40,000 worth of bonds recently voted by the electors here. The sum of $25,000 will be used for erecting an armory and $15,000 for a white way light system.

Hibbing—Petitions asking that Hibbing be incorporated as a city will be presented to the district court some time this week, it has been announced here. A sufficient number of names have been attached to the petitions to make this possible.

Canby — Harvey Davis, Marietta electrician, badly burned by receiving 2,300 volts electricity when a short circuit occurred on a switchboard of the Canby electric light plant, which he was rewiring, is dead at the Swenson Memorial hospital here.

Fergus Falls—Artnur P. Peterson and Justin O. Juvrud of Rothsay, arrested and brought here for a hearing on the charge of robbing the United States mails, waived examination and were held to the next term of federal court under $2,000 bonds each.

Thief River Falls—Several loads of rye, the first to be threshed in this vicinity, were marketed here. The grain was grown by Ole Skaar, a farmer living near here and is of good quality. Threshing will be general in this district within the coming week.

Minneapolis—Proposal to construct a highway to Farmington by way of Cedar avenue, thereby providing a direct route from Minneapolis to the south, which might possibly be designated as state highway No. 50, was voted down by the Hennepin county commissioners.

St. Paul—The Chippewa County State bank of Montevideo, has been closed by an order of S. B. Duea, state superintendent of banks, it was announced in the office of the state bank examiner. According to G. H. Sivright, deputy superintendent, the bank was closed because of a shortage in its reserve fund. It was not prepared to meet its withdrawals, the examiner reported.

Two Harbors—Entrapped in a burning barn on the property of Axel Ringdore, Carl, the 4-year-old son of Ringdore, and Donald Freberg, 4-year-old son of Mr. and Mrs. Arthur Freberg, were burned to death. Two other boy companions who escaped, swung a heavy barn door back in place which the two young lads were unable to displace. The children were said to have been playing with matches.

St. Paul—Plans for a merger of co-operative cheese-producing associations of Minnesota and Wisconsin for a common marketing of their product were laid at a meeting in the Capitol, by representatives of the Pine Island, Minn., co-operative cheese-producing association, and of creamery livestock associations. The discussion was preliminary to a project to gather together all the cheese producers of the two states, which produce about 80 per cent of all the cheese, into the United States, into one co-operative body.

Canby—A survey of the farming district north of here which was swept by a hail and windstorm shows that 40 square miles were covered by the storm. Madison was about the center of the disturbance. Corn was damaged on an average to 80 per cent, some fields having been completely wiped out.

Minneapolis—Mrs. W. W. Sivright, wife of W. W. Sivright, of Hutchinson, president of the Minnesota State Fair, died at Rest Home, 600 West Thirty-second street, from a paralytic stroke. Mrs. Sivright was one of the pioneers of Hutchinson.

Improved Lawn Mower.

A lawn mower that will successfully cut the grass on the incline of a terrace and that will not require its operator to pull it up and down, nor run up and down the grass bank himself, is described in Popular Mechanics Magazine. In construction the new device does not differ greatly from the old-style lawn mower. Instead of the stationary handle, the new machine has a pivoted handle set on a toothed quadrant. By lifting a stop pin from between the teeth of the quadrant, and setting it to the desired point, the mower is brought into an angular position relative to the operator, so that he can cut a lengthwise swath on the slope without leaving the ground level.

WOMEN OF MIDDLE LIFE

A Dangerous Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."—Mrs. A. KELLER, Afton, Tenn.

Mrs. Mary Lister of Adrian, Mich., adds her testimony to the value of Lydia E. Pinkham's Vegetable Compound to carry women safely through the Change of Life. She says:

"It is with pleasure that I write to you thanking you for what your wonderful medicine has done for me. I was passing through the Change of Life and had a displacement and weakness so that I could not stand on my feet and other annoying symptoms. A friend told me about Lydia E. Pinkham's Vegetable Compound and the first bottle helped me, so I got more. It cured me and I am now doing my housework. Your medicine is certainly woman's friend and you may use this testimonial as you choose."—Mrs. MARY LISTER, 608 Frank Street, Adrian, Mich.

It is said that middle age is the most trying period in a woman's life, and owing to modern methods of living not one woman in a thousand passes through this perfectly natural change without experiencing very annoying symptoms.

Those smothering spells, the dreadful hot flashes that send the blood rushing to the head until it seems as though it would burst, and the faint feeling that follows, as if the heart were going to stop, those sinking or dizzy spells are all symptoms of a nervous condition, and indicate the need for a special medicine.

Lydia E. Pinkham's Vegetable Compound is a root and herb medicine especially adapted to act upon the feminine system. It acts in such a manner as to build up the weakened nervous system and enables a woman to pass this trying period with the least possible annoying symptoms.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative and often prevents serious troubles.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Visiting Day - Golden Valley

Saturday Aug. 13, 2 P. M.

TO SHOW PICK OF HER GARDEN

Why shouldn't she smile? She has the very cream of her summer's work in her arms and lap. It will all be exhibited at the coming show. The displays of boys' and girls' club work will be an unusual feature this year. Many scores of entries of all kinds are being received. The children are greatly interested. Don't miss the Minnesota State Fair, Twin Cities, Sept. 3 to 10.

GETTING THEM READY FOR RACES

Every farrier in this part of the country is wearing a smile like this these days. With the racing season on, all kinds of work must be done to keep horses in shape. Horse racing will feature the big Minnesota State Fair, Twin Cities, Sept. 3 to 10.

Regular 15c oilers, only 5c each at Carlson's store.

Bertil Sollom came last week to spend his vacation at home. He took his mother to Grand Forks yesterday to visit relatives.

Visiting Day at the Golden Valley Experimental Farm will be on Saturday August 13th.

Carl Nyberg, Martin Olson, Walter and Marvin Sandberg came up from St. Hilaire Tuesday night for a short visit. The three latter young men departed the next day for Herman, Grant Co. where Nohre & Reierson have another job of road grading.

Mr. and Mrs. Peter Hanson have returned home, and he is again at his old job of section foreman. Mr. Hagglund who has been foreman during the former's absence, expects to go to Middle River next week and take charge of the section there while Mr. Gullickson takes a couple of months vacation.

F. B. Sewell, highway superintendent, was here last week and gave orders for tractor and grader to go to Argyle to work on a road there this week. He has men and teams filling in the street in front of the school house this week, and after threshing is over with, will try to get the road south from here graveled.

Everything is looking good at the Golden Valley station and Mr. Nesom is working hard to get ready for their visiting day on Saturday August 13th, to which everyone is invited.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Mr. and Mrs. Oien visited Tuesday at the A. H. Husth home in Greenbush and on Wednesday they departed for Fertile for an extended visit with relatives in that city.

Oscar Walland left Wednesday for Grand Forks in response to a message stating that his father had died the night before at their home in that city.

When spending a strenuous day in town, refresh yourself with a lunch at the Holt Cafe.

Born to Mr. and Mrs. C. J. Sorenson Wednesday morning, a baby girl, at the home of her brother in Thief River Falls.

Prof. Geo. L. Netteland came up from St. Hilaire Monday to enter upon his duties as principal of the Holt school. His family will come a little later.

Mrs. H. B. Young left Monday for an extended visit with relatives at Clarksville and other points in Iowa.

Born Friday afternoon to Mr. and Mrs. Martin Mattson, at the Warren hospital, an 8 1-2 pound baby girl. Mr. Mattson returned home from Warren Saturday afternoon and reports his wife and baby as getting along fine.

Little Stanley and Audrey Sorenson are staying with Grandpa and Grandma Reierson while their father is in Dakota and their mother in Thief River Falls.

Mr. and Mrs. Doeken and children and Mrs. Halvorson and children attended the Lutheran picnic near Argyle Sunday.

A large number of people from Holt and vicinity attended the visiting day doings at Golden Valley Saturday. The plots at the experimental farm are all looking fine and show what phosphate will do for the peat soils of that section.

The Carlson Merc. Co., have just received a lot of oilers which they are selling at 5c each, but the regular price is 15c each.

Death of Former Soldier

Rudolph S. Reierson died early Saturday morning at the home of his father, Ole Reierson, southwest of town. He had been sick since about the first of the year with pulmonary tuberculosis and medical skill and science could not overcome the disease contracted while in the army.

This young soldier was born Mar. 28, 1896, on the farm where he died, and lived there until he joined the army on Dec. 17th, 1917. He was sent to the Presidio training camp at San Francisco, Cal., and became a member of Park Battery B, Coast Artillery, Corps No. 52. He served with this battery until his discharge on May 16th, 1919.

They sailed for France June 15th 1918, with the A. E. F., and he was in active service at the front on the St. Mihiel, Meuse, Argonne and Verdun sectors.

Funeral services were held Tuesday afternoon at the Mission church by Rev. Myhrer assisted by Revs. Strom and Tustad. Members of the American Legion were pallbearers and carried the flag at the head of the procession to the Holt cemetery where the interment was made.

Sincere sympathy is extended to the stricken relatives of this noble young man, who, we believe, gave his life for his country, as truly as those who died on the field of battle.

A lot of large concrete tiles have been shipped in to use for the culverts on the state road north of town.

The Yeomen will have a special meeting to-night, (Friday). Very important business on hand.

Axel Nelson got a new threshing rig last week and has commenced the seasons work. He traded in his old rig on the deal.

John Johnson and John Hagberg were at Golden Valley last week putting up some small buildings on the experimental farm.

Johnson & Halvorson have finished the ditch that they had the contract for excavating, a few miles east from town.

We may be too far north to raise a good crop of corn, but not the stalks, and corn fodder is hard to beat for cow feed.

The Farm Bureau Gazette will not be coming to members until in October, due to the unsettled decision as to what paper it would be adopted by the County and State Federations.

The interior of the Holt State Bank has been brightened up with a new coat of paint. Loyd Adams did the painting in the bank and mornings and evenings he has been painting his own house.

Albert Cairns, auditor of the Red Lake Falls Milling Company of Crookston, was here Monday checking in their new agent, G. Sanoden.

Mr. Sanoden's home is near Fertile, but he will move his family here as soon as he can get a house.

The school board accepted the following bids at Tuesday nights meeting: janitor, Hjalmer Johnson, $60.00 per month; bus drivers route 1, C. L. Heinze $49.75 per month; route No. 2, C. J. Sorenson $59.00; No. 3, Nohre and Saastad $45.00 per month.

Miss Nettie Batten has been employed to teach the 6th, 7th and 8th grades at $115.00 per month.

Prof. Netteland will teach the high school, up to and including the third year.

Plow files, 12, 14 and 16 inch, to be given away at 18c each at Carlson's store.

Death of Old Resident

Andrew Hauson died Tuesday afternoon at the home of his son, Oscar, near Holt.

The funeral was held yesterday afternoon, Rev. Ordahl officiating.

Obituary next week.

Married.

Miss Bernice Hobbs and Mr. P. L. Anderson were united in marriage Saturday afternoon at Warren, by Rev. Swenson of that city.

These young people fill a prominent place in the social and business circles of our village, and their many friends join us in wishing them a hearty much joy.

The newlyweds have rented the Doeken residence and will soon go to housekeeping.

Diedrick Nyberg returned home Sunday from Dakota.

Rev. Strom went to Goodridge Saturday where he held services the next day.

The one sure winner, regardless of different seasons, is the dairy cow every time.

Work on the electric high line at Newfolden was started last week. They will get the current from a power dam at Crookston.

We have been informed that Tonnes Nelson has returned to his home in Newfolden, from the Warren hospital where he had been confined with a serious sickness.

During the past year the children of the Holt school contributed pennies toward charity amounting to $21.50. This money was applied thru Miss Newman's office as follows: European Relief $10.00; Chinese Relief $7.00; Marshall Co., Child Welfare $4.50.

If you should want some fruits for canning we shall be glad to place your order at as reasonable a price as possible.—Holt Cafe.

Mr. and Mrs. K. Brown's little son, Melvin is afflicted with a wasting disease that causes very thin blood or almost not any. The parents have consulted several physicians but none them seem to be able to help the poor boy.

Twelve, 14 and 16 inch plow files given away for 18c each at Carlson Mercantile Company's big store.

The BEST MEN in our country today will tell you that training is absolutely necessary. If you wish to do something worth while, training is essential. You can secure this training at NORTH STAR COLLEGE, Warren, Minnesota.

F. B. Sewell the highway superintendent from Crookston was here Monday to look after the work on the Babcock road in the south part of town, where several men and teams have been working with scrapers to level the road.

Mr. Sewell spoke to Nils Ness, the patrolman, about wanting to get men and teams to gravel the Babcock road, commencing a mile north from town.

The Federal Government is giving blasting powder to farmers who have stump and rock blasting to do, if they will pay the freight. This blasting powder is called Picric acid, and is a war salvage. It comes in sticks like dynamite and is stronger than the 40 per cent dynamite. Each farmer can get from 100 to 500 pounds. The freight amounts to 9 cents per pound, coming in car load lots into Bemidji. Two car loads are going to be shipped to that city. Leave orders with the county agent.

Oilers, 5 cents each at Carlson's store, regular price 15c.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. [illegible] blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Obituary.

Mr. Andrew Hanson died at his homestead, one mile south of Holt, on Tuesday afternoon August 16th, after many months of suffering, during which time he was confined to his bed, but he now rests in peace in the Heavenly home.

Andrew Hanson was born in Spydeberg prastegjald, Smaalenenne, Norway April 21, 1832. He came to this country in 1879 and settled in Chicago where he lived until in 1884 when he moved to Minnesota and settled on the homestead where he resided until his death.

His wife and two sons, Hans and Johan Ludvig, preceeded him in death several years ago. He leaves one son, Oscar, and one daughter, Mrs. C. L. Heinze, to mourn the death of a kind and loving father.

Mr. Hanson was 89 years, three months and 25 days old, and was one of the olderst settlers in this community, many of whom attended the funeral which was held at the Synod church Thuraday afternoon, Rev. Ordahl officiating. The internment was made by the side of his wife in the Holt cemetery.

Sincere sympathy is extended to the sorrowing relatives and friends.

Mr. and Mrs. Dan Decatur did business in Steiner Monday.

Miss Katherine Reidl went to Thief River Falls Saturday.

Mr. Vivian Copp helped Harvey Copp during his threshing.

O. M. Mattson had a stroke of paralysis Sunday and has been very low since then. On account of his advanced age and weak condition but very little hopes can be entertained for his recovery.

The friends of Mr. and Mrs. P. L. Anderson gave them a surprise party Tuesday night in the Sollom building. They were presented with a nice little sum of money and everyone present had a big time.

Ed Nyberg became so bad Saturday that his mother couldn't keep him in bed, so that she sent for help. T. E. Ellestead, A. L. Carlson and Rev. Ordahl helped her take him to the sanitarium at Thief River Falls during that day. The doctors operated on him Tuesday, in hopes of relieving the pressure on the brain, but it did'nt seem to help very much. He has been getting weaker right along and the end is expected at almost any time. Later: Ed Nyberg died at 5:30 yesterday afternoon

Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

HOUSE BILL CUTS TAXES A BILLION

Revision Plan Adopted by Majority of 274 to 125; Vote Along Party Lines

IS SENT TO THE SENATE

Income Levy Exemption for Heads of Families Raised to $2,500; Soda, Sporting Goods Taxes Repealed; Now Up to Senate.

Washington.—The tax revision bill of 1921, estimated to cut $818,000,000 from the nation's tax burden by 1923, has been passed by the house 274 to 125, on an almost straight party vote. Nine republicans voted against the bill.

The bill was sent Monday to the senate, where is will be taken up after the end of the recess on September 21. Meantime the senate finance committee will hold additional public hearings on the whole tax question and probably revise the measure in a number of details. As finally passed by the house with nearly 100 committee amendments, the bill is estimated to produce a total of $3,347,000,000 revenue this fiscal year, or $221,000,000 less than the estimate under the existing law.

Not to Be Felt Until 1923

As repeal of the excess profits tax and higher income surtax rates would not become effective until next January 1, the full force of the measure will not be reflected in government receipts until the calendar year 1923, but republican leaders say that through repeal of the transportation and other taxes the reduction in the tax bill in the next calendar year will be approximately $512,000,000.

The principal changes in present tax levies made by the bill as passed include:

Repeal of the excess profits tax.

Increase of the corporation income tax from 10 to 12½ per cent, effective next January 1.

Repeal of the income surtax rates from 32 per cent to 65 per cent inclusive.

Income Tax Changes.

Increased exemptions to heads of families, effective as of last January 1, to $2,500 for incomes not in excess of $5,000 and additional exemption for dependents to $400 from $200.

Repeal of the tax on life, fire, and marine insurance policies and imposition of the corporation tax of 12½ per cent on all such insurance companies, except fraternal, effective next January 1.

Repeal of the transportation taxes, effective next January 1.

Repeal of the taxes on fountain drinks, ice cream, and other beverages, and the substitution of manufacturers' taxes as follows: Four cents a gallon on cereal beverages; 5 cents a pound on carbonic acid gas; 2 cents a gallon on fruit juices of soft drinks; 3 cents a gallon on still drinks, exclusive of mineral and table water, and 10 cents a gallon on fountain syrups. These changes would go into force on enactment of the law.

Repeal of the stamp taxes on perfumery, cosmtics, toilet preparations and proprietary medicines upon enactment of the bill.

Sport Goods Tax Ends.

Repeal of the 10 per cent tax on baseball, football and basket ball equipment, skates, toboggans, snowshoes and skis, and reduction of the 10 per cent tax to 5 on tennis, golf and polo equipment, games, and the like, the whole to come into force on the enactment of the bill.

Exemption from the income tax of the first $500 of income from investments in building and loan associaassociations, effective on passage of the law.

A reduction of from 5 to 3 per cent on the levy of candy, and from 10 to 5 per cent in the levies on fur articles and art and art works, and repeal of the tax on electric fans. These would be effective when the bill becomes a law.

U. S. TELLS COSTA RICA TO GRAB PANAMA LANDS

Washington.—The United States government has decided to authorize the Republic of Costa Rica to occupy territory now held by Panama but which was assigned to the former under the famous White Loubert boundary award.

Panama was so informed in a note which was dispatched by Secretary of State Hughes August 18. The text has just been made public by the state department.

Peaunt Roaster Starts Big Fire.

Minneapolis—Fire which started in a peanut-roasting machine on the third floor of the Gamble-Robinson company, 220-222 North Sixth street, damaged the building to the extent of about $50,000. The fire was confined to the one building. The building is in the center of the closely congested wholesale district, and the first alarm was followed by a "2-11" call, bringing out practically all the apparatus in the downtown district. In a few minutes about 30 lines of hose were in use on the fire and nearby buildings.

MINISTER DISCUSSES HIS WIFE'S TROUBLES

Rev. A. H. Sykes, former pastor of the Watkins Park Presbyterian church, Nashville, Tenn., says:

"After seeing what Tanlac has accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have ever seen anything give such prompt results. Mrs. Sykes had been in delicate health for ten months, suffering from stomach trouble and nervous breakdown.

"I frequently sought medical advice but Tanlac is the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household duties. I think it only a short time until her health will be fully restored."

Tanlac is sold by leading druggists everywhere.—Advertisement.

YOUNG GIRL FINDS RELIEF

Wants to Tell Other Girls All About It

Evansville, Ind.—"I am eighteen years old and have been bothered for several months with irregular periods. Every month my back would ache and I always had a cold and felt drowsy and sleepy. I work in a millinery shop and I went to work every day, but felt stupid and would have such cramps. I had seen Lydia E. Pinkham's Vegetable Compound advertised and had heard several women talk of it, so mother got me some. This Vegetable Compound is wonderful and it helped me very much, so that during my periods I am not now sick or drowsy. I have told many girls about your medicine and would be glad to help anyone who is troubled with similar ailments. You may use my testimonial as you like."—STELLA LINXWILER, 6 Second St., Evansville, Indiana.

Some girls lead lives of luxury, while others toil for their livelihood, but all are subject to the same physical laws and suffer in proportion to their violation. When such symptoms develop as irregularities, headaches, backaches, bearing-down sensations and "the blues," girls should profit by Miss Linxwiler's experience and give Lydia E. Pinkham's Vegetable Compound a trial.

Lots of men wouldn't know what to do with their money if they should ever get out of debt.

RAIL FUNDING PLAN ADOPTED

House Votes for Administration Measure; Amendment Prcqosals Lost

SENATE O. K. REQUIRED

Charges Roads Are "Pampered Pets of Government" Refuted; Mondell Says Legislation Will Hasten Reduction of Rates.

Washington.—The administration's railroad funding bill has been passed by the house. The measure now goes to the senate.

The vote was 214 to 123. It is not the present intention of the senate to take up the bill before the recess.

Changes Rejected.

An unsuccessful effort was made to eliminate a section which provided that no payments shall be made by the government to any carriers "on account of the so-called inefficiency of labor" during federal control. An amendment to strike out this provision, offered by Representative Webster, Washington, a republican member of the finance committee, who had favorably reported the bill, was rejected, 145 to 17.

Proponents of the measure suceeded in voting down all motions to amend the bill in important particulars and as passed the measure, except for a few minor changes, is in the form in which it was reported to the house.

Roads Pampered Pets.

Contending the government was bound by previous legislation to recognize claims growing out of "labor inefficiency," Mr. Webster said passage of the bill without elimination of the clause to which he objected would be "a monstrous repudiation of a solemn contract." Attacking the bill, Mr. Rayburn declared the railroads were the "pampered pets of the government."

Representative Mondell, republican leader, asserted enactment of the bill would do more than anything else "to hasten the day when transportation rates can be reduced."

The benefit that will accrue to the general public, he held, will be infinitely greater than that of the benefit to the railroads.

FARM RELIEF BILL PASSED

House Approves Billion Dollar Finance Corporation Scheme.

Washington.—With a number of amendments the senate bill, which would make one billion dollars available through the war finance corporation for stimulating export of agricultural products, has been passed by the house.

Only 21 representatives voted against the bill while 314 voted for it.

By a vote of 196 to 136 the house rejected a motion to recommit the bill, offered by Representative Wingo, democrat, Arkansas, to reinsert the eliminated senate provisions for purchase of $200,000,000 worth of farm loan bonds and to add an amendment authorizing the war finance corporation to make direct loans to agriculturists.

CLARA HAMON IS MARRIED

Slayer of Oklahoma Oil Millionaire Weds Movie Director.

Los Angeles, Cal.—Clara Smith Hamon, who was acquitted in Ardmore, Okla., several months ago when tried for the murder of Jake L. Hamon, has been married here to John W. Gorman, a motion picture director. After obtaining a license to marry, the couple drove to the residence of the Rev. M. Howard Fagan, pastor of the Wilshire Boulevard Christian church, who performed the ceremony.

Mr. Gorman announced he and his wife would make their home here. Mrs. Gorman has been engaged since last April in making a film under his direction.

Wife's Fidelity Costs Life.

Porterville, Cal.—Fidelity to her husband cost the life of Mrs. Ermin Bachman, authorities declared. She was shot and killed by Walter H. Alexander, according to a story told officials by Bachman, when she chose to live with her husband rather than go with Alexander.

To Probe Grain Dealers.

Washington.—Investigation of the activities of the National Grain Dealers' association and other organizations alleged to be "engaged in combatting legislation for the relief of agriculture," was ordered in a resolution by the senate.

Townley, Gilbert to Appeal.

Washington.—A. C. Townley, president of the Nonpartisan league, and Joseph Gilbert, manager of the league's organization department, have filed notice that on October 10 they will ask the supreme court to consider an appeal from the state courts of Minnesota in which they were convicted of having opposed enlistments and the purchase of Liberty Bonds during the war and of having declared the United States would soon be bankrupt, urging that the money be invested in Nonpartisan league elevators.

$488 FOUND ON STARVING GIRL

Prisoner Put Under Observation When Mental Quirk Is Scented.

FAINTS IN STATION

Police Matron Finds Roll of Bills on Girl After She Had Made an Outcry About Being Robbed—Looking for Work.

New York.—Lieutenant Putz looked up from his work behind the desk in the West Forty-seventh street police station one day to see a white faced young woman clinging to the rail, regarding him timidly.

"Please," she said haltingly, "I am hungry. All I have had in two weeks has been a piece of pie and a bottle of ginger ale. I am very hung—" and her voice trailed off and she sank to the floor.

Had Gone Without Food.

By the time the lieutenant reached the front of the desk she was unconscious.

Policemen cared for the visitor until the arrival of a doctor. He diagnosed the case as malnutrition.

After she had been revived, the girl told the police she was Millie Renner, twenty-four years old. She said she had formerly lived with an aunt in Jersey City. Three weeks ago she came here, hoping to find employment. She had never worked before, she added. What little money Miss Renner had was soon gone, and since she had walked the streets in the day and slept in hallways and parks at night.

Find Roll of Bills.

Miss Renner was booked on a charge of vagrancy and sent to the West Thirty-eighth street station, where there is a matron. At that station there came a surprise for the police. The prisoner made an outcry, declaring she had lost her money. The matron, believing that lack of food had brought hallucination, sought to quiet her by telling her she had no money. The prisoner insisted, and raised such an outcry that the matron searched her. Wrapped in a newspaper about the young woman's waist she found a roll of bills amounting to $488.

She Was Unconscious.

This last phase of the case was told in the West side court where Miss Renner was taken. The magistrate sent her to Bellevue hospital for ten days, during which time she will be under observation.

HIS WIVES BEST OF PALS

Two Young Women Married to Same Man, on Friendly Terms as Husband Awaits Trial.

Chicago.—Two pretty young women, wives of Edward Breuer, await the trial of their husband on a charge of bigamy. The wives are the best of pals.

Breuer, formerly an army sergeant, left his first wife to go west. In Evanston, Ill., he met, wooed and won Miss Frieda Shoen.

"What's the use of being jealous?" asked wife No. 1, who was Miss Sophie Daehr of Syracuse, N. Y.

"It would not do one bit of good to get angry and, besides, I could not dislike Frieda. She is a dear."

WORSTS BEAR IN BATTLE

Mother Bear With Three Cubs Attacks Cattleman Armed Only With Pocket Knife.

Asheville, N. C.—Walter Foster, a cattleman, in a roundup in the Blue Ridge mountains, met a mother bear and three cubs.

Foster, who is suffering with a badly mangled arm, encountered the bear suddenly in a dense underbrush and was forced to rely upon a pocket knife when the animal attacked him.

The bear getting the worst of the melee, retreated about 200 yards where it was later found dead.

Making History.

INFANT MORTALITY in past ages has been something frightful, something almost beyond belief, and even today it occupies the time and the mind of leading physicians in all countries. The death rate among infants is being gradually reduced through new methods of hygiene, new preventatives and new remedies for infants. This reduction in the death rate has NOT been accomplished by adapting the precautions taken and remedies used by adults. Rather has it been to keep clear of the old methods, and, choose after long research the precautions and remedies specifically applicable to infants.

This being so, is it necessary for us to caution mothers against trying to give her baby relief with a remedy that she would use for herself? Will she remember that Fletcher's Castoria is strictly a remedy for infants and children?

Children Cry For Fletcher's CASTORIA

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad. It can only cry and look to you for help. But the more you love baby, the more you want to help baby, the more you ought to realize what a wonderful remedy Fletcher's Castoria is. It has been used for babies' ailments for over thirty years.

An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Doctors who know what is safe and best for babies have only good to say of it.

Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it. Soon you will learn to depend on Fletcher's Castoria, made just for Infants and Children, and of course you would not think of using anything for them that was not prepared especially for Infants and Children. So keep it in the house.

Checker Player's Opponent Was the One to Get the Benefit (?) of Those Cigars.

A general storekeeper in an Indiana town, whose name was synonymous with all that is popular in the game of checkers, received a box of cigars from an enthusiastic drummer from Chicago during the course of the merchant's last battle with an ex-champion from Missouri.

"With those cigars," said the donor, "you can beat the world."

"Well," said the storekeeper, quietly and significantly, "I have to play Jones this afternoon."

"Never mind, old man; with those cigars you will play all right."

Later in the day they met again, and the storekeeper informed the drummer that he had won a game from Jones that afternoon.

"Fine! Those cigars were a help?"

"I hardly think so," said the storekeeper.

"Didn't you smoke them?"

"Me smoke them?" cried the storekeeper. "No! I don't smoke But I gave one to Jones."—Philadelphia Ledger.

When You Feel That Way.

She (gushingly)—There are days when we seem more in unison with nature than at other times; when our hearts seem to beat in accord with the sublime harmony of the universe. Have you ever noticed it?

He—Indeed, I have. It is always that way with me on pay day.

Money talks, but unlike men it never gives itself away.

IF IT HADN'T BEEN SUNDAY

Cook Certainly Would Not Have Overlooked the Use of That Insulting Pronoun.

The ritual of society, as women make it, is very exacting the world over, even in almshouses. In this relation there is told a story showing the serious difficulty that arose among a set of workhouse officials in a Western town.

The infirmary nurses, three in number, had demanded a separate sitting room and the delight of Sunday dinner therein, and the matron had sought to humble them by sending the cook to enjoy her Sunday dinner in their company. The brawny cook described what occurred as follows:

"Well, Nurse Jones, she comes down and gets inside the door. 'Four plates?' she says. 'Four? Who's the fourth?' 'Me,' says I. 'You!' she says, and with that she tosses her head and walks away."

Here the cook drew a long breath, and then continued: "If it hadn't been Sunday, gentlemen I should have let her have it for calling me 'you!'"—Exchange.

Airplanes to Aid Surveyors.

Railroad engineers in the future when making reconnaissance surveys in unknown countries will find the airplane a great saving in time and money. An aerial survey of a proposed Philippine railway showed the possibilities of the method.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Obituary

Ole M. Mattson was born June 4, 1842, in Sonfjord, Norway, and was baptized and confirmed there. He died at his home in Excel, from paralysis, on Sunday evening Aug. 28, 1921, aged 79 years, 2 months and 26 days.

The deceased emigrated to America in June 1874 and settled in Illinois and was married there the same fall to Miss Ragnhild Olson. They moved from Illinois a few years later to Minneapolis, where they lived a couple of years, and then moved to Brookings, S. Dak., and filed on a homestead. His wife died at Brookings on June 7, 1889. Later he moved with his family to Decorah, Iowa, where they lived a couple of years, and where his only daughter was married, and then he went back to South Dakota and settled in Roberts county. In the spring of 1900 Mr. Mattson moved to Minnesota and settled on the farm, where he peacefully passed from earthly life to the Heavenly Home.

He leaves to mourn the death of a good father, one daughter, Mrs. Hans Leon of New Effington, S. D., and two sons, Charles O. of [illegible], Sask., Canada, and Martin O., who has always lived at home and taken care of his father.

The funeral services were held at the home and the Synod church on Wednesday afternoon, Rev. Ordahl officiating and interment was made in the Holt cemetery.

Sincere sympathy is extended to the [illegible] of the deceased.

Death of Little Child

Mr. and Mrs. H. P. Peterson's little son died Sunday of heart trouble. The child was about a year old and had been sick for sometime. The funeral was held at the Synod church Tuesday, Rev. M. B. Ordahl officiating, and the interment was made in the Holt cemetery.

Sincere sympathy is extended to the grief stricken parents and other relatives.

Mr. and Mrs. A. L. Carlson's baby boy, Glenn Harding, was baptized Tuesday night, by Rev. Thev. Myhrer.

Dr. Froehlich was called Tuesday night to see Mrs. Ole Hanson, who was quite sick with stomach trouble at her home, 8 miles north of Holt.

Rev. Kriedt will conduct English services in the Norwegian church Sunday afternoon at 3 o'clock. Everybody cordially invited to attend.

Corn and cows, should be the slogan of every farmer.

Obituary.

Edward Nyberg was born in Ringbo Nov. 1st, 1890, and died at the sanitarium in Thief River Falls on Thursday afternoon Aug. 25th, 1921, aged 30 years, 9 months and 24 days.

When Edward was about 16 years old he moved with his parents onto a farm, a mile west of the present home, where they lived for four years, when they moved onto the farm, now owned by his mother, and built a good residence.

The deceased had lived at home most of the time and had charge of the farm since he was 14 years old.

He was drafted during the summer of 1918 and was stationed at Camp Cody, Deming, New Mexico, until the signing of the armistice.

Edward had'nt been well since during the winter, and later in the spring the physicians pronounced his trouble as tuberculosis.

The funeral services were held at the Mission church Sunday afternoon, Revs. Myhrer and Tystad officiating. Soldiers of the late war, dressed in uniforms, acted as pall-bearers. The interment was made in the Holt cemetery.

The funeral was one of the largest ever held here and was attended by relatives and friends from Thief River Falls, Middle River and other points and a wide territory around Holt.

Sincere sympathy is extended to the sorrowing mother, the sisters and brothers, and other relatives of this fine young man, whose first thought was for others.

Gets Big Position

Mr. Emil Rumreich another U. C. C. student was promoted to be Division Chief of the Internal Revenue Department (with headquarters in the Federal Building Grand Forks). This is a big job and only a young man schooled in the knowledge of accounts could handle it. It was the business knowledge we taught him that enabled him to advance to this big job. Miss May Whitson, a former school teacher, after taking our private secretary course went to a position paying $1320 a year at the very start. Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

HARDING ASKED TO SEND FORCE

Federal Troops Needed to Prevent Bloodshed in West Va., Governor Telegraphs

MINERS AGAIN MARCH

Armed Insurgents Cut Wires, Hold Up Trains and Menace Life and Property; State and Local Authorities Outnumbered.

Charleston, W. Va.—Governor E. F. Morgan has telegraphed an appeal to President Harding to send federal troops to West Virginia.

Reiterating that large forces are again leaving the Cabin Creek district for the Logan border, Governor Morgan sent the following statement to Washington at midnight, addressing it to President Harding and Secretary of War Weeks:

"General Bandholtz left here Saturday. At that time armed men in Paint, Cabin and Lens creeks and Big Coal river fields were dispersing. On Little Coal river in the vicinity of Sharples, Clothier, Blair and Madison, armed men in excess of 1,500 have refused to disperse.

Armed Men Attack Police.

"On Saturday night near Sharples, an armed patrol attacked a body of state police which returned fire and killed three men. These armed bodies have also captured five Logan county peace officers and are holding them prisoners.

"We have information that several hundred men from coal fields of other states are gathered with these insurrectionists in the Little Coal river section and we are in possession of the names of the leaders who came from Illinois, Kentucky and Ohio. This element has threatened the lives of officers of the United Mine Workers of this district who have asked them to disperse.

"Adjutant General Charnock has just returned from the vicinity of Sharples where he commanded the insurrectionists to disperse, but they have refused and are maintaining armed patrols on the roads and have seized passenger trains on the Chesapeake and Ohio railroad to transport reinforcements to their camps. They have cut telephone wires and refused to allow their replacement and they continue to defy constituted authority.

Forces Inadequate.

"Large forces are again leaving Cabin creek district for the Logan border and have destroyed all communication on that creek.

"The men now assembled in Logan from McDowell, Mingo and Logan counties to resist the invasion will be utterly unable to repel the attack.

"Because of imminent danger of great loss of life, if there is a clash between the Logan officers and citizens and the armed insurrectionists and believing it my duty to seek protection for the lives and property of our citizens, I most respectfully renew my request for federal troops to be sent forthwith to West Virginia for the purpose of quelling the insurrection and disarming those engaged in it. Delay, in my opinion, will prove most disastrous."

CLASH IN AUSTRIA-HUNGARY

Attempt to Occupy Land Awarded by Treaty Meets Resistance.

WOMAN AVOIDS AN OPERATION

Hope Nearly Gone, but Lydia E. Pinkham's Vegetable Compound Saved Her

Star, N. C.—"My monthly spells gave me so much trouble, sometimes they would last two weeks. I was treated by two doctors without relief and they both said I would have to have an operation. I had my trouble four years and was unfit to do anything, and had given up all hope of ever getting any better. I read about your medicine in the 'Primitive Baptist' paper and decided to try it. I have used Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Liver Pills for about seven months and now I am able to do my work. I shall never forget your medicine and you may publish this if you want to as it is true."—Mrs. J. F. Hussey, Star, N. C.

Here is another woman who adds her testimony to the many whose letters we have already published, proving that Lydia E. Pinkham's Vegetable Compound often restores health to suffering women even after they have gone so far that an operation is deemed advisable. Therefore it will surely pay any woman who suffers from ailments peculiar to her sex to give this good old fashioned remedy a fair trial.

IN HER FATHER'S FOOTSTEPS

Professor Doubtless Had Often Carried Out an Idea, and Small Daughter Copied Him.

Barbara was a professor's daughter, four years of age.

One day Barbara disappeared and after vainly searching for her all over the neighborhood, her father got into his motorcar and began a search of the streets. About a half an hour later he found her walking as fast as she could go toward a nearby woods, clutching a tiny basket in her hand.

"Where have you been, Barbara, and for goodness' sake where are you going?" her father asked, worriedly. "You have nearly worried your mother and me to death."

"Well, I had an idea and I thought I'd carry it out," replied Barbara with an impish grin.—Indianapolis News.

MERCHANT TELLS OF A REMARKABLE CASE

Writing from Maxey's, Ga., A. J. Gillen, proprietor of a large department store at that place, says:

"I have a customer here who was in bed for three years and did not go to a meal at any time. She had five physicians and they gave her out. One bottle of Tanlac got her up, on the second bottle she commenced keeping house and on the third she did all the cooking and housework for a family of eight."

This sounds really incredible, but it comes unsolicited from a highly creditable source and is copied verbatim from the letter.

Tanlac is sold by leading druggists everywhere.—Advertisement.

Safe From Traffic.

An East side Italian woman, mother of three small children, has invented a way to prevent her offspring from playing in the middle of the street, thus keeping them away from traffic dangers. Every day she takes them down to the front door of the tenement house in which they live, slips a noose around each waist and neck, and then ties the end of the rope, with about five feet leeway, to an iron railing in front of the house, and the children play among themselves. She slips a small padlock in between the knots of the rope and the bars of the iron railing, so that no one but herself can untie it.—Detroit Free Press.

DEFECT CAUSED ZR-2 DISASTER

Commander, in Hospital, Says Structural Flaws in Airship Explain Plunge

'TOO LONG AND WEAK'

Experts Predicted Great Balloon Would Crumple Under First Real Strain; Zeppelin Expert, in England, Dubs Craft as "Flivver."

Hull, Eng.—"The accident to the ZR-2 was due to structural weakness. I intended this to be my last flight." Lieutenant Wann, commander of the ZR-2, lying in the hospital here suffering from injuries received in the disaster to the giant dirigible, has made the above signed statement.

British Inquiry Opens.

Howden, Eng.—The British air service inquiry into the disaster of the ZR-2 has been opened at Howden airdome here. Vicealr Marshal Salmond presided. America was represented by Lieutenant Dyer, U. S. N. The proceedings were private.

The inquiry will show, if facts are published, that some British airmen were convinced the ZR-2 never would have crossed the Atlantic, except under "impossibly favorable" weather conditions.

Many British "lighter than air" authorities, as well as officers who were killed, believed the ZR-2 structurally defective. In a measure they died heroes, because they felt the giant dirigible to be unsafe and they wished to prove it before an American crew should be lost trying to cross the Atlantic.

'Flivver' Says Zep Expert.

Opinions as to the weakness of the ZR-2 only began to be freely expressed after it left Howden on the fatal trip.

Summarized, they were that the ZR-2 was too long; that it was too weak; that possibilities of a disaster were realized and fears that the first real strain would prove fatal were freely expressed.

Written reports conveyed these fears to the proper authorities.

Veterans of the British air service and of the R-34's successful flight said they wouldn't cross in the ZR-2, as they were convinced it never would reach America. Incidentally, some of the British officers lacked confidence in the Americans' ability to navigate the ship.

Otto Heinle, Germany's leading Zeppelin expert, was here and characterized the ZR-2 as a "flivver."

All this information was laid before the members of the board of inquiry.

FREE LUNCH IS BACK IN N. Y.

But Few Lack 15 Cents Asked for "All the Beans You Can Eat."

New York.—Habitues of New York's park benches are utterin the praises of their newest and most beloved benefactor, a West Thirty-fourth street restauranteur.

Coincident with the opening of the doors of the new bean emporium there was an elaborate display of the sign painter's art, bearing the following phrases:

"All the beans and spaghetti you can eat for 15 cents."

"All the coffee you can drink for a nickel."

"It's hell to be broke; if you're hungry, come on in anyway."

"People ask how we do it. The answer is: 'We do.'"

The proprietor said the restaurant was a great success.

"There are few," he added, "who haven't 15 cents. Those who haven't are such good walking advertisements that it is my joy to see 'em eat."

Use Oats for Fertil...

St. Paul.—Farmers are buying oats to use for fertilizer rather than ship at a loss because of the low market and high freight rates. O. P. B. Jacobson, state railroad and warehouse commissioner, says freight and passenger rates rest entirely with the railroads. "They can voluntarily reduce rates and correct conditions affecting farmers immediately," he said. "Refusal will work a disadvantage both to farmers and railroads. A few have oats for seed at a slight profit."

NEW LABOR LAWS

Important Legislation in Interest of Workers.

Statutes Enacted Since the Signing of the Armistice Are Matters for Congratulation.

Substantial progress has been made since the signing of the armistice in erecting additional legal safeguards for working men and women, according to the summary of labor laws enacted, made public by the American Association for Labor Legislation.

The statutes passed by forty states and by congress were examined in compiling the summary, and the conclusion is reached that the advance in the field of social insurance is particularly marked. Four more states adopted workmen's compensation laws last year, making a total of forty-five states and territories having such legislation in addition to the model act of the federal government for its civilian employees and the soldiers' and sailors' insurance act.

"Matter of Sound Economics."

Besides this, almost every state amended its compensation law, "with the trend," says Dr. John B. Andrews, secretary of the association, "encouragingly toward more liberal benefits, shorter waiting periods and wider scope, indicating that protective laws for labor are regarded by legislators not as a matter of sentiment but of sound economics."

North Dakota, one of the new states to join the compensation group, has now an "enlightened provision for an exclusive state fund." Ten states raised their scale of compensation, and at present twenty-three states in all require employers to pay workers when injured from 60 to 66 2-3 per cent of their wages. Only six states, all of them in the South, lack workmen's compensation acts.

Even more significant, Dr. Andrews thinks, than the compensation insurance legislation is "the impetus given to the movement for compulsory workmen's health insurance to protect wage-earners and their families against the hazards of sickness as workmen's compensation now safeguards them when accidentally injured."

Women Workers Benefited.

Progress was also made, the report states, in obtaining legislation limiting the employment of women and children. In half a dozen states the hours of women workers were reduced, including an eight-hour limit in Massachusetts, won "after a full half-century's struggle." North Dakota passed minimum wage legislation for women and children, bringing the total of states having such laws up to 14, in addition to the District of Columbia. Eight states improved their child labor acts, while congress re-enacted child labor regulations declared unconstitutional by the Supreme court, using its taxing power as the means of enforcement.

"While congress continued to hold back," says Doctor Andrews, "well considered measures for a federal state employment service, as embodied in the Kenyon-Nolan bill, and vocational rehabilitation for industrial cripples, several states took action to meet these urgent needs. Four states, in addition to Massachusetts, where beginnings were made a year ago, authorized aid in re-educating and finding employment for industrial cripples, and the Smith-Bankhead bill, extending the present federal state system of vocational education to cover the maimed victims of industrial accidents, passed the United States senate."

Labor Unions Legalized.

Labor unions were expressly legalized in three states during the year, while in two of these the use of injunctions in labor disputes is strictly limited. Oregon created a state board of conciliation for industrial disputes, such as New York has; while South Carolina passed a law establishing penalties for violation of its conciliation and arbitration act. Six more states passed criminal syndicalism and sabotage laws.

California, Minnesota and Oklahoma increased the powers of their industrial commissions to facilitate enforcement of safety regulations and other labor laws.

FRY EGGS WRONG; SHOOTS UP SHIP

Mess Boy, Put in Brig, Escapes Irons and Swims Mile to Shore.

NEGRO IS BAD ACTOR

Question of Whether Eggs Should Be Fried on One or Both Sides Causes Lively Doings on the Steamship Carolyn.

Carteret, N. J.—The profound question of whether fried eggs should be cooked on one or both sides started B. Leonard, a Jamaica negro mess boy of the steamship Carolyn, which docked here recently, on a series of adventures which included shooting up the ship, escaping from his irons in the brig, jumping overboard, swimming ashore and making good his escape.

His adventures are probably not ended, for the police are looking for him. The last seen of B. Leonard was when he drove away on an automobile truck from Prince's Bay, Staten Island, where he came ashore.

Trouble With Cook.

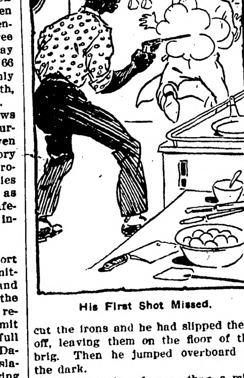
"The trouble really started soon after the Carolyn left Boca Grande, Florida, on her way north," explained Third Officer William G. Kelly, who was in charge of the steamship at the dock in Carteret. "Leonard was the oiler's mess boy, and he didn't get along well with the cook, V. Donmaro. Thursday morning he went into the gally and ordered eggs 'turned over' fried on one side.

"Leonard got mad and there was an argument, which caused the cook to ladle out some hot water and throw it at him. Then Leonard rushed down to oilers' quarters and came back with an automatic pistol. The cook ran, with Leonard at his heels, shooting. His first shot missed, the second went through the left hand of M. Charlton, the steward of the ship. The third went through my cabin.

"Capt. Alonzo Nash heard the shooting and hurried down with Chief Officer J. E. Evans. Leonard saw them and became quiet immediately. He handed over the automatic and then he was put in irons and sent below.

Jumps Overboard.

"Yesterday morning, when one of the men went to his breakfast, he found Leonard was missing. Some one had cut the irons and he had slipped them off, leaving them on the floor of the brig. Then he jumped overboard in the dark.



His First Shot Missed.

After a swim of more than a mile Leonard came ashore at Prince's Bay, and later went to a garage owned by John Hoag, where he asked if he could rent an automobile to take him to New York. When told there were no cars for rent, he displayed a roll of $29 to show he was able to pay. That failed to get him a car and so he waited until an oil truck driven by a chauffeur for A. Halliwell, an oil dealer at 341 West Thirty-first street, Paterson, N. J., came along. Leonard persuaded the driver to give him a lift, and when last seen was headed for the ferry at Tottenville.

Can't Kiss Wife in Swimming Pool.

North Bergen, N. J.—If a man must kiss his wife, he should not kiss her in a public swimming pool. Matthew Marquard, thirty years old, became affectionate with his wife Margaret, twenty years old, in a pool here, and appeared in court on a disorderly conduct charge.

Not Handsome, but Hears Well.

Copenhagen.—When King Christian visited a little town in northern Schleswig, a German woman remarked to a companion as they were passing the king: "You can't call him good-looking, anyhow." The king turned and answered in German, "but his hearing is excellent."

Policeman at Target Practice Hits Boy.

Whiting, Ind.—A bullet, fired by a policeman at target practice, lodged in the neck of Andrew Serencik, sixteen years old, who was just diving off a pier for a swim. Other swimmers carried Serencik ashore and rushed him to a hospital.

GOOD PROOF OF RETICENCE

Testimony Should Have Convinced Jury That This Woman Was Able to Keep a Secret.

In a suit recently tried in Boston it happened that one of the witnesses was a personal friend of a lawyer on the other side and that it was his duty to cross-examine her. By reason of their friendship he was, if possible, a trifle more personal with her than he would have been with another witness.

"Can you be trusted with a secret?" he asked at one juncture of the cross-examination.

The woman drew herself up proudly. "You have known me for ten years, haven't you?" she asked in turn.

"Yes."

"Well, do you know how old I am?"

Maine Woodsmen Come to Town.

Backwoodsmen attend vocational night schools in Portland, Me., some of them walking seven and eight miles to attend the classes. There are now 26 schools in Maine giving vocational agriculture, 87 home economics and 65 industrial work, besides 70 evening and Americanization schools. Vocational education in the state has grown from making small things to building houses, machines and automobiles. Boys of the Dexter high school have built a new shop for their vocational work. The number of centers where the state department carries on extension courses for industrial teachers will be doubled soon to meet the demands.

EARLY SEASON CALLS FOR
EARLY SEED CORN SELECTION

SEED CORN TIME

SELECTED EARS

ecial Harvest is Five Days Ahead of Normal.

is always wise to select seed corn y in Minnesota—early enough to pe killing frosts. That is why the cultural extension division at Uni sity Farm, St. Paul, has year after fixed on September 10-20 as Seed n Time—a period for the special asting of seed corn for the follow year's planting. Killing frosts do come in Minnesota usually until r September 20.

his year, because of the early sea and the advanced stage of the crop, farmers have an extra ce to beat the attacks of the frost . The corn crop has matured ier than usual because it got an y start, and to get corn that will ure in about the same number of s next year selection should be e somewhat earlier than usual. n may have to be planted later year than it was planted this, if it is not early-maturing it may come through in time to escape year's frosts. FOR THESE ASONS SEED CORN TIME THIS AR HAS BEEN SET FOR—

September 5-15.

between September 5 and 15 this

Select your seed corn.

Store it at once in a dry well entilated place where it will dry ickly and stay dry.

Select 50 ears for every acre of corn to be planted next year, in order to give a chance for reselecting in the spring after germination tests have been made.

"Whatsoever a man soweth that shall he also reap" as a text never had a better illustration than in the sowing of corn. If one sows badly shaped grains of corn from runty, distorted, crooked ears, which have matured late, he will get the same kind of corn implanted: that is, if he gets any at all. If, as suggested, however, he sows late-maturing corn, the frost king is likely to get it and the sower to get nothing. What one should do, according to the universal testimony of good corn-growers, therefore, is to select—

Corn that has matured early—before killing-frost time—from the standing stalks in the field.

Ears of moderate size, but shaped to standards now recognized as desirable wherever corn is grown.

Ears with grains having good broad tips, giving a larger proportion of cob to the ear than kernels with small pointed tips.

Having made his selection of the kind of corn he would like to grow the next year, one should take care of what he has selected by seeing to it—

That it has a chance to dry before killing frosts come.

That it has a chance to keep dry and fairly free from extreme cold throughout the winter.

Mortgage Foreclosure Sale

Whereas, Defaults have been made in the conditions of a certain mortgage duly executed and delivered by Edward M. Korstad and Josephine Korstad, his wife, Mortgagors, to First National Bank of Thief River Falls, Mortgagee, bearing date the 23rd day of March, 1917, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 24th day of March, 1917, at 10:30 o'clock A. M., in Book 84 of Mortgages on page 309, which said Mortgage, together with the debt secured thereby, was duly assigned by said First National Bank of Thief River Falls, the Mortgagee, to Peter P. Korstad by written assignment dated the 24th day of January, 1921, and recorded in the office of said Register of Deeds on the 25th day of January, 1921, at 1:00 o'clock P. M., in Book 98 of Mortgages on page 484.

And Whereas, the said Peter P. Korstad, the Assignee of the Mortgagee and holder of said Mortgage, has duly elected and does elect to declare the whole principal sum of said Mortgage due and payable at the date of this notice under the terms and conditions of said Mortgage and the power of sale therein contained, and whereas there is claimned to be due and is due at the date of this notice upon said mortgage and the debt secured thereby the total sum of One Thousand Seven Hundred Eighty-nine and 68-100 Dollars ($1789.68), as follows: The sum of $1504.86, being the amount of principal and interest secured by the mortgage hereby foreclosed, and the sum of $284.82 being for interest paid by the Assignee of this mortgage upon a prior existing Mortgage upon the premises securing this mortgae and for which the Mortgagee or holder of this mortgage is entitled to a lien pursuant to the terms of said mortgage, and whereas the power of sale has become operative, and no action or proceeding having been instituted at law ortherwise, to recover the debt secured by said Mortgage or any part thereof.

Now, Therefore, Notice Is Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, viz:

The Southeast Quarter (SE1-4) of Section Five (5) in Township One Hundred Fifty-four (154) North of Range Forty (40) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the Court House in the City of Warren, in said County and State, on the 15th day of October, 1921, at 10 o'clock A. M., of that day, at public vendue, to the highest bidder for cash, to pay said debt of $1789.68, and interest, and taxes, if any, on said premises, and Seventy-five Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from day of sale, as provided by law.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Olai Sovde was a county seat visitor on Tuesday.

Theodore Sollom, who has a road contract east from Middle River, visited home folks Sunday.

Mr. and Mrs. Chas. Horien visited Sunday with his parents, Mr. and Mrs. Ed Horien and family.

Mr. and Mrs. Docken and Mrs. Otto W. Christenson were Warren visitors Monday.

Hazel Davidson and Julia Erickson returned home on Tuesday from Fork, where they had been working in a cook car during threshing.

Mrs. Jacob Nelson had another very bad spell Wednesday noon while the family were eating dinner, but she is now a little better.

Mr. and Mrs. Erik Erickson returned Sunday from a visit with his folks at Gatzke, and Erik is back at his place in Gunheim's store.

Albert Bennes and family and Grandpa Swenson went to Warren Tuesday, for medical treatment for the latter, who has a bad case of poison ivy on one of his hands.

Mr. and Mrs. Edwin Nelson of Roseau visited over Sunday here with his parents. Verna Hagberg returned home with them the next day and expects to attend school at that place.

Miss Louise Netteland of St. Hilaire came Monday to teach the intermediate grades until another teacher can be employed. The lady who had been hired for the place was not qualified.

Andrew Sorum and Bentley Nelson, both of whom attend the Union Commercial College of Grand Forks, visited over Sunday with their parents. Both speak in the highest terms of the Union Commercial College.

Miss Florence Brown was taken suddenly sick last week Wednesday night with what was at first thot to be rheumatic fever, as her hand was badly swollen. Later it was thot to be blood poison. She went to Warren Tuesday and had an X Ray examination, which showed the end of a needle in her hand and was the cause of all the pain.

The big tractor and grader were brot back here Tuesday night, and we understand they will now stay here until the road is regraded between Holt and Steiner. Five men with teams and scrapers have been engaged to follow up the work of the grader. It was planned to commence the work yesterday morning, but it started to rain at that time and the work may be delayed a few days.

Death of Little Boy

Melvin Marlin Brown was born December 4th, 1912, on a farm at Lehr, N. D., and died at the home of his parents, Mr. and Mrs. K. Brown in this village, shortly before 10 o'clock on Friday forenoon September 2nd 1921, aged 8 years, 8 months and 28 days.

The little fellow had been an intense sufferer for the last few days of his sickness, but the end came peacefully.

Mr. Brown arrived home from Rolette, N. D., the same night of his sons death. Their daughter, Lillian, who has been working in Duluth, and Mrs. Jacob Brun of Bemidji, arrived Saturday night to attend the funeral, which was held Sunday afternoon in the Mission church, Rev. Kriedt of Thief River Falls officiating, and the interment was made in the Holt cemetery.

Sympathy is extended to the bereaved family.

Rev. Strom returned home Tuesday from Spooner.

B. Docken and T. E. Ellestead were Beltrami visitors Friday.

Prof. Prushek is teaching school at Trail, Minn., this year.

Paul Olson is doing the janitor work at the school house for Hjalmer Johnson.

Mrs. Otto W. Christenson of Seattle, Wash., has been a guest at the Docken home for several days.

Mr. and Mrs. C. Jefferson have recently entertained several different relatives and friends from the twin cities.

Diedrick Mathison and Ed Bjerk came back from McIntosh Saturday, but the latter returned there on Wednesday afternoon.

A meeting will be held in Thief River Falls next Thursday Sept. 15, to devise better methods of grading, shipping, handling and accounting for potatoes and other farm produce.

Miss Elsie Lawson has written to have her paper sent to Wells, Minn., so we presume she is going to teach there again this year.

Rev. Kriedt will conduct German services in the Norwegian church Sunday afternoon at 3 o'clock.

Everybody cordially invited to attend.

Mrs. Frederickson has moved into Guy Anderson's house and her children will attend the Holt school this year.

Miss Agnes Fosen, who has been spending the past month on her Mud Lake Homestead, left last week Thursday for Sabin, Minn., where she will teach again this year at a salary of $130 per month.

The Pennington county commissioners refused to accept the personal property assessment of the city of Thief River Falls and appealed to the state tax commission, who ordered a reassessment.

John Hagberg and Loyd Adams commenced work Wednesday on the foundation for Olaf Halvorson's new house, which is to be 24x28 with 12 foot posts, and full size basement 7 foot in depth.

B. Docken left Tuesday night on a business trip to the twin cities and other points.

R. Reierson and Ole Hamernes left Tuesday night for the twin cities to attend the state fair.

School opened Tuesday with an enrollment of 17 in Prof. Netteland's room, 16 in Miss Batten's, 37 in Miss Netteland's and 25 in Miss Ellestead's. This enrollment has, and will be somewhat increased, as all the pupils could'nt get ready at the commencement of school.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. [illegible] the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

FAMILY OF SEVEN VICTIMS OF FATHER

Frank Klocow, Retired Banker, Makes Death Chamber of Ormsby, Minn., Home.

NO APPARENT REASON

Evidently Administred Chloroform to Sleeping Children Before Firing Two Bullets Into Each and Ending Own Life.

Ormsby, Minn.—An entire family of seven—the father, mother and five children—were found shot to death in their home, apparently the victims of the father. Frank Klocow, a prominent local business man.

The bodies were discovered late Monday afternoon, but it was concluded by Coroner Thompson they had met their deaths between 12 and 1 o'clock the morning before.

A woman, going to make a call, discovered the bodies.

Besides Mr. and Mrs. Klocow, the dead are: Fred, 16 years old; Myrtle, 14; Glen, 12; Oliver 10, and Leland, 3.

Resigned Bank Cashier.

All had been shot by a revolver as they lay in bed and there were indications that chloroform had been used to numb their senses before they were shot. The revolver was found under Klocow's left arm.

Klocow was 40 years old and until six weeks ago was cashier of the Farmers' State Bank of Ormsby, but resigned for some unexplained reason. Not even the bank officials knew why he quit, as he refused to give a reason. They declared his accounts were in regular shape.

"Walk In" Is Note on Door.

The back door was open and on it was pinned a note reading "Walk in." Mrs. Strelow stepped into the kitchen, then into the living room, where she saw the 14-year-old daughter, Myrtle, lying on a cot.

Mrs. Strelow glanced into the adjoining bedroom and saw Klocow in bed, apparently asleep, his face turned toward her. In the bed with him were Mrs. Klocow and her youngest child, Leland.

A second glance at Myrtle showed that the girl had been shot through the head, and the woman ran from the house to the neighbors, who notified the authorities.

Fires Twice Into Each Victim.

The older boys, Glen and Oliver, were found in their bed upstairs. They and Myrtle each had been shot twice, as had also Mrs. Klocow, while the baby and Klocow had been shot once each.

On the floor were 10 exploded cartridges, and in the five-chamber revolver were two exploded and three unexploded cartridges.

A letter was found on a table, addressed to Henry Klocow, a brother, at Estherville, Iowa, and pending his arrival, funeral arrangements will be held in abeyance.

CALM PREVAILS IN VIRGINIA

General Bandholtz Well Pleased With Complete Quieting of Tumult.

Madison, W. Va.—Taking advantage of the general atmosphere of calm which prevails throughout the recently disturbed areas of the West Virginia coal fields, Brigadier General Bandholtz journeyed by special train up the Valley of Coal River on an official inspection tour. Over the entire length of his route to Blair, including two stops at Jeffrey, he found not so much as a ripple of disorder.

General Bandholtz, who was accompanied by his military staff and Col. Martin, in command of the troops in the Coal River Valley, declared that the situation was in "fine shape" and that he was "very well pleased."

Grain Moving Unusually Early.

Superior, Wis.—More than $1,000,000 in grain has been daily received in Superior since August 15. Grain from the northwest has come in at an unprecedented rate, completely outstripping past years in shipments.

Railroads entering Superior have pressed all available rolling stock into service to handle the crop movement and lake carriers are moving out at a much faster pace than formerly.

Shipments from Kansas, Nebraska and Oklahoma are greatest, together with a heavy stream from North Dakota.

Max Gunman Is Taken.

Bismarck, N. D.—"Red" Ackerman, captured at Valley City was identified by William Poston as the man who shot and killed Clarence Godwin at Max last week. Ackerman and a man named Williams were brought here from Valley City by the sheriff of McLean county.

Poston, who was one of four men held up at Max when Godwin was shot, declared positively that Ackerman was the man who did the shooting. Ackerman and his companion refused to talk.

Why That Bad Back?

Is backache keeping you miserable? Are you "all played out," without strength or vigor for your work? Then find what is causing the trouble and correct it. Likely, it's your kidneys! You have probably been working too hard and neglecting rest and exercise. Your kidneys have slowed up and poisons have accumulated. That, then, is the cause of the backache, headaches, dizziness and bladder irregularities. Use *Doan's Kidney Pills. Doan's* have helped thousands and should help you. *Ask your neighbor!*

A North Dakota Case

Daniel J. Bruce, carpenter, 446 Sime St., Dickinson, N. D., says: "I was in bad shape with kidney trouble and was handicapped in doing my work. My back hurt me when I stooped down to pick up anything. I was dizzy and black specks appeared before my eyes. As Doan's Kidney Pills were recommended so highly I got a box and after using them I got better."

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. HERBERT L. CASSEN, 18 Meni Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework she was so ill. Made well by Lydia E. Pinkham's Vegetable Compound:

Fayette, O.—"For about three years I was very nervous and had backache, sideache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may publish my testimonial."—Mrs. CHESTER A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience:

Bloomington, Ill.—"I was never very strong and female trouble kept me so weak I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it have made me as strong and healthy as any woman; and I give my thanks to it for my health."—Mrs. J. A. McQUITTY, 610 W. Walnut St., Bloomington, Ill.

The conditions described by Mrs. Cassen, Mrs. Ball, and Mrs. McQuitty will appeal to many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost beyond belief. Day in and day out they slave in their homes for their families—and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the blues, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative for such conditions it may save them years of suffering and unhappiness.

There is hardly a neighborhood in any town or hamlet in the United States wherein some woman does not reside who has been restored to health by this famous medicine. Therefore ask your neighbor, and you will find in a great many cases that at some time or other she, too, has been benefited by taking it, and will recommend it to you. For more than forty years this old-fashioned root and herb medicine has been restoring suffering women to health and strength.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

A Good Time Coming.

There was company at dinner, and the son and heir listened to the conversation. During meal an animated discussion arose regarding the feeling which, someone maintained, still existed between the North and the South. The minister remarked:

"The time is coming not so far off, when there will be no north, south, east or west, and—"

"Won't that be splendid," interrupted little Willie.

"Why does that interest you?" asked the boy's astonished parent.

"Because it will be so much easier to learn geography."—Harper's Magazine.

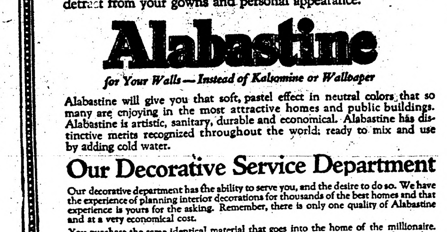
Freshen a Heavy Skin

With the antiseptic, fascinating Cuticura Talcum Powder, an exquisitely scented convenient, economical face, skin, baby and dusting powder and perfume. Renders other perfumes superfluous. One of the Cuticura Toilet Trio (Soap, Ointment, Talcum).—Advertisement.

Ambition may be the feeling that you want to do something that you can't.



The Spirit of "Color Discord" glares at you from certain walls. Disease casts its baleful shadows from unsanitary walls.

Cheerfulness, happiness, health, serene peacefulness, is the beautiful "Spirit" of Alabastine walls.

Brighten Up Your Walls This Fall

Have the walls of your rooms cheerful and sanitary, to reflect cheerfulness instead of gloom. Have walls that will harmonize with rugs and furniture, colors that will enhance and not detract from your gowns and personal appearance.

Alabastine

for Your Walls—Instead of Kalsomine or Wallpaper

Alabastine will give you that soft, pastel effect in neutral colors that so many are enjoying in the most attractive homes and public buildings. Alabastine is artistic, sanitary, durable and economical. Alabastine has distinctive merits recognized throughout the world; ready to mix and use by adding cold water.

Our Decorative Service Department

Our decorative department has the ability to serve you, and the desire to do so. We have the experience of planning interior decorations for thousands of the best homes and that experience is yours for the asking. Remember, there is only one quality of Alabastine and at a very economical cost.

You purchase the same identical material that goes into the home of the millionaire. The Alabastine packages always have the cross and circle printed in red and are identical in quality. This being the case, the question of whether your walls are artistically decorated depends on the proper treatment of colors.

Write us a postal that you are interested and we will send you a Chart that may be easily filled in with the information that will enable our artist to work intelligently and there will be no cost or obligation on your part. Our reason?

A properly decorated building is one of our best advertisements.

GRAIN FINANCE BODY IS BARRED

Minnesota Refuses Right to the Grain Growers Subsidiary to Market Stock.

IS NOT CO-OPERATIVE

Movement Purporting to Be Cooperative Is Really a Strong Closed Corporation, the Securieties Commission Charges.

St. Paul.—The Farmers' Finance corporation, a subsidiary of the U. S. Grain Growers, Inc., is denied the right to sell $750,000 of preferred stock in Minnesota, in an order issued by the state securieties commission, which declared the "offer and sale * * misleading and deceptive."

In its application to the commission, the farmers' finance corporation reported it had issued its 21 shares of no par value stock to the U. S. Grain Growers, Inc., a non-stock corporation formed under the laws of Delaware, and also had issued 127 shares of the preferred stock for $13,900 cash.

Purports to Be Cooperative.

"The applying company is a subsidiary of the U. S. Grain Growers, Inc.," said the commission's order. "Both organizations being the outgrowth of a movement which purports to be a cooperative movement among the grain growing formers.

"By years of development, the so-called cooperative movements in this and other states have come to have certain settled features which are deemed essential and which are regarded as present in all such movements, these features being set forth in the cooperative statutes now in effect in the state.

Really a Closed Corporation.

"These essential features are not embodied in the present organization, which, on the contrary, is a closed corporation with unusually broad powers and control vested entirely in 21 shares of no par value stock, and which organization denies to the purchaser of stock all of the rights and privileges usually incident to the holders of stock in a cooperative organization.

"The offer and sale of the stock in question in connection with the movement represented by the U. S. Grain Growers, Inc., and the supplying company is therefore misleading and deceptive."

"It's assets," the securities commission memorandum reads, "consist only of the proceeds from the sale of stock. The company had transacted no business and showed no profit nor loss."

Stock Misnomer Charged.

In a statement, F. F. Pearson, secretary of the commission, said:

"The company has a capital of $100,000,000 of preferred stock and 21 shares of no par value common stock. The name preferred stock is a misnomer in this case, as the stock has no substantial preference over usual common stock. It is not preferred stock, as far as I can see, except in name.

"Further, the stockholder has no right to vote and no voice in the management. The entire control of the $100,000,000 proposed to be contributed by the buyers of the preferred stock is in the hands of the holders of 21 shares of common stock. There is no fixed dividend rate and holders of preferred stock are denied the right to examine the books or affairs of the company unless they owned 10 per cent of the outstanding stock—that means farmers owning $10,000,000 of stock in small amounts when the entire capital is subscribed."

NATION'S BARRISTERS ELECT

Jamestown Man Honored With Place on Executive Committee.

Cincinnati.—C. A. Severence of St. Paul, Minn., was elected president of the American Bar association, Frederick Wademan of Albany, N. Y., and Thomas Kemp of Baltimore, Md., were reelected treasurer and secretary, respectively.

No other names were presented before the convention, nominations being made by the general council and the secretary instructed to cast the unanimous ballot for the council recommendations.

Members of the executive committee were likewise unanimously elected, including: John R. Corliss, Detroit; John T. Richards, Chicago; S. E. Ellsworth, Jamestown, N. D., and Thomas Blackburn, Omaha.

Law Enforcement was emphasized in three addresses before the convention preceding the election. Former Governor Charles S. Whitman of New York, Luther S. Rosser of Atlanta, Ga., and Judge Marcus A. Kavanaugh of Chicago spoke.

Three Drown in Antiseptic Tank.

Aberdeen, S. D.—Two men gave their lives here in a vain effort to rescue a third who was drowned in a septic tank at the Aberdeen city disposal plant. The dead are Louis Vanderkooy, 42, Leon Stroh, 30, and Daniel Guse, 35, all employes of the city.

Vanderkooy had gone into the tank to repair a siphon, but failed to shut off the flow from the main tank. The sides of the tank are smooth, and he could not work his way out. Stroh reached in to help Vanderkooy, but fell in and Guse suffered the same fate.

Children Cry For Fletcher's CASTORIA

Special Care of Baby:

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

BALKED AT WORD "COMMON"

Profiteer Felt It Was Due to His Dignity to Have Nothing But the Very Latest.

Bishop Homer Stunts said at a dinner in Omaha:

"If we were all as ambitious to progress ethically as our war profiteers are to progress socially, it would be a very good thing.

"A war profiteer decided recently to drop the Baptist faith and turn Episcopalian, as all the bang-up people in town went to the Episcopalian church.

"So he visited the bookstore and asked for the hymnals, Bibles and so forth that he would need in his new way to worship.

"He seemed well enough pleased with the volumes that the salesman laid before him till he came to the Book of Common Prayer. Over this he frowned and shook his head.

"'This'll hardly do,' he said, and he tapped the title with his forefinger. 'Let's have something a little more select, bo.'"

Too Full for Utterance, Maybe.

"When Parson Goodleigh tried to start his flivver he choked the engine off three times in succession."

"Ha! Did he make any remarks appropriate to the occasion?"

"No, he didn't, but he didn't have exactly the same kind of expression on his face he wears when he says, 'Let us pray.'"—Birmingham Age-Herald.

Some artists pretend to be wedded to their art, whereas they have never been even engaged.

QUEER METHOD OF DEFENSE

Fishes That Have the Power of Inflating Their Bodies, Frightening Their Enemies.

The swell fishes of tropic coast waters have the power of suddenly inflating the body with water or air until they assume an approximately globular form several times the normal diameter, which must be disconcerting to any enemy about to seize one. The porcupine fish, in addition to doing this, has the body everywhere covered with long, sharp spines which project in every direction like the quills of a hedgehog. The trunk fishes, instead of being protected in this way, have the body encased in a bony shell, like a turtle. In the East Indies there are rectangular species, but ours are three-cornered, beechnut shaped. They go by various names—cuckold, shellfish, and so forth, the cowfish being a species with two hornlike spines projecting from its forehead. They are excellent eating, cooked in the shell like a lobster. The back muscles of the swell fishes are sometimes eaten, but make a risky delicacy, as there are well-authenticated instances of severe poisoning from eating these fishes. The poison seems to be localized in the viscera and to permeate the rest of the fish after death.

Instinct.

Instinct is a wonderful thing. The street department had been flushing the street and a small stream of water still ran down alongside the curbing. The sweet young thing came to the edge of the walk, saw the water, frowned and hesitated ever so slightly, and then crossed over—carefuly holding up a skirt that came within at least 12 inches of the pavement!—Kansas City Star.

Deadly.

Artist's Model—Do you do much sketching from life?

Artist—Oh, no; mostly from the wife.

The Folly of Cheating Nature

Many people get the idea that they can keep their nerves on edge and their digestion upset year after year, and "get away with it." They sleep only half as much as they should—and never get properly and thoroughly rested.

If you tire out easily, if you are getting pale and anemic, if your food doesn't digest as it should, would it not be well to stop and consider whether coffee or tea is having its effect on you?

The caffeine and thein found in coffee and tea are drugs, as any doctor can tell you. Is it any wonder that the steady use of these drugs sometimes causes serious damage?

If you really want to be fair with yourself, and give yourself the opportunity you deserve in order to do your best work, make up your mind to quit coffee and tea for awhile—and drink delicious, appetizing Postum instead.

Postum permits sound, refreshing sleep which builds strength, energy and endurance.

Order Postum from your Grocer today. Drink this hot, refreshing beverage in place of tea or coffee for 10 days and see what a wonderful difference it will make in the way you feel.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum *for* Health

Western Canada Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at $15 to $30 an Acre

—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying

are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches and schools, good markets, railroad facilities, rural telephone, etc.

FAMILY OF SEVEN VICTIMS OF FATHER

Frank Klocow, Retired Banker, Makes Death Chamber of Ormsby, Minn., Home.

NO APPARENT REASON

Evidently Administered Chloroform to Sleeping Children Before Firing Two Bullets Into Each and Ending Own Life.

Ormsby, Minn.—An entire family of seven—the father, mother and five children—were found shot to death in their home, apparently the victims of the father, Frank Klocow, a prominent local business man.

The bodies were discovered late Monday afternoon, but it was concluded by Coroner Thompson they had met their deaths between 12 and 1 o'clock the morning before.

A woman, going to make a call, discovered the bodies.

Besides Mr. and Mrs. Klocow, the dead are: Fred, 16 years old; Myrtle, 14; Glen, 12; Oliver 10, and Leland, 3.

Resigned Bank Cashier.

All had been shot by a revolver as they lay in bed and there were indications that chloroform had been used to numb their senses before they were shot. The revolver was found under Klocow's left arm.

Klocow was 40 years old and until six weeks ago was cashier of the Farmers' State Bank of Ormsby, but resigned for some unexplained reason. Not even the bank officials knew why he quit, as he refused to give a reason. They declared his accounts were in regular shape.

"Walk In" Is Note on Door.

The back door was open and on it was pinned a note reading "Walk in." Mrs. Strelow stepped into the kitchen, then into the living room, where she saw the 14-year-old daughter, Myrtle, lying on a cot.

Mrs. Strelow glanced into the adjoining bedroom and saw Klocow in bed, apparently asleep, his face turned toward her. In the bed with him were Mrs. Klocow and her youngest child, Leland.

A second glance at Myrtle showed that the girl had been shot through the head, and the woman ran from the house to the neighbors, who notified the authorities.

Fires Twice Into Each Victim.

The older boys, Glen and Oliver, were found in their bed upstairs. They and Myrtle each had been shot twice, as had also Mrs. Klocow, while the baby and Klocow had been shot once each.

On the floor were 10 exploded cartridges, and in the five-chamber revolver were two exploded and three unexploded cartridges.

A letter was found on a table, addressed to Henry Klocow, a brother, at Estherville, Iowa, and pending his arrival, funeral arrangements will be held in abeyance.

CALM PREVAILS IN VIRGINIA

General Bandholtz Well Pleased With Complete Quieting of Tumult.

Madison, W. Va.—Taking advantage of the general atmosphere of calm which prevails throughout the recently disturbed areas of the West Virginia coal fields, Brigadier General Bandholtz journeyed by special train up the Valley of Coal River on an official inspection tour. Over the entire length of his route to Blair, including two stops at Jeffrey, he found not so much as a ripple of disorder.

General Bandholtz, who was accompanied by his military staff and Col. Martin, in command of the troops in the Coal River Valley, declared that the situation was in "fine shape" and that he was "very well pleased."

Grain Moving Unusually Early.

Superior, Wis.—More than $1,000,000 in grain has been daily received in Superior since August 15. Grain from the northwest has come in at an unprecedented rate, completely outstripping past years in shipments.

Railroads entering Superior have pressed all available rolling stock into service to handle the crop movement and lake carriers are moving out at a much faster pace than formerly.

Shipments from Kansas, Nebraska and Oklahoma are greatest, together with a heavy stream from North Dakota.

Max Gunman Is Taken.

Bismarck, N. D.—"Red" Ackerman, captured at Valley City was identified by William Poston as the man who shot and killed Clarence Godwin at Max last week. Ackerman and a man named Williams were brought here from Valley City by the sheriff of Mc Lean county.

Poston, who was one of four men held up at Max when Godwin was shot, declared positively that Ackerman was the man who did the shooting. Ackerman and his companion refused to talk.

Eveleth—The new Virginia-Eveleth paved road is completed and will be opened in a few days for traffic.

Rochester—Theodore Papke, aged 13, son of Mr. and Mrs. Emil Papke, died at a hospital after being run over by a truck.

Hanley Falls—An unidentified man, about 25 years old, carrying a Finnish passport, was killed by a westbound freight train.

Waseca—More than 80 lawyers attended the annual convention of the Southeastern Minnesota Bar association which was held here.

Rochester—William Kroefskey of Elgin, died in a hospital here without having regained consciousness, following an automobile accident.

Terrebonne—Earl Rose, aged 14, of Red Lake Falls, was drowned near the dam in Clear Water river here, when he slipped off a log in deep water.

Medford — Medford will decide whether it will incorporate as a village at a special election called for Sept. 12 by the Steele county board of commissioners.

Rochester—E. W. Munson, county secretary for the Y. M. C. A., resigned. Owing to financial conditions in the county a successor will not be appointed for the present.

Windom—Sam Franz, a farmer, was probably fatally injured when a tractor he was driving turned over on a country road north of here, pinning him beneath the machine.

Owatonna—Opening of Owatonna's $600,000 Junior-Senior high school building, which was to have taken place on Tuesday, Sept. 6, will be delayed until Sept. 12 or 19.

Minneapolis—Seven cents street car fare for Minneapolis as a measure of temporary relief beginning September 1 was granted by the State Railroad and Warehouse commission.

St. Paul—First sessions of the Minnesota Waterways congress will take place October 7 in the Senate chamber of the Capitol, according to an announcement by Governor Preus.

Virginia—The big mill of the Rainy Lake Lumber company will be closed Sept. 1, while mill No. 2 will open and run day and night shifts. No wage reductions will be made, officers said.

Milaca—The Security State bank of Milaca, with a capital of $25,000 and a surplus of $7,000, voluntarily closed its doors and was taken in charge by S. B. Duea, state superintendent of banks

Barnesville—A hearing is being conducted here today on a petition to establish a game preserve in Clay county. The hearing is being conducted by Carlos Avery, state game and fish commissioner.

St. Paul—Governor J. A. O. Preus, Mrs. Preus and their little son Jack left for Grand Marais, where the Governor will seek relief from hay fever from which he has suffered for the past few days.

Rochester—Oscar Mickelson and Josept Werich, are in a hospital here in a serious condition as the result of being hit by a special Chicago Great Western train near St. Charles, about 25 miles northeast of here.

Bovey—Claude Ball, who was washing windows in the school-house here fell through two skylights and landed in a swimming pool when the sash with which he was supporting himself gave way. He was only scratched.

Moorhead—It is predicted by potato men that Clay and Cass counties will harvest a potato crop of 4,850,000 bushels, with an estimated value of $5,000,000. This is an increase in yield of between 20 and 25 per cent.

Rochester—Peter Thoen of Lanesboro, was killed; his brother, Gilbert, is in a Rochester hospital with a broken arm, and Dr. Asbury, proprietor of the Northern hotel of Rochester was bruised in an automobile accident.

Luverne—John Edward and Robert White, two transients, were arrested by Sheriff Wiggins of Rock county and Sheriff Edwards of Nobles county on the charge of stealing dynamite from the quartzite quarries, three miles north of here.

Fergus Falls—Thousands of sparrows, killed on the state insane hospital grounds here by the heavy rain and electric storm, were buried. The ground under the trees was carpeted with dead birds. They were shoveled into wheelbarrows.

Rochester—The Minnesota branch of the Women's Foreign Missionary society of the Methodist church will meet here in annual convention, Sept. 29 to Oct. 2, according to announcement made here. Minnesota, North Dakota, South Dakota, are included in the district.

Luverne—The dynamite blast of the Quartzite quarries, three miles north of here, was a complete success. A wall of solid granite, 25 feet wide, 7 feet deep and about 400 feet long was thrown about 100 feet, when 5,000 pounds of dynamite was used. This was the heaviest charge of dynamite ever exploded at one time in this part of the state.

St. Paul—Wilhelm Michelet of Thief River Falls was appointed by State Auditor Rap P. Chase to be state superintendent of farm lands. It is a new position just created, Mr. Chase said, to bring about more efficient handling of the state land interests. F. A. Wildes will continue as head of the mineral lands department, and Otto Diercks, head of the state timber land department.

Crookston—In less than 25 years cooperative marketing has spread until there are more than 3,000 local shipping associations, elevators and creameries in Minnesota, Neil H. Swanson, head of the research department of the Minnesota Farm Bureau federation, told farmers attending a marketing meeting here.

St. Paul—Governor J. A. O. Preus issued a proclamation designating and setting aside Monday, Sept. 4, as Labor day and urging that not only labor but the public generally on that day consider the problems of the laborer and the relation of labor to the nation.

Why That Bad Back?

Is backache keeping you miserable? Are you "all played out," without strength or vigor for your work? Then find what is causing the trouble and correct it. Likely, it's your kidneys! You have probably been working too hard and neglecting rest and exercise. Your kidneys have slowed up and poisons have accumulated. That, then, is the cause of the backache, headaches, dizziness and bladder irregularities. Use *Doan's Kidney Pills*. *Doan's* have helped thousands and should help you. *Ask your neighbor!*

A North Dakota Case

Daniel J. Bruce, carpenter, 446 Sime St., Dickinson, N. D., says: "I was in bad shape with kidney trouble and was handicapped in doing my work. My back hurt me when I stooped down to pick up anything. I was dizzy and black specks appeared before my eyes. As Doan's Kidney Pills were recommended so highly I got a box and after using them I got better."

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. HERBERT L. CASSEN, 18 Meni Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework she was so ill. Made well by Lydia E. Pinkham's Vegetable Compound:

Fayette, O.—"For about three years I was very nervous and had backache, sideache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may publish my testimonial."—Mrs. CHESTER A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience:

Bloomington, Ill.—"I was never very strong and female trouble kept me so weak I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it have made me as strong and healthy as any woman; and I give my thanks to it for my health."—Mrs. J. A. MCQUITTY, 610 W. Walnut St., Bloomington, Ill.

The conditions described by Mrs. Cassen, Mrs. Ball, and Mrs. McQuitty will appeal to many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost beyond belief. Day in and day out they slave in their homes for their families—and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the blues, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative for such conditions it may save them years of suffering and unhappiness.

There is hardly a neighborhood in any town or hamlet in the United States wherein some woman does not reside who has been restored to health by this famous medicine. Therefore ask your neighbor, and you will find in a great many cases that at some time or other she, too, has been benefited by taking it, and will recommend it to you. For more than forty years this old-fashioned root and herb medicine has been restoring suffering women to health and strength.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

A Good Time Coming.

There was company at dinner, and the son and heir listened to the conversation. During meal an animated discussion arose regarding the feeling which, someone maintained, still existed between the North and the South. The minister remarked:

"The time is coming not so far off, when there will be no north, south, east or west, and—"

"Won't that be splendid," interrupted little Willie.

"Why does that interest you?" asked the boy's astonished parent.

GRAIN FINANCE BODY IS BARRED

Minnesota Refuses Right to the Grain Growers Subsidiary to Market Stock.

IS NOT CO-OPERATIVE

Movement Purporting to Be Cooperative Is Really a Strong Closed Corporation, the Securieties Commission Charges.

St. Paul.—The Farmers' Finance corporation, a subsidiary of the U. S. Grain Growers, Inc., is denied the right to sell $750,000 of preferred stock in Minnesota, in an order issued by the state securities commission, which declared the "offer and sale * * misleading and deceptive."

In its application to the commission, the farmers' finance corporation reported it had issued its 21 shares of no par value stock to the U. S. Grain Growers, Inc., a non-stock corporation formed under the laws of Delaware, and also had issued 127 shares of the preferred stock for $13,900 cash.

Purports to Be Cooperative.

"The applying company is a subsidiary of the U. S. Grain Growers, Inc.," said the commission's order. "Both organizations being the outgrowth of a movement which purports to be a cooperative movement among the grain growing formers.

"By years of development, the so-called cooperative movements in this and other states have come to have certain settled features which are deemed essential and which are regarded as present in all such movements, these features being set forth in the cooperative statutes now in effect in the state.

Really a Closed Corporation.

"These essential features are not embodied in the present organization, which, on the contrary, is a closed corporation with unusually broad powers and control vested entirely in 21 shares of no par value stock, and which organization denies to the purchaser of stock all of the rights and privileges usually incident to the holders of stock in a cooperative organization.

"The offer and sale of the stock in question in connection with the movement represented by the U. S. Grain Growers, Inc., and the supplying company is therefore misleading and deceptive."

"It's assets," the securities commission memorandum reads, "consist only of the proceeds from the sale of stock. The company had transacted no business and showed no profit nor loss."

Stock Misnomer Charged.

In a statement, F. F. Pearson, secretary of the commission, said:

"The company has a capital of $100,000,000 of preferred stock and 21 shares of no par value common stock. The name preferred stock is a misnomer in this case, as the stock has no substantial preference over usual common stock. It is not preferred stock, as far as I can see, except in name.

"Further, the stockholder has no right to vote and no voice in the management. The entire control of the $100,000,000 proposed to be contributed by the buyers of the preferred stock is in the hands of the holders of 21 shares of common stock. There is no fixed dividend rate and holders of preferred stock are denied the right to examine the books or affairs of the company unless they owned 10 per cent of the outstanding stock—that means farmers owning $10,000,000 of stock in small amounts when the entire capital is subscribed."

NATION'S BARRISTERS ELECT

Jamestown Man Honored With Place on Executive Committee.

Cincinnati.—C. A. Severence of St. Paul, Minn., was elected president of the American Bar association. Frederick Wademan of Albany, N. Y., and Thomas Kemp of Baltimore, Md., were reelected treasurer and secretary, respectively.

No other names were presented before the convention, nominations being made by the general council and the secretary instructed to cast the unanimous ballot for the council recommendations.

Members of the executive committee were likewise unanimously elected, including: John R. Corliss, Detroit; John T. Richards, Chicago; S. E. Ellsworth, Jamestown, N. D., and Thomas Blackburn, Omaha.

Law Enforcement was emphasized in three addresses before the convention preceding the election. Former Governor Charles S. Whitman of New York, Luther S. Rosser of Atlanta, Ga., and Judge Marcus A. Kavanaugh of Chicago spoke.

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

BALKED AT WORD "COMMON"

Profiteer Felt It Was Due to His Dignity to Have Nothing But the Very Latest.

Bishop Homer Stunts said at a dinner in Omaha:

"If we were all as ambitious to progress ethically as our war profiteers are to progress socially, it would be a very good thing.

"A war profiteer decided recently to drop the Baptist faith and turn Episcopalian, as all the bang-up people in town went to the Episcopalian church.

"So he visited the bookstore and asked for the hymnals, Bibles and so forth that he would need in his new way to worship.

"He seemed well enough pleased with the volumes that the salesman laid before him till he came to the Book of Common Prayer. Over this he frowned and shook his head.

"'This'll hardly do,' he said, and he tapped the title with his forefinger. 'Let's have something a little more select, bo.'"

Too Full for Utterance, Maybe.

"When Parson Goodleigh tried to start his flivver he choked the engine off three times in succession."

"Ha! Did he make any remarks appropriate to the occasion?"

"No, he didn't, but he didn't have exactly the same kind of expression on his face he wears when he says, 'Let us pray.'"—Birmingham Age-Herald.

QUEER METHOD OF DEFENSE

Fishes That Have the Power of Inflating Their Bodies, Frightening Their Enemies.

The swell fishes of tropic coast waters have the power of suddenly inflating the body with water or air until they assume an approximately globular form several times the normal diameter, which must be disconcerting to any enemy about to seize one. The porcupine fish, in addition to doing this, has the body everywhere covered with long, sharp spines which project in every direction like the quills of a hedgehog. The trunk fishes, instead of being protected in this way, have the body encased in a bony shell, like a turtle. In the East Indies there are rectangular species, but ours are three-cornered, beechnut shaped. They go by various names—cuckold, shellfish, and so forth, the cowfish being a species with two hornlike spines projecting from its forehead. They are excellent eating, cooked in the shell like a lobster. The back muscles of the swell fishes are sometimes eaten, but make a risky delicacy, as there are well-authenticated instances of severe poisoning from eating these fishes. The poison seems to be localized in the viscera and to permeate the rest of the fish after death.

Instinct.

Instinct is a wonderful thing. The street department had been flushing the street and a small stream of water still ran down alongside the curbing. The sweet young thing came to the edge of the walk, saw the water, frowned and hesitated ever so slightly, and then crossed over—carefuly holding up a skirt that came within at least 12 inches of the pavement!—Kansas City Star.

Deadly.

Artist's Model—Do you do much sketching from life?

Artist—Oh, no; mostly from the wife.

Hard to Solve.

Extracts from a book on self-helps: "Life is just what you make it. Don't do anything foolish. Get married in early life. Remember, one great mistake may last a lifetime." There is about as much help in that as there is in an income tax blank.

Western Canada Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at $15 to $30 an Acre

—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

The Folly of Cheating Nature

Many people get the idea that they can keep their nerves on edge and their digestion upset year after year, and "get away with it." They sleep only half as much as they should—and never get properly and thoroughly rested.

If you tire out easily, if you are getting pale and anemic, if your food doesn't digest as it should, would it not be well to stop and consider whether coffee or tea is having its effect on you?

The caffeine and thein found in coffee and tea are drugs, as any doctor can tell you. Is it any wonder that the steady use of these drugs sometimes causes serious damage?

If you really want to be fair with yourself, and give yourself the opportunity you deserve in order to do your best work, make up your mind to quit coffee and tea for awhile—and drink delicious, appetizing Postum instead.

Postum permits sound, refreshing sleep which builds strength, energy and endurance.

Order Postum from your Grocer today. Drink this hot, refreshing beverage in place of tea or coffee for 10 days and see what a wonderful difference it will make in the way you feel.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

"There's a Reason"

EARLY SEASON CALLS FOR EARLY SEED CORN SELECTION

SEED CORN TIME

SELECTED EARS

MAKE PROFIT YEARS

SEPT. 5-15 1921

Special Harvest is Five Days Ahead of Normal.

It is always wise to select seed corn early in Minnesota—early enough to escape killing frosts. That is why the agricultural extension division at University Farm, St. Paul, has year after year fixed on September 10-20 as Seed Corn Time—a period for the special harvesting of seed corn for the following year's planting. Killing frosts do not come in Minnesota usually until after September 20.

This year, because of the early season and the advanced stage of the corn crop, farmers have an extra chance to beat the attacks of the frost king. The corn crop has matured earlier than usual because it got an early start, and to get corn that will mature in about the same number of days next year selection should be made somewhat earlier than usual. Corn may have to be planted later next year than it was planted this, and if it is not early-maturing it may not come through in time to escape next year's frosts. FOR THESE REASONS SEED CORN TIME THIS YEAR HAS BEEN SET FOR—

September 5-15.

So between September 5 and 15 this fall—

Select your seed corn.

Store it at once in a dry well ventilated place where it will dry quickly and stay dry.

Select 50 ears for every acre of corn to be planted next year, in order to give a chance for reselecting in the spring after germination tests have been made.

"Whatsoever a man soweth that shall he also reap" as a text never had a better illustration than in the sowing of corn. If one sows badly shaped grains of corn from runty, distorted, crooked ears, which have matured late, he will get the same kind of corn he planted; that is, if he gets any at all. If, as suggested, however, he sows late-maturing corn, the frost king is likely to get it and the sower to get nothing. What one should do, according to the universal testimony of good corn-growers, therefore, is to select—

Corn that has matured early—before killing-frost time—from the standing stalks in the field.

Ears of moderate size, but shaped to standards now recognized as desirable wherever corn is grown.

Ears with grains having good broad tips, giving a larger proportion of cob to the ear than kernels with small pointed tips.

Having made his selection of the kind of corn he would like to grow the next year, one should take care of what he has selected by seeing to it—

That it has a chance to dry before killing frosts come.

That it has a chance to keep dry and fairly free from extreme cold throughout the winter.

Here's a Real Argument For Philippine Independence

A Typical Philippine Homestead

The United States isn't the only country that has homesteaders—those enterprising pioneers who leave thickly populated districts and take their families into virgin territory to create homes for themselves. The Philippine islands have thousands of thrifty homesteaders.

The above photograph shows a picture of a Christian Filipino homestead er and his family near Pikit, Cotabato province, Mindanao, P. I. Five years ago he was a cab driver working for low wages at Cebu, a thickly populated city. He went into the then wilderness of Mindanao, planted hemp and cocoanuts, paid for his land and has become wealthy. Thousands of similar instances could be cited. One Mindanao homesteader is worth $200,000.

The Philippine government is encouraging the immigration of Filipinos from the thickly populated sections into Mindanao. This is the second largest of the islands of the archipelago. It is still sparsely settled, although it is one of the richest and most productive islands in the world. Many Americans have established plantations there and become rich.

Filipinos are using the stories of the many successful Filipino homesteaders as an argument for independence. They make the point that a people that can go out into a tropical wilderness with no capital save their patience, perseverence and energy and win homes for themselves, have the necessary stamina to run their own affairs.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

Rural School Officers Meeting

Warren, Minn., Sept. 23

High School Building

Official Call

By County Supt. David Johnson

Notice is hereby given that there will be a meeting of all the rural school officers of Marshall County at Warren, Minnesota, at the High School Building on Sept. 23, 1921. The morning session will begin at 10 o'clock sharp. The afternoon session will begin at 1:30.

All rural school officers are requested to be present at this meeting. Matters pertaining to the welfare of the schools will be taken up and discussed. Mr. Geo. A. Selke, the State Inspector of Rural Schools, will be present to represent the State Department of Education. He will give a talk and a period will be given over to him for answering questions of general interest to school officers.

To all school officers attending, certificates will be issued authorizing the home district of each officer to pay such officer at the rate of $3.00 and mileage at the rate of five cents (5 cents) per mile in going to and returning from the meeting. Such certificates can not be issued to school officers who do not attend both the forenoon and afternoon sessions.

SCORE OF VICTIMS OF FALLING BRIDGE

Many Spectators Dumped Into Chester River as Bridge Collapses.

WATCH RESCUE WORK

Worried Parents Feared for Identity of Drowned Baby and Watched Rescue Work Below With Fatal Results.

Chester, Pa.—Between 25 and 30 persons were drowned or crushed to death and more than a score of others injured when the foot bridge of the Third street bridge over Chester river collapsed.

The dead and injured were part of a crowd of approximately 75 persons that had gathered on the structure to watch the efforts of the police in grappling for the body of a 5-year-old boy who was drowned but a half hour before. Many of the dead are women and children.

Old Fashioned Bridge

The bridge was an old fashioned structure 90 feet long and cleared the water by about 20 feet. It carried two trolley tracks across the steram and had one foot path. The river was about 15 feet deep where the accident occurred.

All available police and firemen were summoned. More than 20 bodies were recovered within an hour after the accident.

The child that was drowned had been playing on the banks of the stream and slipped into the water and sank. Police were summoned who threw out grappling irons from a rowboat. In the meantime news of the drowning spread and women and men rushed to the bridge in fear the child, whose identity was not known, was their own.

No Chance to Escape.

As the police grappled in the murky water around coal and ice barges, the crowd grew and suddenly there was a crackling sound heard and one end of the bridge gave way. Those who fell into the water first had no chance to escape as others came tumbling upon them. They sank and the police believe some were forced to the bottom of the stream and are still imbedded in the mud.

As the dead were carried into the morgue, men, women and children surged about the place. Mothers sought children and husbands were looking for their wives or children. They were not admitted to the morgue for some time and the situation became such that police were summoned from the scene of the bridge collapse to the morgue. Citizens were also pressed into service as guards.

Tide at Ebb.

The accident happened just as the tide was at ebb. Rescuers realized that it soon would flow out and possibly carry bodies into the Delaware river. Fire department ladders were stuck into the water so as to form a screen and prevent any bodies from going out with the tide. Fishing nets were also used for this purpose.

Only the footway on the bridge collapsed. The rest of the bridge remained intact and was sufficiently strong to permit a score of men to do rescue work from it. On the river 30 launches and rowboats worked under searchlights.

No Sign of a Split.

Chicago.—Official denial that there was any split in farmer sentiment over the proposed contract between the U. S. Grain Growers, Inc., and the Equity Cooperative Exchange of St. Paul, to market wheat, was made by C. H. Gustafson, president of the grain growers.

"At a conference with 65 county directors and state officials of the Minnesota farm federation with J. M. Anderson, president of the Equity, there was no indication of a split. Every indication is that all farm organiaztions will work harmoniously with the grain growers," Mr. Gustafson said.

No Further Murder Evidence.

Chicago.—Bernard J. Dougherty, automobile salesman and former all-American athlete, has been found slain in the Des Plaines river, the body of another man was being sought in the river, and a 20-year-old youth to whom they had tried to sell a car is under arrest in one of the most mysterious murders of Chicago police annals.

Dougherty was chosen as an all-American end by Walter Camp when he played on the Harvard University football team in 1901 and 1902.

Medal for Unknown Dead.

Washington.—General Pershing, acting at the direction of President Harding, sailed for Paris, where on October 2 he will award the medal of honor voted by congress to the unknown soldier of France, whose body was placed at the arch of triumph. The general, who left France just about two years ago, after having led the American Expeditionary forces to victory, probably will be accompanied by a high naval officer who will also participate in the ceremonies.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

McGrath—Fearing forest fires, an aged woman, living a mile and a half from here, poured kerosene over her clothing and set it afire. She was so seriously burned that her death was expected momentarily.

St. Paul—A campaign will be inaugurated in Minnesota September 15 to obtain $100,000 for relief of people in Ireland. John B. Galarneault, president of the National Exchange bank, St. Paul, is state treasurer.

Minneapolis — Investigation of charges of fee splitting between a small group of municipal court attorneys and members of the police department was begun by members of the Hennepin county grand jury.

St. Paul—One man was shot to death, another probably fatally wounded and a third seriously wounded in a mysterious brawl which developed into a shooting fray in a soft drink parlor at 105 West Seventh street.

Minneapolis—With the Hennepin county jail crowded almost to capacity, and with some of the prisoners suffering from tuberculosis and insanity, the sheriff's office appealed to the board of county commissioners for relief.

Owatonna—Hearing on a request for an injunction against the city of Waseca to compel the cessation of sales of fuel by the municipal coal-yard at that place will be conducted before Judge Childress in Steele county district court, when the fall term opens.

St. Paul—Minnesota's forest fire problem, with its constant menace to settlers and its annual property losses, will be tackled earnestly by state authorities. Governor J. A. O. Preus said he will take steps soon to get at the facts and ascertain the most feasible remedies.

St. Paul—A fortress of potatoes, set in plaster, greets the visitors in the St. Louis county building at the State Fair. There are 30 bushels of them and when they have served their purpose at the Fair they will be taken to the international potato show in Duluth Oct. 26, 27 and 28.

Stillwater — "Cyclone" Thomson, finance wizard, model farmer and civic benefactor of Austin, is now a member of the twine making crew in the state prison. Thomson was brought here by Sheriff Nick Nicholson of Mower county after pleading guilty to having embezzled $475,000 from the George A. Hormel Packing company and sentenced to not more than 15 years in the penitentiary. His total defalcations were said to total $1,187,000.

Hastings—One guest for every year of her life was the "party" given for Mrs. D. B. Truax here. One hundred relatives and friends attended. Mrs. Truax celebrated the centenary of her birth. Mrs. Truax has lived here for 58 years. Except for slightly impaired vision and hearing, she is in perfect health.

Tracy—While the yields of oats on the farms in this section have not been over the average, there nevertheless, have been some bumper crops threshed. On the Butz brothers farm an average of 54 bushels to the acre was threshed.

St. Paul—William E. Lee of Long Prairie, who was republican nominee for governor in 1914, left an estate of $243,141.28, according to the inventory of the estate on file today in the state auditor's office.

St. Paul—Representatives of every state in the Union where drainage is a factor of development will be represented at the annual meeting of the National Drainage congress which will be held in St. Paul September 22 to 24.

St. Paul—Martin county won first honors in the county agricultural exhibit competition at the State Fair this year. Closely pushed by Beltrami from the north and Morrison from the central section, Martin scored highest on points.

Mankato—Thieves gained entrance through a rear door and basement to the Stan A. Smith jewelry store of this city last night and got away with about $1,800 in diamonds and other jewelry which had been left on display in a show window.

Duluth—Life savers from the United States coast guard station here were called to rescue parties aboard three sailing yachts and also prevented the destruction of three other crafts, following a storm which swept the Duluth-Superior harbor Sunday.

Owatonna—Plans are being made by Arthur E. Kenyon, Steele county superintendent of rural schools, for a five day teachers' institute here Nov. 14 to 18. Leading instructors in several of the state teachers' colleges are expected to conduct the institute.

St. Cloud—By defeating Melrose, 3 to 0, St. Cloud claims the baseball championship of Central Minnesota. Melrose was defeated here Sunday, 2 to 1, the tally being the only run scored against the locals in fifty-nine innings. These teams have played five games this season, of which St. Cloud has taken four.

Tracy—Plans to centralize the car repair work for a large territory at this place are being made by the North Western Railway company. Repairing of cars, under the new proposal, will be discontinued at four other points on the system and the work will all be done in a large new shop to be erected here.

St. Paul—Governor Preus issued a proclamation calling upon citizens of Minnesota to aid in the work of the Near East Relief committee. October 3 to 8 has been set aside as Famine Relief week, during which it is hoped Minnesota will contribute money and supplies sufficient to make up 90 carloads of corn and 47 carloads of wheat.

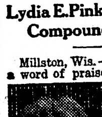
St. Paul—Ramsey county has a "sheriffette." Sheriff John Wagener made formal appointment of Miss Claire Scanlon, stenographer and secretary, as deputy, presenting her with a badge reading "Ramsey county sheriff's office, sheriffette." Miss Scanlon will continue to perform the same duties as before, but now has the same authority as the male deputy.

Fairmont—Three robbers entered the First National bank at Dunnell, blew open the safe and escaped with $5,000 in cash and Liberty Bonds, after cutting all telephone lines into the town. The charge of explosive used by the bandits was so heavy that it wrecked the interior of the bank and scattered a large amount of currency and valuable papers over the place. The windows were shattered. Damage to the building was estimated at $3,000. Citizens aroused, were held at bay by the bandits.

St. Paul—Final plans for staging the National Dairy show at the Minnesota State Fair grounds October 8 to 15 have been completed under direction of the Northwest Dairy Development committee, according to an announcement by its chairman, J. M. Hackney. More than 1,500 cows and bulls of the five principal dairy breeds, an exhibit of dairy industrial machinery occupying more than 150,000 square feet of space, and exhibits of milk products from all principal dairying states in the Union, will be included in the many features of the show. Leading dairy experts of the United States and foreign countries will give lectures and demonstrations.

Hurley—Rev. M. Rein, who has had charge of Jewish congregations on the range for the last 30 years, has resigned to locate in Minneapolis. Prominent Jews from northern Wisconsin and upper Michigan attended a farewell party in his honor.

Olivia—William McBroon received serious injuries while hauling grain from his son's farm near Renville. A passing auto frightened McBroon's horses and he was thrown from his wagon into a ditch. One of his ears was nearly severed from his head, several ribs were broken and he received other injuries.



THIS YOUNG MOTHER

Tells Childless Women What Lydia E. Pinkham's Vegetable Compound Did for Her

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are very fond of children and for a considerable time after we married I feared I would not have any owing to my weak condition. I began taking Lydia E. Pinkham's Vegetable Compound and now I have a nice strong healthy baby girl. I can honestly say that I did not suffer much more when my baby was born than I used to suffer with my periods before I took Lydia E. Pinkham's Vegetable Compound years ago. I give all the credit to your medicine and shall always recommend it very highly."—Mrs. H. H. Janssen, Millston, Wisconsin.

How can women who are weak and sickly expect or hope to become mothers of healthy children? Their first duty is to themselves. They should overcome the derangement or debility that is dragging them down, and strengthen the entire system, as did Mrs. Janssen, by taking Lydia E. Pinkham's Vegetable Compound and then they will be in a position to give their children the blessing of a good constitution.

Highly Complimentary.

"We are going to hold you, Mr. Bagrox for $10,000 ransom," said the leader of the band of kidnapers.

"You flatter me," responded the victim, bowing courteously. "I am not Bagrox the banker, but a citizen of no financial worth whatever. I know of no one in the world who would pay 10 cents to secure my release. So you can imagine how I appreciate the compliment."—Kansas City Star.

HEARD AND HEEDED APPEAL

Sexton Rather Spoiled Effect of Preacher's Discourse by His Prompt and Literal Obedience.

A country negro preacher was speaking at length to his congregation of the many things round us that are shrouded in mystery, and of which we know little. As he warmed to his theme, he became most eloquent, and frequently repeated the oft-quoted saying: "More light! Oh, for more light!"

His surprise may be imagined when, after one of these utterances, the old sexton, who had been dozing since the beginning of the sermon, woke with a start, then got up, tiptoed softly into the vestry, seized two additional candles and, ascending the pulpit stairs, placed them beside the two already there, and in a loud whisper, heard all over the church, exclaimed:

"Yo' shore got to do with these; there ain't no mo'."

Medium Was Right.

"Divvle a bit do I believe the messages these mediums are after gettin' from the dead," declared Dugan. "Ye can't be tellin' whether they're true or not." "More fool ye. Ye can, and I can prove it," contradicted Monohan. "By mistake I was reported killed entirely in the war, and one day me sister went to a medium who told her I was wishin' I was back on earth. And at that very time I was on a transport in a high sea, d'ye mind?"

A man who can't sing and will sing, ought to be muzzled.

No man ever respects a woman who does not respect herself.

Films in Education.

A pet theory of Rex Ingram, producer of "The Four Horsemen of the Apocalypse" and "The Conquering Power," is that motion pictures will in time virtually supplant oral instruction in the schools. He believes that the eye impressions work more powerfully on the brain than those of things heard.

A test of the theory, it is said, was made recently in Detroit, where a school class was divided into two groups of equal intelligence. One group had a motion picture lesson; no explanation was given by a teacher. The lesson lasted 13 minutes. The other group received oral instruction from a teacher for 55 minutes. Then each group was tested on the lesson. The average grade of the motion picture group was 3.26 per cent higher than that of the oral group.

First Savings Bank.

At the village of Rothwell, in Dumfriesshire, Scotland, may be seen a small private dwelling house, a tablet on the wall of which indicates the fact that the first savings bank in that country, if not in the world, was opened there by Rev. Henry Duncan in 1810.

At first the people did not take kindly to the idea of depositing their money with another person, and it was many years before any considerable number of depositors was reached. But when it was shown that it was quite safe to deposit money, and it became known that interest was given, the Rothwell bank became quite an important institution.

At first the money was kept in a strong wooden trunk, fastened by two heavy padlocks.

A pessimist has pierced all the shams; but is he happy?

U. L. Burdick to Confer with the Equity and Grain Growers in St. Paul.

DIFFERENCES SETTLED

Cordial Feeling Exists Between Farm Organizations of Northwest and Their Cooperation Is Assured.

Fargo.—Membership in the U. S. Grain Growers, Inc., is nearly the 10,000 mark, field reports received in Chicago at the close of last week's campaign show. The reports showed 2,374 growers and 361 elevator contracts signed. This is an increase of 1,261 growers and 23 elevators, for the six-day period. North Dakota, Illinois, Oklahoma and Nebraska have passed the 1,000 membership mark.

Usher L. Burdick, organizing director of the U. S. Grain Growers, Inc., has gone to Huron, S. D., where he will speak at the state fair. Afterwards Mr. Burdick will go to St. Paul where he will confer with President J. M. Anderson of the Equity regarding the handling of the U. S. Grain Growers grain from this state.

Hopes for Marketing Funds.

Mr. Anderson has notified state headquarters here that he has been assured the Equity will receive a portion of the funds which the War Finance Corporation will allot to farmers' cooperatives for the marketing of the 1921 crop. It is hoped at state headquarters, therefore, that complete announcement regarding financial details can be made on Mr. Burdick's return.

Confidence is expressed at state headquarters that the disagreement between officials of the Minnesota Farm Bureau and the Equity will not interfere with the cordial feeling which exists between the North Dakota branch of the U. S. Grain Growers and the Equity. President Gustafson of the U. S. Grain Growers has also expressed such a sentiment.

MURDER FORMALLY CHARGED

Friend of Dead Actress Charges Fatty Arbuckle With Crime.

San Francisco.—A formal complaint charging murder was sworn to before Police Judge Daniel O'Brien against Roscoe C. (Fatty) Arbuckle, in connection with the death of Miss Virginia Rappe, a motion picture actress. The complaint was signed by Mrs. Bambina Maude Delmont, a friend of the dead actress.

Arbuckle appeared in court to be arraigned on the charge sworn to by Mrs. Delmont. At the request of the district attorney the case was continued until Friday and Arbuckle was taken back to his cell.

Accompanied by his attorney, Arbuckle came here by automobile from Los Angeles and went at once to police headquarters. He was questioned by detectives for several hours, but on the advice of his attorney he refused to talk. Captain Mathewson ordered him booked for murder. Arbuckle lost his usual jaunty manner. When newspaper photographers asked him to smile, he said, "Not on an occasion of this sort."

All day Arbuckle persisted in refusing to answer questions of the police and his attorney declined to discuss the case.

Mother Is Denied Damages.

Fargo—Mrs. Inga Anderson, mother of John William Anderson, 13-year-old boy who was killed when struck by a swing at the Agassiz school yard on December 1, 1920, was denied any compensation for the death of her son, in a decision handed down by Judge J. M. Englert of Valley City, in her action against the City of Fargo asking $25,000 damages.

In his decision Judge Englert points out that "the city demurred to the complaint, claiming that it was not liable in damages for injuries to a pupil attending the public schools, occasioned by or through any negligence or fault of the board of education." In support of this contention the court quotes the case of Vallelley & Brockhoff against the park commissioners of the city of Grand Forks, in which the commissioners were not held liable.

Two Tax Changes Made.

Washington.—Two of the four major provisions of the house tax bill have been approved by the senate finance committee. One fixed the maximum income surtax rate at 32 per cent as compared with the present 65 per cent and the other increases by $500 the exemption allowed to heads of families having net incomes of $5,000 or less and by $200 the exemption allowed on account of each dependent.

Elusive Bandit Still Free.

Tacoma, Wash.—Once more Roy Gardner, California mail bandit who escaped from the federal penitentiary on McNeil Island has turned upside down the theories and plans of his pursuers and the man hunt is again laid along new lines.

The newest development is the apparently confirmed fact that the elusive bandit, who has been playing hide and seek through the woods of the prison island with his pursuers, now has no immediate intention of trying to get away from the island at all.

IS POOR BARGAIN

Foolish Indeed for Man to Sell Himself to Evil.

Many Have Done It Unconsciously, and Their Reward Has Always Been Exceedingly Small.

More than one writer has been fascinated by the idea of selling one's soul to the devil. Indeed, that thought has served as the basis of many a poem and plot.

The idea is that of a man bargaining his soul to Satan for all eternity on condition that for a limited period he may enjoy all possible pleasure. The thought is most familiar, perhaps, in the tragedy of Faust; but that was neither the beginning nor the end of it.

You may find the idea in the "Arabian Nights," and no one knows how old those roots of the literature may be. Balzac, in "The Magic Skin" portrayed it. Oscar Wilde had the essential idea in "Dorian Gray." Stevenson had it in his "Doctor Jekyll and Mr. Hyde."

All these authors were honest enough to show that, in the end, the game was not worth the candle. Imagine the terror of the possessor of all the wishes of the "Magic Skin" as he realized that with every wish the skin shrunk, and its power of sensual gratification lessened!

How many times, as his pleasures began to pall upon him, must Faust have regretted his bargain!

If there is any justification of the exploitation of the idea of a bargain with the devil, either in the opera of Faust or in a novel or in the movies, it is the plain lesson at the end that the sort of bargain which the devil offers does not pay.

But there is one mistake which men often make with regard to this matter, which is in supposing that this is the real way in which the thing is done.

As a matter of fact, men sell themselves unconsciously and for very much less than the devil is supposed to offer in any of these works of fiction.

Read the story of the next scandal with murder following it, and find, if you are curious, when the bargain with the devil was made and in what sort the devil paid.

For the devil pays. Judas got his 30 pieces of silver; Faust had Marguerite.

But the devil is even more prompt in his collections.

If you do not believe it, read the Bible or the daily papers.

The reward of sin is death. The devil gets his due.

But how little does the man get who sells his soul to the devil!—Dr. William E. Barton in the Chicago Post.

Koreans Flock to Holy Place.

Kelyong, the lonely mountain of Korea, is experiencing a real estate boom that makes the oil-town promoter pale into insignificance. On a tiny piece of land on the mountain side are now encamped 2,562 persons forming 518 households, while hundreds more are gathered at the base, bidding high prices for the privilege of buying a bit of land among the favored. The Korean prophet Chyong Kam, whose writings have been preserved in the ancestral mausoleum of the one-time imperial family of Korea, long ago prophesied that Mount Kelyong would be chosen as the religious center of the sect which he founded and as the future capital and metropolis of the peninsula. His prophecy has recently been given great publicity, and thousands of Koreans now are flocking to the mountain, firm in their belief that it is to be one of the greatest cities of the world, and that they are "getting in on the ground floor."

Restoring Black Walnut.

In an effort to restore the black walnut 150 bushels of seed have recently been planted at Mont Alto, Pa., and next spring it is expected that fully 100,000 seedlings will be available for replanting in groves in various parts of the state.

It is not difficult to start a walnut plantation, says the American Forestry Magazine, and it cites the case of an Indian farmer in the Far West, who, a few years ago, after an exceptionally heavy seed year, drove his wagon down to the Wabash bottoms and shoveled it full of nuts and litter. Then going up to his field he spread the nuts from the tail of the cart on the frozen ground in the same way manure is spread. In the spring when the frost was coming out of the ground and the soil was soft he had his boys take wooden mallets and go out and pound into the soil every nut they could see. It is reported that he has an excellent young grove at the present time.

Sucked Infant's Breath.

An old and weird tale of cats killing children by inhaling the breath was corroborated by an incident, which has occurred in Atlantic City. Awakened by a gasping sound from his nine-months-old daughter, a man discovered a huge black cat perched on the child's chest, sucking the infant's breath. He hurled the animal through a window. The baby was unconscious and barely alive when a physician reached the house. The child was not resuscitated until a half hour late. The animal did not belong to the family and must have entered the room through an open window. It is said that cats in instances of this sort are attracted by the faint odor of milk on the infant's breath.

GREATNESS NOT ON SURFACE

Reporter Had Perceived Nothing to Indicate That His Companion Was a Man of Note.

Every one is entitled to one chuckle in days like these, just as every dog is entitled to one bite. Hence this story of Sinclair Lewis, which is being repeated with vicious enjoyment by a lot of the lowbrows.

It appears that Lewis was a guest at a dinner not long ago at which a number of newspaper men and other low forms of life were present. The guests were introduced to their hosts in this fashion:

"Gentlemen—this is Mr. Smith, Mr. Jones and Mr. Lewis."

Mr. Lewis sat next to a reporter. The reporter talked of politics, the next war, heat, Babe Ruth, the big fight and other bourgeois things and said no word of literature.

Mr. Lewis became first uneasy and then unhappy. When he could stand it no longer he turned to his neighbor with a gay laugh.

"Ha, ha!" said he. "You did not when we were introduced think that I was the fellow Sinclair Lewis, who wrote 'Main Street,' did you?"

"No," said the reporter.—Boston Globe.

Fate Had Been Unkind.

An old man appealed for charity from passersby: "Pity a poor old man who has missed his calculation."

The strangeness of his cry attracted an old lady, who stopped the man and asked him what he meant.

"Madam," said he, "it's like this. When I was young, I earned plenty of money, and at fifty had saved a good sum. I said to myself I should only live to be seventy and what I had would keep me comfortably till then. Unfortunately, I missed my calculation. I've lived to be seventy-two and my money is all gone."

The explanation secured him the gift his ingenuity deserved.

TRACTORS PROVED CHEAPER THAN HORSES IN FIELD WORK

Chicago—The first authentic figures ever compiled on the relative cost of horse and tractor power have just been announced by the supervising observers committee in charge of the recent Fargo farming demonstrations.

These figures show that it costs $1.297 per acre to plow and prepare a seed bed by tractors and $2.41 to do the same work with horses under farming conditions in North Dakota plowing five inches.

Both tractors and horse outfits drew ten acre plots by lot and were governed by rules which severely penalized tractors for delays due to mechanical trouble, though horses were permitted to rest as long and as frequently as desired. In spite of this, five horses collapsed and died and seven horse outfits were compelled to withdraw from the demonstration.

Thirty-seven tractors participated in the demonstration, thirty-six of which qualified and plowed and prepared for seeding and seeded a total of 360 acres, divided into ten acre plots. Of these tractors, twenty-five burned kerosene and eleven burned gasoline. The depth of plowing was five inches. Twelve horse outfits entered the tests, but only five qualified and completed the work.

Every ounce of fuel and feed was checked and weighed under the supervision of a committee consisting of H. H. Bates, chairman; E. A. White, president, American Society Agricultural colleges, and O. W. Young, Society Automotive Engineers. Two observers recorded the work of each outfit and reported their findings in writing to this supervising committee.

The general averages of all tractors qualifying are summarized as follows:

	Plowing.	Preparing and Seeding
Kerosene Tractors.		
Average fuel used per acre (kerosene)	3.01 gals.	1.35 gals.
(Gasoline)	.12 gals.	.094 gals.
Lubricating oil per acre	.11 gals.	.04 gals.
Man hours per acre	.84 hours	.418 hours
Gasoline Tractors		
Average fuel used per acre (gasoline)	2.77 gals.	1.28 gals.
Lubricating oil per acre	.05 gals.	.03 gals.
Man hours per acre	.96 hours	.48 hours

Average price of fuel in Fargo was:

Kerosene ....11.8c per gallon
Gasoline ....23.1c per gallon
Lubricating oil ....65c per gallon

Feed costs for horses are given as follows:

Average number pounds of hay used per outfit ....352.
Average number bushels oats used per outfit 13.55
Average man hours per acre for plowing 2.64
Average man hours per acre for preparing and seeding 1.43

Fargo prices for feed are as follows:

Hay ....$13.00 per ton
Oats ....40 per bu.

Labor in each case was figured at 40c per hour and on this basis the work of the tractors cost $1.297 per acre, and that of horses $2.41 per acre.

These prices cover only the actual time of the demonstration and do not include labor or shelter charge for horses, nor tractor depreciation, or the fact that horse maintenance goes on throughout the year where tractor maintenance stops with the engine.

U. S. GOVERNMENT REPORT SHOWS LONG LIFE FOR TRACTORS.

Just at the time when everybody is analyzing the Fargo Farming demonstration, figures which show that it cost the prize winning team $26.005 to prepare a ten-acre seedbed with horses and that it cost only $8.97 to do the same work with tractors, the U. S. government has issued a report on tractor depreciation which throws some interesting light on the estimated life of the tractor.

This gives nearly ten years as the life of the tractor—an accurate estimate backed up by four and one-half years owners' actual experience.

On this basis, depreciation on a $1,000 tractor would be less than $100 per year, to which, according to the government report, would be added a repair item of about $40, making a total of less than $140 to cover depreciation and all repairs for a year.

Another government report, issued early in June on "Horses and Tractors on Corn Belt Farms," shows that on an average each tractor owner disposed of 2.1 horses when the tractor was purchased, and the same report shows that it cost on an average of $159 a year to keep each head of workstock.

Using these figures, the purchase of a tractor, therefore, meant a saving of $318 a year by cutting off the expense of keeping two horses.

Figuring tractor depreciation and repairs at about $140 per year, on the basis of the government report, and subtracting this from $308 per year saved by selling two horses, figures also based on government report, shows a net saving of over $178 per year in favor of the tractor.

The Fargo Demonstration showed that this $178 saving will many times cover the cost of kerosene, gasoline and oil to operate the tractor and take care of all the farmer's power requirements not only in field work but in belt work and many odd power jobs.

So it is not surprising that reports everywhere indicate new interest in tractors and a new idea of Power Farming as a result of the Fargo Farming Demonstration supplementing

Mortgage Foreclosure Sale

Whereas, Defaults have been made in the conditions of a certain mortgage duly executed and delivered by Edward M. Korstad and Josephine Korstad, his wife, Mortgagors, to First National Bank of Thief River Falls, Mortgagee, bearing date the 23rd day of March, 1917, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 24th day of March, 1917, at 10:30 o'clock A. M., in Book 84 of Mortgages on page 309, which said Mortgage, together with the debt secured thereby, was duly assigned by said First National Bank of Thief River Falls, the Mortgagee, to Peter P. Korstad by written assignment dated the 24th day of January, 1921, and recorded in the office of said Register of Deeds on the 25th day of January, 1921, at 1:00 o'clock P. M., in Book 98 of Mortgages on page 484.

And Whereas, the said Peter P. Korstad, the Assignee of the Mortgagee and holder of said Mortgage, has duly elected and does elect to declare the whole principal sum of said Mortgage due and payable at the date of this notice under the terms and conditions of said Mortgage and the power of sale therein contained, and whereas there is claimned to be due and is due at the date of this notice upon said mortgage and the debt secured thereby the total sum of One Thousand Seven Hundred Eighty-nine and 68-100 Dollars ($1789.68), as follows: The sum of $1504.86, being the amount of principal and interest secured by the mortgage hereby foreclosed, and the sum of $284.82 being for interest paid by the Assignee of this mortgage upon a prior existing Mortgage upon the premises securing this mortgae and for which the Mortgagee or holder of this mortgage is entitled to a lien pursuant to the terms of said mortgage, and whereas the power of sale has become operative, and no action or proceeding having been instituted at law ortherwise, to recover the debt secured by said Mortgage or any part thereof.

Now, Therefore, Notice Is Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, viz:

The Southeast Quarter (SE1-4) of Section Five (5) in Township One Hundred Fifty-four (154) North of Range Forty (40) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the Court House in the City of Warren, in said County and State, on the 15th day of October, 1921, at 10 o'clock A. M., of that day, at public vendue, to the highest bidder for cash, to pay said debt of $1789.68, and interest, and taxes, if any, on said premises, and Seventy-five Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from day of sale, as provided by law.

Your Factory on the Farm

Modern factories are laid out so as to get the most work done with the least lost motion. The barn ought to be planned in the same way.

Back hauls and other faults in planning are expensive. They make the work more difficult and waste your time in the bargain.

The farm factory, also, should be large enough to take care of the produce from your fields. Many real estate men estimate the fertility of a farm by the size and appearance of the barn. They set the proper valuation accordingly.

Command our services when planning your new barn. We'll go the limit in helping you.

After Oct. 1st, cream will be taken in only two days a week, on Mondays and Thursdays, at the Holt creamery.

Carl Sorenson returned home on Saturday from Devils Lake, N. D., and reports so much rain there that they had to quit threshing.

The hunters were out after the chickens, as soon as it quit raining, and some before it quit. Prairie chickens are none too plentiful.

R. Reierson has just got in shipment of a fine line of new patterns in dress goods, which will be sold at the new low prices, of the present market.

Miss Olava Sollom returned home Tuesday from a short visit with relatives at Middle River. We understand Miss Sollom will soon commence teaching in the Ostlund district near Golden Valley.

Miss Florence Brown returned home Monday night from Warren where she she had an operation on her arm, also for an abscess on her side. She is still very weak but is recovering as fast as could be expected.

Emil Rodechker returned Wednesday from a short visit at Deer Creek. He brot his wife and baby back with him and they will have rooms at Mr. and Mrs. P. L. Anderson's. Mr. Rodechker runs the big grader that is being used to re-shape the Babcock highway between Holt and Steiner.

R. A. Holmgren, Manjus Spjut and L. A. Jensen went to Strathcona Sunday to attend the military funeral of Stephen Gust, the first soldier from that vicinity to be killed in battle. The remains were shipped back from France and reinterment was made in the cemetery east from Strathcona.

Marshall County Teachers Institute

at the Court House, Warren, Minn.

October 3rd to 7th, 1921

To the Rural and Semi-graded Teachers of Marshall County:-

This is to notify you that the Annual Teachers' Institute for Marshall County will be held in the Court Room of the Court House at Warren, Minnesota, beginning at 10:00 A. M. on Monday, October 3rd, and closing in the afternoon of Friday, October 7th. All teachers, whether teaching or employed to teach, in all the rural and semi-graded schools of the County are required to attend. Certificates of Attendance can be granted to those only who attend the entire time.

The special feature of the Institute this year will be instruction and demonstration in the care and organization of rural school libraries based on the new Reading Circle Book, "Lessons on the Use of Books and Libraries." Teachers should bring their school copy of the 1918-19 Library Catalog. Instruction in General Methods will be given based on the Reading Circle Book, "Psychology for Teachers."

An experienced health worker will be here to help get this work organized and under way.

Another feature of the Institute will be the Annual Meeting of the Marshall County Teachers Patriotic League.

Indications are that this will be one of the very best and most profitable meetings that the Marshall County teaching force has ever held. We are expecting a 100 per cent attendance.

A medical examiner and a representative of the federal board for vocational education, a compensation and insurance claims examiner, and representatives of the American Legion and Red Cross, will be with the "Clean-up-Squad" at Thief River Falls, Friday and Saturday, Sept. 30, and Oct. 1. They want to see every soldier who feels he has any claim, or is not satisfied with previous claims, or that want vocational training. This is your last chance.

There are three kinds or classes of cows in this country. One kind is the boarder, that don't pay for her keeping; another is the one that about pays expenses; and the other is the profit-maker. We believe if the cows were tested out it would show about an equal number in each class. Then if you can, figure out the loss to farmers for keeping these boarders, who never will be able to pay their bill for care and feed. The only sure way is to test your cows.

Take Notice

Beginning Monday Oct. 3, cream will be taken in at the Holt creamery twice a week, on Mondays and Thursdays, only.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

Children Cry For Fletcher's CASTORIA

Are You Prepared?

A doctor in the house all the time would be a good idea. Yet you can't afford to keep a doctor in the family to keep baby well or prevent sickness. But you can do almost the same thing by having at hand a bottle of Fletcher's Castoria, because it is a wonderful remedy for indigestion, colic, feverishness, fretfulness and all the other disorders that result from common ailments that babies have.

Fletcher's Castoria is perfectly safe to use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Children cry for Fletcher's Castoria, and mothers recommend it because they have found it a comfort to children and a mother's friend.

If you love your baby, you know how sweet it is to be able to help baby when trouble comes. You cannot always call upon a doctor. But doctors have nothing but good to say of Fletcher's Castoria, because they know that it can only do good—that it can't do any harm—and they wouldn't want you to use for baby a remedy that you would use for yourself.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

The Burden of a Name.

"Few great men's sons ever amount to much," said a man at the club the other evening. "I think the most striking reason for this I ever read," he continued, "was that given by the second Duke of Wellington. Some one remarked to him: 'I cannot understand how it is that you with your interest in and knowledge of public affairs have taken so little part in them.'

"'Ah,' replied the duke, 'if you had sat so long under the shadow of a great tree you would have been as colorless as I.'"—Boston Transcript.

Wisdom is always known by the company it keeps out of.

Do you discriminate at the dining table—or are you thoughtless?

In thousands of homes, a "line" is drawn at the breakfast table. Tea or coffee is served for "grown-ups" and Postum for children. But some parents do not discriminate. Caffeine and tannin, the injurious contents of coffee and tea, seriously retard the development of the delicate nerve tissues in children.

Consequently, instead of rich, satisfying Postum, children are over stimulated by the drugs in tea and coffee; and so may grow up irritable and nervous. Any doctor can tell you that this is a great evil and should be corrected.

Although some parents feel a certain justification for the personal indulgence in coffee, yet the harm to them may be equally serious. It may take a little while longer for the drugs in coffee and tea to affect an older person, but in many cases the nervous system and allied bodily functions will become weakened. The surest way to avoid such possibilities is to quit coffee entirely and drink Postum instead. The change permits you to get sound, restful sleep.

Postum is the well-known, meal-time beverage. Like thousands of others you will like it because, in flavor, it is much like a high-grade coffee.

Do away with the distinction at the table. Serve delicious Postum, piping hot, to all the family. One week's trial and it is likely that you'll never return to tea and coffee.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

IN THE EYES OF THE LAW

Policeman's Stand Against Immodest Attire Would Seem to Be Somewhat Far-Fetched.

Two girls were crossing a Coney Island street. One had on a heavy, old-fashioned brilliantine bathing suit, with long skirt, high neck and elbow sleeves. The other was in street clothes. A policeman stopped them.

"You!" he called to the bathing beauty, "you can't pass here dressed like that. Go back and put on some decent clothes!"

The girl looked down at herself, then up at the policeman and smiled.

"Why, look at Mame!" she exclaimed, "what about her getting by?" The officer glanced at the other girl. She wore a filmy net waist, glaringly transparent, generously decollete, and a skirt ending a few inches above her knees.

"But she is dressed," said the guardian of the law. "Now you go and put some clothes on or you can't pass here, see?"—Judge.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Kasson—Oliver Fiegel was seriously injured when his team ran away.

Duluth—Janice, two-year-old daughter of Mr. and Mrs. H. Dahlen, was killed under the wheels of a street car.

Frazee—A man believed to be Mike Shiplock of Cudahay, Wis., was killed when struck by a Northern Pacific train near here.

St. Paul—The Minnesota supreme court again is in session at the opening of the fall term of court, following the summer vacation.

Minneapolis—Oscar B. Warren, mining engineer, who is recognized as an authority on Mesaba ore deposits, died at the Northwestern hospital after a short illness.

Buhl—Jack Stewart, 3 year old son of John Stewart, was killed when a loaded pistol, which he had obtained from a drawer, was discharged. The bullet struck the child in the head.

Wells—Lois Ella, 3-year-old daughter of Mr. and Mrs. Ophens Anderson of this place, is dead from spinal meningitis. The body was buried immediately without service because the disease is contagious.

Winona—Mrs. Mike Hoffman of Winona suffered a fractured arm and four others escaped injury when the car in which they were riding went off the road between Byron and Kasson, the car overturning.

Roseau—Roseau county farmers are claiming the biggest prospective general average of corn this year of any county in the United States. According to investigations the corn crop will average 100 bushels an acre.

Sleepy Eye—A double wedding with features somewhat out of the ordinary was solemnized at the Catholic church here, when two brothers married two sisters and the attendants were brothers and sisters of the brides and bridegrooms.

Willmar — The Franco-American scholarship, offered by the French government, was won by Miss Geraldine Haley, daughter of Mr. and Mrs. Philip J. Haley of this city. Miss Haley is a graduate of St. Catherine's college, St. Paul.

Duluth—Barney Erickson and Fred C. Davis, special St. Louis county deputy sheriffs, are locked up at the county jail, charged with acceptance of "hush" money, to suppress evidence which they had obtained against an alleged moonshiner.

St. Paul—Mike Holm, secretary of state, estimated that 20,000 automobiles with improper or without license are being operated in Minnesota, and has instructed law enforcement officers in all districts ot enforce the motor vehicle license law.

Hibbing—Without ceremony and in the presence of only the undertaker, John Webb, slayer of three Hibbing policemen, who committed suicide Wednesday rather than submit to capture, was buried yesterday in the family lot in the Hibbing cemetery.

Worthington—For the first time in the history of Nobles county, women have been drawn to serve on juries in district court. The panel selected for the coming term of court here contains the names of six women on the grand jury lists and one woman on the petit jury list.

Albert Lea—Murder and suicide was the verdict returned by a coroner's jury investing the deaths of Valentine Lentz, farmer of Pickerel Lake township, and Otto Pank, his hired man, who were found shot to death Sunday in the cow barn on Lentz' farm. Pank, the jury found, first slew his employer and then fired two shots into his own head while mentally deranged.

St. Paul—Minnesota leads all states in mileage of federal aid highway projects, according to the bulletin issued by the United States Department of Agriculture through the bureau of public roads. Forty-two federal aid projects in Minnesota aggregating 549 miles are listed. Fifty per cent of this total is given as Class 1 construction against the next highest figure of 43 per cent for California.

Duluth—Duluth returned to the 5 cent street car fare following decision of three district court judges granting the plea of the city for an order restraining collection of the 6 cent fare. The state Railroad and Warehouse commission recently granted the street car company's request for a temporary increase of fares from 5 cents to 6 cents, pending a valuation of the company's property. The order became effective September 1.

Marshall—F. S. Cook, proprietor of a hotel here, has received a letter from a man who said that 20 years ago he had a meal at Cook's hostelry and neglected to pay for it. In the letter was a postal order for the 50 cents due for the meal with interest for 20 years.

St. Paul—Employers of the state mining and timber departments at Hibbing were ordered by State Auditor Ray P. Chase to join the posse of more than 500 men who are searching the woods in that section for Jack Webb, slayer of Chief of Police Daniel Hayes and two other police officers at Hibbing Saturday.

WILL DISCUSS UNEMPLOYMENT

Secretary Hoover Calls Prominent Men and Women Into Conference on Problem.

TO ACT BEFORE WINTER

Union Heads and Members to Join Business Men and Women in Seeking Relief Before Winter for Nation's Horde of Jobless.

Washington.—Announcement of the names of 35 men and three women who have accepted President Harding's invitation to take part in a national unemployment conference here beginning next Monday has been made by Secretary Hoover. Other names will be announced later, he said, when all the replies have been received.

Prominent People Accept.

The list includes Secretaries Hoover and Davis, Julius Barnes of Duluth, Minn.; Samuel Gompers, Charles M. Schwab, and John L. Lewis, of the mine workers. The three women are Ida Tarbell of New York; Mary Van Kleeck of New York, connected with the Russel Sage Foundation, and Elizabeth Christman of Chicago, an officer in the national woman's trade union league.

Mr. Hoover has been appointed by the president chairman of the conference, which, it is said, would at once dissolve itself into special committees for the formulation of definite plans for submission to the conference as a whole. These committees, Mr. Hoover asserted, would no doubt seek cooperation from other representatives of labor, civic bodies and employers in the formulation of their views.

Data Being Prepared.

An economic advisory committee of 20 was appointed in advance of the conference and, Mr. Hoover stated, has been preparing unemployment data and a working program for the conference.

Secretary Davis also has been cooperating in formulating the conference plans, he said, and has been directing a renewal survey of unemployment throughout the country for the use of the conferees.

Combat Unemployment Before Winter.

The conference, Mr. Hoover continued, was expeceted to get to work quickly so the administration might be in a position to combat unemployment before winter. The president's invitations, he said, stated that the "conference is called to inquire into the volume and distribution of unemployment, to advise upon emergency measures that can be properly taken by employers, local authorities, and civic bodies, and to consider such measures as would tend to give impulse to the recovery of business and commerce to normal."

KENMARE POLICEMAN SLAIN

Transient Kills Officer Seeking to Prevent a Holdup.

Kenmare, N. D.—Julius A. Nielson, night policeman here, was shot and killed by Charles Welling, 25, a transient, who with a companion, Harry Butler, 45, had held up a poker game and were attempting to evade detention by the officer.

Welling engaged in a revolver duel with Chief John Kinser following the shooting of Nielson, and was wounded through the leg, but escaped. He was found hiding in a barn on the Frank Hyatt farm, five miles from Kenmare. Welling has been held to the next term of the district court on a charge of murder.

Butler, Welling's companion, has been charged with robbery. Nielson was married and is survived by his wife and seven small children. He homesteaded in this section and had lived in this vicinity for the last 20 years.

Speaks Without License, Jailed.

Fargo.—Close to 100 members of the I. W. W., many of whom were participants in the affray when Tom Doyle and W. F. Powell, I. W. W.'s, were arrested following a mob attack on Chief of Police Louis Dahlgren and Desk Sergeant Wade Murray, crowded the Fargo police court when the two prisoners were arraigned for hearing. Doyle, who was charged with having spoken at a street meeting without a proper permit, after personally pleading his case, pleaded guilty to the charge against him and was sentenced by Judge Leigh J. Monson to pay a fine of $1 or spend one day in jail. Doyle said that "because of his principles in the matter," he would serve the jail term.

Vote Strike, Defer Action.

Chicago.—Railroad shopmen belonging to the six federated shop crafts unions have voted to strike against the general railroad wage reduction of July 1, 1921, but will defer any action until the promulgation of working rules now pending before the United States railroad labor board, when another vote will be taken on acceptance or rejection of the rules. This announcement was officially made by B. M. Jewell, head of the shop crafts organizations, at a mass meeting.

625,000 BOTTLES SOLD IN NEW YORK

Biggest Thing of Kind Ever Seen in That State, Declares Big Wholesaler.

The fact that 625,000 bottles of Tanlac have been sold in the state of New York since its introduction there less than one year ago, is a big business item that will attract unusual attention throughout the entire East, for nothing like it has ever happened before. It breaks all records.

Mr. George B. Evans, manager of the Gibson-Snow Company, the well-known wholesale druggists, with branches in Albany, Buffalo, Rochester and Syracuse, recently announced that the preparation was now selling in their trade territories alone at the phenomenal rate of approximately 500,000 bottles a year.

"If the present rate continues," said Mr. Evans, "this state alone will probably require considerably over 750,000 bottles a year. This is a tremendous figure, but I am really conservative in making this statement."

Tanlac is sold by leading druggists everywhere.—Advertisement.

Little Sister's Interest.

Little Jennie gazed long and thoughtfully at the young man who was calling on her grown-up sister Maude.

"May I climb up on your knee, Mr. Greene?" she inquired at last.

"Yes, of course, dear!" smiled the young man, who wanted to make a hit with the family. "Want to pull my hair—eh?"

"No; I want to see if I can find that word," replied the little girl.

"What word?" asked the visitor, in bewilderment.

"I heard Maude say this morning that if a man ever had the word 'Idiot' written all over his face, that man was you!"—Stray Stories.

Quite as Good.

A farmer recently paid a visit to a neighbor, and as he passed along by the side of the fields he made a mental note of the fact that no scarecrows were visible.

Meeting the neighbor almost immediately he opened conversation as follows:

"Good morning, Mr. Oates. I see you have no scarecrows in your fields. How do you manage to do without them?"

"Oh, well enough," was the innocent reply. "You see, I don't need them, for I'm in the fields all day myself."

"You'll have to eliminate that murder scene," said the motion-picture censor.

"But the man has to be killed, or the whole plot is spoiled."

WOMEN WHO CANNOT WORK

Read Mrs. Corley's Letter and Benefit by Her Experience

Edmund, S.C.—"I was run down with nervousness and female trouble and suffered every month. I was not able to do any work and tried a lot of medicine, but got no relief. I saw your medicine advertised in a little book that was thrown in my door, and I had not taken two bottles of Lydia E. Pinkham's Vegetable Compound before I could see it was helping me. I am keeping house now and am able to do all of my work. I cannot say enough for your medicine. It has done more for me than any doctor. I have not paper enough to tell you how much it has done for me and for my friends. You may print this letter if you wish."—ELIZABETH C. CORLEY, care of A. P. Corley, Edmund, S. C.

Ability to stand the strain of work is the privilege of the strong and healthy, but how our hearts ache for the weak and sickly women struggling with their daily rounds of household duties, with backaches, headaches, nervousness and almost every movement brings a new pain. Why will not the mass of letters from women all over this country, which we have been publishing, convince such women that Lydia E. Pinkham's Vegetable Compound will help them just as surely as it did Mrs. Corley?

Alabastine Color Demonstrator Sent Free

Shall Old Man Gloom glare at you all winter from the dirty, dingy, streaked and unsanitary walls of your home?

Or would you prefer walls that radiate cheer and hospitality, modernize your home and conduce to health, happiness and the pride of living?

We know what your answer will be and to secure these satisfying results you have only to use

Alabastine

Instead of Wallpaper, Paint or Kalsomine

Alabastine is a dry powder packed in five-pound packages in white and a variety of beautiful colors ready to use by mixing with pure cold water, with full directions on every package.

Alabastine has been on the market for forty years, is a household word in every civilized country in the world. If unable to secure the services of a painter or decorator you can apply Alabastine yourself.

Important to Know

To secure Alabastine results you must get Alabastine; it is necessary to see that the package has the word "Alabastine" and the cross and circle printed in red.

When employing the services of a painter ask him to bring the Alabastine in unbroken packages and mixed on the job. This he will be glad to do to convince you that he is giving you what you desire and pay for.

Alabastine Over Painted Walls.

Have you had the experience after going to considerable expense to paint your walls, on the theory that they would be washable the same as your woodwork, of finding that after washing them they were grimy, streaked and unsatisfactory? Have you hesitated at the expense of again repainting them?

If the paint is solid on the wall and not scaling, go over it with a coat of Alabastine and be pleasantly surprised as to effects produced and saving effected. Alabastine may even be used over old soiled wallpaper that is firm on the wall not printed in aniline dyes or with raised figures.

You Can Always Get Alabastine

There is hardly a town where Alabastine is not carried in stock by dealers who carry paints. If you do not find it and are offered something else claimed to be just as good, write us and we will tell you how to easily secure Alabastine.

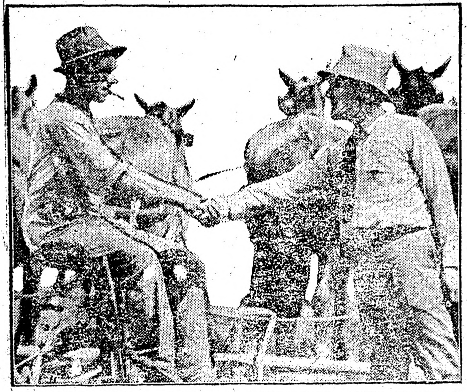
WINS FIRST PRIZE IN FARMING CONTEST

H. R. Jones Takes $400 Prize Money With Six Horse Team.



Geo. E. Fuller, Manager of the Power Farming Bureau, Congratulates H. R. Jones, Winner of the Farming Contest at Fargo.

"The Best Team in the Northwest" is the claim now made by H. R. Jones, who won the first prize of $400 cash in the recent Fargo farming demonstration.

This claim is based on the records of 11 of the best teams in the Northwest originally started in the recent Fargo farming demonstration. Of these, six teams were compelled to withdraw after starting the work of plowing and seeding 10-acre plots; one of these was a team of thoroughbred Percherons—and the others were seasoned horses, well handled by competent men. In spite of this, it is reported that five horses collapsed and died.

The record of the Jones outfit, therefore, stands out as a surprising achievement, as he completed the job of plowing 10 acres, five inches deep, in 20 hours and 42 minutes—and he disked and harrowed this in 12 hours and 45 minutes.

While Jones was winning the prize for the best horse outfit, 36 tractors were competing against each other in similar work, and the average of the six best tractors shows that they did the same work as the horses in 8 hours and 43 minutes—one-fourth the time.

Every ounce of feed for the horses and fuel for the tractors was carefully weighed by an observers' committee; and the reports show that the Jones 6-horse team ate 250 pounds of hay and 12½ bushels of oats. With hay at $13 per ton, and oats at 40 cents per bushel, which were the Fargo prices, and figuring Jones' time at 40 cents per hour; his total cost for plowing and preparing a seed bed of 10 acres was $26.665. This compares with the cost, $8.97 for the same work with tractors, figuring kerosene at 11.8 cents per gallon, gasoline, 23.1 cents per gallon, lubricating oil 65 cents per gallon, and labor at 40 cents per hour. These costs do not include depreciation or repairs for tractors—and no charge is made for horse shelter or chores.

No effort was made to have horses compete with tractors in this work, but the comparison between the cost of horse power and tractor power under actual farming conditions in Dakota is interesting, not only because tractors did the work so much cheaper and quicker, but because tractor expense stops with the engine, whereas, horses must be fed and sheltered throughout the entire year, regardless of whether or not the horses are working.

The Jones achievement at the Fargo farm demonstration is a record which thousands of horse farmers in the Northwest will "shoot at" next year in summer fallowing where it is necessary to turn under weeds before they have gone to seed and after they have attained considerable growth.

The record of the tractors, which shows they did the work in one-fourth the time, and at less than one-half the cost of horses, will also be a gauge to measure tractor performance, though many tractor owners will far surpass the Fargo tractor records by plowing 12 or 14 hours continuously a day instead of limiting themselves to the 10-hour day provided in the Fargo tests.

Mortgage Foreclosure Sale

Whereas, Defaults have been made in the conditions of a certain mortgage duly executed and delivered by Edward M. Korstad and Josephine Korstad, his wife, Mortgagors, to First National Bank of Thief River Falls, Mortgagee, bearing date the 23rd day of March, 1917, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 24th day of March, 1917, at 10:30 o'clock A. M., in Book 84 of Mortgages on page 309, which said Mortgage, together with the debt secured thereby, was duly assigned by said First National Bank of Thief River Falls, the Mortgagee, to Peter P. Korstad by written assignment dated the 24th day of January, 1921, and recorded in the office of said Register of Deeds on the 25th day of January, 1921, at 1:00 o'clock P. M., in Book 98 of Mortgages on page 484.

And Whereas, the said Peter P. Korstad, the Assignee of the Mortgagee and holder of said Mortgage, has duly elected and does elect to declare the whole principal sum of said Mortgage due and payable at the date of this notice under the terms and conditions of said Mortgage and the power of sale therein contained, and whereas there is claimned to be due and is due at the date of this notice upon said mortgage and the debt secured thereby the total sum of One Thousand Seven Hundred Eighty-nine and 68-100 Dollars ($1789.68), as follows: The sum of $1504.86, being the amount of principal and interest secured by the mortgage hereby foreclosed, and the sum of $284.82 being for interest paid by the Assignee of this mortgage upon a prior existing Mortgage upon the premises securing this mortgae and for which the Mortgagee or holder of this mortgage is entitled to a lien pursuant to the terms of said mortgage, and whereas the power of sale has become operative, and no action or proceeding having been instituted at law ortherwise, to recover the debt secured by said Mortgage or any part thereof.

Now, Therefore, Notice I Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, viz:

The Southeast Quarter (SE1-4) of Section Five (5) in Township One Hundred Fifty-four (154) North of Range Forty (40) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the Court House in the City of Warren, in said County and State, on the 15th day of October, 1921, at 10 o'clock A. M., of that day, at public vendue, to the highest bidder for cash, to pay said debt of $1789.68, and interest, and taxes, if any, on said premises, and Seventy-five Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from day of sale, as provided by law.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

Corn and Potato Show

Friday October 14

Holt School House

A corn and potato show will be held in Holt on Friday Oct. 14th, at the school house, in connection with the girls and boys club day.

The purpose of this show is to stimulate more interest in raising more potatoes and corn by presenting a good exhibit from the vicinity around Holt.

Ten ears of corn must be exhibited of any variety.

Thirty-two potatoes to be exhibited of any variety.

These exhibits will be general and it is hoped that the farmers will bring in a large display.

Girls and boys enrolled in the club work will be asked to exhibit their produce same day. Mr. Kittleson State Club Leader will be here to do the judging and prizes will be awarded at that time. Every club member who brings in his or her potatoes or garden exhibits will receive a prize.

Program to be rendered afternoon of same day in school house. Miss Sheridan from Extension division will address the audience, as well as Mr. Kittleson and some other Extension man not yet designated.

Farmers interested in finding a market for their potatoes call in and see the County Agent next Wednesday. Through the potato association at Thief River Falls the farmers have so far received $2.15 per hundred net, which is about fifty cents more than they could get on the local market. Arrangements may be made if enough farmers are interested to cooperate with the Thief River Falls association and ship a car or two from Holt.

It is hoped that next year a potato association and warehouse can be organized in Holt. It would be too late to organize an association this fall and do any business, worth while.

Alfred Sollom went to Crookston Monday to prove up on his homestead, and Hifmer Moberg and Olaf Ness went along as witnesses.

R. Reierson has just got in shipment of a fine line of new patterns in dress goods, which will be sold at the new low prices, of the present market.

Our taxes should be lighter next year. The village levy is $500.00 less than last year. The school levy $2625.00 less, which is made possible by an increase in state aid. Then comes state auditor Chase with the announcement that for the first time in the history of the state there will not be a tax levy made for general revenue purposes. He figures the receipts from various other sources will be sufficient for next year. The state tax levy for 1921 is 4.23 mills, as against 5.42 for 1920 and 6.1 for 1919.

Marshall County Teachers Institute

at the Court House, Warren, Minn.

October 3rd to 7th, 1921

To the Rural and Semi-graded Teachers of Marshall County:-

This is to notify you that the Annual Teachers' Institute for Marshall County will be held in the Court Room of the Court House at Warren, Minnesota, beginning at 10:00 A. M. on Monday, October 3rd, and closing in the afternoon of Friday, October 7th. All teachers, whether teaching or employed to teach, in all the rural and semi-graded schools of the County are required to attend. Certificates of Attendance can be granted to those only who attend the entire time.

The special feature of the Institute this year will be instruction and demonstration in the care and organization of rural school libraries based on the new Reading Circle Book, "Lessons on the Use of Books and Libraries." Teachers should bring their school copy of the 1918-19 Library Catalog. Instruction in General Methods will be given based on the Reading Circle Book, "Psychology for Teachers."

An experienced health worker will be here to help get this work organized and under way.

Another feature of the Institute will be the Annual Meeting of the Marshall County Teachers Patriotic League.

Indications are that this will be one of the very best and most profitable meetings that the Marshall County teaching force has ever held. We are expecting a 100 per cent attendance.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. [illegible] tem.

WONDERFUL GAIN IN WEIGHT REPORTED

Young Woman Only Weighed 76 Pounds—Now Weighs Over 100 and Is Gaining Every Day.

"Before I began taking Tanlac I only weighed 76 pounds, I now weigh over one hundred and am gaining every day," said Miss LaRue Davis of Chattanooga, Tenn.

"I bought my first bottle of Tanlac at Gas City, Ind., and it helped me so much that I continued using it. I have always been very delicate and suffered a great deal from stomach trouble and rheumatism. I rarely ever had any appetite and simply could not relish anything. I fell off until I only weighed 76 pounds and was so thin I looked perfectly awful. This is the condition I was in when I began taking Tanlac.

"Oh, I feel so different now. Even my complexion is improved. My appetite is good and I can hardly get enough to eat. Tanlac is simply grand and I can truthfully say it is the only medicine that has ever done me any good."

Tanlac is sold by leading druggists everywhere.—Advertisement.

MOTHER! MOVE CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Hurry, mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

New York—The nation paid its tribute to the memory of sixteen American officers and men of the ill-fated dirigible, ZR-2, whose disastrous plunge into the river Humber put two nations in mourning. Around the caskets of fifteen—one has been buried in British soil—there gathered in the New York navy yard a great band of mourners, coming from all ranks of American society.

Sault Ste Marie, Mich.—Former Governor C. S. Osborne was shot at five times while hunting ducks, by J. Mattsen, who is now lodged in the county jail.

New York—First word of a shipwreck in the Atlantic, on the southern steamship lanes, was received here, in a wireless from the steamer Cabo Creux, that it was bringing in 30 survivors.

Portland, Me.—Robert L. Bean, cashier of the Maguntìcook National bank of Camden was arraigned here as a defaulter to the amount of $257,000, on an indictment returned by the grand jury.

Nashville—W. C. Puckett, concession man of Atlanta, and Charles L. Stewart, concession man of Indianapolis, were shot to death among a throng of hundreds of people at the Tennessee state fair grounds.

Charleston, W. Va.—Five officials of district No. 29, United Mine Workers of America, and 28 other men have been indicted in Fayette county, in connection with the "shooting up" of coal properties at Willis branch, several months ago.

Iron Mountain, Mich.—While temporarily deranged, Arthur Woods, aged 22, shot and seriously wounded his mother, then turned his revolver and fired a bullet into his head. Doctors say Mrs. Woods may recover. They hold out little hope for the son.

Northwest

Vancouver, Wash.—Deputy sheriffs shot and captured two men believed to be robbers who stole $30,000 from a ticket truck of the Sells-Floto circus here.

Roundup, Mont.—A year's careful use, under supervision of agricultural college experts, has demonstrated the value of poison as a cure for grasshoppers. It is thought the danger of return of the pests next year in this section has been averted.

Miles City, Mont.—C. H. Larson, aged 23, parachute jumper operating with Bert Cole of Casper, Wyo., was killed fololwing an exhibition flight at the eastern Montana fair at Glendive, when he made his second jump from the Cole airplane 2,600 feet in the air.

St. Paul—Government financial aid amounting to $15,000,000 has been assured to grain growers of Minnesota, North and South Dakota, having membership in the Equity Co-operative Exchange, according to announcement from the War Finance corporation headquarters in Washington. This, officers of the co-operative concern said, amply will finance the handling of 25,000,000 bushels of grain it expects to handle for the United States Grain Growers, Inc.

Madison, Wis.—Peer O. Stromme, noted Norwegian newspaper man, author, lecturer and traveler, died after a brief illness at his home in this city. Stromme was one of the most widely known men in the world, and had traveled and lectured in almost every civilized country. He was especially well known in the Northwest, having edited several prominent Norwegian newspapers in Illinois, Wisconsin, Minnesota and North Dakota during the past twenty years. He made a trip around the world from 1910 to 1913, and wrote articles from various countries for newspapers in America. He had campaigned for the Democratic ticket in every presidential campaign since 1888.

Foreign

Paris—The value of the ships surrendered by Germany is fixed at 745,000,000 gold marks by the war reparations commission.

London—The cost of living, still 120 per cent above the prewar figure, dropped 2 per cent in August, labor ministry statistics show.

Geneva—Three new nations, Esthonia, Lithunia and Latvia have been admitted to membership in the League of Nations. This brings the membership of the league to 51.

Riga—A dispatch to the Rosta agency, from Moscow describes the arrival at the bolsheviki capital of "a representative of the American workmen" Pelman, who has brought for the starving people in the Volga region $500,000.

Etampes, France—Capain Bernard de Romanet, the noted French aviator, holder of the world's speed record for one kilometer, was instantly killed here while taking part in the elimination races for the Deutsch de la Meurthe cup.

Copenhagen — King Christian received Vice Admiral Albert N. Niblack, commander of the American Naval forces in European waters, and Brig. Gen. Henry T. Allen, commander of the American forces in Germany, in audience at the royal palace.

Berlin—Compression tests on a new and secret gas being manufactured at the Oppau aniline works were held responsible for the devastating explosion Wednesday morning, which caused more than 5,000 casualties and great destruction of property for miles around.

London—Twenty American relief administration workers, doctors, transportation experts and warehouse keepers, who arrived in England from the United States on board the liner Olympic, have left for Riga. From that city they will go to Moscow, where definite assignments will be given them.

Quenca, Spain—Great damage has been done by a terrific tempest at Motilla del Palacar, southeast of here. A dispatch says a large number of houses have been destroyed, and that 12 bodies have been recovered. Whole families are reported to have disappeared.

London—The Quest, the small ship in which Sir Ernest Shackleton will explore the uncharted sections of the South Atlantic, the Pacific and the Antartic seas, left Thames on the start of its two-year voyage. Large crowds gathered on the docks to wish Shackleton and his party a successful voyage

DAKOTA MAN FOR HEAD OF LEGION

Mandan Major Groomed as Opponent of John G. Emery for Commander.

STATE MEETING TO ACT

Judge J. M. Hanley's Conduct on Legion Tour of France Said to Have Stamped Him as Timber for High Office.

Mandan.—Judge J. M. Hanley of Mandan, a former service man, will be presented as a candidate for the office of national commander of the American Legion against John G. Emery.

Reports to this effect have been in circulation throughout North Dakota for the past few days and Judge Hanley recently issued the following statement at Dickinson:

"I have heard that some representatives from other states have been kind enough to suggest my candidacy for national commander. The office is of such importance that I feel that suggestions as to who should be candidates should come from Legionaires themselves rather than from possible candidates and I have therefore made no move towards seeking the office. Am attending trial of cases in district court at Manning, Dunn county, and hardly expect to be through in time to attend the Jamestown convention."

Convention May Indorse.

Friends of Judge Hanley were expected to present his name to the Jamestown convention and it is believed that he will receive the unanimous indorsement of the convention for the high office.

Judge Hanley recently returned from the Legion tour of France and acted as chairman at the revolt meeting of the Legionaires aboard the ship when protest was made against Commander Emery for his undemocratic attitude.

Newspapers in the east have published detailed reports of the revolt meeting and several of the papers state that the Legionaires who were dissatisfied on the trip will get behind another candidate to beat Emery. It is said that several of the eastern delegations are anxious to get behind Hanley if he will be a candidate, as his work as chairman of the meetings aboard ship was highly commendable.

Elected at Kansas City.

With the declaration of the war with Germany and the subsequent formation of the Second North Dakota Major Hanley was given command of the Third battalion of that regiment. He attended the meeting in Paris in March, 1919, when the American Legion was tentatively organized. After arrival home he attended the first caucus of the Legion in St. Louis, being one of the 10 delegates representing North Dakota at that meeting, the first to be held in this country. He represented the North Dakota department on the national executive committee two terms. At the first state convention of the Legion at Bismarck in 1919, Major Hanley acted as chairman of the meeting.

LOAN SOON TO BE AVAILABLE

North Dakota Congressman Helped Get Grain Marketing Advance.

Washington.—The War Finance corporation has announced further details regarding the loan of $15,000,000 which the corporation has agreed to make to the Equity Co-operative exchange, St. Paul, being the loan applied for by M. Anderson, president, and Benjamin Drake, attorney for the exchange, and negotiated through the co-operation of Congressman George M. Young of North Dakota.

The War Finance corporation says: "The loan will be secured by registered terminal warehouse receipts representing the grain to be marketed, and will be in an amount up to 60 per cent of the value of the grain. The exchange will agree to maintain this margin until the loan is repaid. The funds advanced by the War Finance corporation to the exchange will be used by it in making corresponding advances to its members. After the grain is marketed by the exchange, the proceeds will be devoted, first, toward repayment of the War Finance corporation's loan, the balance being prorated among the farmer members of the exchange in proportion to the amount of grain supplied by them.

San Francisco.—Al Semnacher, witness for the prosecution in the case of Roscoe C. (Fatty) Arbuckle, charged with the murder of Virginia Rappe, denied before the San Francisco county grand jury that he had conspired in any way to extort money from the defendant.

Outlaw Gang Broken Up.

Minot, N. D.—Authorities in Ward and Renville counties believe they have smashed the worst gang of outlaws ever operating in this section of North Dakota, in view of a confession made by Frank Kerr of Kenmare to Sheriff McKechnie, in which he admits his gang robbed several stores and implicates men held at Crosby on a car stealing charge, and three men held in Minot and himself in the shooting of Barney Bussen, state prohibition officer, and John Powers, deputy sheriff of Renville county, near Mohall.

The domestic animals on a farm proved a source of great wonder and speculation to Bob, who was making his first visit to the country.

One morning an extremely young colt was shown him.

"Well, Bob, what do you call that?" asked the farmer.

After a few minutes of deliberate thinking Bob replied: "It looks horse, but I guess sheep."

TEACHING STAFF IS APPOINTED

The staff of instructors at the Northwest School is complete in every department, and all the positions are filled, excepting that of school nurse. Because Miss Olga Hanson, who so acceptably filled that position last year may decide to return, this position is left open for the present.

Miss Clara Evenson, a graduate of North Dakota University, will have charge of the work in English, taking the position formerly held by Miss Burns, who was married shortly after school closed. Miss Kneeshaw returns to her former position as assistant.

Professor Ray Dunham, formerly a member of the University of Illinois Soil Survey staff, has joined the Northwest Station corps as field crops man. His experience as a soils expert, in addition to his training in farm crops work, will be especially valuable in northwestern Minnesota, with its many quite distinct soil types on which investigational work is needed.

Adolf K. Pierce, a graduate of Wisconsin University, will teach the business training work, including stenography and typewriting, taking the place of Miss Eleanor Bruem, who accepted a very desirable federal position early in the summer.

Herbert S. Hinrich, a graduate of the University of Illinois, will be the new farm motors instructor. Millard Peck, the former instructor, is now permanently employed by the Iowa Highway Commission. Severin Rishovd, a former instructor, is considering the position as assistant.

Upon Miss Lottie Ward's resignation as head of the home economics department, Miss Mildred Schenck, a graduate of Iowa State College, was appointed as her successor. Miss Ward is to be married soon. Miss Bernice Nolan will return as domestic art instructor.

The live stock position will be filled by O. M. Kiser, formerly live stock extension worker at the Northwest School. He is at the present time county agent in Goodhue county, one of the largest and best agricultural counties in Minnesota. Mr. Kiser assumes his work at the Crookston School sometime this month.

Misses Louise Pederson and Julia Aune will resume their work in the music department when school opens on October 10. Considerable new music has been ordered. Elmer F. Uggen, Crookston, has accepted the position of band leader. The prospects for a splendid year in music were never better.

Henry P. Constans, a graduate of Carleton College, and a member for two years of the Intercollegiate debating team, and an expert basket ball player, will join the staff on October 1 in the position of assistant preceptor, instructor and basket ball coach.

tie of their unselfish spirit and be inspired to an attempt to emulate them."

Ole A. Flaat, '16, of Fisher, emphasizes "learn to associate" in his estimate of the value of the training given at the Aggie School. He states: "Among the factors which contribute toward a modern education, the experience of meeting, mingling, and adapting oneself to the wishes, rights and methods of one's fellow men, is of great importance. This is not taught successfully through books, but by experience alone.

"I feel that the dormitory life I enjoyed at the N. W. S. A. was a unique experience, which in itself was entirely educational. I believe that the living together with a large number in a dormitory, under the guidance and with the companionship of competent instructors, is one of the large benefits derived by attendance at the N. W. S. A. This is a factor well worth the consideration, and should not be overlooked by one who wishes to get the most out of his school years."

Peter Ness, '17, of Ferris, writes interestingly about his views of the Aggie School: "It is perfectly clear to me that I was greatly benefited by my stay at school, and though I spent some hard earned dollars there, much needed for other purposes, and though I spent some precious time there, I have never regretted that I took the course.

"More valuable to me than any other training or knowledge I received at the N. W. S. A., was that of public speaking and debating. It has stood me in good stead on different occasions. Without this training I should have found it hard or even impossible to overcome that diffidence which would have prevented me from speaking in public.

"If I should say anything further, I would say that a dormitory school such as the N. W. S. A., gives a splendid opportunity for intimate acquaintance and friendship among students and teachers. We lived together the clock around.

"In addition at the Aggie School we were given the opportunity to see and hear some really big men and women. People prominent in state and even national affairs, appeared there to speak."

Promising Outlook Predicted for Fall Term of Northwest School

Many Enrolling For School Year Which Will Start October Tenth

Former Students and Members of the Faculty, Parents of Pupils and University Officials Join in Praise of Northwestern School of Agriculture. Teaching Staff Will Have Several New Members This Year.

Superintendent C. G. Selvig and his corps of assistants are busy making preparations for the opening of the Northwest School of Agriculture Oct. 10. A bright outlook for a large enrollment is predicted by Mr. Selvig who announces that enrollments are being received daily. "This indicates" Mr. Selvig declared, "that despite the business and crop depression the farmers are raising the money to send their sons and daughters to school. They realize that what may seem like a large expense now will soon prove a tremendous asset when the time comes when the son can employ the knowledge he gained at an agricultural school to the benefit of the farm."

The Northwest Monthly, the miniature newspaper issued by the school, contains a number of interviews from former students, ex-members of the faculty, parents of students and university officials which are unanimous in their approval of the Northwest School's activities and the benefits derived by young men and women attending that institution.

C. G. SELVIG

Whose Superintendency has Witnessed the Great Growth of the Northwest School.

PARENTS EXPRESS THEIR OPINION

The viewpoint of the parents is always of vital importance in estimating a school. For that reason, there appear in this issue of the Northwest Monthly, a number of statements from parents, that are of interest. Doubtless there are many others whose statements would emphasize different phases of the influence of the institution, while others, again, would point out ways for possible improvement. It is of utmost importance for the school to maintain a close contact with the homes from which the students come. To this end, all suggestions for remedying defects and strengthening the work are always welcome and will be greatly appreciated by the faculty.

From among a number of letters received, the following have been selected as representing different sections of our district. Being written by parents, thus giving their viewpoint, they should carry much weight to parents of prospective students:

Erick Anderson.

Erick Anderson, of Oak Park Farm, near Gonvick, has three boys who have attended the Red River Valley farm school. He gives an interesting statement:

"Being a parent of three boys who have attended the N. W. School of Agriculture, I feel that I can comment authoritatively upon the value of the school. I feel that this school is positively everything that a school of its kind should be. It is putting out many fine girls and boys with good, strong character as a result of its excellent instruction. I will assure anyone that wishes to send their boys and girls there that the best results will be obtained."

Peter Lindahl.

Peter Lindahl, of Red River Township, west of Hallock, writes:

"Too much can not be said regarding the value of the education as given at the Northwest School of Agriculture, as it is worthy of the greatest praise and support.

"Every young man or woman who has the opportunity will make no mistake in attending this school. The faculty is the best available and is not only capable but makes every effort to bring the school up to the highest standard for the benefit of those who come there to learn.

"Besides the public school, I have sent my children to six different institutions, but of all these, the Northwest School of Agriculture surely is superior along every line."

John N. Sather

From John N. Sather, a farmer living near Halstad, comes a convincing statement:

"I, for my part, feel that the Northwest School of Agriculture is one of the best schools in the state; first, it takes into consideration all phases of farm life; second, it is so located as to give the boys and girls of the Red River Valley an opportunity to attend school near home, and, third, the school terms are so arranged as to give the children a chance to stay home during the busy seasons. In addition, the boys and girls are well looked after while at the school, in charge of a well trained and capable faculty. I feel as if I have a right to say a few words in favor of the Northwest School of Agriculture, as I have had three of my sons there, and they have all benefited greatly by having attended the school.

Regis Huot

Regis Huot, of Huot, in Red Lake County, gives another viewpoint regarding the school that is of interest.

"I have had the pleasure of having a son and daughter complete a course at the Crookston farm school, and can justly say that the benefits derived by these students from an educational standpoint, and from a standpoint of cooperation and good fellowship derived from pleasant companionship, cannot be surpassed under any condition. I feel today, as they do, that it has been the most instructive period of their lives."

Sen. James Cumming

Senator James Cumming, of Mallory, Polk County, writes convincingly regarding agricultural education.

"Since the dawn of civilization it has been deemed necessary to train people for certain vocations. The professional man has spent years in training and study. The experiences of others with reference to their particular professions have been carefully sought and treasured, and so along many lines. The business man and the professional man have received special training so as to be efficient in their chosen vocations.

But not until in recent years has it been deemed necessary that the young man and woman who contemplate making their homes on the farm, should receive a special course at some agricultural school. The fact that we have located in our midst a state institution for the purpose of giving special education and training to the boy and girl who expect to engage in the business of farming, should awaken a special interest in the subject. The Northwest School of Agriculture, located at Crookston, should hold the center of interest for every boy and girl who contemplate making farming their life work.

It has been amply demonstrated that boys and girls who have taken a course at this school have been repaid a hundred fold. It has been my privilege to come in contact with and observe the young men graduates of the school. They are invariably making a success, and to step into a home which is supervised by a graduate of the Northwest School, it is at once apparent that special thought and training bring results that are apparent in the arrangement of the home.

We would strongly urge every boy and girl in northern Minnesota who contemplate making farming their life work, to take a course at the Crookston School of Agriculture or some other good school of like nature, where the supervision is in the hands of high minded, clear visioned, efficient men and women. I would also urge parents, although it will be necessary to make sacrifices, to endeavor to obtain for their children this boon. It will be as casting bread upon the waters, which will return manyfold. Besides being a blessing to themselves, this special training will result in a great uplift to the community at large. Nowhere, to my mind, is special training more needed than in solving the problem of the farm, and nowhere can this be better done than in our School of Agriculture at Crookston."

SCHOOLS MAKE USEFUL CITIZENS

Perhaps in no instance is the school's purpose more clearly and convincingly presented than in a letter written expressly for this issue by A. D. Wilson, formerly director of agricultural extension in Minnesota, and himself a graduate of the Central School of Agriculture. In the following statement, Mr. Wilson expresses a life-time conviction based upon mature judgment, regarding education:

A. D. WILSON

Whose Convincing Statement Carries Much Weight.

"Schools now generally offer the kind of education that equips people to be more useful citizens. The Schools of Agriculture, as we have them in Minnesota, offer particularly attractive opportunity for anyone planning to live on or operate a farm. The whole atmosphere of these schools is for better, more wholesome country life, and good citizenship. The courses not only give practical and useful information, but tend to dignify honest, efficient service.

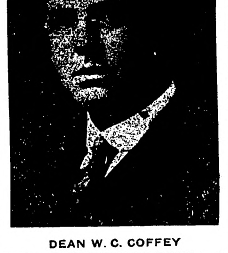
There are two particular points of value in the Minnesota Schools of Agriculture not common to our splendid rural grade and high schools. First, these schools bring together from the whole state or from large districts in the state, splendid young men and women from the best farm homes. It is an education in itself to associate with these young people. The wholesome regulated dormitory and social life of these schools provides opportunity for broadening one's acquaintance and views, that is almost invaluable.

The second particular advantage is the chance these schools offer to students who for any reason have gotten behind in their education. There are many (the writer is one) who have become 16 to 20 years of age with only a rural school education. Such students feel decidedly out of place in a high school, because of being older and larger than the other students. In the Schools of Agriculture these students feel at home because of the more advanced age of all the students, and because of the practical nature of the courses, the years of experience they have had enable them to compete successfully with those who have had more opportunity to attend school.

Dean Coffey's Message to Northwest School

I had the pleasure of visiting Crookston for an altogether too brief half-day in July. I saw more than I expected to see. The buildings, laboratory equipment, herds, flocks, and field crops most favorably impressed me and made Crookston stand out in my mind as a splendid place for farm boys and girls to go for training in the science and art of farming and rural home making.

The little country of Denmark has received world wide notice because it is one of the most progressive agricultural countries in the world. Its prosperity is due to cooperation amongst its farmers in the production and marketing of the best butter, eggs and meat to be found anywhere. Without cooperation Denmark would probably not succeed. Without the knowledge necessary to produce her very superior butter, eggs and meat, she would most certainly fail.



DEAN W. C. COFFEY

Does Denmark believe in Agricultural education? She most certainly does. Her farmers never grow too old to attend some one of her many special schools for farmers. The small farmer with his little one acre farm (some of the farms are so small as this) lays by his savings against the time when he can attend one of these schools for a term. And once he has attended, he looks back upon his stay at school as one of the most significant experiences of his life. Ninety per cent of Denmark's farms are operated by owners, and on these farms one finds homes that are prosperous, enlightened and happy.

That agricultural education has played a leading role in the prosperity, enlightenment and happiness that has come into the farm life of Denmark in the past forty years, is obvious. Crookston's doors are open to the farm boys and girls of the Red River Valley to play a similar role. For your own good and happiness, my earnest wish is that you come. If you do, like the Danish farmer who manages to attend a special school for a term you, too, will look back upon your experience as one of the most significant of your life.

W. C. COFFEY,
Dean Dept. Agriculture

UNIVERSITY PRESIDENT CONGRATULATES STUDENTS

Three messages of inspiration to former students and graduates of the Red River Aggie School are given by our three University presidents, who have always been keenly interested in its welfare and progress.

President Lotus D. Coffman

In extending greetings to this year's senior class, President L. D. Coffman writes of the training given by the school and its graduates:

"The training which you have had at Crookston should have given you a wider view and have made you more keenly sensitive to your responsibilities as citizens. We feel that we have a right to expect that you will discharge your obligations and duties and responsibilities as citizens in an intelligent and efficient manner, and that the communities in which you live will be better because of the education that they have provided for you."

PRES. L. D. COFFMAN
U of Minnesota

President George E. Vincent

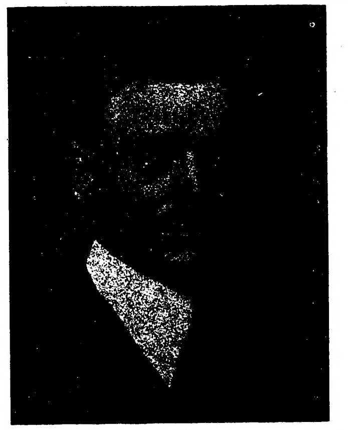
Dr. George E. Vincent stated the aim of the Northwest school in the following greeting to the seniors of 1917:

"You have been preparing yourselves for life in the open country. May you go forth with high hopes and with courage accept the challenge which the country offers you. Resolve to face intelligently and pluckily the problem of scientific farming; of co-operative marketing; of school consolidation and community organization."

President Marion L. Burton

Dr. M. L. Burton touched upon the school spirit in his message to the seniors of 1920:

"Every one of you is to be congratulated heartily upon the privileges which you have enjoyed at the Northwest School of Agriculture. Your school has exerted a powerful influence over a large area of our state. It has stood for the highest ideals in scholarship and character. Your campus is permeated with a splendid atmosphere and an excellent school spirit."



DR. GEO. E. VINCENT

FACULTY MEMBERS EXPRESS VIEW POINT

This issue of the Northwest Monthly is a Northwest School Edition. In it are gathered up many items of interest to former students and to Red River Valley folks in general, from former faculty members. Others will be included in the next issue. They are unanimous in their estimate of the value of the Northwest School of Agriculture to this section of the state, and cite various phases of school life that appeared most valuable and lasting.

Grace B. Sherwood

"The state agricultural schools have the advantage of supervised dormitory life under the most favorable condition. This is much to be preferred to sending boys and girls away from home to board with no one who is particularly interested in them."

Arnold M. Christensen

"Boys and girls between twelve and eighteen years of age are in the impressionable stage. They readily grasp ideas then and become sympathetic to the idea of staying on the farm, especially when they see the possibilities ahead of them and get the vision which all receive at the state schools."

Mr. and Mrs. T. R. Sewall

"The Red River Valley people have a school at Crookston to be proud of—to cherish, to love and to help—a school whose atmosphere fosters initiative, conscientious effort, truthful appreciation, and whose influence begets an undying desire among faculty and students to put forth every effort to make the Northwest School of Agriculture the fountain of inspiration and interest in the Red River Valley."

J. P. Bengtson.

It is a privilege to be allowed through the columns of the Northwest Monthly to extend my greetings to the alumni and students of the Northwest School of Agriculture. As the time for school draws near, it brings a feeling of lonesomeness. Many pleasant memories come back of happy days spent at the school. I feel that I shall never have a better opportunity to serve the public good than when it was my good fortune and privilege to be connected with that institution as an instructor.

J. P. BENGTSON

Enthusiastically Recommends Northwest School.

It is a unique type of school, and offers opportunities such as are possible in few other places. Besides a most practical vocational training, it offers opportunities for general culture and inspiration for good citizenship. It trains toward the farm and farm home rather than away from them, and I feel that in the direction of rural advancement lies a field for our greatest educational efforts today.

Farming has become a most complex science and success in this field of endeavor today demands a careful preparation and training, both theoretical and practical. Science and business principles have also been applied to the management of the home, so that the study of carefully prepared courses is an invaluable aid to the home maker. Rural life has, at all times, been the foundation to the welfare and prosperity of all nations, and if that was ever true, it is true today. We need trained leadership for the country. This, through carefully worked out courses of study in charge of trained specialists, such schools as the School of Agriculture are providing for.

The dormitory life has always appealed to me as a most valuable feature for young people who are obliged to leave home to secure an education. It supplies a wholesome home life that makes the time, outside of class hours, seem like the life of a big family. Where the faculty are associated so closely with the students in all their activities and where such high standards prevail among the student body, this is a wonderful advantage. Not only study hours, but leisure hours, as well, are carefully planned and used for the most complete development of strong manhood and womanhood.

"If I were to suggest the one big thing that could be done for a boy or a girl of the Red River Valley, I would say that it would be to interest him in securing an education such as is afforded in the Northwest School of Agriculture at Crookston.

"A boy or a girl can make no better investment for future happiness and usefulness than the time spent in completing such a course."

FORMER STUDENTS RECALL OLD DAYS

It has often been said that as are the alumni and students, so is the school. No institution can hope to attain greater prestige than its product justifies. In that sense, every alumnus and former student carries the reputation of the school with him in his or her daily work, creating for it a favorable standing, or breaking its record day by day.

The first reminiscence comes from Louis O. Regeimbal, a member of the first class which graduated, in 1909, who writes: "The features of the Northwest School that appealed to me were the homelike atmosphere that prevailed at the school, and the personal interest and responsibility that was manifested by the faculty towards the students."

Carl Berg, '12 finds difficulty in making a selection of the principal theme to be included in his message. He writes: "I have observed all the time during the past twelve years what a wonderful thing it is to have dormitories and home supervision for the young folks, especially those of the age attending the Northwest School of Agriculture. In addition to the prescribed courses of study, I feel that the social activities at the school including debating, athletics, glee clubs and others, provide an educational enterprise that every young man and woman of the Red River Valley should take advantage of by reason that it is complete. The school not only builds character and develops the mind and body, but imparts to the young man and woman the fundamental principles of agriculture and home making, which are the foundation of our great nation."

Gertrude Osterloh, of Angus, who is now a student nurse at Bethesda Hospital, Crookston, found somewhat the same difficulty in presenting her views as to the benefits she received. She states: "At the N. W. S. A., I received a great deal out of so many things that I would hardly know just from which I had the most benefit. My greatest interest was in nursing and consequently any courses that involved this branch appealed to me the most."

Nels Palm, '14, Alvarado, president of the N. W. S. A. Alumni Association, found in the regular agricultural work a very valuable training. In addition, he states: "The School has also such activities as athletics, music, Y. M. C. A., and debating societies, which are of great help to the students when they return to their respective communities."

Oscar Tunheim, '17, who is managing a farm near Newfolden, besides taking care of a fine chubby baby boy, between times, must have had in mind the fine moonlight evenings of school days, when he wrote: "The memory of the four years I spent at Crookston is more like a pleasant dream than anything else. It is a place that is just like Home, Sweet Home, with its staff of well trained teachers and fine spirit." No school can have a nobler ideal than such a one.

Guy Spokely, '18, in an unguarded moment, gave his verdict, which was very similar, when he stated "The happiest days of my life were those spent at the agricultural school, those spent in the dormitory." He added that, while the preceptors imposed the dictates of stern duty upon him once in a while, he did not mind, as he hardly expected to have his own way all the time.

Mrs. Harold H. Grandy (Blanche Morrison), '16, now living in Minneapolis, writes in no uncertain terms of the value of the home training work taken at the N. W. School. Harold Grandy, '15, also a graduate, states he is willing to present himself as unanswerable evidence in affrmation. She goes on to say: "During my three years study at the N. W. School of Agriculture, '13 to '16, I am sure that the most practical knowledge acquired by me was in the study of domestic science, especially in cooking and home management, which have been of great benefit to me."

Theodore Peterson, '19, of Fisher, is another alumnus who has a clear idea of the benefits he received at the school. He writes: "I do not think there is a better school for a person to go to if he plans to be a farmer, and if his plans change, he will have no loss. What I liked best at the Agricultural School is the way the students are looked after. They receive real home care. Debating, association with students and faculty, and horticultural work, benefited me most."

Captain Martinus Stenseth, '16, who won signal honors in France, and has the distinction of being Minnesota's highest "ace" in the A. E. F. air service gives his viewpoint:

"By attracting a class of students that would not otherwise secure further education, the N. W. S. A. is serving a very useful purpose. The school creates an initial ambition in such students and sends them back to their farms with new aspirations, or directs them to other positions of service."

From Roseau county, Clarence Lee, '18, takes pen in hand and expresses himself: "My opinion of the Northwest School is that the training given there is a very well balanced ration, and for a dual-purpose man, or woman, I believe no other school can beat it! I might say that the studies, Rural Sociology and Marketing, broadened my views of world economic affairs, which, I believe, has been beneficial to me."

Harold B. Schuck, '15, has expressed in beautiful language two great assets in his life that he gained at school:

"The two greatest and most distinct benefits, as I see them now, are—first, the friendship and happy acquaintance with my schoolmates, and, through them, the understanding and feeling of kinship with their folks, who, in their strength and vision, have made this country. Second, the knowing and having the benefit of associating with the faculty who, by their precept and practice, gave me an example of honest and loyal devotion to their fellow men. Having had this privilege, one would be a poor fellow who could not assimilate a lit-

WIFE TAKES HUSBANDS ADVICE

And Is Made Well Again by Lydia E. Pinkham's Vegetable Compound

Springfield, Mass.—"The doctor told my husband that I had to have an operation, otherwise I would be a sickly woman and could not have any more children on account of my weakened condition. I refused to have the operation. My husband asked me to try Lydia E. Pinkham's Vegetable Compound to see if it would not help me. For the first four months I could do but little work, had to lie down most of the time, was nervous and could eat hardly anything, but my husband was always reminding me to take the Vegetable Compound, which I did. Of my eight children this last one was the easiest birth of all and I am thankful for your Vegetable Compound. I recommend it to my friends when I hear them complaining about their ills."—Mrs. M. NATALE, 72 Fremont St., Springfield, Mass.

Sickly, ailing women make unhappy homes, and after reading Mrs. Natale's letter one can imagine how this home was transformed by her restoration to health. Every woman who suffers from such ailments should give Lydia E. Pinkham's Vegetable Compound a fair trial. It is surely worth while.

Good Hint.

Mrs. Spreadit—"My husband tells me everything." Mrs. Smart—"I'm glad you told me; I'll warn my husband."

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Luverne—The Presbyterian synod of Minnesota will conduct its 63d annual meeting here Oct. 11, according to an announcement.

Owatonna—Owatonna's new $[illegible], 000 high school opened for its first day of school work with an enrollment of more than 600 students.

Red Wing—The $10,000 farm home of Victor H. Carlson, in the Featherstone township, eight miles from Red Wing, was destroyed by fire.

Slayton—Fire at Slayton destroyed the general merchandise stock of the Johlis, with the loss estimated at $20,000, partly covered by insurance.

Redwood Falls—Four head of horses were burned to death when fire which followed a bolt of lightning destroyed a large barn on the H. L. Winsor farm.

Albert Lea—Thieves broke into the general store and garage at Geneva, 15 miles northeast of here, and carried away loot estimated at more than $1,500.

Duluth—A black bear, which persisted in visiting the vegetable garden of G. A. Altmann, residing in the east end of the city, was killed by Mr. Altmann.

St. Paul—The Security State bank of Milaca, which was closed six weeks ago by S. B. Duea, state superintendent of banks, on account of depletion of cash reserves is reopened.

Aurora—William Minor, age 13, had a thumb and the ends of two fingers blown off while playing with a dynamite cap in school here. His clothes were also badly torn by the explosion.

Duluth—Mrs. John Pikkaranen, who had been suffering from nervousness since being burned out in the forest fires of 1918, committed suicide by taking gas in the basement of her home.

Windom—After a several week's controversy as to where the new firemen's hall would be erected, the city council has decided on a site in the center of the business district and a contract has been let.

Duluth—Charges of extortion against Fred Davis and Barney Fredericksen, special prohibition agents for St. Louis county, were dismissed in municipal court here, following failure to indict the men.

Northfield—The barn of W. F. Schilling, director of the United States Grain Growers, Inc., was struck by lightning and burned to the ground. One horse was killed and all other cattle in the barn were rescued.

Bemidji—The civic association has agreed to co-operate with the Grygla district in petitioning for a railroad that will connect that district with Bemidji, aiding in development of the reservation and facilitating marketing of produce.

Brainerd—A 23 pound muscallonge, 44 inches long, the largest fish ever caught from shore in the Mississippi river at Brainerd, was landed here by J. F. Cirbzar. He used steel rod and an ordinary line and required a half hour to land the fish.

St. Paul—Mayor L. C. Hodgson of St. Paul, president of the Minnesota League of Municipalities, announced the appointment of Dr. F. E. Harrington, Minneapolis health commissioner, as chairman of the league's committee on public health.

Fairmont—One school district in Martin county will not get state aid this year because of failure to display the American flag on the school house. The school has no facility for displaying the flag, the teacher says, and the board members did not know their failure to display the flag would bar them from state aid.

St. Paul—The National Dairy Show, which will be held at the Minnesota State Fair grounds October 8 to 15, assumed an international aspect when it became known that the best full-blooded cows and bulls of Canada would compete in the show ring against the best state herds from the United States, according to W. E. Skinner, manager of the shows.

St. Paul—Plans to eliminate the uneven flow of livestock to the South St. Paul market, through a readjustment of freight schedules of the Northern Pacific and Great Northern railroads, are practically complete, following a meeting of livestock traffic experts with Commissioner of Agriculture N. J. Holmberg and L. W. Kube of the Stock Yards company at the state capitol. By the readjustment, the conference decided, a nearly equal number of cars of livestock would be brought into the market each day.

Gibbon—Worthless assets of more than $60,000 caused the closing of the State Bank of Gibbon here by order of the state superintendent of banks, A. L. Young of Winthrop, president of the institution, announced. In addition to the $60,000 of worthless collateral, Mr. Young announced, there is also in the bank $20,000 more of a doubtful nature. This collateral was in the bank before Mr. Young took over management of the institution, he announced, and was placed there by William H. Gugisberg, former president, who committed suicide April 18, 1921.

St. Paul—Frank B. Kellogg, United State senator, before leaving for Washington, formally announced his intention of seeking re-election next year.

Montevideo—Mr. and Mrs. A. Martinson, of Montevideo, celebrated their golden wedding anniversary by entertaining a number of freinds and relatives at their home.

Duluth—Samuel J. Thompson, aged 80, Duluth's first police chief, is dead at his home here. His widow and six children survive. The decedent served 50 years on the Duluth police force.

St. Paul—Clement J. Miner, 58 years old, wealthy hotel owner and former public official, died suddenly at the City hospital. His death was due to apoplexy, attending physicians announced.

Aitkin—The Aitkin County Bankers' association has been organized here with member banks located in Aitkin, McGregor, Lawler, Palisade, McGrath, Swatara, Hill City and Shovel Lake.

Duluth—James P. Stephenson, when he went to bed in a hotel, pinned $95 to the inside of his vest, and asserts he also locked his door. In the morning the door was open and the money was gone, he says.

St. Paul—Two men entered the H. Fegelson Jewelry company, 410 Cedar street, and at the point of revolvers took $400 in cash and $3,000 in diamonds and other jewelry. They escaped in an automobile.

Moose Lake—Fire, believed to have been caused by a lighted cigarette, burned three buildings and for a time threatened to wipe out the town of Barnum, four miles north of here. The loss is estimated at $60,000.

Minneapolis—Authorization of an immediate contract with the Northern Pacific railroad for the removal of the tracks on the University of Minnesota campus was voted unanimously by the Board of Regents.

Aitkin—A verdict of not guilty was returned in the case of James E. McGrath of Stillwater, who was charged with starting a fire in the open near Whitepine, Aitkin county, Sept. 3, without a permit from the state forester.

Owatonna—A committee has been organized by the Commercial club to aid National Guard officers in raising $1,000 to make available a sum of $25,000 from the state armory fund for enlargement and improvement of the armory.

Olivia—Andrew Renstrom, a farmer living north of here, and his family were robbed while driving on a country road. The bandits took the Renstrom's watches, jewelry and money, then disabled Renstrom's car and drove away.

Two Harbors—Three men were injured, one seriously, when the automobile in which they were riding ran into a ditch and turned over. The accident occurred near Toste, 20 miles south of Grand Marais. The party was on a duck hunting expedition.

Winona—The 22,155 dairy cows in Winona county produced for their owners last year $1,214,901.20 in cream checks, or an average of $570 for every one of the 2,150 farmers in the county. Winona county is given seventh place among Minnesota counties for the amount of butter produced.

St. Paul—Sales of farm machinery in Minnesota have fallen 50 to 95 per cent below normal this year, and improvements on farm homes have decreased to "almost nothing," officials of the Minnesota Farm Bureau federation declared in announcing the results of a state-wide investigation into the effects of deflation on agricultural progress.

St. Paul—Ivan Bowen, member of the Minnesota Railroad and Warehouse commission, has been appointed chairman of the general committee of six to analyze the marketing and transportation of coal for the joint congressional commission on agricultural inquiry of which Representative Sydney Anderson of Minnesota is chairman.

Minneapolis—Liquor and narcotics have been important factors in doubling the average number of workhouse inmates since the national dry act be effective and the number of persons sentenced to that institution for drunkenness since the passage of the dry act has increased 122 per cent, Dr. S. O. Lockwood, superintendent of workhouse, told members of the Board of Estimate and Taxation.

Hastings—Pioneer days in the St. Croix valley were recalled and intimate activities of those days portrayed in vivid word pictures when the St. Croix Valley Old Settlers association held its 48th annual meeting here. More than 30 "old timers" assembled in the reception room of the Commercial club, at which memories of nearly a half century ago furnished the subjects of animated conversation.

Minneapolis—Solution of the unemployment problem in Minneapolis will be sought immediately, Mayor George E. Leach announced, in calling a meeting of civic and business organizations to be coducted in the mayor's reception room. This call is in line with an effort being made by the Minnesota state industrial commission to make a survey of unemployment in all cities and villages of 1,000 population or more, with subsequent efforts to relieve the situation.

Marshall—Max Marsh, aged 24 years, is dead from injuries received in a motorcycle collision on the streets here. Marsh's machine collided with another ridden by Louis Robinson. Internal injuries caused Marsh's death a few hours after the accident.

St. Peter—Rev. and Mrs. J. J. Strand of Norseland were the guests of honor at a silver wedding celebration staged by the congregation of the Norwegian Lutheran church of that village. More than 600 friends and relatives attended and presented the couple with a purse containing $500.

STATE LEGION IN THIRD MEET

Jamestown Scene of Busy Conclave of Hundreds of Service Men.

FIGHT ON FOR HIGH POST

Warm Competition Develops for Department Commander's Berth and for 1922 Convention City of Legionaires.

Jamestown, N. D.—The decks have been cleared and the sails set for the third state convention of the North Dakota department of the American Legion.

When F. R. Landers of Minot, department commander, raps his gavel at the opening session 300 delegates and 300 alternates, representing 215 posts of the Legion in this state, will be in their seats to elect state officers, select a convention city for 1922, elect a national committeeman and delegates to the national convention of the American Legion at Kansas City, October 31 and November 1 and 2, and to discuss all questions to be presented to the convention.

New Candidate for Commander.

Interest in the convention was increased by the announcement of the Jamestown Legion post that they would present the name of their vice-commander, Charles Harmon, for election as department commander of North Daotka. Harmon, a graduate of Jamestown college, and an athlete of Northwest fame, has been active in Legion circles since the formation of the organization and will be a strong opponent of Philip R. Bangs of Grand Forks for the highest honor that the service men of North Dakota can give.

Fight Is Promised.

A warm fight is promised for the convention floor in a selection of national committeeman. It is practically certain that F. R. Landers, department commander, will have strong opposition for the national office. Prominent Legionaires in North Dakota who have been mentioned as possible candidates for national committeeman are Mack V. Traynor of Devils Lake, M. H. Sprague of Grafton, and Ivan Metzger of Williston. Traynor was a candidate for state commander at the Minot convention last year.

Jack Williams, incumbent, is the only man mentioned for state adjutant. Williams has been adjutant of the American Legion in North Dakota since the Legion was organized and was secretary of the temporary organization when the men were returning from service in the summer of 1919. P. G. Harrington, adjutant of the Bismarck post, has opposed Williams at the last two state conventions.

Two Seek 1922 Meeting.

Mandan and Devils Lake will have solid delegations pledged to securing the 1922 state meeting. Devils Lake will blow itself into favor with music by its famous Boy Scout band. The delegations from Lisbon, Casselton and Fargo will also be accompanied by musical organizations. The Casselton American Legion band is the only one in the state and will make an effort to be made the official state Legion band and secure a trip to the national convention next month.

To Form State Unions.

Hundreds of North Dakota men who served in the First and Eighty-eighth divisions will be here to form state associations of their respective divisions. N. S. Bailey of Inkster has been named temporary chairman of the reunion of all men who were in the air service, and it is expected that 75 "birds" will be present to form a state association of airmen.

W. C. T. U. Officers Reelected.

Park River, N. D.—Mrs. Elizabeth Preston Anderson of Fargo was unanimously reelected president of the North Dakota W. C. T. U. at the thirty-second annual convention. All other officers were re-elected as follows Mrs. Fred M. Wanner of Jamestown, vice-president; Mrs. Barbara H. Wylie of Fargo, corresponding secretary; Mrs. Frank Beasley of Fairdale, recording secretary; and Mrs. W. E. Black of Fargo, treasurer. Prohibition has already brought about most desirable results, according to Mrs. Maude B. Perkins, national secretary of the Young People's branch of the W. C. T. U., who addressed the convention.

Unsolved Tragedy.

New York.—Death left unsolved the most amazing tragedy in society high life since the Elwell case when Mildred Hanan, heiress to the Hanan shoe millions, died mute in Long Island College hospital as the result of gunshot wounds in her lungs and kidneys. She passed away in the arms of her mother.

Treaty Opposition Develops.

Washington.—Echoes of the Versailles treaty fight resounded as the senate began debate in open session on the new peace treaty with Germany. Confidence in early ratification was expressed by Senator Lodge as he presented a letter from President Harding requesting prompt action "so that we may put aside the last remnant of war relationship and hasten our return to the fortunate relations of peace." Opposition was indicated, however, by Senator Borah of Idaho, Republican and Senator Reed, of Mo., Democrat.

"These letters, your honor," said the lawyer for the fair plaintiff, "were written to my client by the defendant. You will observe that they are filled with passionate terms of endearment and signed 'Your Sugar Lump.'"

"Your honor," interrupted the defendant, "please bear in mind that the young woman asks $100,000 for being deprived of her 'Sugar Lump,' and I would like to call your attention to the fact that sugar has gone down."—Birmingham Age-Herald.

Not He.

"A feller came to my house tuther day, wanting me to take stock in the Disarmament league, or something of the sort, at a dollar a share," related Gap Johnson of Rumpus Ridge, Ark.

"I don't reckon you bought none?" returned an acquaintance.

"You're mighty durn right I didn't! While he was showing 'em to me he stepped on the tail of one of the dogs, and when the pore varmint snapped at him the infernal cuss kicked the dog. I wouldn't buy nuth'n from no such inhuman scoundrel as that, if I never got rich!"—Kansas City Star.

Between a lunch and a luncheon the difference is anywhere from a dollar up.

A fortunate limitation of vacations is no doubt the fact that they cost so much.

An Ozark Genius.

"That is quite an idea of yours, building your house on a side hill so that the slope of the structure will cause the front door to shut itself when left open," admiringly said a tourist in the Ozarks.

"Eh-yop," pridefully replied a resident of Straddle Ridge. "It saves a heap of pester, one time and another. But it took me right smart of a while to figger out some scheme for opening it from the outside without touching it, but I got it at last. See that there lever block at the lower end of the house? Well, when the children come tearing home from school, instead of slamming at the door they pile onto the lever, heave ho, lift the house and the door flaps open as pretty as you please."—Kansas City Star.

Valuable New Gas.

A new gas to take the place of acetylene in blowpipe work has been produced. It is called calorene, and is said to have a thermal value of 1,580 British thermal units to the cubic foot. The composition is 86 per cent carbon and 15 per cent hydrogen, and as the gas can be safely stored in unpacked cylinders at a pressure of 3,500 pounds to the square inch, a considerable saving in weight can be effected. The maximum temperature obtainable is put at 6,200 degrees Fahrenheit.

When singleness is bliss it is folly to have wives.

Do you know what constitutes a strong constitution?

To have sound, healthy nerves, completely under control, digestive organs that are capable of absorbing a hearty meal, means you have a strong constitution! Your general attitude is one of optimism and energy.

But an irritable disposition, frequent attacks of indigestion, and a languid depression, indicate your system is not in correct working order.

Probably you are not eating the proper food. Probably the nutritious elements are not being supplied to your system in the proper way.

Grape-Nuts is the wholesome, delicious cereal that promotes normal digestion, absorption and elimination, whereby nourishment is accomplished without auto-intoxication. A mixture of energy-giving wheat and malted barley comprise the chief elements of Grape-Nuts. A dish at breakfast or lunch is an excellent, wholesome rule to follow.

You can order Grape-Nuts at any and every hotel, restaurant, and lunch room; on dining cars, on lake boats and steamers; in every good grocery, large and small, in every city, town or village in North America.

YOU CANNOT LOSE

No matter how much or how little money you have it will cost you no more to pay it out by means of check than it will to use the hard cash. Checks are accepted just as readily as money.

A checking account is Absolutely SAFE. If a check should be lost it becomes worthless because payment on it can be stopped immediately, and nothing of intrinsic value is lost. If the money is lost however, there are no "stop payment" proceedings available. YOU LOSE.

We invite you to open a checking account at this bank. Come in and let us explain how You can SAVE MONEY by means of a checking account.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

Prizes To Be Given

The promise of cooperation of many farmers give evidence of a good exhibit of potatoes and corn next Friday.

Substantial premiums will be givens for 1st, 2nd, and 3rd prizes.

The Holt Weekly News will give free a years subscription for the best all around exhibit or display of corn, also of potatoes, and six months free subscription for the largest ear of corn. A display will be several varieties and will be determined by quality, condition, selection, varieties and number of varieties.

The girls and boys in the club work should get their reports ready. Blanks may be secured from the county agent, Wednesday, Thursday and Friday of next week, at the Holt State Bank. The girls in the bread baking contest should bake one loaf of bread each, to be exhibited that day. All club members will receive prize money. The amount depending upon the score.

There will be a potato meeting at the Bank at 8 o'clock Friday evening Oct. 7th. County agent McCann from Thief River Falls and county agent Taylor will be present.

A temporary local association will be organized if there are enough farmers interested. Sacks can be secured within three or four days and shipment can begin at once. The potatoes will go to the Minnesota Potato Exchange and 80 per cent of market price on day of shipment will be sent on receipt of telegram stating car has been shipped. The balance, or 20 per cent will be paid the shippers when the potatoes are sold, which will be from two to five weeks.

Hereafter the county agent will be in Holt on Thursdays, instead of Wednesdays, on account of the change in cream days.

County Agent

Young People Wedded

Miss Marie Arnevik and Albert Bjerk were united in marriage Saturday evening Oct. 1st, at the Lutheran parsonage in Thief River Falls, Rev. Sweger officiating. They were accompanied by Mr. and Mrs. Ragine Olson, as witnesses. The newlyweds left the same evening for a short visit with relatives at McIntosh, and returned to Holt on Wednesday.

The bride is an accomplished young lady and has made many true friends during her short residence in Holt, and will make a real help mate to the husband of her choice.

The groom was brot up on the home farm and is a steady young man and one who will make a good husband. He served his country as a sailor during the world war. He has been working his father's farm this summer, and they will make their home there for the present.

We join the friends in extending hearty congratulations.

The Thief River Falls Tribune came out this week under the ownship and management of J. S. Arneson, an experienced newspaper man. Mr. Arneson is making improvements in the paper, and we wish him unbounded success.

If every farmer would plant a few acres of potatoes, it would'nt be long before there would be a potato warehouse here. In fact the matter is being strongly urged at this time, and we hope it can be done. In all the potato growing communities the farmers have warehouses.

Winter Entertainment Course

University Extension Service

Holt is going to have some splendid entertainments this winter, that will please old, young, the middle aged and children, so great is the variety of talent sent out by the University of Minnesota's Extension Service, who furnish all of the programs. All five numbers have been chosen with great care and everyone will be of the best.

Tickets are going to be so cheap that no one can afford to stay away. It is better to sell a lot of tickets at a low price, than a few at a high price. The local committee want the school house full for the first entertainment, after that everyone will want to go. Be a Booster and get in the band wagon and help to make this a success.

Mrs. K. Brown, returned home Monday night from Red Lake Falls.

Clean up, trim up, with a Hair cut and a good smooth Shave, at the City Barber Shop, Holt, Minn.

Mr. and Mrs. Bentley Nelson and baby of Grand Forks came Friday night for an over Sunday visit with relatives.

J. M. Swan and T. E. Ellestead returned Tuesday from the cities where they had been with two cars of stock.

Dr. Turley will be in Holt Monday afternoon and Tuesday forenoon Oct. 10th, and 11th, to do all kinds of dental work.

Considerable grain has been marketed the past week, but the farmers claim that most of it has been raised at a loss.

C. L. Sandberg attended an auction sale Monday, west from Thief River Falls, and reports that things sold at fair prices.

Herb Severson will start up an auto repairing and overhauling business, as soon as the tools he has ordered arrive. He will be located in the blacksmith shop, with C. W. Christianson.

J. J. McHugh of the state industrial commission was here Friday making his regular rounds of inspection and in addition to that he gave a talk to the school. Mr. McHugh is state truancy officer with full authority to enforce school attendance, and he may be here again soon to look after that part of the work.

Opportunities

Corn and Potato Show

Friday October 14

Holt School House

A corn and potato show will be held in Holt on Friday Oct. 14th, at the school house, in connection with the girls and boys club day.

The purpose of this show is to stimulate more interest in raising more potatoes and corn by presenting a good exhibit from the vicinity around Holt.

Ten ears of corn must be exhibited of any variety.

Thirty-two potatoes to be exhibited of any variety.

These exhibits will be general and it is hoped that the farmers will bring in a large display.

Girls and boys enrolled in the club work will be asked to exhibit their produce same day. Mr. Kittleson State Club Leader will be here to do the judging and prizes will be awarded at that time. Every club member who brings in his or her potatoes or garden exhibits will receive a prize.

Program to be rendered afternoon of same day in school house. Miss Sheridan from Extension division will address the audience, as well as Mr. Kittleson and some other Extension man not yet designated.

Washington—Postmasters of the first, second and third class from now on must put in an eight hour day under an order announced by Postmaster General Will Hays.

Washington—Collection of the Sept. 15 installment of income and profits taxes reached Secretary A. W. Mellon's estimate of $500,000,000. The total was given as $526,201,998.

Washington—Chief Justice William H. Taft, after a summer vacation in Canada, has arrived in Washington preparatory to the convening of the supreme Court, October 31, for its fall term.

Washington—The National unemployment conference which the administration hopes will evolve means of putting the nation's involuntary idle back to work, was formally opened here by President Harding.

Sporting

New York—Babe Ruth's salary in vaudeville this fall and winter will be $2,500 a week, which is more than he is getting in baseball.

New York—Tex Rickard today sent a contract to Jess Willard for a return match with Jack Dempsey, to be held between June 15 and July 5, 1922, in the United States, Canada or Mexico. Rickard declined to make known the financial arrangements.

New York—By winning his seventh pennant for the New York National league club, Manager John J. McGraw tops all other managers in the number of championships. He was tied at six with Manager Connie Mack of the Philadelphia Athletics until he piloted the 1921 Giants out in front.

Domestic

San Bernardino, Calif.—A slight earthquake was felt here. At Ontario, 20 miles west, it was of sufficient intensity to rattle dishes in houses.

Parlin, N. J.—Five men were killed and three injured when explosives being loaded on a motor truck blew up. The explosion was felt 10 miles away.

Baton Rouge, La.—The senate passed a resolution petitioning congress to modify the Volstead act to permit the sale of light wines and beers. The vote was 26 to 13.

San Francisco—Roscoe C. Arbuckle, held for manslaughter in connection with the death of Miss Virginia Rappe, was released from the city prison on $5,000 cash bail.

Chicago—The riots of 1894 when Eugene V. Debs, called his American Railway union strike, were wiped off the city's books with the payment of $180,000 damages to the Pennsylvania railroad.

Indianapolis—Friendships formed on the Union army's battle lines in the days from '61 to '65 were renewed here as the Grand Army of the Republic assembled for its fifty-fifth annual encampment.

Omaha—Lewis R. Gustafson, detective for the Northwestern railroad, was shot and killed by holdup men here after he had ordered two bandits who had a few minutes before robbed a pedestrian to halt.

Detroit, Mich.—Captain Robert A. Woodside of Pittsburgh was re-elected national commander-in-chief of the Veterans of Foreign Wars. Woodside defeated Colonel T. L. Huston, New York, for the important post.

Kingston, Mass.—Four school children were killed here when a trolley pole came off a car which was carrying them to their homes, broke the feed wire and caused their electrocution when the jumped out of the car.

Chicago—Carl Wanderer, who murdered his wife, their unborn babe and a ragged dupe so he might resume a life of adventure, embarked upon the great adventure with a song on his lips. This song, "Oh, Pal, Why Don't You Answer Me?" might have been chosen from the repertoire of regret as a chant to his dead wife or it might have been picked for its grim application to the gallows which was tumbling him into eternity.

Atlantic City—A boycott started by pupils with the opening of the public schools has caused a slump in the price of ice cream cones. Today the cones went back to the pre-war price of a nickel.

St. Louis, Mo.—The Independent medical association in convention here adopted a resolution favoring beer of 2 3-4 per cent alcoholic content and denouncing the dry law.

Chicago—Gene Geary, convicted slayer of Harry Reckas, bitterly denounced the jury which saved him from hanging by finding him insane, and declared the jurors were crazy.

Chicago — President H. E. Bryam and three other officials of the St. Paul road were arrested on warrants issued last week charging them with violation of the election law.

New York—The steamer Alacrita from New Orleans to Barcelona was wrecked in mid-ocean, said a radio message from the steamship Cabo Creux, en route for New York with thirty survivors.

Chicago—John McCrady, chief engineer of the Barrington sub-station of the Public Service company of Northern Illinois, was killed and the $200,000 station destroyed by lightning, which caused an explosion, followed by fire.

Chicago—Mrs. Nell Sitke and her four children, ranging in age from 2 to 14 years, faced death as the result of an explosion of a gasoline reading lamp. All were cut and burned and doctors said their injuries probably would prove fatal.

Chicago—A majority of the 186,000 members of the Brotherhood of Railway trainmen have voted to strike rather than accept the recent wage cut ordered by the United States Railroad Labor board, general chairmen of the brotherhood indicated as they began an official canvass of the ballots.

Northwest

Moville, Iowa—After fatally injuring his wife when he tried to behead her with a butcher's clever, W. D. Clark, a farmer, hung himself to a rafter in the haymow of his barn.

Winnipeg—Between $200,000 and $300,000 damage was done by a fire which broke out in the poolroom at Hatton, Sask., and destroyed most of the business section of the town.

Spencer, Iowa—Life sentences were imposed by Judge Lee on Ray Yorty, 20 years old, and Wilson Devries, 16, who pleaded guilty to holding up and robbing the Greenville bank, September 12.

MINERS CONDEMN LEGION ATTITUDE

Call on Former Service Men to "Put Their House in Order."

ATTACK LABOR POLICY

Alleged Strike-Breaking Activities of Former Soldiers Subject of Resolutions Adopted at Indianapolis Convention.

Indianapolis.—Although refusing to condemn the American Legion because of alleged strike-breaking activities by some of its members, the convention of the United Mine Workers of America adopted a resolution committee report calling on legion officials "to put their house in order." The action came after several delegates had appealed vehemently for the unqualified condemnation of the legion.

The committee report was among those made on more than 100 resolutions sent to the convention by local unions throughout the country. Most of the resolutions went into the discard and debate was permitted on only a few, with most of the comment being confined to the legion resolution.

The committee voted overwhelmingly not to change the union's present system of appointing organizers. Supporters of an election plan complained that the appointive system permitted officers to build up a political machine, but no evidence to support this charge was found by a committee, appointed at the 1919 convention, which held election of organizers was impracticable.

Force of Law and Order.

The committee report dealing with the American Legion cited the legion's constitution as proof that the world war veterans' organization "shall be a force of law and order," adding that acts of individual members had justly brought condemnation on the legion, and that the tyranny practiced by legion members through force is in direct violation" of the federal constitution as well as that of their order.

"We, therefore, call upon the proper officials of the American Legion," said the report, "to put their household in order by adopting some proper and effective punishment of its members who violate the constitution and weaken the force of the legion and tend to bring it into disgrace. The American Legion is organized for a good purpose, but has been used for bad practice and being an infant organization, we feel it unwise at this time to condemn or eulogize the American Legion as an organization until they can have the opportunity to put their house in order."

STATE BONDS FIND MARKET IN EAST

New York.—The state of North Dakota has won its financial fight of more than two years, to dispose of its real estate series of bonds.

The unsold balance, it is announced by the Bank of North Dakota, has been bought by Spitzer, Rorick & Co. of New York. The bonds will be offered for public subscription in the usual way at 101 and accrued interest, yielding 5.75 per cent.

A statement issued in connection with the bond sale, said it terminated "one of the most dramatic campaigns of recent years, in Wall street." The fight began in the spring of 1919, when the North Dakota legislature, then controlled by the Nonpartisan League, authorized the issuance of the bonds as a means of carrying out the League's industrial program

Bismarck.—Announcement has been made by F. W. Cathro, manager of the Bank of North Dakota, that $1,500,000 of the real estate series, North Dakota bonds, and about a half million of the mill and elevator series bonds have been sold to Spitzer-Rorick & Co. of Toledo, Ohio.

Mr. Cathro also announced that the New York and Chicago branch offices maintained by the Bank of North Dakota for the purpose of promoting bond sales would be closed.

Taft Takes Justice Oath.

Washington.—Administration of the judicial oath to William Howard Taft, the new chief justice of the United States, marked the reconvening of the supreme court for the regular fall term.

The oath was administered to Mr. Taft, who thereby became the first justice to have previously occupied the highest executive office in the nation by the senior associate justice, Joseph McKenna. The oath taken supplemented the constitutional oath administered July 11.

Charge Industrial Spying.

New York.—The commission of inquiry of the Interchurch World movement has made public a supplementary report on the steel strike of 1919, describing the alleged use of "undercover men" or spies by the steel corporation, and detailing its dealings and efforts toward mediation with the United States Steel corporation. Hundreds of original documents are quoted in the report, declaring that "widespread systems of espionage are an integral part of the anti-union policy of great industrial corporations."

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Fraudulent Alchemists.

Discussing the work of Roger Bacon, regarded as the greatest philosopher of the Thirteenth century, Prof. William Romaine Newbold of the University of Pennsylvania, who has succeeded in finding a key to this wonderful book, speaks of numerous references to alchemy. In Bacon's time alchemy was considered a science and we have records of many workers, some of them honest in their beliefs, but many of them were simply imposters using the desire for gold to obtain large sums of money from their credulous victims, the New York Sun explains.

A Good Logic in Negro's Contention as to Lion's Probable Change to a Meat Diet.

A negro employed at one of the Hollywood movie studios was drafted by a director to do a novel comedy scene with a lion.

"You get into this bed," ordered the director, "and we'll bring the lion in and put him in bed with you, It will be a scream."

"Put a lion in bed with me!" yelled the darky. "No, sah! Not a-tall. I quits right here and now."

"But," protested the director, "this lion won't hurt you. This lion was brought up on milk."

"So was I brung up on milk," wailed the darky, "but I eats meat now."—Los Angeles Times.

New Medical Standards for China.

The United States Pharmacopoeia is being translated into the Chinese language under the direction of the Philadelphia College of Pharmacy and Science. Before the war Germany tried to have the German Pharmacopoeia translated into Chinese, with the object, of course, that German manufacturers might export to China drugs of German standards. Great Britain has made similar attempts since the war, but our own standards are to be adopted.

CARE COULD NOT SAVE TREE

Gigantic Banyan in the Botanic Garden at Calcutta Is Reported to Be Dying.

No tree in the world has had greater care bestowed upon it than the great banyan tree in the Botanic garden at Calcutta, which is reported to be lying, says the "Way of the World" columnist of the London Morning Post.

Every tender succulent young root, as it begins to fall like a stalactite from the branch overhead is encased and protected from harm in a bamboo. It is not improbable that the original trunks will vanish altogether and leave the still expanding outer growths as a ring of vegetation round an empty circle. The mother trunk is an almost shapeless mass by this time and contributes very little to the sustenance of the multitudinous progeny. This Calcutta specimen is supposed to have fifteen aerial roots, a number from which, it is probable, that a cipher has been accidentally omitted.

TAKES UMBRELLA TO MASTER

Clever Dog That Keeps a New York Commuter Dry When He Gets Caught in Rain.

"I'll show you a regular dog," said Gardiner to his friend Johnson, whom he had invited to dinner at his home in Long Island, according to the New York Sun. They had alighted from the train and it was raining. Gardiner gazed up and down the street anxiously.

"What are you looking for?" asked Johnson.

"There!" exclaimed Gardiner, ignoring his friend's question and pointing down the street. "There's a regular dog."

A Belgian police dog came running toward the station with an umbrella in its mouth. The dog stopped in front of Gardiner.

"That's my dog," said Gardiner. "On rainy days my wife gives him an umbrella and he brings it down to the station so I don't have to walk home in the wet."

Whose fault is it when your husband is cross at breakfast?

If you hit your thumb with a hammer you wouldn't blame your thumb for hurting.

Then why blame your husband whose nerves may have been pounded by coffee, and whose rest probably has been broken by the irritation of the caffeine it contains?

If you stay awake half the night you don't feel any too cheerful.

The caffeine of coffee and the thein of tea are known drugs. If their use is persisted in, sooner or later the nervous system may give way.

Then you may have insomnia, or disturbed sleep. Your nerves and tissues will be robbed of that stability essential for normal and happy living.

You can avoid this possibility if you'll stop drinking tea and coffee and drink instead, rich, pleasing Postum.

Postum is the delicious cereal beverage with a coffee-like flavor. It affords the advantages of a hot drink, without the ill effects of tea or coffee.

Order Postum from your grocer today. Try it with the family for a few days, and see what a difference there'll be—how it will permit Nature to bring sound sleep and strong, sturdy, quiet nerves. Sold by grocers.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

The foreign born population amounted to 486,164

Eveleth—Fast paving work has been done on the miller trunk road. Three and one-half miles of paving have already been completed and the contractors expect to complete the remaining six miles within the next 20 days

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound, after it had been decided an operation was necessary:

Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep house and do my work and have a small child. I have recommended Vegetable Compound to a number of my friends and you may publish my testimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful.

It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the commoner ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Badly Bitten.

An ancient angler took a friend fishing. He know nothing about the gentle art, but was set up with all the necessary tackle and a nice, comfortable seat on the bank.

The experienced hand started fishing a few yards higher up the stream. Presently the novice said: "How much do those red things cost?"

"I suppose you mean the float?" said the angler. "That only costs about 2d."

"Well, I owe you 2d," said the novice. "The one you lent me has sunk!"

Mortgage Foreclosure Sale.

Notice is hereby given that default has been made in the conditions of that certain mortgage executed and delivered by Luella McKenzie and K. McKenzie her husband, mortgagors, to Merchants State Bank of Red Lake Falls, a corporation, mortgagee, bearing date of July 30th, 1915, with power of sale therein contained, duly recorded in the office of the Register of Deeds of Marshall County, Minnesota, on August 5th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 366; and which mortgage together with the debt secured thereby was assigned by said Merchants State Bank of Red Lake Falls, mortagee, to Cliff W. Gress, by written assignment, dated November 19th, 1915, and recorded in the office of the said Register of Deeds on November 20th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 193 thereof; and which mortgage and the debt secured thereby was further duly assigned by said Cliff W. Gress, assignee, to Merchants State Bank of Red Lake Falls, by written assignment, dated September 12th, 1921, and duly recorded in the office of said Register of Deeds September 21st, 1921, at 8:00 o'clock A. M., in Book 86 of Mortgages on page 433; which default has continued to the date of this notice by the failure and neglect of said mortgagors to make payment of the sum of $21.00 which became due July 1st, 1918, and other amounts since falling due. And whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $354.95 principal and interest from July 1st, 1920, and the further sum of $21.00 interest coupon by said mortgage secured with interest thereon at 6% per annum since July 1st, 1918, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1919, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1920, being a total due at date of this notice of Four hundred twenty-six dollars thirty-five cents ($426.35); and said mortgage containing a power of sale and no action or proceeding at law or otherwise having been instituted to recover the debt secured by said mortgage or any part thereof; Now therefore notice is hereby given that by virtue of said power of sale and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage to-wit: the Southeast quarter (SE¼) of Section Nine (9) in Township One hundred fifty-eight (158) North of Range Forty (40) West in Marshall County Minnesota, which sale will be made by the Sheriff of said County of Marshall, at the front door of the courthouse in the City of Warren, in said County and State on the 23th day of November 1921, at 10:00 o'clock in the forenoon, at public vendue to the highest bidder for cash to pay said debt of $426.35 and interest from date of this notice and taxes if any, and an attorney's fee of $25.00 as stipulated in said mortgage in case of foreclosure, the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Mortgage Foreclosure Sale

Whereas, Defaults have been made in the conditions of a certain mortgage duly executed and delivered by Edward M. Korstad and Josephine Korstad, his wife, Mortgagors, to First National Bank of Thief River Falls, Mortgagee, bearing date the 23rd day of March, 1917, and with a power of sale therein contained, duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 24th day of March, 1917, at 10:30 o'clock A. M., in Book 84 of Mortgages on page 309, which said Mortgage, together with the debt secured thereby, was duly assigned by said First National Bank of Thief River Falls, the Mortgagee, to Peter P. Korstad by written assignment dated the 24th day of January, 1921, and recorded in the office of said Register of Deeds on the 25th day of January, 1921, at 1:00 o'clock P. M., in Book 98 of Mortgages on page 484.

And Whereas, the said Peter P. Korstad, the Assignee of the Mortgagee and holder of said Mortgage, has duly elected and does elect to declare the whole principal sum of said Mortgage due and payable at the date of this notice under the terms and conditions of said Mortgage and the power of sale therein contained, and whereas there is claimned to be due and is due at the date of this notice upon said mortgage and the debt secured thereby the total sum of One Thousand Seven Hundred Eighty-nine and 68-100 Dollars ($1789.68), as follows: The sum of $1504.86, being the amount of principal and interest secured by the mortgage hereby foreclosed, and the sum of $284.82 being for interest paid by the Assignee of this mortgage upon a prior existing Mortgage upon the premises, securing this mortgae and for which the Mortgagee or holder of this mortgage is entitled to a lien pursuant to the terms of said mortgage, and whereas the power of sale has become operative, and no action or proceeding having been instituted at law orthewise, to recover the debt secured by said Mortgage or any part thereof.

Now, Therefore, Notice I Hereby Given, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said Mortgage, viz:

The Southeast Quarter (SE1-4) of Section Five (5) in Township One Hundred Fifty-four (154) North of Range Forty (40) West of the Fifth Principal Meridian in Marshall County and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall County at the front door of the Court House in the City of Warren, in said County and State, on the 15th day of October, 1921, at 10 o'clock A. M., of that day, at public vendue, to the highest bidder for cash, to pay said debt of $1789.68, and interest, and taxes, if any, on said premises, and Seventy-five Dollars, Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from day of sale, as provided by law.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

Our Share

The people of Minnesota are asked to help perpetuate the memory of Michael J. Dowling by raising a One Hundred Thousand Dollar Fund for a Memorial Hall for crippled children at Phalen Park, where the state home for crippled children is situated. The need exists and is a growing one. The plans call for the erection of a Memorial Dormitory to help care for many crippled crippled children, who are anxiously waiting to get treatment. The need is great and the work urgent.

The time set for this work is Oct. 17 to 31.

The allotment for Holt and the surrounding country is $60.00, and all churches, Sunday Schools, public schools, parents, other grown people, young folks, and children of all ages are asked to help.

Contributions cheerfully received and receipted for at the bank and at this office.

Arthur Olson received an unusal present on his 34th birthday, last Friday, when a baby girl was born to himself and wife.

Hereafter the county agent will be in Holt on Thursdays, instead of Wednesdays, on account of the change in cream days.

About 35 to 40 of the people from the neighborhood gave Miss Lorrine O'Hara a surprise birthday party Saturday night. They gave her a nice present, for which she wishes to thank them very much.

Mr. and Mrs. Racine Olson, Oscar Hanson, Selmer Reierson and Mrs. Lewis Roseland, all took the civil service examination at Thief River Falls Saturday, for postmaster in Holt.

A good sized crowd of potato growers meet Friday night and organized a potato association, and will commence doing business at once. C. H. Gunheim was elected president; B. Docken, secretary and treasurer; and A. Bjerk, manager. A sorting and grading macnine has been hired at Thief River Falls and they expect to get it this week.

County Agents Taylor and McCann were present and gave advice and help as to the work and management of the association.

The association expect to ship two cars of potatoes to-morrow.

It has become necessary to make changes in the rural route on account of bad roads and several families will be cut off the route. The town officers and the people were requested to cut the brush and fix the roads, but have not done so. It should be borne in mind that the postoffice department requires all the roads on rural routes be kept open and passable, both summer and winter, otherwise they do not require the carrier to make that part of the route where the roads are bad or impassable.

Ignorance, dirt and disease, stalk up and down thru the world and are a constant menace to mankind, and it is possible to rid the world of almost all this trouble.

Three big musical numbers are included in Holt's winter entertainment course. Three ladies will give the first entertainment at the school house on Saturday night Oct. 29th. Everyone should be there.

Mrs. Paul Olson returned home Tuesday from a couple of weeks visit on the old farm with their son, Arthur and wife. Their daughter, Miss Dorthy is now visiting her brother and family.

This has been a very exceptional year in some ways. For instance, the farmer who planted corn and potatoes got good crops, while the one who depended on small grains alone, got it in the neck, whether they had seen Kirby or not.

Deputy Sheriff Boerderwick was over from Warren last week Thursday and took Ole Hanson back with him for an examination as to his sanity. It was found necessary that he should be given treatment and George Hanson accompanied the deputy to Fergus Falls the same night with his uncle.

Marshall county's quota in the nationwide drive launched to save the lives of children now facing death by starvation in southern Russia and Armenia is 3,281 of wheat.

There are 3,500 orphans depending on Minnesota and 79 on Marshall county.

Winter Entertainment Course
University Extension Service

Holt is going to have some splendid entertainments this winter, that will please old, young, the middle aged and children, so great is the variety of talent sent out by the University of Minnesota's Extension Service, who furnish all of the programs. All five numbers have been chosen with great care and everyone will be of the best.

Tickets are going to be so cheap that no one can afford to stay away. It is better to sell a lot of tickets at a low price, than a few at a high price. The local committee want the school house full for the first entertainment, after that everyone will want to go. Be a Booster and get in the band wagon and help to make this a success.

J. M. Swan shipped a car of stock again Saturday. All kinds of stock and grain are dirt cheap, but butter is a fair price and the dairy cow is a steady producer, if given a fair chance, and this country needs more good ones.

YOU CANNOT LOSE

No matter how much or how little money you have it will cost you no more to pay it out by means of check than it will to use the hard cash. Checks are accepted just as readily as money.

A checking account is Absolutely SAFE. If a check should be lost it becomes worthless because payment on it can be stopped immediately, and nothing of intrinsic value is lost. If the money is lost however, there are no "stop payment" proceedings available. YOU LOSE.

We invite you to open a checking account at this bank. Come in and let us explain how You can SAVE MONEY by means of a checking account.

TAKES CARE OF 5 CHILDREN

Mrs. Taylor's Sickness Ended by Lydia E. Pinkham's Vegetable Compound

Roxbury, Mass.—"I suffered continually with backache and was often despondent, had dizzy spells and at my monthly periods it was almost impossible to keep around at my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it, and doctor's medicine did not help me. A friend recommended Lydia E. Pinkham's Vegetable Compound and I have found great relief since using it. My back is much better and I can sleep well. I keep house and have the care of five children so my work is very trying and I am very thankful I have found the Compound such a help. I recommend it to my friends and if you wish to use this letter I am very glad to help any woman suffering as I was until I used Lydia E. Pinkham's Vegetable Compound."—Mrs. MAUDE E. TAYLOR, 5 St. James Place, Roxbury, Mass.

Backache is one of the most common symptoms of a displacement or derangement of the female system. No woman should make the mistake of trying to overcome it by heroic endurance, but profit by Mrs. Taylor's experience and try Lydia E. Pinkham's Vegetable Compound

Kernels Culled From News of Moment in All Parts of the World—Of Interest to All the People Everywhere.

Washington

Washington—Charles W. Pugsley of Lincoln, Neb., editor of the Nebraska Farmer, took office as assistant secretary of agriculture.

Washington—Hearings before the senate finance committee on the tariff bill will be resumed Nov. 1, Chairman Bois Penrose announced. The agriculture schedule will be considered first.

Washington—Appointment of a special committee of five scientists of the department of agriculture to consider the problem of land utilization was announced by Secretary H. C. Wallace.

Washington—Decision by the Department of Justice as to investigation of the Ku Klux Klan will await action by Congress on the proposed inquiry, Attorney General Daugherty said.

Washington—Senator Kenyon, Republican, Iowa, informed President Harding that he could not consider at the present time acceptance of the federal judgeship of the Northern Iowa district.

Washington—Invitations to the governments of Belgium, Holland and Portugal to become members of the conference on Far Eastern subjects were being prepared today at the state department.

Washington—Thomas G. Slattery, United States attorney for the Northern district of Kentucky, was removed from office by President Harding on recommendation of Attorney General Daugherty.

Washington — American business conditions improved decidedly in September, in the view of the Federal Reserve board, which made public a distinctly optimisitic review of conditions for the month.

Washington—The nation's gross public debt increased $1,778,000 in September, according to figures made public by the Treasury, which show the gross national debt on September 30 to have been $23,924,108,000.

Washington—Director of the Budget C. G. Dawes was charged with "impudent and insolent usurpation of legislative authority" in cutting congressional appropriations, in a speech by Senator J. A. Reed, Missouri, on the pending tax bill.

Washington—After radical drys had forced republican leaders to pledge that there would be no adjournment of the present session of congress until the antibeer bill is passed, the senate reached a unanimous consent agreement to vote Oct. 14 on the German, Austrian and Hungarian peace treaties.

Sporting

Denver, Colo—Charlie White of Chicago knocked out Bobby Ward of St. Paul in the fifth round of their scheduled ten round bout here.

Omaha—Mike Gibbons, St. Paul middleweight outpointed Joe Herrick of Omaha, in a 10-round boxing exhibition here. Gibbons repeatedly let his man stay in when Herrick was out on his feet.

New York—Christy Mathewson, the "old master," who is now fighting tuberculosis at Saranac Lake, will get between $40,000 and $50,000 as a result of the testimonial game at the Polo grounds.

Etamps—Kirsch, a Frenchman, set a new world's speed record when he won the Deutsch cup in the airplane races here. He traveled 180 miles in one hour, four minutes and thirty-nine and one-fifth seconds.

New York—Babe Ruth, the Yankee slugger, surpassed his 1920 world's record by five home runs and made one more than double his 1919 record total of twenty-nine. His grand total in league games in the past seven seasons is 162, of which 113 were made in 1920 and 1921.

Domestic

Chicago—George Saunders, aged 21, was fined $2,000 and sentenced to two years in the house of correction for carrying a pistol. The weapon was identified as one stolen from a saloon-keeper.

Helena—The state public utilities commission is hearing the petition of the street railway company for a 10 cent fare. Considerable opposition has developed. The company has stated it must have a greater income or abandon service.

Butte, Mont.—In an effort to broaden the commercial uses of copper to help the mining industry, now stagnant, the Anaconda Copper Mining company has started experimental manufacture of copper shingles and copper-zinc shingle nails.

Helena—Beginning this week, the Great Northern railway is granting a reduced rate on Montana potatoes to eastern points. The cut is 17 per cent and is to continue until further notice. It is said it will greatly benefit Montana potato raisers and result in far heavier crop movements.

Foreign

Shanghai—Exports to the United States from China fell off nearly 60 per cent in the year that ended June 30, 1921, as compared with the preceding year.

Fiume—Professor Riccardo Sanella, leader of the Fiuman people's party has been elected president of the independent state of Fiume by the constitutional assembly.

London—Premier Lloyd George stated definitely that he would be unable to attend the Washington conference on limitation of armaments in a telegram sent to the ambassador at Washington.

Capetown—South Africa will place upon the tomb of America's "unknown soldiers" in Arlington cemetery, a tribute composed of wild flowers picked in various parts of the Union of South Africa.

Berlin—Dr. Hermes, German food minister, will be appointed ambassador to Washington, it was definitely stated in majority socialist circles today. His early resignation from the cabinet was expected.

Buenos Aires—The American steamship American Legion arrived here with a new record of 15 days, 17 hours and 40 minutes actual running time from New York, with stops at Rio de Janeiro and Montevideo.

Rome—The Giornale de Italia says that Charles E. Hughes, United States secretary of state, will be the greatest mind, the most honest personality and the most eminent figure at the coming conference in Washington.

Paris—The death list in the St. Lazare tunnel disaster probably will approximate 40. Two burned bodies were recovered when the last of the wreckage was removed. One of these was identified. The other is believed to be that of a woman. The bodies recovered number 30. Ten are missing.

Berlin—The reichsrat, or imperial council, officially notified the reichstag of its assent to the peace treaty with the United States without modifications. After this formality the treaty may be officially published and acquire legal force

CLEARING OF R. R. SITUATION SEEN

Conference Between Government and Road Executives Promises Relief.

FREIGHT DROP LIKELY

Railways Eager for Lightening of Wage Burden So Carriage Charges May Be Brought to More Reasonable Level.

Washington. — Developments which were declared to presage early reduction in railroad freight rates and a clearing of the railroad situation generally have come from several quarters.

A group of prominent railroad executives conferred with President Harding and Senator Cummins, Republican, Iowa, chairman of the senate interstate commerce committee, and discussed steps toward freight rate reductions preliminary to the executive meeting at Chicago October 14.

To Cut Voluntarily.

Rate reductions also was the principal topic on the program at the meeting of Democratic and Republican senators comprising the unofficial senatorial "bloc." Senators attending the meeting said there was a wide and vigorous demand for rate cuts, as imperative to the agricultural interests.

Senator Cummins, after his conference with the railroad executives, said he believed they would adopt at their Chicago meeting his suggestions for an immediate reduction of freight rates. No definite or formal assurances to this effect were given him at the last conference, he explained, but he expressed the opinion that the reduction would be made by the carriers voluntarily.

Many Executives Confer.

The carriers then, Senator Cummins said, probably would ask the railroad labor board to reduce wages or appeal to congress for legislation to meet the situation caused by the voluntary rate reductions.

The railway executives in the conference include T. DeWitt Cuyler, representing a railway securities' organization; Samuel Rea, president of the Pennsylvania system; President Smith of the New York Central, President Holden of the Burlington system, and Julius Kruttschnitt, chairman of the Southern Pacific.

Want Wage Cut.

"The railway executives," said Senator Cummins after the conference, "feel that the only substantial way to reduce rates is to reduce wages. They also feel that the wage fixing functions of the railroad labor board should be transferred to the interstate commerce commission, which has the rate making, or return power."

Senator Cummins said that he did not gather that the railway executives favored complete abolishment of the labor board, but believed that the same federal authority which establishes reailroad rates, or returns, should also have power to establish wages.

ANOTHER WAR LOOMS CLOSE

Albania Is Bone of Contention Between Jugo-Slavia and Italy.

Paris.—War between Jugo-Slavia and Italy has become a grave possibility.

Following Italy's declaration that Albania was under an Italian protectorate, Premier Pashitch of Serbia has ordered mobilization of classes 1918-1919-1920 "to protect the Jugo-Slavian frontier from Albanian aggression."

European diplomatic circles are very much perturbed over the action of Serbia, which they realize has precipitated the greatest Balkan crisis since the armistice.

Italy already has a large force ready to cross the Adriatic toward Albania and according to Serbians Albanian forces have been officered and trained by Italians.

The Serbian government sent notes to England and France protesting against Albanian incursion into Serbia, with a threat of adopting retaliative measures unless Albania is restrained. This note is manifestly directed toward Italy, since that country was charged at the ambassadors council a fortnight ago with the protection of Albania's claims.

One Chance Left.

Bismarck, N. D.—Henry Layer has only one chance of being released from the North Dakota state penitentiary before serving one-half of his life expectancy. He must be found innocent by the pardon board of the murder for which he was convicted.

Raid Follows Fatal Shooting.

Sheridan, Wyo.—Wholesale arrests of alleged bootleggers and moonshiners were in progress here as an aftermath of the fatal shooting of Under Sheriff William S. McPherrin in a gun duel with Monk Stanton and Earl McKenna, mine workers of Monarch, Wyo.

Every peace officer in the city and county participated in raids which resulted in 22 arrests.

McKenna and Stanton, who were shot and wounded by the posse, were removed to the county jail for safe keeping. They are under heavy guard

GREW WHISKERS TO GET JOB

And Secretary of State Hughes Has Worn the Required Facial Adornments Ever Since.

Charles E. Hughes, secretary of state, gave little indication to his teachers and classmates at Brown university that he was to become a leader in the nation, though it is true that he had his bachelor degree before he was twenty-one. He planned to make teaching his life work, and he did devote some years to that occupation. His first application for a job was as a teacher of Greek in a small Eastern college. The head of the department received him kindly, but evidently regarded his youthful appearance as making him an impossibility in that line.

"Why," said he, "you have no more hair on your face than an egg."

"If a beard is necessary I can raise one," said Hughes, who knew his own ability in that line, and soon was able to qualify for the job and got it. And, by the way, he has the same whiskers yet. He has never worn a clean-shaved face since.—Columbus Dispatch.

"Yes, a great deal goes for silk hosiery."

SUNSHADES FOR LUCKY DOGS

Innovation That Was Brought About by the Protracted Spell of Unusually Hot Weather.

One of the quaintest innovations of the recent heat wave in London was the introduction of sunshades for dogs. These consisted of light crepe-de-chine protections suspended over the animals' necks by light wire strands.

The "lucky" animals whose masters or mistresses bought the sunshades did not seem so pleased with them as perhaps the donors had hoped, remarked London Answers.

One dog found the heat so oppressive that he sought the shelter of a railway tunnel on the Highbury tube. Here he was, however, so frightened by the continual passing of trains that he shrank into a dark corner and remained there for two days, until his master, on the information of a railway man, fetched him.

Although sunshades for dogs made their first appearance, there was a strange absence of the straw hats that horses used to wear before the war. Have horses been so hardened by the great campaign that they do not need the consideration that dogs get?

Do You Look Forward To a Good Night's Rest?

Do you regularly anticipate a refreshing sleep? Or do you dread going to bed, only to stare, sleepless, at the walls? The difference between sleeping and staring is simply a matter of nerves.

When your nervous system is in a sound condition, you are certain to sleep well. But when your nerves are worn out and beyond your control, your rest is broken and your awakening leaves you languid and irritable.

Doctors know that much of the nerve disorders result from tea and coffee drinking. The drugs in these drinks over-stimulate, often causing the serious ills which result from disturbing the regular bodily functions. It is for your health's sake that many doctors now say you should quit tea and coffee. Drink Postum, the delicious meal-time beverage instead! In flavor it is much like coffee.

Postum is fundamentally a nerve strengthener because it lets you get sound, restful sleep. Postum is a skilfully-made cereal beverage, and the secret of its popularity is its protection to health and its delicious flavor.

Ask your grocer for Postum. Drink this hot, refreshing beverage in place of tea or coffee for 10 days and see what a wonderful difference it will make in the way you feel.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

MOTHER! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Over fifty years ago a young physician practiced widely in Pennsylvania and became famous for his uniform success in the curing of disease. This was Dr. R. V. Pierce who afterwards established himself in Buffalo, N. Y., and placed his "Golden Medical Discovery," in the drug stores of the United States. When you feel run-down, out of sorts, blue and despondent try the energizing influence of Golden Medical Discovery in tablet or liquid form. Nearly a million bottles were sold last year.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Canby—Rev. Omer Brenne of Blue Earth has been installed pastor of the English Lutheran church here.

Cannon Falls—Clarence, son of Mr. and Mrs. Albert Hughes of Stranton, was accidentally shot, dying about four hours later.

Winona—August Gatz, aged 71, a pioneer resident of Winona, is dead on the 52nd anniversary of his arrival here from Germany.

St. Peter—With more than 1,500 persons from over the entire state in attendance the cornerstone of the Gustavus college gymnasium was laid.

Winona—Rev. Dr. Samuel L. Parish, pastor of the Central Methodist church of Winona, returned today from Europe, where he spent several months.

Redwood Falls—Peter Yontz, aged 88 years, died at his home in Renville. Yontz was a veteran of the Civil war and saw hard service with the union forces.

Bemidji—An additional county agent will be secured for Beltrami county if the residents of the northern part of the county raise $1,000 for the balance of the year.

Hibbing—The $500 reward offered by the state for the capture of John Webb will be distributed among five policemen who were outside a cabin in the woods when Webb killed himself.

Wheaton—Lilac bushes are in bud here. The last few warm days, following heavy rains the week previous, have brought out the buds in cases where the blossoms were nipped by frost last spring.

Chatfield—Arnold H. Davidson of this city won the silver cup in the First State Bank corn contest for the season. Davidson raised 6,500 pounds, or an average of 81¼ bushels per acre on a five acre plot.

St. Paul—One hundred and ten persons, inmates of the state's prison and reformatories, have applied for pardons or clemency and their cases will be heard by the State Board of Pardons on October 17.

Bemidji—An average yield of about 200 bushels of potatoes per acre is expected for the county. Farmers are unwise if they sell at this time, County Agent Dvoracek pointed out, as the price is almost sure to advance.

St. Cloud—On Oct. 13 and 14 the Central Minnesota Educational association will meet at the St. Cloud State Teachers college. This promises to be the largest and best sectional educational meeting ever conducted in Minnesota.

Chisholm—The Hartley-Palmer mine has taken out its last car of ore and will not resume operations. The closing of the mine, which began work in 1907 and at one time was the biggest open pit mine in Chisholm, will throw 130 men out of work.

Moorhead—Assurances from state officials including Governor J. A. O. Preus and the Minnesota department o fagriculture, that they will assist potato growers in a financial way, have been received by Attorney J. M. Witherow of this city.

Crookston—The body of A. L. Hovland, judge of Polk county probate court, was found underneath his automobile on a country road south of Crookston. The car had turned over twice after running off the road and part of the machine was lying across Judge Hovland's back.

Waseca—Livestock breeders of Waseca county plan to put on a sale of purebred cattle and hogs, the proceeds of which are to be used for the purpose of erecting a new livestock exhibition and sales pavilion at the county fair grounds here. Local merchants plan to finance the sale.

Starbuck—After cutting all telephone and telegraph wires leading into this town, and severing the fire bell rope 40 feet above the ground, burglars secured about $2,500 worth of loot from the Farmers' Mercantile company, and 1,500 in cash and bonds from safety deposit vaults in the Pope County State bank

St. Paul—Definite steps for reforestation in northern Minnesota should be taken by the next legislature, Representative George Wicker of Kasson said. He had just returned from a tour in the iron range country with other members of the house and senate interim committees on taxation. Private companies cannot be expected to carry on reforestation work, he said, as there is no return from the trees for about 50 years. The only workable program, he believes, will be handled by the state.

Fergus Falls—Potatoes are being rushed to market from this locality faster than ever before. Deer Creek village reported a total of 99 cars shipped out Saturday, as compared with 45 cars shipped on a corresponding date a year ago. Rothsay, 20 miles north of here, reports having shipped 90 cars of the tubers

Duluth—Shipments of iron ore from docks at the Head of the Lakes this season have fallen away to less than one half what they were in 1920 according to figures announced by the various docks at Duluth, Superior, Ashland and Two Harbors

Luverne—The southwestern Minnesota convention of the Degree of Honor lodge will convene here Oct. 18.

Bemidji—A total of 155 students have registered for the fall term at the Bemidji State Teachers' college, according to President Marion W. Deputy.

Winona—E. G. Hall, president of the Minnesota Federation of Labor, is here discussing the unemployment situation with union leaders. He said he expected to remain two weeks.

St. Paul—George R. Olson, for ten years assistant cashier in the office of the state treasurer, assumes his new duties as chief deputy public examiner under Public Examiner Garfield Brown.

Fergus Falls—Burglars entered the Taylor Hardware store in this city and got away with three rifles, 5,000 cartridges, half a dozen knives and all the flashlights and batteries they could find.

St. Paul—A get-together meeting for Minnesota Democrats will be held Thursday, October 13, at the St. Francis hotel, St. Paul, according to Howard Everett, chairman, Minnesota Democratic state central committee.

St. Paul—Based on the 155,664 names contained in the 1,810 pages of the 1921 St. Paul city directory just issued, the population of Greater St. Paul, which includes both South St. Paul and West St. Paul, is placed at 313,726.

Sleepy Eye—That the city of Sleepy Eye will within a few years own a very profitable enterprise in the form of a central heating plant is indicated by the annual report that, covering the last year's business of the local heating system.

Minneapolis—Six hundred farm boys and girls of Minnesota registered in the junior school of agriculture at the University of Minnesota for the opening of the six months' course. This school is open to eighth grade graduates, 17 years old or more.

Duluth—Within 30 days the distribution of more than $2,000,000 will begin in the city of Cloquet. Fire sufferers have indicated their willingness to settle on the new basis offered by the government, it was reported by attorneys for the claimants.

Bemidji—About 20,000 acres of land in Beltrami county have been cleared of stumps during 1921 against the average of 3,000 annually prior to this time, according to A. W. Stone, manager of operations of the Northern Minnesota Land Clearing association.

Minneapolis—With registration normal, the school of agriculture of the University of Minnesota, has opened at University Farm for two three month terms. By the end of the school year about 1,000 students will have registered according to Principal D. D. Mayne.

Luverne—At a meeting of business and professional men held here, steps were taken for a more rigid enforcement of liquor laws. It was charged at the meeting that drunkenness is much more common now than in the days of the saloon; that bootlegging is carried on almost openly.

Minneapolis—State officers and representatives from all circles of the Minnesota State Sunshine society will meet at their annual fall tea Oct. 13 at the Radisson hotel assembly room. There will be a musical program and refreshments. Mrs. C. W. Tubbs, chairman, will be in charge.

Minneapolis—An organization formed for the avowed purpose of bringing about a modification of the Volstead act and to fight blue-law agitation on common ground, made its bow under the name of the Minneosta Sanity league. Its motto is, "Rationalism in Government."

St. Paul—Days of the "Wild West" will be brought to mind in St. Paul when American Legion posts in Ramsey county present their "frontier jamboree" at the Armory for one week, beginning October 15. A score of former service men now are at work transferring the interior of the building into "Slippery Gulch," a mythical western village.

Taylors Falls—At his home here, in the shadow of the power dam on the St. Croix river, "Uncle" John Daubney, the oldest white man living in this section, celebrated his 102d birthday in the midst of the villagers and territorial pioneers of Minneapolis, St. Paul and Stillwater. "I'm fit for a fight," "Uncle" John told his friends who came to congratulate him.

St. Paul—State road work costing nearly $2,500,000 in the last three months has been a big factor in providing employment, State Treasurer Henry Rines said, the bulk of the funds being paid out for labor. The total spent by the state highway department for construction and maintenance work since July 1 is given at $2,448,849.31, of which $1,203,511.71 was paid out in September.

Minneapolis—Millions of bushels of grain in Twin Cities terminal elevators are menaced by an insect known to the grain trade and to grain inspection men as the bran bug. Three Minneapolis grain elevators reported the presence of the insect in their stocks. Danger of these insects damaging stored grains in the terminals to the extent of thousands of dollars has prompted the grain inspection department of the Railroad and Warehouse commission to take steps to issue orders to stop spread of the pest.

Duluth—Caught while ransacking the business office of the Strand theater in the heart of Duluth's business district, a youth wearing the uniform of the United States army attacked Leo Ressler, manager, knocked him to the floor, dashed up a stairway to the street and ran four blocks past the Duluth Central police station before he was captured.

St. Paul—The office of Ray P. Chase, state auditor, has paid out $3,410.92 for clothing, groceries and other temporary supplies for the forest fire sufferers of Whitepine, the village destroyed by fire early in September.

IRISH PEACE IS AGAIN DISCUSSED

Delegates from the Dail Eirann Meet Government Men in London.

MANY QUESTIONS UP

Program Well Planned for Conference Which May Bring Rest—De Valera Wants "Ireland's Rights" Recognized.

London.—The prime minister and other representatives of the British government and the delegates of the Dail Eireann are facing each other across the conference table in the cabinet room at Number 10 Downing street, the premier's official residence.

Mr. Lloyd George, members of the cabinet and several officials of the Irish office recently discussed for an hour and a half the coming conference. It it is understood that the procedure favored was a speech of welcome by the prime minister, after which he would outline the methods the government proposes for dealing with the various phases of the question. Arthur Griffith, the Sinn Fein leader was expected to reply.

The program for the first day took the form of open conversation with a view to arriving at some definite basis upon which negotiations looking to an Irish settlement could proceed.

May Talk on Prisoners.

Either side may, however, raise some controversial subject. There is the question of the release of the interned men, which many people in Ireland are urging on their delegates. One of the delegates said that it was not the intention to mention this subject for the present. Nevertheless the government is preparing a reply to General Sir Nevil MacReady and General Tudor of the forces in Ireland, and the head of the police from Dublin to address the government, should the proposal be made.

Wants "Honorable" Peace.

Dublin.—Eamonn De Valera issued a proclamation through the Dail Eireann dealing with the London conference. In it he declared that the only peace which can end the struggle will be one consistent with the nation's right and guaranteeing freedom worthy the sufferings endured to secure it.

DAKOTA JUDGING TEAM WINS

Boys Take Seven Medals in Keen Competition at Dairy Show.

St. Paul.—North Dakota boys' judging team won first place in the boys' and girls' cattle judging contest at the National Dairy show here, winning out over teams from 16 states. The North Dakota team won first place for judging of all breeds, Nebraska was second, Ohio third, South Dakota fourth, and Maryland fifth. The boys and girls who took part in this contest had won first place in local or district contests, and then won first place at their respective fairs.

The North Dakota team, which was coached by Harry E. Rilling, leader of boys' and girls' club work, and Prof. J. R. Dice, head of the dairy department, consisted of George Allison, Emerado; Glenn Martin, Lankin; James McKinnon, Mapleton, with Wayne Cripe, Wheatland, alternate.

George Allison was second and Glenn Martin third for the best work of individuals in judging all breeds. Glenn Martin won first place in judging Ayrshires and George Allison won fifth place in judging Holsteins. These individual victories were in addition to the team work which swept the North Dakota boys into first place in the main event.

In all, the North Dakota boys won seven medals, four gold, one silver and two bronze.

INJUNCTION AGAINST STATE RAILROAD RATES DENIED

Washington.—The motion of the state of North Dakota for an interlocutory injunction to prohibit the Chicago and Northwestern and other railroads in that state from charging increased rates within the state was denied by the supreme court.

The court denied a similar order last May but the state renewed the motion when the court reassembled this month asserting that the transportation act, under which the interstate commerce commission authorized intrastate railroads to increase their rates within the state, was unconstitutional.

The court's denial does not affect the case in its test of the transportation act, which has been attacked before the court by Wisconsin and 42 other states.

Methodists Close State Meet.

Valley City, N. D.—The North Dakota conference of the Methodist Episcopal church closed its session here with the reading of the appointments by Bishop John Wesley Burns of the Helena area.

The four district superintendents were returned to their fields of work; namely, Rev. T. E. Olson to the Minot district, Rev. H. S. Harris to the Bismarck district, Rev. J. W. Hutchinson, Grand Forks district, and Rev. James Anderson, Fargo district. Mandan was awarded the 1922 meeting.

CARRIED SECRET TO GRAVE

Canadian Prospector Refused to Divulge Location Where Gold Cropped Out.

A man who kept his secret to the end was the Canadian hunter Gilbertson. Sixty years ago, when he was making a canoe trip up the Wapshe river, the New York Evening Post states, he struck camp for the night near what later discoveries indicate must have been a large body of gold-bearing ore. Without knowing what this ornamental stone was, he took home a big piece to use for a door weight. A while after this a geologist who was visiting Gilbertson identified the ore, and a rush to stake claims along the Wapshe ensued. But the unwitting prospector would never tell where he made his great find. In later years he became insane and died, still refusing to reveal the location. This season a systematic search of that country is being made in hope of rediscovering "the Gilbertson lode."

Lifeboat Made of Basket-Work.

A basket-work lifeboat seems very frail and delicate for the hard work of getting through rough seas to a ship in distress, yet a boat of this type has just been invented, and it is claimed that it gives greater safety, than the usual kind.

The wooden framework of the boat is covered with a cork lining, and over that is laid an outer cover of woven cane. It is said that the new boat floats better than the boats now in use, and that it impossible for it to sink.

The basket lifeboat is so light and springy that it is less likely to be crushed by swinging against the side of a ship or by the buffeting of the waves.

Common Malady.

Dr. George E. Vincent, head of the Rockefeller foundation's general education board, was discussing a banking scandal.

"The banker has now gone off to South America," he said, "Gone off, it is announced, to recuperate from an atack of influenza."

Doctor Vincent laughed grimly.

"I've heard of that kind of influenza before," he said. "It comes from cold feet, due to exposure."

The Man Who Said: "The proof of the pudding is in the eating"— was only half through

He started a good pudding-proof, but he didn't finish it.

There's a lot of trouble in the world from puddings that taste good but don't do good.

They "eat" well, but that ends the recommendation.

Sanitariums are full of pudding-eaters who stopped the test at taste and forgot to inquire whether their food gave the body what it needed—until the body rebelled.

Grape-Nuts is a food that tastes good and does good. The proof of Grape-Nuts begins in the eating and goes on through the splendid service which Grape-Nuts renders as a real food. Grape-Nuts is the perfected goodness of wheat and malted barley—delicious to taste, easy to digest, and exceptionally rich in nourishment for body and brain.

Advertising draws like a mustard plaster.

Lucky is the man who planted spuds this spring.

Selfishness is the source of nearly all the crimes committed.

Every time you sell a load of flax and wheat, you also sell a part of your farm, in the form of soil fertility. When you sell a can of cream, you have fertility enough to keep your soil in just as good and probably better condition, than when you commenced farming. Farms don't need to be worn out, but rather should be built up. Otherwise the race cannot exhist.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

M.

If we should make the statement that in less than ten years the farm lands around Holt would readily sell at an average price of a hundred dollars or more per acre, undoubtedly many would say the author of that statement is a fit subject for Fergus Falls. If farmers will change their methods, from raising small grain, to raising corn, sweet clover, alfalfa, potatoes, some rutabagas, mangels and sugar beets, and to keeping good dairy cows, we would'nt be afraid to make that statement, and take our chances on going to either the crazy house, or the poor house.

Ours has been the history of all countries that depended on raising small grain alone, and this is no different in that respect, than the others. There is no way out of it, we MUST change our methods of farming, and the sooner, the better.

That $1.50 you owe us on this paper, would come in mighty handy just now.

Lutheran Free Church

Our Share

The people of Minnesota are asked to help perpetuate the memory of Michael J. Dowling by raising a One Hundred Thousand Dollar Fund for a Memorial Hall for crippled children at Phalen Park, where the state home for crippled children is situated. The need exists and is a growing one. The plans call for the erection of a Memorial Dormitory to help care for many crippled crippled children, who are anxiously waiting to get treatment. The need is great and the work urgent.

The time set for this work is Oct. 17 to 31.

The allotment for Holt and the surrounding country is $60.00, and all churches, Sunday Schools, public schools, parents, other grown people, young folks, and children of all ages are asked to help.

Contributions cheerfully received and receipted for at the bank and at this office.

Sweet clover prepares the ground for alfalfa and corn. The sweet clover, corn and alfala prepare the farmers to keep more good dairy cows. The good dairy cows will go a long ways towards helping the farmers to pay grain debts, to feed, clothe and educate their children, and to lay aside a little for the time when they are no longer able to work for a living.

Winter Entertainment Course

University Extension Service

Holt is going to have some splendid entertainments this winter, that will please old, young, the middle aged and children, so great is the variety of talent sent out by the University of Minnesota's Extension Service, who furnish all of the programs. All five numbers have been chosen with great care and everyone will be of the best.

Tickets are going to be so cheap that no one can afford to stay away. It is better to sell a lot of tickets at a low price, than a few at a high price. The local committee want the school house full for the first entertainment, after that everyone will want to go. Be a Booster and get in the band wagon and help to make this a success.

MOTHER! OPEN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, irritable, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup," which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

MRS. HAYDOCK SAVED FROM AN OPERATION

Followed Advice of Her Druggist's Wife and Took Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Avenue, Chicago Illinois.

Because Lydia E. Pinkham's Vegetable Compound saved Mrs. Haydock from an operation we cannot claim that all operations may be avoided by it,—but many women have escaped operations by the timely use of this old fashioned root and herb medicine.

MOST IMPORTANT NEWS OF WORLD

Big Happeninos of the Week Condensed for Benefit of Busy Readers.

TOLD IN A FEW WORDS

Kernels Culled From News of Moment In All Parts of the World—Of Interest to All the People Everywhere.

Washington

Washington—Eugene V. Debs has not been offered a conditional pardon, it was officially stated at the department of justice.

Washington — Philander Chase Knox, senator from Pennsylvania, and Secretary of State under President Taft, died suddenly at his home here.

Washington—The house passed a bill prohibiting transmission of betting odds through the mails or publication in newspapers of betting odds on sports.

Washington—The shipping board would lease idle tonnage for $1 a month for the hauling of coal abroad if private ship owners approve the plan, Chairman A. D. Lasker has announced.

Washington — The long disputed question of wholesale dealers in sacramental wines being permitted to do business under the national prohibition laws has been put to the Department of Justice for decision.

Washington—The imperial wizard of the Ku Klux Klan, William Joseph Simmons, brought the defense of the organization to a dramatic climax by collapsing on the witness stand before the house rules committee.

Washington—Despite solemn warnings that it was voting to violate the Hay-Pauncefote treaty, the senate passed the Borah bill exempting American coastwise shipping from payment of Panama canal tolls. The vote was 47 to 37.

Washington — Former President Woodrow Wilson probably will be invited to attend the ceremonies at Arlington national cemetery Armistice day, when the body of an unknown American soldier will be buried with high honors, Secretary of War J. W. Weeks said today.

Washington—Having agreed on definite remedial policies for the emergency and permanent relief of the unemployed and the return of commerce and business to normal, the national unemployment conference completed its labors, undertaken at the request of President Harding and adjourned without date.

Sporting

Havana—Harry Wills, Negro heavyweight pugilist, knocked out Gunboat Smith in 1 minute and 7 seconds of fighting.

New York—Frederick B. Lieb of New York, was elected president of the Baseball Writers' association of America.

New York—The Giants won the world's baseball championship in the eighth game of the world series, defeating the Yanks and their star pitcher, Waite Hoyt, 1 to 0.

Minneapolis — Minnesota's gallant Gophers pounded Northwestern's Purple warriors to a pitiful pulp in the first conference game of the season at Northrop Field by a score of 28 to 0.

Buffalo, N. Y.—Tommy Gibbons, St. Paul heavyweight added another knockout to his string of victories when he flattened Clay Turner, New York Indian, in the first 30½ seconds of a scheduled 15 round bout here.

Chicago—The Chicago White Sox retained their title as city champions by defeating the Chicago Cubs, 9 to 5. It was the fifth consecutive victory for the American leaguers against their National league opponents, who failed to win a game.

Gloucester, Mass.—The Elsie a saucy little schooner out of Gloucester, has won the title as the fastest in the fisheries of New England and selection as the racing representative of the United States in the international match to be sailed with a Canadian champion off Halifax, N. S.

Domestic

Louisville—Two prohibition enforcement officers were shot and an alleged moonshiner was killed in a raid on a cabin near Bardstown, Ky.

New York—Mrs. Emma R. Burkett of Hillsdale, Ind., was found guilty by a jury in general sessions court of forging the name of former President Theodore Roosevelt to a note for $69,900. Judge Alfred J. Talley announced he would impose sentence Oct. 21.

El Paso, Tex.—Bishop A. C. Peterson, head of the Mormon church in Northern Mexico, was advised of President Obregon's approval of the program to restore to the Mormons 115,000 acres of land and property in Western Chihuahua, confiscated during the revolutions since 1913.

New York—It will cost a trifle less than a million dollars a day to pay the 1922 running expenses of New York City. An announcement by the board of estimate and apportionment estimated the total required for the fiscal year as $354,446,468.

Los Angeles—The submarine R-6, attached to the Pacific fleet, which sank in San Pedro harbor Sept. 26 with the loss of two of its crew, has been brought to the surface.

Nogales, Ariz.—Persons arriving here from Mexico reported there had been 40 deaths from yellow fever in Eldorado during the last week.

Little Rock, Ark.—The largest diamond yet mined in the Arkansas field was found, weighing 20 carats and worth $10,000.

Detroit—Herman F. Rademacher, former policeman, pleaded guilty to murdering his wife by throwing her into the river.

South Bend, Texas—Fire destroyed more than two-thirds of the town of Eliasville, causing an estimated damage of $500,000.

Chicago—Fifteen firemen were overcome here in a fire at the hay warehouse of the Union Stockyards and Transit company. The loss was $500,000.

Mobile—A quantity of Scotch whisky was confiscated on the Japanese steamer, Glasgow Maru, which was raided by prohibition enforcement officers.

Lynn, Mass.—Edward Foster, aged 43, and Fletcher Anderson, 30, were killed here when an airplane in which they were flying over the Lynn marshes crashed to the earth.

Redwood City, Calif.—William A. Hightower was found guilty of the murder of Father Patrick E. Heslin of Colmia, Calif., by a jury with recommendation of life imprisonment.

Beaumont, Texas—Two men were killed and one seriously injured by an explosion at the Magnolia Petroleum company's plant here. The cause of the "flash" was due to oil being run into a hot still, company officials reported.

Chicago—The United States railroad labor board ordered the Pennsylvania Railroad company appear Oct. 20 and show cause why it should not be held to have violated the order of the board directing a new election of employees' committees.

Ponca City, Okla.—Legal procedure, said by attorneys to set a precedent, was recorded here when a jury hearing the case against Napoleon Buffalo-Head, charged with killing his wife, assessed a fine against him of $1,000.

New York—Thirty thousand for each lost hand—a total verdict of $60,000—was awarded to little Rose Cattini, aged 8, whose hands were cut off more than a year ago when a truck of the American Railway Express company ran across her wrists.

Northwest

Winnipeg—In the last year the government of Manitoba has spent $1,589,929 on the building of good roads throughout the province.

Mason City, Iowa—Roy Tesene, 27 years old, was killed by lightning while topping off a stack of hay. His wife, 20 feet away, escaped injury.

Ringling, Mont.—A 400 acre tract of wheat on the Ringling ranch here threshed an average of 26 bushels to the acre, which is thought to be a record.

Muscatine, Iowa—Infection from an old wound inflicted by an Indian arrow 50 years ago caused the death of James Swalle here. He was the target for a Redskin while on the Western prairies.

Red Lodge, Mont.—While the family of Livingston Hay was sound asleep a huge boulder came down a mountain side, crashed through the roof and wrecked the bath room. Nobody was hurt. It is believed the boulder had traveled a thousand feet.

Billings, Mont.—Salt water has been discovered in Montana bubbling up from the ground in Dead Man's basin, Golden Valley county. Oil drillers sunk a hole to a depth of 2,000 feet, then abandoned the enterprise. A flow of water soon appeared which has a strong flavor of the ocean, though the well is 1,000 miles inland.

Foreign

Berlin—Chancellor Wirth characterized the upper Silesian decision as a European calamity.

Trent, Italy—King Victor Emmanuel and Queen Helena have begun a formal visit to the recovered provinces. They received an enthusiastic welcome here.

Riga—The proposed international labor loan in Russia, says the Rosta Agency, is to be for $1000,000,000. The plans have been worked out in Moscow by Russian trade unionists, and a representative of the Italian communists.

Paris—Thirty seconds flat for the 300-metre race was the time credited to Gaston Fery at a meet held at St. Cloud under the auspices of the French Athletic association. If the time is approved it constitutes a world's record.

Mexico City—Conditions in the city of Puebla are reported as becoming more acute, there being a great shortage of foodstuffs because of the concerted protests against the excessive taxation law recently enacted by the state legislature.

Peking—Bolsheviki Russia intends to offer its mediation between China and the Mongolian republic in an effort to establish amicable relations, it is asserted in a statement issued by the Rosta News Agency, official soviet organ in Peking.

Honolulu—Four inspectors of the customs service here have resigned by request, it was announced by collector of customs Harry Murray, as a result of the recent attempt to smuggle $34,000 worth opium into this port from the Japanese liner Tenyo Maru.

Paris—William B. Leeds, Jr., son of Princess Anastasia of Greece, and the late William B. Leeds, the "Tin Plate King" of Richmond, Ind., and Princess Xenia, niece of King Constantine of Greece, were married by civil ceremony here.

Tokio—Due to the gravity of the matter, the Japanese cabinet has not yet decided on Japan's course in view of the Chinese refusal to accept the Shantung settlement.

Constantinople—The American Red Cross has discontinued its relief work among Russian refugees.

RUTH DISOBEYS LANDIS' RULING

Homerun King Violates League Rule and Goes Into Post Season Games.

ON EXHIBITION TOUR

Idol of Baseball World Defies Law Laid Down by Supreme Dictator—Several Yank Players With Him on Trip.

New York.—Rtgret that some Yankee players had violated the rule prohibiting world's series contestants from appearing in any postseason exhibition games was expressed in a statement issued by Colonel Jacob Ruppert and Colonel T. L. Huston of the New York Americans.

Landis Must Meet Situation.

Asserting that the rule had been violated so defiantly that Baseball Commissioner Landis has no alternative but to meet the situation firmly, the statement continues:

"This rule appears to be unjust in many respects, but as long as it exists it should be obeyed. The players made the mistake in not petitioning for a modification of the rules."

Ruth Starts Tour.

Buffalo.—Defying Judge Landis, high commissioner of baseball, Babe Ruth left Almira on his barn storming trip. Judge Landis ruled that no member of the Yankees or Giants—the world series kings—should particlpoate in postseason games.

Directly challenging Landis' authority, Ruth, Bill Pierce, Tom Sheehan and Bob Meusel, all of the Yankees, took part in the game against the Polish Nationals recently.

Ruth Thinks Rule Unfair.

"I have done my duty to the American League," Ruth said. "If it is against organized baseball law that I can't play in the 'off season,' I think it unfair, unjust and un-American. We will continue our tour."

Pierce, Sheehan and Muesel announced emphatically they agree with Ruth. Ruth playing here recently did not apparently experience and handicap in the infected arm which forced his withdrawal from the world series. He polled a home run. His team won 4 to 2. They played in a sand lot as the international league park was barred to them.

STRIKE TALK UPSETS WHEAT

Prospect of Transportation Tieup Causes Sharp Market Decline.

Chicago.—Wheat has taken a big downward swing in price largely as a result of expectation on the exchange here that the threatened railroad strike would take place instead of being settled beforehand.

As much as 7 cents a bushel was slashed from values before the fall was stopped, May delivery touching $1.13 as compared with $1.20 at the finish last week.

Most of the losses came in the last half hour of trading, and were accelerated by the government report on farm reserve. The report was much less bullish than had been looked for.

Something of a rally was witnessed at tht finish, which, however, was a net decline of 5 5-8 to 6 1-4 with December at $1.09 3-4 to $1.10 and May $1.13 3-4 to $1.14.

Despite the severity of the tumble in prices, trading failed to broaden out proportionately in volume. As a matter of fact, the total amount of business done during the smash in prices was generally regarded as very light.

Senate Rejects German Peace.

Washington.—The first senate roll call on the German peace treaty resulted in a 71 to 7 rejection of the first amendment offered, by a proposal of Senator Walsh, Democrat, to have the United tSates join the other powers in a pledge to protect Germany against unwarranted invasion.

The senate also rejected 62 to 6, a second amendment by Senator Walsh, proposing that the United States would use its good offices in the event of a wanton attack on Germany.

Bloodhounds Trail Slayer.

Huron, S. D.—District Attorney Warren and county authorities are attempting to find the slayer of Gus Nordby, a farmer living at Virgil, who was found shot through the heart early this week near Wolsey, N. D.; a tenguage shotgun was found near the body. Nordby was last seen late Friday night and had with him a large sum of money he had collected in Wolsey. Bloodhounds from Mitchell failed to pick up any trace of the slayer.

Harding Talks to Mining Congress.

Chicago.—There are indications that industry is on the upgrade, President Harding stated in a message to representatives of the mining industry, read to delegates at the twenty-fourth annual convention of the American Mining congress here.

He requested the delegates to formulate, if possible, plans for regulating the production and distribution of coal to secure employment the year around for both capital and labor, and thus prevent congestion of transportation facilities and high coal prices.

SHE DYED A SWEATER, SKIRT AND CHILD'S COAT

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—advertisement.

Hottest on Record.

An Englishman was complaining to an American friend in London about the heat. The American laughed.

"My dear fellow," said he, "you people over here don't know what heat is. Just before I left home I was down in the country on a really hot day, and saw a dog chasing a rabbit. They both were walking."

Knocking the Doctors.

There is an official in Washington who likes nothing better than a fling at the medical profession. He was afforded an opportunity not long ago at a public dinner to chaff the medicos and he did it in this wise:

"Physicians may be divided into two classes—the radicals, who kill you, and the conservatives, who let you die."

MARKS CENTER OF THE EARTH

Lofty Monument in Delhi, India, Erected After a Meteorite Fell Near the Spot.

The idea that the earth is not a flat disk, but a globe, does not seem to have "caught on" in India, for they still talk about a certain place being the "center of the world."

In Delhi stands a lofty monument that goes by name of Kutub Minor, a structure towering high above the temple of which it is a part.

The appearance of this curious piece of architecture is that of a number of tiers of columns, seemingly tied together in bundles. At big intervals there are balconies.

The Kutub Minor is of special interest and note in the world over which the religion of the teacher Buddha holds sway. Here, long ago, tradition has it a meteorite fell, sent by the ruling powers in the mystic world beyond this life to mark in the exact center of the world.

In commemoration of this miraculous event the Kutub Minor was erected on the spot, that mankind might never forget it.—London Answers.

BARBERS' NAMES ON MIRROR

New York Proprietor Thinks Patrons Should Know Who Is Operating on Them.

The proprietor of a barber shop in New York believes it is a good thing for his business to have his patrons call each barber by name. To this end he has had one of his 15 employees who is handy at lettering scroll the first name of each barber in soap on the mirror in front of each chair.

When a patron enters he sees a row of names—"Tom," "Adam," "Anthony," "Rob," "James,"—on either side—of the mirrored shop. Below each name is an arrow and a number.

"It's like branding cattle," one barber remarked. "I am Sid and each morning I back into stall No. 2. The boss insists it is a good idea. Makes the shop more homelike, he says."—New York Sun.

Workingmen's Carelessness.

Of all the accidents to workmen which occurred in the plants of the United States Steel corporation, only about 5 per cent were due to machinery causes. The others came under the head of hand labor, and it is claimed that half of these might have been prevented by the exercise of a little care by the workmen. In analyzing the causes of any group of 100 accidents it has been found that 90 per cent of them might have been prevented by the victims themselves.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Luverne—C. S. Reynolds, aged 80, one of Rock county's oldest pioneers, died at his home in this city after a prolonged illness.

Northfield—Mrs. Lee Royer, aged 45, is dead from burns received in a fire which destroyed her farm home southeast of here.

Rochester—Practically every dentist's office in the city was visited by sneak thieves. At one place about $100 in gold was taken.

Owatonna—Villages within 18 miles of this city have added night police squads because of the large number of robberies in this section.

Fertile—Ted Knutson, of this place, claims to be the champion potato picker, having picked 170, 160 and 190 bushels on three successive days.

Warren—John Kelso had one arm so badly mangled that amputation may be necessary. He attempted to clean a corn shredder while it was operating.

Fergus Falls—S. O. Nygren, one of the pioneer residents of this county, died at the age of 94 years. He had lived on the same farm, close to this city, for 50 years.

Fairmont—The annual district convention of the Women's Relief corps will be conducted here Oct. 27 and 28. More than 200 delegates are expected from all over the southern half of Minnesota.

Luverne—Total cost of the city's paving this year $511,389.40. This includes the laying of 155,704 square yards of paving, the installation of concrete curbs, headers and sidewalks, and excess grading.

Windom—With corn at 25 cents a bushel, the city of Windom will use it for fuel at the municipal power plant it was declared. Many farmers have announced an intention to burn corn instead of coal this winter.

Preston—The new $60,000 Lutheran church at Highland was struck by lightning Sunday while services were being conducted. The church was damaged to the extent of several thousand dollars, but no one was injured.

Fergus Falls—The Fergus Falls Commercial club has adopted a resolution addressed to Commissioner C. M. Babcock, asking that a part of the road maintenance fund be used in keeping the main trunk highways open during the winter.

Moorhead—Moorhead's new $500,000 combination grade and high school was dedicated. J. M. McConnell, state commissioner of education and W. F. Webster of Minneapolis, former superintendent of the Moorhead schools made the principal addresses.

Long Prairie—Rumors of gas and oil in Little Sauk Kandota and West Union townships, near here, are causing considerable excitement and a company has been organized to begin drilling operations. About 4,000 acres have been leased by the newly organized company.

Bemidji—A yield of 600 bushels of potatoes to the acre was reported by H. M. Clark of this city, who has a farm near Puposky, a few miles north of Bemidji. An average crop of about 200 bushels to the acre in Beltrami county is predicted by Daniel C. Dvoracek, county agent.

Moorhead—Peter Ness night patrolman here, was shot through the left eye by two bandits who attempted to hold up a restaurant. The wounded officer staggered a block from the scene of the shooting before he fell. Physicians say there is some hope for his recovery.

St. Paul—The State Armory board formally accepted the three hangars recently erected at the Twin Cities Aviation field for the use of the First Minnesota. Observation squadron. Major Ray Miller reported that he had inspected the hangars and found them to be satisfactory in all respects and his report was approved.

Minneapolis—Law enforcement officers who neglect to do their duty in enforcement of the liquor laws sanction lawlessness and crime and should be removed from office, S. B. Qvale, federal prohibition director for Minnesota, said in a communication sent to county attorneys, sheriffs, mayors, police officers, state, county, city, village and town officers. He pleaded for co-operation in "protecting the home against bootleggers and blindpiggers" through enforcement of the 18th amendment, state amendments and the Volstead act.

Minneapolis—Colonization of a complete township of cut-over land in Northern Minnesota to provide farms for service men is to be undertaken by soldier students of the department of agriculture of the University farm, it was announced by Prof. D. D. Mayne, principal of the school. A townsite will be selected, and a model form of city government will be set up. Several cut-over districts have been surveyed, and those in charge of the project have tentatively agreed upon the purchase of one township fronting on a Northern Minnesota lake and accessible by railroad.

English Center of Industry.

"The Potteries" is a district of North Staffordshire, England. It is the chief seat of the china and earthenware industry. The principal centers are Burslem, Hanley, Longton, Fenton, Tunstall and Stoke-on-Trent, all of these being amalgamated in 1910 as a single municipal borough under the name of Stake-on-Trent. The Wedgwoods and the Mintons are the most famous families connected with the china industry.

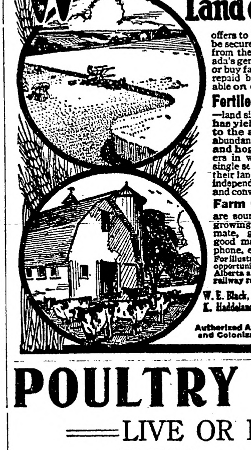
WESTERN CANADA Land of Prosperity



offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at $15 to $30 an Acre

—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches, schools, good markets, railroad facitities, rural telephone, etc.

Mortgage Foreclosure Sale.

Notice is hereby given that default has been made in the conditions of that certain mortgage executed and delivered by Luella McKenzie and K. McKenzie her husband, mortgagors, to Merchants State Bank of Red Lake Falls, a corporation, mortgagee, bearing date of July 30th, 1915, with power of sale therein contained, duly recorded in the office of the Register of Deeds of Marshall County, Minnesota, on August 5th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 366; and which mortgage together with the debt secured thereby was assigned by said Merchants State Bank of Red Lake Falls, mortagee, to Cliff W. Gress by written assignment, dated November 19th, 1915, and recorded in the office of the said Register of Deeds on November 20th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 193 thereof; and which mortgage and the debt secured thereby was further duly assigned by said Cliff W. Gress, assignee, to Merchants State Bank of Red Lake Falls, by written assignment, dated September 12th, 1921, and duly recorded in the office of said Register of Deeds September 21st, 1921, at 8:00 o'clock A. M., in Book 86 of Mortgages on page 433; which default has continued to the date of this notice by the failure and neglect of said mortgagors to make payment of the sum of $21.00 which became due July 1st, 1918, and other amounts since falling due. And whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $354.95 principal and interest from July 1st, 1920, and the further sum of $21.00 interest coupon by said mortgage secured with interest thereon at 6% per annum since July 1st, 1918, and the further sum of $21 00 interest coupon with interest thereon at 6% per annum since July 1st, 1919, and the further sum of $21 00 interest coupon with interest thereon at 6% per annum since July 1st, 1920, being a total due at date of this notice of Four hundred twenty-six dollars thirty-five cents ($426.35); and said mortgage containing a power of sale and no action or proceeding at law or otherwise having been instituted to recover the debt secured by said mortgage or any part thereof; Now therefore notice is hereby given that by virtue of said power of sale and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage to-wit: the Southeast quarter (SE¼) of Section Nine (9) in Township One hundred fifty-eight (158) North of Range Forty (40) West in Marshall County, Minnesota, which sale will be made by the Sheriff of said County of Marshall, at the front door of the courthouse in the City of Warren in said County and State on the 28th day of November, 1921, at 10:00 o'clock in the forenoon at public vendue to the highest bidder for cash to pay said debt of $426.35 and interest from date of this notice and taxes if any, and an attorney's fee of $25.00 as stipulated in said mortgage in case of foreclosure, the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

There are 225 crippled children in the state at the present time who are unable to get treatment. Wont you give a little for the fund now being raised to build a home for these poor children?

Mr. and Mrs. Racine Olson, and Mr. and Mrs. J. M. Barnes and children visited with friends near Goodridge Sunday.

Auto Accident

Sunday night a Ford car driven by Joseph Johnson struck a large hog with such force as to throw the car and its six occupants into the ditch. Mr. Johnson had a rib broken, Miss Bertine Gysland, teacher of the Jahr school, was badly cut up about the face and eyes and her nose nearly severed, Miss Anderson, teacher of the Sorum school was only slightly injured, and Oscar Carlson had his arm and shoulder slightly injured. The three former were immediately taken to the hospital at Thief River Falls. Miss Anderson returned Tuesday night and Mr. Johnson yesterday.

The accident happened near Ringo. The car was badly damaged and the hog was killed, and its a wonder the people were not killed.

Our Share

The people of Minnesota are asked to help perpetuate the memory of Michael J. Dowling by raising a One Hundred Thousand Dollar Fund for a Memorial Hall for crippled children at Phalen Park, where the state home for crippled children is situated. The need exists and is a growing one. The plans call for the erection of a Memorial Dormitory to help care for many crippled crippled children, who are anxiously waiting to get treatment. The need is great and the work urgent.

The time set for this work is Oct. 17 to 31.

The allotment for Holt and the surrounding country is $60.00, and all churches, Sunday Schools, public schools, parents, other grown people, young folks, and children of all ages are asked to help.

Contributions cheerfully received and receipted for at the bank and at this office.

Winter Entertainment Course

University Extension Service

Holt is going to have some splendid entertainments this winter, that will please old, young, the middle aged and children, so great is the variety of talent sent out by the University of Minnesota's Extension Service, who furnish all of the programs. All five numbers have been chosen with great care and everyone will be of the best.

Tickets are going to be so cheap that no one can afford to stay away. It is better to sell a lot of tickets at a low price, than a few at a high price. The local committee want the school house full for the first entertainment, after that everyone will want to go. Be a Booster and get in the band wagon and help to make this a success.

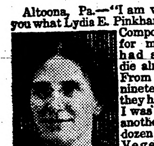
JOY BROUGHT INTO HOME

By Lydia E. Pinkham's Vegetable Compound, Restoring Mrs. Benz to Health



Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We have had six children die almost at birth. From one hour to nineteen days is all they have lived. As I was going to have another, I took a dozen bottles of your Vegetable Compound and I can say that it is the greatest medicine on earth, for this baby is now four months old and a healthier baby you would not want. I am sending you a picture of her. Everybody says, 'That is some healthy looking baby.' You have my consent to show this letter."—Mrs. C. W. BENZ, 131 3rd Ave., Altoona, Pa.

No woman can realize the joy and happpiness this healthy babe brought into the home of Mrs. Benz, unless they have had a like experience.

Every woman who suffers from any ailments peculiar to her sex, as indicated by backaches, headaches, bearing-down pains, irregularities, nervousness and "the blues" should not rest until they have given Lydia E. Pinkham's Vegetable Compound a trial.

Embarrassing Moment.

I had just received a letter from my beau. I read it over and at the end he had written: "P. S.—Isle of View." I read that phrase over three or four times but could get no sense out of it, so finally I took it into the living room where my folks were all sitting and said: "Mother, what does Harry mean by this?" And I read the phrase out loud. Imagine my embarrassment when the meaning suddenly flashed over me as I read the words aloud. I made a hasty retreat.—Chicago American.

Marshfield, Ore.—Eighteen of 23 men in the Beaver Hill coal mine at North Bend were injured by a gas explosion, four of them perhaps mortally.

NEW RATE CUT MAKES SAVING

Shipments from the State, 3 to 6 Cents per Hundred Reduction.

FARMERS GET HELP

Rates on Wheat and Coarse Grains From Various North Dakota Shipping Points Are Now Available.

Fargo.—North Dakota farmers will save more than $1,000,000 on remaining 1921 grain shipments by the reduction on freight rates of wheat, hay and coarse grains announced by the interstate commerce commission, Fargo farm and traffic experts predicted. The cut will mean a reduction of from 3 to 6 cents per hundred pounds from North Dakota points to Minneapolis and Duluth and an even greater saving to Chicago. The commission's order calls for a cut on wheat rates of one-half of the raise allowed in August, 1920, which amounted to approximately 35 percent, according to N. E. Williams, traffic expert of the Fargo Commercial club. Rates on coarse grains, oats, corn, barley, rye and millet are to be set 10 percent below the wheat rates, making a cut of nearly 27 percent. The order becomes effective as soon as practicable and not later than November 20.

Benefit to Farmers.

While approximately 60 percent of the North Dakota wheat crop has been sold, there remains about 13,000,000 bushels which will be affected by the reduction, in the opinion of Usher L. Burdick of the North Dakota branch of the U. S. Grain Growers, Inc. If farmers can hold their wheat until the order goes into effect, this will mean a saving of nearly a million dollars on wheat alone, it is said.

"The reduction will mean farmers and related territory will be materially benefitted," Mr. Williams said. "It will enable them to put their grain in a terminal market at lowered cost." The reduction from several North Dakota points, based on a 17 percent cut for wheat and a 10 per cent below wheat cut for other grains, using the present rates as a basis, were figured out by Mr. Williams.

Fargo to Chicago—present rate, 34c; new wheat rate, 26c; new coarse grain rate, 23.4.

Fargo to twin cities and Duluth—present, 19c: new wheat rate, 16c; new coarse grain rate, 14c.

Grand Forks rate to twin cities same as Fargo.

Wahpeton to Chicago—present rate 32½c; new wheat rate, 27c; new coarse rate, 24.3c.

Wahpeton to Minneapolis—same as Fargo.

Minot to Chicago—present rate, 27c; new rate, 22c; coarse rate 19.8c.

Dickinson to Minneapolis and Duluth—present, 32½c; new rate, 27c; coarse rate, 24.3c.

Williston to Minneapolis—present, 31c; new wheat rate, 26c; coarse rate, 23.4c.

Buford to Minneapolis—present rate, 34c; new wheat rate, 28c; coarse grain rate 25.2.

Bismarck to Minneapolis—present rate, 27c; new wheat rate, 22.4c; new coarse grain rate, 20c.

Predicts Big Grain Movement.

"Where the reduction amounts to 5 cents per hundred pounds, which should be a fair average," Mr. Williams said, "the reduction will mean the same as a 3-cent per bushel increase in wheat prices." He predicted that there will be a heavy grain movement out of the state as soon as the rate goes into effect.
goes into effect.

Sixty million bushels of wheat were raised in North Dakota this year, Mr. Burdick estimated, and of this amount he estimates 60 percent has been sold. His estimate, he said, was based on figures gathered during a recent tour.

BEER BECOMES A MEDICINE

No Limit on Prescriptions—Wines Are Included.

Washington.—As unexpected as a rainstorm in a desert, regulations permitting the manufacture and use of beer for medical purposes were issued by the treasury department.

Withheld since March 3 last, when former Attorney General Palmer held the use of beer as medicine unlegal under the prohibition law, the issuance of beer regulations came as a complete surprise to leaders of the dry forces who declared there had been an understanding with the treasury department that the new rules should not be promulgated until the senate had acted upon the pending anti-beer bill.

Duluth Holds Important Conference.

Duluth, Minn.—Initial movement toward rebuilding Duluth's port facilities to cope with the hoped for eventual culmination of the Great Lakes to the sea deep waterway project was made here with the opening of the Port Development conference.

Seventy-five representatives of five state governments, the federal government, leading cities in the northwest civic and business organizations and educational institutions are here to discuss with Duluth the city's harbor problems.

MOTHER! MOVE CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Hurry, mother! Even a sick child loves the 'fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Concerning Hiccups.

Gen. Coleman Du Pont, Delaware's new senator, was lunching in the senate restaurant.

"This magazine here," he said, laying a periodical aside, "contains a long article on the best way to stop hiccups. Now, it seems to me—"

And General Du Pont chuckled.

"It seems to me," he added, "that a good many readers would rather know the best way to start them."

DYED HER DRAPERIES, SKIRT AND A SWEATER

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run. So easy to use.—advertisement.

WHEN WEARY WILLIE SCORED

Uncle Isaac Was Just a Little Bit Too Emphatic in His Verdict Concerning Coat.

Weary Willie slouched into the pawn-shop.

"How much will you give me for this overcoat?" he asked, producing a faded but neatly mended garment.

Isaac looked at it critically.

"Four dollars," he said.

"Why," cried Weary Willie, "that coat's worth $10 if it's worth a penny!"

"I wouldn't give you $10 for two like that," smiled Isaac. "Four dollars or nothing."

"Are you sure that's all it's worth?" asked Willie.

"Four dollars," repeated Isaac.

"Well, here's your $4," said Weary Willie. "This overcoat was hangin' outside yer shop, and I was wonderin' how much it was really worth."

Like the Old Folks.

A bachelor who is forever putting his foot in it, recently visited the proud parents of a new boy.

The mother held up the bundle for the inspection of the bachelor and asked gayly: "Tell us, now, frankly, which of us do you think he is like?"

After a careful examination of the mite the bachelor answered: "Well, Marie, of course, intelligence has not yet dawned in his face, but he's wonderfully like both of you."

Hands that work and serve will never wear steel bracelets.

What we wish is the shadow; what we will is the substance.

Look for this Trade Mark when you buy Biscuits

FOR nearly 20 years Big Sioux Biscuits (and Big Sioux Cookie-Cakes and Crackers) have been family favorites. Baked in the modern Manchester Bakeries—pure and wholesome materials used—and sold in sealed packages. Ask your grocer for Big Sioux.

PUZZLE FOR LOVERS OF DOG

Just How Did Terrier Know the Correct Time, When the Clocks Had Been Advanced?

Perhaps because of his power of speech, the parrot is usually regarded as amazingly wise. But many dumb creatures often display just as remarkable intelligence.

Can a dog judge time? This is one of the subjects upon which some light is thrown in "Dogs, Birds and Others," by H. J. Massingham.

A terrier had been in the habit of jumping on his master's bed and awakening him each morning at seven o'clock. When the clocks had been advanced an hour for summer time, the man was anxious to see what the dog would do.

Next morning, as usual, the animal jumped upon the bed. The clock was at seven exactly, although really it was only six o'clock. Had the dog counted the strokes of the clock when it struck, or had he understood about the clocks being put on?

Fans Don't Mind.

"What's this I hear?"

"Well?"

"A veteran plainsman says these movie cowboys don't even know how to ride a horse correctly."

"That won't make any difference to the average movie fan who never sees a man on horseback unless he happens to be a mounted policeman or the grand marshal of a street parade."

Life as I See It.

I admire these stories in which the hero struggles along nobly on $4,000 per year. Statistics show that 90 per cent of us never earn that much.—Louisville Courier-Journal.

Do not let fear of ridicule keep you from expressing high ideals.

You remember the story of the Pitcher—

It made a good many trips to the well and it came back in good order.

"I can take care of myself," it said—"they don't need to talk about risks to me."

But it went once too often.

After that it was only part of a pitcher, and they didn't need to talk to it about risks—it knew.

A lot of people won't believe coffee can harm them until it does harm them.

"Nonsense!" they say, "it never disturbs me."

When it does disturb them, then they know.

Often the disturbance which they then recognize is the result of irritations to nerves and digestion which have been going on for a long time.

If you have to lie awake at night and count the clock ticks, after an evening cup of coffee, then you know that it's better to be safe than sorry.

The risk of coffee's harm is gone when the meal-time drink is Postum.

Here's a delightful and satisfying table beverage, with charm for the taste and without harm for nerves or digestion. You know you're on the right road with Postum; there's never the possibility that you'll go once too often.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

"There's a Reason" for Postum

His "Tips."

Young Little liked a "little bit on," but unfortunately he had not the skill, or perhaps it was only the luck, to pick winners.

On looking through his racing paper one morning he saw a tipster's advertisement.

"Two sure things for $5."

He purchased a money order for the required amount, and wrote off straightway to the address in the advertisement.

But the advertiser was a smarter man than Little, for in reply Little received the following note:

"Dear Sir—As advertised, my 'sure things' are:

"Loose Button—Sure to come off.

"Dirty Carpet—Wants some beating."

To Have a Clear Sweet Skin

WOULDN'T STAND FOR REBUKE

Beggar Woman Had Her Own Point of View Concerning "Business" She Was Engaged In.

Secretary Lawson Purdy of the Charity Organization society said at a dinner in New Yok:

"Professional beggars are a self-righteous crew. What I mean is that they regard their trade the same as you and I regard honest work. One winter afternoon I came on a beggar woman I knew of old. She was begging in a bitter wind on a corner, and three little children in calico rags shivered at her side.

"'You—Jane,' I said reproachfully. 'You—begging! And those three little ones! They aren't really yours at all!'

"'Well, damitall,' said the beggar woman. 'I wouldn't have to beg so hard if they were really mine, for then I wouldn't be forking over a dollar a day to hire them.'"—Los Angeles Times.

The Only Drawback.

"Three drinks of this stuff," said the wily bootlegger, "and you'll hear the little birdies sing."

"Not today," said the cautious citizen. "I had a friend who tried that prescription and it wasn't long before there was singing all around him, but he couldn't hear it."—Birmingham Age-Herald.

It is hard to appreciate good advice that doesn't coincide with one's own desires.

It Was Too Late Then.

The husband of one of his pensioners having died, the minister called to see how the widow was bearing up under her sorrow. His sympathy touched her greatly.

The clergyman asked if it had been necessary to hold a post-mortem examination.

"Oh, yes," replied the widow, "but more's the pity, they didn't hold it until my dear husband was dead, otherwise he might be with me now."

And she dissolved into tears.

Stop the Pain.

The hurt of a burn or a cut stops when Cole's Carbolisalve is applied. It heals quickly without scars. 30c and 60c by all druggists or send 30c to The J. W. Cole Co., Rockford, Ill.—Advertisement.

The Place for Alphonse.

"Alphonse," said the heiress, "I have been thinking."

"Thinking of me, precious?" asked Alphonse.

"Indirectly, yes; I have been thinking that if you married me, everybody would say you only did so to get my money."

"What care I for the unthinkable world?"

"But, Alphonse, I will marry you."

"My own dar—"

"And I will not have people say unkind things about you, so I have arranged to give my fortune to the missionaries. Why, Alphonse, where are you going?"

Alphonse paused long enough on his way to the door to look back and mutter: "I'm going to be a missionary."

Ambitious.

"That was some haul," said the hold-up man.

"A few more like it," replied his partner, "and we'll be able to become landlords, and make real money."—New York Sun.

A Business Deal.

"Remember, I don't know anything about business. In business matters I'm a baby."

"Can't deal with you, then. A baby wants it all. Send me somebody who does know something about business."

Correct!

"Now," said the professor of chemistry, "under what combination is gold most quickly released?"

The student pondered a moment. "I know, sir," he answered. "Marriage."—Edinburgh Scotsman.

Not an Army.

"He must be innocent." "What makes you think so?" "He's hired only one lawyer to defend him."

Picking winners is usually a losing game.

The foolish man who built his house on the sand—

He gave an example in folly which anybody can understand.

It isn't so easy, however, to sense the mistake of trying to build the body on foods which lack essential nourishment.

Here, again, is a foundation of sand which gives 'way when the test comes.

Many a food that tastes good lacks honesty of nourishment to equal its taste. Thus it tempts the appetite into mistakes that often are costly.

Grape-Nuts is a food which helps build bodily endurance for life's stress and storm. The full nourishment of wheat and malted barley, together with the vital mineral salts so necessary to bone structure and red blood corpuscles, with phosphates for the brain, is retained in Grape-Nuts. The long baking process by which Grape-Nuts is made gives the food a natural sweetness and an unusual ease of digestibility and assimilation.

Served with cream or milk, Grape-Nuts is fully nourishing, and whether eaten as a cereal at breakfast or lunch, or made into a pudding for dinner. Grape-Nuts has a particular delight for the appetite. Sold by grocers.

St. Paul—A charter was issued to the Farmers' State bank of Perham by S. B. Duea, state superintendent of banks. It is capitalized at $20,000 and has a surplus of $4,000.

Winona—Mrs. George Vance, aged 91, is dead here. She was a member of one of a group of families who settled in Money Creek valley, near here, in 1855, from Vermont.

Sleepy Eye—Mr. and Mrs. Gilmore A. Hagen, each 68 years old, died at their home in Albin, within half an hour of each other after suffering several days with pneumonia.

Canby—Iver Skorseth, one of the oldest section hands on the North Western railway, suffered a badly mangled hand when it was caught in the gears of a coal hoister.

Moorhead—E. B. Anderson of Breckenridge was elected president of the Northwestern Central Minnesota Educational association's convention at its closing session here.

New Richland—Large shipments of sugar beets have been loaded at this place for shipment to the Chaska sugar mills. Farmers in this section have found the crop to be profitable.

Winona—Alfred Hertzfeldt, aged 24, Arcadia, Wis., was killed when the car in which he and four companions were returning from Winona went off the road three miles south of Arcadia.

Cass Lake—Carl Mahoney, a farmer, living at Kitchie Landing, near here, was killed when a charge of dynamite, with which he was blowing up stumps of trees, prematurely exploded.

Rochester—Arthur Dalman, 18 months old, son of Mr. and Mrs. William Dalman, residing south of this city was found dead in a jar of water near his home. He had fallen into the vessel.

Minneapolis—Ten thousand bushels of grain have been contributed by Minnesota farmers in their campaign to collect enough corn and wheat to feed 3,500 orphan children in southern Russia and Armenia this winter.

Canby—Charles Maas, a farmer residing near here, was badly injured when a team hauling a corn husking machine became frightened and ran away. Maas was thrown under the machine and dragged for some distance.

International Falls—Trapped in his cabin when the only exit was cut off by flames. Peter Peterson, aged 60, was burned to death, according to Coroner Liljeblad, who investigated the case. Peterson lived alone in the cabin located near Norden postoffice, 14 miles north of Killiher.

Minneapolis—Election of women to the legislature in the places of men who have refused to support the measures advocated by the League of Women Voters was urged by Miss Marguerite Wells in her annual address as president of the Minnesota League of Women Voters, at the closing session of its state convention at the Curtis hotel. She advocated strongly the participation of women in legislative work.

Duluth—Led by a member of a youthful band of robbers, two Duluth police detectives crawled 25 feet through a narrow cave here and recovered ornaments and fixtures valued at $500, which had been taken from a local church a few hours before.

Worthington—The annual October term of district court, with Judge L. S. Nelson presiding, promises to be a record breaker for length. There are 75 civil actions and 25 criminal cases on the docket. Fourteen of the criminal actions are for violations of the state prohibition laws.

Olivia—H. R. Prodahl, aged 45, for many years engaged in the produce business here, is dead at his home here.

Hibbing—An early and cold winter is prophesied by the early flight of geese. The flocks going over here are large.

Granite Falls—Gerald Reinke, aged 19, was killed when his motorcycle collided with an automobile on a country road near here.

Luverne—Mrs. P. N. Gillham, aged 69, for 40 years prominently identified with the public life of Luverne, is dead at her home here.

Montevideo—At the annual district convention of the Women's Relief corps here, Mrs. Ina B. Sinclair of Jasper was elected president.

Tracy—Several farmers of this vicinity have just completed threshing their oats, some reporting good yields, running between 43 to 60 bushels to the acre.

Sleepy Eye—A movement has been started here to interest civic bodies in towns along the Black and Yellow trail from Winona to Huron, S. D., in the early paving of the trail.

Warroad—John Steen and Garfield Franzen of this place were drowned in Lake of the Woods when their small rowboat capsized in a squall. The men were hunting ducks off Elm Point.

Luverne—A decrease of 40 per cent in the charge for city heat beginning with Nov. 1, has been decided on by the city council. This reduction is due to the drop in the price of coal, it was announced.

Pipestone—In order to reduce the city tax levy to a figure 25 per cent under the levy of last year, big cuts were made by the city council in the levies for general purposes and for roads and bridges.

Hibbing—Dr. Howard Weireck has been appointed a member of the state board of health, it was announced at the office of Governor J. A. O. Preus, to succeed the late F. W. Cappelen, Minneapolis city engineer.

Montevideo—After two unsuccessful attempts of the Chippewa County farm bureau to obtain financial aid, the commissioners have finally voted to include 1,000 in its 1922 budget for the farm bureau federation.

Luverne—Evidence of the decided slump in farm products was demonstrated here when a wagon load of corn was sold for about $6. Eighteen months ago a similar wagonload of corn brought the same seller $66.

Minneapolis — Minnetonka parcel post service formally ended Saturday, with a record of service to Minneapolitans and lake dwellers during the summer. Its success has been so marked that it is to be continued next summer.

Pipestone—For 48 hours firemen and pupils fought a fire in the coal-bins in the basement of the high school. A large amount of the fuel had to be removed before effective work could be done in extinguishing the flames.

St. Paul—Assets and liabilities of the Peoples' State bank of Rochester, taken over Aug. 17 by S. B. Duea, state superintendent of banks, because of depleted reserves, have been taken over by the Olmstead County State bank of Rochester.

Virginia—The body of John Gorman, who was drowned while hunting at Net Lake three weeks ago, was found by members of the American Legion who have been searching for it. The body was almost buried in mud at the bottom of the lake.

Minneapolis—John Wood, auditor of the Electric Short Line company, commonly known as the Luce Line, was placed under arrest on a charge of embezzling company funds. He was placed in the city jail while company officials began a careful check of his books.

Minneapolis — The University of Minnesota School of Agriculture at the University farm observed the thirty-third anniversary of its opening. At its opening the school had nine instructors and 47 students, while now it has 65 instructors and 650 students.

Minneapolis—Jew and Gentile, orthodox and liberal, old and young, a throng of 5,000 from all walks of life, gathered at the Temple Israel, to pay last tribute to Dr. S. N. Deinard, for 29 years pastor of the congregation. Dr. Deinard died on Yom Kippur day; known to the Jews as the "Holy of Holies."

Duluth—Visions of a warm bed, plenty to eat, warm clothes to wear, motion pictures twice each week, regular church services and light work, it is said, induced Frank Gordon, 71 years old, to set fire to a small storage building for the purpose of breaking into Stillwater prison. He is now charged with arson and faces a possibility of seven years' maximum in the state prison.

St. Paul—Preliminary steps for the organization of the Ramsey county division of the Minnesota Sanity league were taken at a meeting held here. A meeting will be held in about 10 days to effect the permanent organization of the section. The aim of the organization is to work for the allowance of the legal sale of beer and light wines. Horace Whitmore is chairman of the state organization, with headquarters in the St. Regis hotel, Minneapolis. An advisory board of 10 will be appointed.

St. Paul—Plans are being made for the reopening of the Chippewa State bank of Montevideo, S. B. Duea, state superintendent of banks, said. Action had been contemplated by some persons interested in the bank to have the court appoint a receiver.

Buhl—A temporary injunction to prevent all further work on the Buhl and Kinney high schools and to declare void contracts that have been let for the last two years, on the grounds of extravagance and excessive expenditures, is asked for by four local mining companies against the Buhl board of education.

Beauty is But Skin Deep And Good Blood is Beneath Both

Minneapolis, Minn.—"I want to make this public expression of what Dr. Pierce's medicines have done for me. Some years ago I was in a weak, run-down condition with neither strength nor ambition. A neighbor suggested that I take Dr. Pierce's Golden Medical Discovery. I secured a bottle from the drug store and this was so helpful that I had no need of a second bottle. To those whose condition needs building up I can and do recommend Dr. Pierce's Golden Medical Discovery."—Mrs. Addie Hottell, 711 Buchanan St., N. E.

Mortgage Foreclosure Sale.

Notice is hereby given that default has been made in the conditions of that certain mortgage executed and delivered by Luella McKenzie and K. McKenzie her husband, mortgagors, to Merchants State Bank of Red Lake Falls, a corporation, mortgagee, bearing date of July 30th, 1915, with power of sale therein contained, duly recorded in the office of the Register of Deeds of Marshall County, Minnesota, on August 5th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 366, and which mortgage together with the debt secured thereby was assigned by said Merchants State Bank of Red Lake Falls, mortagee, to Cliff W. Gress, by written assignment, dated November 19th, 1915, and recorded in the office of the said Register of Deeds on November 20th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 193 thereof; and which mortgage and the debt secured thereby was further duly assigned by said Cliff W. Gress, assignee, to Merchants State Bank of Red Lake Falls, by written assignment, dated September 12th, 1921, and duly recorded in the office of said Register of Deeds September 21st, 1921, at 8:00 o'clock A. M. in Book 86 of Mortgages on page 433; which default has continued to the date of this notice by the failure and neglect of said mortgagors to make payment of the sum of $21.00 which became due July 1st, 1918, and other amounts since falling due. And whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $354.95 principal and interest from July 1st, 1920, and the further sum of $21.00 interest coupon by said mortgage secured with interest thereon at 6% per annum since July 1st, 1918, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1919, and the further sum of $21 00 interest coupon with interest thereon at 6% per annum since July 1st, 1920, being a total due at date of this notice of Four hundred twenty-six dollars thirty-five cents ($426.35); and said mortgage containing a power of sale and no action or proceeding at law or otherwise having been instituted to recover the debt secured by said mortgage or any part thereof; Now therefore notice is hereby given that by virtue of said power of sale and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage to-wit: the Southeast quarter (SE¼) of Section Nine (9) in Township One hundred fifty-eight (158) North of Range Forty (40) West in Marshall County, Minnesota, which sale will be made by the Sheriff of said County of Marshall, at the front door of the courthouse in the City of Warren, in said County and State on the 28th day of November, 1921, at 10:00 o'clock in the forenoon, at public vendue to the highest bidder for cash to pay said debt of $426.35 and interest from date of this notice and taxes if any; and an attorney's fee of $25.00 as stipulated in said mortgage in case of foreclosure, the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

Mr. and Mrs. Erick Erickson visited Sunday with relatives at Gatske.

Mrs. H. B. Young returned home Friday from a pleasant visit with relatives and friends in Iowa.

Miss Inga Johnson departed Saturday for Minneapolis near which place she will have work.

Axel Nelson returned home Saturday from Bemidji. He attended a hearing held by the drainage board.

Rev. Strom and Thustad will hold services in the Ole Halt school house at 3 o'clock next Sunday afternoon.

Miss Dorthy and Amy Olson returned to Fargo N. D. Tuesday after enjoying a pleasant visit with home folks.

J. M. Swan and son, Clarence returned Tuesday from the twin cities where they had been with a car of cattle.

Mrs. Ole Larson went to Thief River Falls Monday for a short visit with her sisters and to see the teacher, Miss Grsland at the hospital.

Mr. and Mrs. Edwin Nelson came down from Roseau Sunday to visit relatives. Verna Hagberg came back with them and is now attending school here.

The Misses Bertha, Idella and Alma Ingebrigtson and cousin Henry Hanson of Fertile came Saturday and visited over Sunday at the home of their aunt, Mrs. J. Nelson and other relatives in Holt.

The school auditorium was crowded Saturday night by an appreciative audience who came for the first number of the winter entertainment course.

The Navarre Trio were all they claimed to be. Each lady is an artist in the part she takes and everyone was well pleased with the evenings entertainment.

Miss Ingeborg Nelson has returned to her former work in the Holt Cafe, after several months absence caused by the sickness of her mother who is now much better. Miss Mabel Hagberg who so capably filled Miss Nelson's position at the Holt Cafe, has taken a position at Albert Bennes' in place of Miss Stella Mickelson who has resigned.

The Nazareth Young People's Society will give a special program in the church basement Sunday night Nov. 6th. and everyone is invited. Mesdames S. H. Nehre, Ole Sovde and Erick Erickson will serve the lunches. The proceeds will be given to the fund for the crippled children's home. This is a most worthy cause and we trust all will give it a cordial support.

Married

Miss Venice Laurence and Dehard Johnson were married Nov. 2nd. at the home of her sister, Mr. and Mrs. N. A. Harris of Topeka Kansas.

The pretty ceremony was performed in the presence of about fifty guests, little Norma Harris acting as flower girl. Autumn leaves, chrysanthemums and roses formed the altar the the bridal couple.

Mr. and Mrs. Johnson will be at home in Mankato, Minn., after Nov. 10th.

The News joins their many friends in extending hearty congratulations.

Wanted: Day work, Mrs. Laura Frederickson, Holt, Minn.

J. A. Russell and son Ervin who lives two miles east of this place had a bad accident happen them Friday afternoon while driving their Ford into Thief River Falls, from the west at the fair ground crossing. The G. N. passenger coming from the north, apparently unseen by either of the men, struck their car knocking it clear around and turning it over. Mr. Russell had some ribs broken and Ervin sustained a broken collar bone. They were taken to the hospital for treatment. Keneth, the younger son of Mr. Russell was already in the hospital having been operated upon for appendicitis a couple of weeks ago. This is hard luck as the entire man force of the family is laid up.

Arthur Simonson and the Meyers boys helped load the Russell car into a wagon and Henry Rogers hauled it home. The car was not badly wrecked.

The people of this neighborhood have been busy marketing their potatoes during the past two weeks.

Steve Warring shipped a lot of poultry to Hibbing last week.

Will Meyers who has been working on the ditch east from here for some time, came home on a visit this week.

Jessie Rogers who is attending school at Thief River Falls, came Friday evening for an over Sunday visit with home folks, returning Monday.

We understand Ole Berg has been plowing with his tractor for Mr. Olson.

Arthur Muzzy who took a road contract on the section line going west, one mile north of this place has the job well along toward completion. It will be a good improvment, as that road has never been passable in the winter.

S. R. Rogers has been building an addition to his barn which makes a fine improvment to his farm.

The Babcock highway, passing north and south thru this place, has taken on a new form since the big grader and several men and teams have been working there. When the road is gravelled, it will be one of the finest in the state, as none have any better foundation.

Renie Werner is busy plowing this nice weather. He says if his rye keeps on growing and the cold weather dont bother, he can cut it by Christmas.

Henry Rogers is doing the chores for Mr. Russell untill they can get some one else.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Rochester—Dr. and Mrs. W. J. Allen celebrated their 66th wedding anniversary.

Montevideo—Ole H. Haugen, aged 82, a resident here for 49 years, was killed when his team ran away, throwing him from his wagon.

Frazee—State Game and Fish Commissioner Avery has issued an order closing 30 lakes in Becker county against the netting of white fish.

Sleepy Eye—Robert Hose, pioneer hardware merchant here, dropped dead here of heart disease. He was 53 years old. He leaves a widow and one son.

Detroit—Floyd Cummings, following complaint of Fire Marshall W. G. Stewart, is held on a charge of arson in connection with the burning of his bakery.

Luverne—The city of Luverne has just completed its third well to furnish water for all parts of the city. There is ample water here now for years to come.

Fergus Falls—The 9 year old son of Mrs. Earl Carlson, widow, was run over by an automobile. The boy received a fractured skull and died a few minutes later.

Rochester—Carl Schwanke, 25 years old, son of Mr. and Mrs. Fred Schwanke, living 10 miles south of Rochester, was instantly killed when he fell into the flywheel of a steam traction engine.

Fergus Falls—A waterworks trench caved in here burying Asa Harry and Elmer Swanson to their necks. Swanson's arm was broken by the weight of the earth, and Harry's chest was crushed.

Ellendale — Twelve horses were burned to death and several others badly injured in a fire which destroyed barns of the Cameron, Joyce & Co., on the Nels Thompson farm, a mile west of here.

Robbinsdale—Dennis Galvin, a farmer living near Buffalo, was instantly killed, and two occupants of an automobile driven by Galvin were injured when the car ran into a Soo line train near here.

Canby—When the home of R. E. Quenroe was burned Mrs. Quenroe was trapped in her room and was so badly burned about the head and body she died at a hospital a few hours after the fire.

Houston—Knute O. Senness, a rural letter carrier for the last 18 years, was personally complimented by Will H. Hays, postmaster general, for his long and efficient service. Mr. Senness is retiring on a pension.

St. Paul—The state game and fish commission in 1921 distributed 232,000,000 pike and perch fry throughout Minnesota, with the exception of 4,000,000 fry which went to the federal fisheries in Iowa.

St. Paul—Work of the soldier bonus board will be completed in March, 1922, according to Colonel W. T. Mollison, board member. All new claims for bonuses, Colonel Mollison said, must be filed before Jan. 1, 1922.

Virginia—The women of Virginia have organized a professional women's club, and will have their first regular meeting Nov. 17. The club will affiliate with the National Business and Professional Women's organization.

St. Paul—Thomas F. McDonough, 70 years old, charged with the murder of his son, was freed in Ramsey county district court, after his attorneys asked that the case be dismissed at the conclusion of the state's testimony.

Moorhead—According to Clay county authorities, Fred Wilson, arrested at International Falls, has confessed to the shooting of Peter Ness, night patrolman here, following an attempt to hold up the Hans restaurant, early on Oct. 14.

St. Peter—Students and faculty of Gustavus Adolphus college have subscribed over $26,000 in the $500,000 campaign the Lutheran Minnesota conference is carrying on for the strengthening of Gustavus Adolphus college here and Augustana Theological seminary, Rock Island.

Minneapolis—The amount spent by the state of Minnesota in maintaining the University of Minnesota, exclusive of the self-supporting service enterprises of the institution for the fiscal year ending June 30, 1921, exceeded the amount expended the previous year by more than $1,000,000, according to a financial statement compiled by Albert J. Lobb, university comptroller. In the fiscal year ending June 30 last, $4,975,950 was used for the university.

St. Paul—Minnesota is ready to begin work on $4,350,000 worth of road construction, under provisions of Amendment No. 1, providing federal aid is forthcoming within the next 15 days, Charles M. Babcock, state highway commissioner, telegraphed Herbert Hoover, secretary of commerce, in reply to an inquiry.

Center City—Reinor Lilja, aged 20, was found guilty by a jury in district court, on a charge of first degree murder, in connection with the death of Peter M. Carlson April 17. The verdict carries a sentence of life imprisonment

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Judge not your neighbor; he may be on the jury when it is your turn to face the judge.

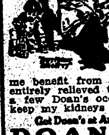
Watch Your Kidneys!

That "bad back" is probably due to weak kidneys. It shows in a dull, throbbing backache or sharp twinges when stooping. You have headaches, too, dizzy spells, a tired, nervous feeling and irregular kidney action. Don't neglect it—there is danger of dropsy, gravel or Bright's disease! Use *Doan's Kidney Pills*. Thousands have saved themselves more serious ailments by the timely use of *Doan's*. *Ask your neighbor!*

A North Dakota Case



A. L. Failor, carpenter, 1108 Dakota Ave., Grand Forks, N. D., says: "My back ached so I could hardly stoop and when I stooped it was difficult to straighten again. My kidneys acted too freely so I started using Doan's Kidney Pills. They gave me benefit from the start and soon entirely relieved the trouble. I take a few Doan's occasionally and they keep my kidneys in good shape."

TO CONTINUE IRISH PARLEY

Premier Achieved Oratorical Victory Before an Expectant Audience.

PROTEST IS A FAILURE

Commons Vote to Continue Negotiations—Unionist Motion Censuring Government Is Voted Down.

London.—The government obtained its expected mandate from the house of commons to proceed with the Irish negotiations. The unionist motion, censuring the government for initiating the Irish negotiations, was voted down 439 to 43.

The premier also achieved another of his oratorical victories before an expectant audience. So far as the movement of protest was designed to draw information as to the proceedings of the conference, it failed. The premier gave no information as to what has been decided, or is being discussed regarding Eamonn de Valera's claim to independence and the rumored attempts to arrange concessions from Ulster for a united Ireland. These remain in the realm in speculation.

One piece of information the premier did give. It was that unless something happens within a few days, presumably in the conference to solve the unsettled status of Ireland's two governments, steps would be taken to give the Ulster parliament the power necessary to make it a real government.

Mr. Lloyd George declared that the time to question the negotiations was when he first proposed them to the Sinn Fein by public correspondence, last July. Most of his speech was devoted to holding before the commons the prospect of a renewal of guerilla warfare if the conference broke down.

Former Premier Asquith supported the government, but depreciated the suggestion that renewal of the war was the only alternative if the conference failed. This point of view finds adherence among a section of the Irish experts, who believe that a breakdown of the conference might be followed by a continuance of the truce, pending further efforts of diplomacy.

The comment of one veteran parliamentarian was that Mr. Lloyd George's talk of further war was not intended as a warning to the Sinn Fein but to parliament not to harass those engaged in the negotiations.

CONFERENCE TO OPEN SOON

The American Arms Group to Hold a Discussion.

Washington.—With the formal opening of the International conference on limitation of armament less than a fortnight in the future, preliminary preparation for the meeting has swung into the final stages. The American delegation was scheduled to hold another of its discussive sessions at the state department. Secretary Hughes, chairman of the American group, has expressed gratification over the progress made.

Advance groups of two delegations already are here, the advisory delegation from China arrived and was greeted formally by representatives of the state, war and navy departments.

Other delegations are scheduled to arrive during the week and officials in charge expected the work of organization to proceed rapidly.

The opening of the conference was delayed one day, to November 12, because of the ceremonies at Arlington cemetery where on the previous day America's unknown soldier, brought from France, was buried.

The rank of ambassador was given to the American delegates appointed by President Harding to represent the United States at the conference on armament and Pacific and Far Eastern questions.

Beer at Once.

Washington.—A complete understanding has been reached with the prohibition unit to permit been being made immediately available for the sick under the new treasury regulations, Internal Revenue Commissioner Blair has announced.

Points in the regulations upon which there had been some doubt were cleared up, Mr. Blair said, and the prohibition unit evidenced a desire to make effective the new rule without delay. Applications for permits to enable them to manufacture beer for medical purposes would be expedited.

Opposed Calling of Troops.

Washington.—President Harding was understood to have expressed opposition during a conference with Chairman Porter of the house foreign affairs committee, to passage of any resolution providing for immediate withdrawal of American troops from the Rhine.

The president was said to believe that the war department's policy of gradual withdrawal of troops deals adequately with the situation.

Success and Failure.

"I met Barrie," said an editor, "at a dinner party in London. What a big head he's got, to be sure!

"'Sir James,' I said nervously, toying with the stem of my wine glass, 'I suppose, Sir James, that some of your plays do better than others? They are not all successes, I imagine?'

"Barrie leaned his big head on its little thin neck toward me. His saucerlike eyes twinkled.

"'No,' he said, 'some Peter out and some Pan out.'"

His Title Clear.

A Pennsylvania lawyer was once arguing a case on behalf of a Hungarian and had displayed great knowledge of Hungary and its people.

"Come, come," said the judge at last, "you know you cannot make yourself out to be a Hungarian."

"Perhaps not," said the lawyer, "but I have made a great deal of money out of Hungarians in my time."

"In that case," suggested the judge, "suppose we call you a Hungarian by extraction."

Lawyers are so plentiful that but few criminals get a chance to plead guilty.

DIAMOND HAS MANY VIRTUES

But According to Superstition the Gem Must Be a Gift to Person Who Wears It.

According to superstition (and to fact, also), the owner of a diamond is lucky, indeed. The diamond should be worn upon the left side, for it is of greater virtue there, for the strength of its growing is toward the North, that is the left side of the world, and the left part of a man when he turneth his face toward the East. He who carries a diamond will have strength and manhood; it will keep him from harm, especially from broken limbs. It will give him victory over all his enemies if his cause is righteous. It will keep him from strife and riots, and is a talisman against enchantments. In fact, if an enchanter tries to work a spell upon the possessor of a diamond he will find it will work upon himself instead. No wild beast will attack the diamond owner. It heals all manner of mental troubles. If poison be brought near it, the diamond will become moist and sweat. In order to be of the greatest virtue, the diamond must be given freely instead of being bought.

Her Defense Perfect.

Jane, after having plucked a bouquet of roses, was reprimanded severely by her dad, who said: "Didn't I tell you not to pick any of these flowers without leave?"

"Yes, daddy," replied the youngster, "but all these had leaves."

Touching Bottom.

"So low he can't even get a battery charged."—Wayside Tales.

Whatever his trials, the farmer does not know the horror of having no food in his cupboard.

A dog's bark is worse than his bite; but, unfortunately, a mosquito doesn't bark.

Why should you follow a crooked path?

Often a cowpath has been allowed to become a village street, and as the village expanded, tradition has made the winding way an expression of a cow's will.

Habit is always forging chains to enslave us, so that what has been found bearable by the fathers is accepted by the sons.

Who cannot recall the coffee-pot Mother put on the stove early in the morning, warning us not to let it boil over?

As children, we were not permitted to drink tea or coffee, because it would stunt our growth or make us nervous and irritable. When older, however, we craved a hot drink with meals, and custom gave us our tea or coffee.

Finally upon the instructions of the doctor, Mother gave up her tea and coffee. But that meant nothing in our young lives. Our vitality was then strong enough to throw off any ill effects.

But our time came, and we learned by experience that we could not drink tea or coffee. When we had it for breakfast it put our nerves on edge. When we drank it at the evening meal, we tossed about in wakefulness most of the night.

And then we found Postum, a pure cereal beverage, free from the harmful drug, caffeine, in tea and coffee. We liked the rich, satisfying flavor of Postum—and also the better health which resulted. And, too, we were surprised to find how many of our neighbors had made the same discovery—had learned the value of "health first."

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

DARLING BABY BRIGHTENS HOME

Children's Laughter a Pleasing Sound

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We had six children die almost at birth. From one hour to nineteen days is all they have lived. Before my next one was born I took a dozen bottles of your Vegetable Compound, and I can say that it is the greatest medicine on earth, for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Everybody says 'That is a very healthy looking baby.' You have my consent to show these few lines to anybody."—Mrs. C. W. BENZ, 131 3rd Avenue, Altoona, Pa.

Mrs. Janssen's experience of interest to childless wives.

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."—Mrs. H. H. JANSSEN, Millston, Wis.

Mrs. Held of Marinette, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:

Marinette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and you may use my letter as a testimonial."—Mrs. H. B. HELD, 330 Jefferson St., Marinette, Wis.

There are many, many such homes that were once childless, and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it acts as a natural restorative for ailments as indicated by backache, irregularities, displacements, weakness and nervousness.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once darkened by illness and despair.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

BOSCHEE'S SYRUP

Allays Irritation, Soothes and Heals Throat and Lung Inflammation.

The almost constant irritation of a cough keeps the delicate mucous membrane of the throat and lungs in a congested condition, which Boschee's Syrup gently and quickly soothes and heals. For this reason it has been a favorite household remedy for colds, coughs, bronchitis and especially for lung troubles in millions of homes all over the world for the last fifty-five years, enabling the patient to obtain a good night's rest, free from coughing, with easy expectoration in the morning. You can buy Boschee's Syrup wherever medicines are sold.—Advertisement.

"Movies" and Eye Strain.

One potent cause of eye strain in movie theaters, according to investigators in England, is peculiar to the front seats, especially popular with children, where the eye must be uncomfortably uplifted to see the screen. It is recommended that the visual angle to the top of the screen should not be more than 35 degrees, and the angle to the screen's side also should be limited.—Popular Mechanics Magazine.

Comprehensive, at Least.

An Anglo-Indian doctor instructed a native who was nursing one of the doctor's patients to keep a written record of the patient's symptoms.

The doctor, on his next visit, found the patient dead, but the written chart was immediately forthcoming. It read as follows:

11:30 p. m.—Patient's life is flitting.

12:15 a. m.—Patient in the sink.

1:40 a. m.—Patient's life is flown.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Cure is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Cure is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

Mortgage Foreclosure Sale.

Notice is hereby given that default has been made in the conditions of that certain mortgage executed and delivered by Luella McKenzie and K. McKenzie her husband, mortgagors, to Merchants State Bank of Red Lake Falls, a corporation, mortgagee, bearing date of July 30th, 1915, with power of sale therein contained, duly recorded in the office of the Register of Deeds of Marshall County, Minnesota, on August 5th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 366; and which mortgage together with the debt secured thereby was assigned by said Merchants State Bank of Red Lake Falls, mortgagee, to Cliff W. Gress by written assignment, dated November 19th, 1915, and recorded in the office of the said Register of Deeds on November 20th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 193 thereof; and which mortgage and the debt secured thereby was further duly assigned by said Cliff W. Gress, assignee, to Merchants State Bank of Red Lake Falls, by written assignment, dated September 12th, 1921, and duly recorded in the office of said Register of Deeds September 21st, 1921, at 8:00 o'clock A. M., in Book 86 of Mortgages on page 438; which default has continued to the date of this notice by the failure and neglect of said mortgagors to make payment of the sum of $21.00 which became due July 1st, 1918, and other amounts since falling due. And whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $354.95 principal and interest from July 1st, 1920, and the further sum of $21.00 interest coupon by said mortgage secured with interest thereon at 6% per annum since July 1st, 1918, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1919, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1920, being a total due at date of this notice of Four hundred twenty-six dollars thirty-five cents ($426.35); and said mortgage containing a power of sale and no action or proceeding at law or otherwise having been instituted to recover the debt secured by said mortgage or any part thereof; Now therefore notice is hereby given that by virtue of said power of sale and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage to-wit: the Southeast quarter (SE¼) of Section Nine (9) in Township One hundred fifty-eight (158) North of Range Forty (40) West in Marshall County, Minnesota, which sale will be made by the Sheriff of said County of Marshall, at the front door of the courthouse in the City of Warren, in said County and State on the 28th day of November, 1921, at 10:00 o'clock in the forenoon, at public vendue to the highest bidder for cash to pay said debt of $426.35 and interest from date of this notice and taxes if any, and an attorney's fee of $25.00 as stipulated in said mortgage in case of foreclosure, the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

Some of the things the County Farm Bureau has done in eastern Marshall and western Beltrami counties:

Tested 595 head of cattle for tuberculosis, 21 condemned.

Purchased three carloads of phosphate saving the farmers $1300.

Found sale for 10 head of cattle.

Purchased 15 head of purebred and high grades.

Found sale for over $600 worth of grass seeds.

Secured 1500 pounds of explosives from the Department of Agriculture.

Conducted 7 poultry culling demonstrations. Gave aid in culling eleven flocks.

Imported new varieties of winter rye and wheat for experimental purposes.

Secured inoculation from the Department of Agriculture for alfalfa raising.

Aid in a Barberry campaign, 341 farms inspected.

Secured soil, poultry, wool, livestock, home demonstration and crop specialists from the Extension division.

Secured services of County Leader for Girls and Boys Club Work. Three hundred and fifty girls and boys enrolled. Club contests held. Judging and tours contests conducted. Three achievement days held for local prizes. Five Junior clubs organized.

Conducted 3 large Community picnics, and 41 farm bureau meetings held since spring.

Secured co-operation of the Holstein breeders association in extending credit for farmers purchasing pure bred cattle.

Gave aid in organizing livestock shipping association with State Central Commission firm.

Gave information to farmers regarding crop raising, livestock raising, sick animals and marketing.

Organized 1921 Wool pool. 1920 wool clip sold from 18 to 29 cents, saving at least 10 cents to the farmers.

Now is the time to do the poultry culling. If you have not attended a culling demonstration or feel confident in doing it yourself, call on the County Agent. Thats what he is hired for.

Send in your application for tuberculine testing. The state force is larger now and it is easier to get the Federal testers. Come on, lets advertise the county by having the largest number tested in one year.

EXPECTED DEATH

Your Kidneys are Most Important to Your Life

Read This Woman's Testimony

Austin, Minn.—"Dr. Pierce's Anuric (kidney and backache) Tablets are the very best I have ever known. My kidneys were in a bad condition for over three years. I bloated so that several quarts of water was tapped from me at one time, and my people were expecting me to die when I had them give me the Anuric Tablets and the relief came almost at once. I took seven or eight bottles of Anuric and was restored to perfect health, which I still enjoy."—Mrs. Myrtle Sockness, 407 E. Allegheny St.

Get Dr. Pierce's Anuric Tablets from your druggist today, by all means, and get that uric acid out of your system. Don't, don't, don't put the matter off. Send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial pkg. and write for free medical advice.

TOLD IN A FEW WORDS

Kernels Culled From News of Moment in All Parts of the World—Of Interest to All the People Everywhere.

Washington

Washington—A reduction of about $465,000,000 in the public debt during October was announced by the treasury.

Washington — President Harding signed the joint resolution making Nov. 11 a legal holiday. Under the resolution, the holiday is to be observed this year only.

Washington—Secretary of Commerce Herbert Hoover said a survey of the stocks of coal on hand in the country has been started.

Washington—Padded expense accounts have resulted in the dismissal of 50 prohibition agents within the past month, Internal Revenue Commissioner Blair announced.

Washington—An appropriation of $5,000,000 to be used in furnishing employment to involuntary idle on highways construction, rivers and harbors improvement and reclamation of arid lands projects, is proposed in a bill introduced in the House.

Washington—A new resolution ordering a special committee to investigate charges of Senator Tom E. Watson regarding treatment of privates in the American Expeditionary Forces was adopted unanimously by the senate after a two hours wrangle.

Washington — President Harding has asked congress for additional deficiency appropriations of $187,922,576.74 to meet government expenses in the present fiscal year, which ends June 30, 1922. With the arms limitation conference nearing, the president asked an additional appropriation of $27,000,000 for the navy department.

Washington—The sales tax was rejected by the Senate. The vote, 43 against to 25 for, was on a proposal by Senator Smoot, Republican of Utah, for a 1 per cent levy, with exemptions provided in the case of sales by farmers of the products of their farms, of sales by public utilities, and of those by the United States, or any foreign government, or any state or territory, the army, and navy and hospitals.

Washington—Total wheat production this year of the 29 leading wheat growing countries of the world, including Russia, reached 2,852,825,000 bushels, or approximately 190,000,000 bushels more than in 1920, according to latest available estimates reported by the department of agriculture. For next year's crop the department reported generally favorable conditions throughout the northern hemisphere for winter wheat sowing.

Sporting

New Orleans, La.—Before largest fight crowd ever assembled here Mike Gibbons defeated Happy Littleton in 15 rounds. Gibbons winning 14 rounds; Littleton taking one, the first.

Omaha—Smashing all speed records over a closed course, Albert Acosta, flying a Curtiss navy racer at an average speed of 176 miles an hour, won the 2nd annual race for the Pulitzer trophy here. No human has ever traveled so fast for 150 miles.

New York—Manager John McGraw, well satisfied with the makeup of his world's baseball championship team, said before leaving for a southern winter vacation that he would keep the organization intact for 1922. "That team doesn't need any strengthening," he said.

Chicago—Babe Ruth's share of the world series receipts, together with the shares of Bob Meusel and William Piercy, who accompanied Ruth on the barnstorming jaunt, though warned they were violating baseball rules, remains unpaid. Distribution of the players' share of the series purse is directed by the commissioner, Judge Landis.

Domestic

Newport—The illness of Rear Admiral William S. Sims, who has suffered for several days with a slight cold and a touch of indigestion, has developed into pleurisy.

Houston, Texas—Giovanni Scotti, conducting the orchestra in the presentation of the opera "La Foza del Destino," dropped dead back of the curtain after close of the first act.

Nashville, Tenn.—General Pershing declared here that charges brought in the Senate by Senator Watson, Democrat, Georgia, were "the most outrageous and untrue accusations that could possibly be made and absolutely without foundation."

St. Louis—Cordell Hull, Tennessee, was picked by democrats to succeed George White, deposed chairman of the democratic national committee.

Chicago—The United States Grain Growers, Inc., has more than 20,000 members, 600 contracts with country elevators and local shipping associations, according to an announcement by F. M. Myers, secretary.

Chicago — Celebrating Hallowe'en proved fatal to four year old Frank Spring. While blowing beans at a neighbor's window he tripped and fell. The bean shooter was forced down his throat, strangling him

Philadelphia—Five men in an automobile held up two messengers of the Corn Exchange National bank, robbed them of $5,900 and escaped.

London—Alleged hardships suffered by British emigrants going through Ellis Island, New York, were considered in the house of commons.

Budapest—Former Emperor Charles was dethroned and the Hapsburg dynasty was ousted from Hungary by a bill adopted by the Hungarian national assembly.

London—An angry scene occurred in the house of commons when J. E. Mills, a labor member of parliament, charged that hundreds of British war medals had been pawned for food.

London—J. Parker, Jr., lord of the treasury, stated in the house of commons that Great Britain did not propose to offer the American government another airship as compensation for the ZR-2.

Lisbon—The Sacco-Vanzetti "reign of terror" was extended to this country when a bomb was exploded in the doorway of the American consulate. Consul Stanley Hollis had a narrow escape but was not injured.

Berlin—Reports here say that the recent visit of Rudolf Havenstein, president of the Reichs bank, to London, was to obtain a postponement of the next reparations payment as well as to negotiate credits for Germany.

London—A. Bonar Law, one of the most prominent members of the unionist party, and former government leader in the House of Commons, conferred with Prime Minister Lloyd George, and is taking a hand in the effort to reach a settlement of the Irish question.

Berlin—The ministry of defense in a statement denied the widespread newspaper reports that Germany was fostering a secret army, utilizing her factories for war purposes and evading the disarmament clauses of the Veisailles treaty generally, in preparation for another war.

Tokio—Premier Hara was fatally stabbed in the breast at the railroad station in Tokio. Hara became premier two years ago; the first man to assume that office under party government. He was serving for the third time as minister of the interior when he was called to head the cabinet.

Buenos Aires—Felix Paiva has assumed the office of president of the republic of Paraguay, following the deposition of President Gondra, against whom a revolutionary movement broke out on Saturday night, says a dispatch to LaNacion from Asuncion.

Paris—The world's greatest lottery, with a daily prize of a million francs, may be resorted to by the French government as a last resort for finding the money with which to meet its mounting deficit. A bill to establish the lottery has been introduced by Andre Lefebvre, former minister of war

DELEGATES IN SESSION AGAIN

Decisions must be Unanimous at Arms Parley, is View at Capital.

ADVISE BOARD MEETS

U. S. Delegates Believed to Have Completed Disarming Plan to Present—Advisory Board Meets.

Washington.—The American delegation to the conferences on limitation of armament and Pacific and far eastern questions are again in session in Secretary Hughes' office. Senator Lodge was detained at the capitol by senate consideration of the tax bill, but was expected to join his fellow delegates.

There is reason to believe the delegation has arrived at the formula for limitation of naval armaments which it will present to the conference as the American suggestion. Absence of the navy experts from the session, with only five days intervening before the international body assembles, tended to strengthen this view. It may be stated authoritatively that no advance outline of the American attitude and suggestions as to ways and means of limitation of naval armaments will be given, formally or informally, to other delegates prior to the assembling of the international conference. The view was expressed that such a preliminary interchange of views would lead to what amounted to a preliminary conference and that there was no necessity for such preliminary discussion.

Advisory Board Meets.

The coming conference, it was added, cannot arrive at anything but unanimous conclusions and that fact makes inadvisable, in the American view, any preliminary interchange of ideas.

There will be held the first session of the advisory committee appointed by President Harding to aid and assist the American delegation and to furnish a ready way to bringing to the knowledge of the American delegates the views of the American public on any or all of the matters to be discussed. It is assumed that a working agreement as to methods of procedure through the aid of these advisors would be readily available to the delegation during the conference will be framed in the course of the meeting.

EIGORO HASHIMOTO HELD

Arrest Made in Death of Hara, Who Was Assassinated.

Tokio.—Eigoro Hashimoto, assistant stationmaster at the Otsuka railway station, where Premier Takashi Hara was assassinatel, has been arrested and charged with complicity in the crime. About 20 other employes at the station were released after being questioned.

Ryichi Nakoka, the assassin, insists, the police say, that he had no accomplices. The police believe, however, that the statesman's death was brought about through a conspiracy. This belief is strengthened by the fact that a well dressed, unidentified man was seen hurrying from the station the moment Nakoka thrust his sword into the premier. The authorities are of the opinion that the youth's statement that he alone conceived the crime was made in an effort to shield his coconspirators.

Nakoka was in hiding on the station platform when the premier and a number of other leaders of the Seiyu-Kai party arrived to take the 7:30 train for Kioto, where a meeting was to be held. As the premier, chatting with his companions, passed through the gate leading to the station platform, Nakoka leaped from his hiding place and plunged a short sword into M. Hara's left breast, at the same time exclaiming:

"The country's enemy!"

Marquis Matsukata, lord keeper of the privy seal, following a conference at the palace with Marquis Saionji, left for the villa of Field Marshal Prince Yamagata in Odawara, to confer with the prince, who is ill. Prince Yamagata is one of the elder statesmen and a member of the military council of the empire. No announcement as to reconstitution of the cabinet is expected until Marquis Matsukata's return.

Satisfaction Given Japs on Visit.

Chicago.—Toku Taro Sakai, one of a party of 23 Japanese businessmen said to represent 70 per cent of the business of Japan and who are visiting the United States with a view to cementing closer relations with American business, received from the Seattle, Wash., chamber of commerce a copy of a resolution expressing approval of their visit and its purpose. The resolution recites that the members of the party have conveyed a better understanding.

DO YOUR TOES SPREAD OUT?

Mary E. Bayley, R. N., Tells What, in an Expert's Opinion, the Feet Should Be Like.

Does the great toe of your foot (or the big toes of both feet) continue in a straight line from the heel? And do your other toes spread apart? If this condition exists you have good under-standing feet, according to Mary E. Bayley, R. N., who tells in the Delineator what feet should be like. Her article has been approved by Dr. Virgil P. Gibney, surgeon in chief of the Hospital for the Relief of the Ruptured and Crippled, New York, and therefore bears the stamp of authority.

Too much care cannot be taken of the feet, Miss Bayley continues, as they are the keystone to correct body position and have much to do with one's health. Particular attention should be paid to shoe fitting between the ages of nine and fourteen, since this is the period of growth and expansion. Stockings, too, come in for discussion, as tight-fitting ones compress the toes and interfere with the circulation.

Cured His Love Spasm.

I was a "freshie" in high school and almost immediately upon entering, fell violently in love with my algebra teacher. I even stayed hours after school to "make up work" just so that I could be near her. One day I could withhold my sentiments no longer and I blurted out sentences and sentences of adoration all in one breath. She seemed not at all unnerved and after I had finished she merely thanked me profusely and said that I must come to visit her at home some time. She was positive I would like her husband and two little boys quite as much.—Chicago Journal.

Welcome Information!

Silas Corntassel was sitting on a plow in a field thinking of his income tax, and the money he had to pay the government for the same. As he chewed on a piece of straw he saw a friend and neighbor rushing through the field toward him. When the man reached him he exclaimed breathlessly: "You're wanted at home right away, Si. Mrs. Corntassel has just presented you with another rebate off your income tax."—Exchange.

Modernizing Tokyo.

The mayor of Tokyo, Baron Goto, is endeavoring to make that city compare with other capitals for beauty and convenience. A great deal of work is now going on in the way of buildings along the principal streets. In fact, the city is losing its old charter, so thoroughly is it being modernized.

Are you stepping on the brake or the accelerator?

The food you eat does make a difference.

Heavy, starchy foods often do slow down body and mind—often steal the energy that belongs to the day's work. Grape-Nuts is a go-ahead food. It contains the perfected nourishment of Nature's best grains. It includes all those elements needed to nourish body and brain. It is easy to digest. It gives energy without taking energy.

How about your breakfast or lunch—does it give, or take?

Grape-Nuts is sweet, crisp, delightful to the taste, and is an ideal source of power for a busy and difficult day.

THIS WOMAN'S EXPERIENCE

Brings a Ray of Hope to Childless Women

Lowell, Mass.—"I had anemia from the time I was sixteen years old and was very irregular. If I did any housecleaning or washing I would faint and have to be put to bed, my husband thinking every minute was my last. After reading your text-book for women I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash, and have never felt better than I have the last two years. I can work, eat, sleep, and feel as strong as can be. Doctors told me I could never have children—I was too weak—but after taking Vegetable Compound it strengthened me so I gave birth to an eight pound boy. I was well all the time, did all my work up to the last day, and had a natural birth. Everybody who knew me was surprised, and when they ask me what made me strong I tell them with great pleasure, 'I took Lydia E. Pinkham's Vegetable Compound and never felt better in my life.' Use this testimonial at any time."—Mrs. ELIZABETH SMART, 142 W. Sixth St., Lowell, Mass. This experience of Mrs. Smart is surely a strong recommendation for Lydia E. Pinkham's Vegetable Compound. It is only one of a great many similar cases.

CHINA REFUSES JAP PROPOSALS

Japanese Government Promise to Withdraw Troops Along the Railways.

TEXT MISUNDERSTOOD

China Claims That Reparations Committee Had No Right Transferring Her Lands—Japan Failed to Sign at Versailles.

Peking.—In a 2,000-word note, the Chinese government has replied to the latest proposals of the Japanese government concerning the Shantung situation. It states that the Japanese proposals are not acceptable.

The Japanese memorandum to China of October 19, the note declares, shows an apparent misunderstanding and misinterpretation of the text of the Chinese note of October 5, thereby necessitating further statement by the Chinese government covering past and an unchanged viewpoint on the part of China.

"The summary of the Japanese government's proposed basis of settlement," the memorandum continues, "is altogether too remote from the hopes and expectations of the Chinese government and people who therefore are obliged to await patiently an opportunity suitable to Japan for a reconsideration of her position.

"Regarding the statement that Dr. Yen, (the Chinese foreign minister) last May formerly expressed to Mr. Obata (the Japanese minister to China) a desire to see a concrete project presented by the Japanese government, couched in just and satisfactory terms, such as would be simultaneously be deemed fair by all nations, it must be observed that Mr. Obata, before leaving for Japan, asked Dr. Yen's personal view regarding Shantung and that therefore Dr. Yen's answer was purely personal, and not a formal statement by the Chinese foreign minister.

"Regarding the allegation in the Japanese memorandum that the Chinese government authorities had confidentially presented to the Japanese government a certain project for settlement of the question and unofficially expressed readiness to open negotiations with Japan, this probably was due to a misunderstanding arising from a repetition of a personal conversation between General Banzai (Japanese military advisor to the Chinese government), and Councillor Yu, and cannot logically be referred to as ground for the presentation of Japanese proposals.

Different Views Given.

"The Chinese memorandum of October 5 points out the difference in views between China and Japan regarding the principles underlying the Japanese proposals and the contents and terms thereof. If the Japanese government understood these differences, she would naturally propose a more substantial and more just project which would universaly be recognized as fair. It is most regrettable, however, that the Japanese government has given no sign of concessions while maintaining that China openly is unwilling to proceed with negotiations.

"China was unable to sign the Versailles treaty owing to the Shantung articles, hence it is impossible to compel her to recognize the affects resulting from the treaty regarding Shantung. Japan considers that the Kiao Chau leasehold was transferred to her by the operation of the treaty, while China deems the leasehold to have expired through her declaration of war against Germany. If both countries insist on this difference in viewpoint, a solution of the problem would be rendered forever impossible; but since Japan is willing to restore Kiao Chau completely to China, further necessity for Japan's insistance on the point in the dispute does not exist."

Irish Peace May Come Soon.

London.—Prospects for Irish peace brightened when it was learned that Sir Edward Carson and Sir James Craig conferred upon Ulster accepting an all-Ireland parliament. It is understood that Premier Craig has agreed to accept an all-Ireland program and only awaits arrival of other members of the Ulster cabinet to inform the British cabinet of their decision. Premier Lloyd George will meet all the Ulster ministers and after he hears their decision will ask Sinn Fein leaders to meet the Ulster leaders and decide what portion of six counties should remain in the northern parliament and what should be given to the south.

First Delegation Has Arrived.

Washington. The first of principal delegations from Great Britain to the conference of limitation of armament and the discussion of Pacific and Far Eastern questions has arrived in Washington. They included Lord Lee of Fareham, first lord of the British admiralty, delegate from England; Sir Robert Borden, former premier of Canada, delegate from Canada, and the Right Honorable Srinivasa Sastri delegate from India

MOTHER! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

HIS HEART IN RIGHT PLACE

Circus Tentman Evidently Remembered That He Had Once Been a Small Boy.

A little boy bobbed his head around a wagon where the circus train was unloading.

"Please, sir," he said to a tentman in overalls, "please, have you got any elephants to water?"

The tentman shook his head. It seems elephants are watered by machinery or something these days. At least there's no earning one's way in by way of the water-bucket.

The little boy was slinking off forlornly when the tentman turned around.

"Here," he grunted, "hold this for awhile," and he stuck a rope into his hand without apparently seeing that the little boy's chin had stopped wagging.

But he found other things to be done, chairs to be lugged, and such.

And an ecstatic little boy that sat on the front row that afternoon with an awestruck eye, winked at the tentman, passing by.

It is awfully hard for a little woman to impress people with her dignity.

A man with a large family to support hasn't time to display an artistic temperament.

"BREAD" OF STARVING RUSSIA

Called "Lebeda," the Stuff Is Made of Leaves and Grass, Boiled and Dried.

A peasant in the government of Samara (soviet Russia) told me of how they make lebeda bread. Here is the story:

"In our village they take some linden leaves and grass, chop them up to the size of a flea, and then boil the mixture. After the water has boiled, they squeeze it out and put the stuff again into boiling water. Then they let the water run off through a sieve, and keep the mass until it is dry. After that they grind it fine and add one-third flour.

"The bread you get is green in color and indigestible. And when there is no flour, they just bake the ground mixture as it is. It does not taste very badly; but after a man eats it for a while he swells up and gets worms in his stomach, and soon after that he dies."—Moscow Pravda.

He Knew "Long Boy."

Little Billy, from the West, was with his parents on an eastern tour. Among the places they visited was the home

"What did Longfellow write?" Billy's sister asked their mother. But before she could answer, Billy said: "Aw, he wrote 'Good-by Maw, good-by pa, good-by mule with yer old hee-haw!'"

This little bit of advice may help you regain your Health, Strength and Vitality

Thousands of people suffer from nervousness. They are run down and miserable without knowing the reason why.

They do not stop to think that much of their trouble may be caused by drinking tea and coffee which contain the drugs, thein and caffeine. When you over-stimulate the system for any period of time, the result may be nervousness with its many accompanying ills. You may fail to sleep properly and your sleep does not refresh you as it should.

Postum, made from scientifically roasted cereals, will help you to overcome all these conditions. For it contains only healthful substances, instead of drugs, as are found in tea and coffee.

Postum helps build sound nerve structure, by letting you get sound, restful sleep.

In flavor, Postum is much like high-grade coffee. In fact there are many people who prefer Postum for its savory flavor alone.

Order Postum from your grocer today. Serve this rich, fragrant beverage for the family. See how the children will like it, and how much better everybody will sleep at night.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Mortgage Foreclosure Sale.

Notice is hereby given that default has been made in the conditions of that certain mortgage executed and delivered by Luella McKenzie and K. McKenzie her husband, mortgagors, to Merchants State Bank of Red Lake Falls, a corporation, mortgagee, bearing date of July 30th, 1915, with power of sale therein contained, duly recorded in the office of the Register of Deeds of Marshall County, Minnesota, on August 5th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 366; and which mortgage together with the debt secured thereby was assigned by said Merchants State Bank of Red Lake Falls, mortagee, to Cliff W. Gress by written assignment, dated November 19th, 1915, and recorded in the office of the said Register of Deeds on November 20th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 193 thereof; and which mortgage and the debt secured thereby was further duly assigned by said Cliff W. Gress, assignee, to Merchants State Bank of Red Lake Falls, by written assignment, dated September 12th, 1921, and duly recorded in the office of said Register of Deeds September 21st, 1921, at 8:00 o'clock A. M., in Book 86 of Mortgages on page 433; which default has continued to the date of this notice by the failure and neglect of said mortgagors to make payment of the sum of $21.00 which became due July 1st, 1918, and other amounts since falling due. And whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $354.95 principal and interest from July 1st, 1920, and the further sum of $21.00 interest coupon by said mortgage secured with interest thereon at 6% per annum since July 1st, 1918, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1919, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1920, being a total due at date of this notice of Four hundred twenty-six dollars thirty-five cents ($426.35); and said mortgage containing a power of sale and no action or proceeding at law or otherwise having been instituted to recover the debt secured by said mortgage or any part thereof; Now therefore notice is hereby given that by virtue of said power of sale and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage to-wit: the Southeast quarter (SE¼) of Section Nine (9) in Township One hundred fifty-eight (158) North of Range Forty (40) West in Marshall County, Minnesota, which sale will be made by the Sheriff of said County of Marshall, at the front door of the courthouse in the City of Warren in said County and State on the 28th day of November, 1921, at 10:00 o'clock in the forenoon, at public vendue to the highest bidder for cash to pay said debt of $426.35 and interest from date of this notice and taxes if any, and an attorney's fee of $25.00 as stipulated in said mortgage in case of foreclosure, the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

Local Items

The ladies gave Mrs. J. Nelson a birthday party Friday.

Miss Alma Udstrand came home Tuesday from Argyle.

Tanlac, that wonderful medicine, sold in Holt, by C. H. Gunheim.

Miss Idella Ingebritson came up from Fertile Saturday to visit relatives.

Miss Jennie Folden returned home Tuesday from Grand Forks where she has been working for several months.

Willie Bakke came up from Winger last week and has been assisting in the bank during the absence of Mrs. P. L. Anderson.

Tom Larson came Friday from Glenwood, where he has been doing roadwork and will now spend some time here with his mother.

A. L. Carlson, John Engstrom, Chas. Skoglund and Hilmer Erickson returned home Sunday from their hunting trip to Ilag. The party were lucky enough to bag two deer.

Big shipment of Tanlac just received. C. H. Gunheim local agent.

Mr. and Mrs. P. L. Anderson left Monday night for Minneapolis, where he went as a delegate from this part of the country, known as Unit No. 3, to attend the state convention of the buttermakers.

Word has reached us that Mrs. M. B. Fitch is very sick at her home in College View. Nebraska. On this account she very much desires to sell her property here in Holt and offers it at a very reasonable price.

Just received a large shipment of the wonderful remedy Tanlac. This is the great medicine you have been hearing so much about. The remedy that's made such a wonderful reputation and which has accomplished such remarkable results all over the United States and Canada. Get you bottle now at C. H. Gunheim's.

The second number of Holt's winter entertainment course will be given Saturday night Dec. 3rd. by the Lincoln Jubilee Singers, composed of a company of five colored people. Buy season tickets for the four remaining numbers at only $1.30 each and help along a good cause.

Magnus Spjut closed up his business affairs here and left Wednesday for a few weeks visit with his brother at Roseau. Mr. Spjut was a live wire and enjoyed a good business and only sold out on account of taking a course in vocational training offered to the soldiers by the government. He made many friends during his residence in Holt, who will wish him success in his future career.

The Ditch Question Again

Regarding Consolidated Judicial Ditch No. 1. of Marshall and Beltrami counties:

A good many people have an idea that this proceeding was dismissed or "killed" at the June hearing. This is not so and the impression is based upon a misunderstanding. The proceeding was simply continued until the fall term of court and will come up again on November 28. Neither was there any order made to confine or limit this proceeding to the Thief Lake territory as some think there was. As I understand it the matter stands just about exactly the same as it did before the hearing last summer. There is nothing decided one way or another.

I am simply calling attention to this so that there may be no misunderstanding or confusion. Of course it is possible that an understanding may be reached before the hearing this fall by the petitioners and objectors and their attorneys. In any event it is up to the people affected to keep in touch with what is going on from now on until the hearing, and unless they find that a definite settlement or understanding has been reached before that time, all interested parties should be present at the hearing in Warren. Now is the time to be present and have your say; not after the matter is all disposed of. It is just as important to be present at the coming hearing as it was last summer, because the matter will likely be decided one way or another this time.

I do not wish to be understood as urging the people of eastern Marshall county to take any particular stand on this proceeding. Personally I am not in favor of this ditch undertaking. I believe it is the wrong time and could better wait for some years. However the people of eastern Marshall Co., have lived there as long as I have and understand the conditions and know the needs of the territory. They are fully competent to decide for themselves what is best and what they want. Find out what the assessments are and consider all sides to the question. I do, however, want to urge the people affected to make their wishes known, in order that the court may have all the facts and be fully advised as to the necessity and desirability of the undertaking, as well as the damages and benefits thereof. —H. O. Berve, in The Thief River Falls Times.

Dinner Thanksgiving Day

The Nazareth Lutheran Ladies Aid will serve a big lutefisk, lefse and chicken dinner and hold a big auction sale in the church basement on Thanksgiving Day.

The ladies will please bring pie and other things for the dinner, also donations for the auction to held after the dinner. The proceeds will be used to pay on the church debt, and everyone is urged to do their part to make this a success.

Joseph Jarland shipped a car of sheep and John Swan a car of cattle to the markets Saturday.

William Maurice returned to his home in Minneapolis Friday after a weeks pleasant visit at the home of Walker Bros., at Golden Valley.

Mr. Maurice expressed himself as being well pleased with the country out there and here and that we had a nice little village. He also said the people here were richer than they realize.

Take Notice

The Holt creamery will be closed next Thursday Nov. 24, Thanksgiving Day; and cream will be taken in only on Monday, of next week.

"Fi-Fi" Tells an Interesting Story

Home Talent Musical Fantasy

To be presented in

Thief River Falls

"Fi-Fi of the Toy Shop," a musical extravaganza is to be staged at the Auditorium in Thief River Falls on the evening of November 25th.

This is a home talent production, under the auspices of the Young Ladies Sodality.

The story in brief is that of Bonnie, the Toymaker's daughter, who wanders into the woods at the close of the day and is overtaken by the sandman who cast her into a magic sleep. She dreams a wonderful dream wherein the bisque and wooden creatures of her father's shop come to life and indulge in a night of revelry Strange things befall the toys and dolls transplanted into the world of life and motion for the first, time until Bonnie wakens from her sleep at break of day, with the strains of fairy music ringing in her ears.

The following is an extract from a write-up of the production:

"There is a plot which moves consistently to a happy ending. The situation which arise when the dolls find themselves for the first time in the world of life and motion, are ludicrous in the extreme. Any diversified amusement is, in fact, so well supplied that the audience wonders that the production can contain so many good features and can be so ably handled by amateurs.

The elaborate costuming and scenic equipment gives a finish and tone to the production that places it in the professional class.

The price of the tickets is 75 cents and mail orders for reserved seats are now being received by Lambert't Drug Store, Thief River Falls, Minn.

M. H. Johnson returned to Fertile Monday. Mr. Johnson made many friends in Holt who will regret his departure.

A neck-tie social will be held Saturday night Nov. 19th. at the Jarshaw school house in district No. 30. Ladies bring well filled baskets and the men, well filled pocket books.

Are You a Weak Woman?

Health is Most Vital to Every Woman. Read What Mrs. Ross Says

Minneapolis, Minn.—"When my children were small I had a sick spell that weakened me so I could not walk across the floor without the aid of a chair. Our druggist advised me to take Dr. Pierce's Favorite Prescription and Golden Medical Discovery, alternately, according to directions, and six bottles completely restored me to health and strength. Since that time I have frequently recommended these two famous remedies to members of my own family and to my friends and have seen only the most satisfactory results from their use."—Mrs. Mary Ross, 2313 22nd Ave., S.

MIGHT HAVE PUT IT BETTER

Evidently Mr. Pea Was Not Deeply Versed in the Gentle Art of Diplomacy.

Secretary Conrad Jenny of the Swiss embassy at a dinner was talking about diplomacy.

"A good many diplomats," he said, "are about as diplomatic as old Mr. Pea.

"Mr. Pea was a village character who stuttered. There was a political meeting in the village one evening, and among the speakers was a certain Cue.

"Well, at the end of the meeting there was a kind of a reception, and Cue, the most important orator of the occasion, was introduced to the stuttering old villager.

"Mr. Pea shook the orator's hand and stuttered:

"'Glad to m-meet you. L-let's see, you were one of the s-speakers, weren't you?'

"'Yes, I was,' said Cue.

"'W-well, say,' said old Pea, 'w-wasn't them other f-fellers good?'"

U. S. WANTS LESS ARMAMENT AND NO WARS—PRESIDENT

Harding Delivers Address at Opening of Conference for Limitation of Arms.

AMERICA FREE FROM GUILE AND UNWORTHY DESIGNS

Executive Voices Hope and Warning in His Address—A Hope That Out of This Meeting May Come International Peace and Better Understanding Among Nations, and a Warning That These Things Cannot Be Accomplished by Secret Intrigue, That Has Defeated Aims of So Many International Gatherings.

Washington, Nov. 14.—America took active leadership today in the first movement in history for the elimination of international menaces that threaten civilization with future war.

Reduced to simple terms, the United States seeks:

First—To prevent competition among the great powers in the construction of war machinery—naval, land and air.

Second—To remove sources of international friction in the Pacific ocean zone that may lead to future conflict.

Recognizing the general belief that the Far East is the new danger spot, America has sought the co-operation of eight other powers with vital interests in the Orient to allay the danger of a "next world war."

This is generally regarded as the greatest humanitarian crusade in the history of mankind. But it is also a practical scheme for material relief from the overwhelming burden of taxation and debt.

Meeting Is Unique in History.

The veteran diplomats of Europe who have participated in every important international parley for the past half century characterized this meeting as unique in world history—a meeting called in advance of war, designed to prevent war, and a voluntary coming together of the great nations to limit the size of each other's armies and navies.

Text of Harding's Address.

President Harding delivered the following address at the opening of the armament conference here:

Mr. Secretary and Members of the Conference, Ladies and Gentlemen:

It is a great and happy privilege to bid the delegates to this conference a cordial welcome to the capital of the United States of America. It is not only a satisfaction to greet you because we were lately participants in a common cause, in which shared sacrifices and sorrows and triumphs brought our nations more closely together, but it is gratifying to address you as the spokesman for nations whose convictions and attending actions have so much to do with the weal or woe of all mankind.

Will Influence Human Progress.

It is not possible to over appraise the importance of such a conference. It is no unseemly boast, no disparagement of other nations which, though not represented, are held in highest respect, to declare that the conclusions of this body will have a signal influence on all human progress—on the fortunes of the world.

Here is a meeting, I can well believe, which is an earnest of the awakened conscience of twentieth-century civilization. It is not a convention of remorse, nor a session of sorrow. It is not the conference of victors to define terms of settlement. Nor is it a council of nations seeking to remake humankind. It is rather a coming together, from all parts of the earth, to apply the better attributes of mankind to minimize the faults in our international relationships.

Call of War-Wearied World.

Speaking as official sponsor for the invitation, I think I may say the call is not of the United States of America alone, it is rather the spoken word of a war-wearied world, struggling for restoration, hungering and thirsting for better relationship; of humanity crying for relief and craving assurance of lasting peace.

It is easy to understand this world-wide aspiration. The glory of triumph, the rejoicing in achievement, the love of liberty, the devotion of country, the pangs of sorrow, the burdens of debts, the desolation ofg ruin—all these are appraised alike in all lands. Here in the United States we are but freshly turned from the burial of an unknown American soldier, when a nation sorrowed while paying him tribute. Whether it was spoken or not, a hundred millions of our people were summarizing the inexcusable causes, the incalculable cost, the unspeakable sacrifices and the unutterable sorrows, and there was the ever-impelling question: How can humanity justify or God forgive? Human hate demands no such toll; ambition and greed must be denied it. If misunderstanding must take the blame, then let us banish it, and let understanding rule and make good will regnant everywhere.

All Demand Liberty and Justice.

All of us demand liberty and justice. There cannot be one without the other, and they must be held the unquestioned possession of all peoples. Inherent rights are of God and the tragedies of the world originate in their attempted denial. The world today is infringing their enjoyment by arming to defend or deny, when simple sanity calls for their recognition through common understanding.

Out of the cataclysm of the World war came new fellowships, new convictions, new aspirations. It is ours to make the most of them. A world staggering with debt needs its burden lifted. Humanity, which has been shocked by wanton destruction, would minimize the agencies of that destruction. Contemplating the measureless cost of war and the continuing burden of armament, all thoughtful peoples wish for real limitation of armament and would like war outlawed. In soberest reflection the world's hundreds of millions who pay in peace and die in war wish their statesmen to turn the expenditures for destruction into means of construction, aimed at a higher state for those who live and follow after.

War Growing More Cruel.

It is not alone that the world cannot readjust itself and cast aside the excess burdens without relief from the leaders of men. War has grown progressively cruel and more destructive from the first recorded conflict to this pregnant day, and the reverse order would more become our boasted civilization.

Gentlemen of the conference, the United States welcomes you with unselfish hands. We harbor no fears; we have no sordid ends to serve; we suspect no enemy; we contemplate or apprehend no conquest. Content with what we have, we seek nothing which is another's. We only wish to do with you that finer, nobler thing which no nation can do alone.

We wish to sit with you at the table of international understanding and good will. In good conscience, we are eager to meet you frankly, and invite and offer co-operation. The world demands a sober contemplation of the existing order and the realization that there can be no cure without sacrifice, not by one of us, but by all of us.

No Pride Need Be Humbled.

I do not mean surrendered rights, or narrowed freedom, or denied aspirations, or ignored national necessities. Our republic would no more ask for these than it would give. No pride need be humbled, no nationality submerged, but I would have a mergence of minds committing all of us to less preparation for war and more enjoyment of fortunate peace.

The higher hopes come of the spirit of our coming together. It is but just to recognize varying needs and peculiar positions. Nothing can be accomplished in disregard of national apprehensions. Rather we should act together to remove the causes of apprehensions. This is not to be done in intrigue. Greater assurance is found in the exchange of simple honesty and directness, among men resolved to accomplish as becomes leaders among nations, when civilization itself has come to its crucial test.

All Want Less Armament.

It is not to be challenged that government fails when the excess of its cost robs the people of the way to happiness and the opportunity to achieve. If the finer sentiments were not urging, the cold, hard facts of excessive costs and the eloquence of economics would urge us to reduce our armaments. If the concept of a better order does not appeal, then let us ponder the burden and the blight of continued competition.

It is not to be denied that the world has swung along throughout the ages without heeding this call from the kindlier hearts of men. But the same world never before was so tragically brought to realization of the utter futility of passion's sway when reason and conscience and fellowship point a nobler way.

I can speak officially only for the United States. One hundred millions frankly want less of armament and none of war. Wholly free from guile, sure in our own minds that we harbor no unworthy designs, we accredit the world with the same good intent. So I welcome you, not alone in good will and high purpose, but with high faith.

Service to All Mankind.

We are met for a service to mankind. In all simplicity, in all honesty and all honor, there may be written here the avowals of a world conscience refined by the consuming fires of war, and made more sensitive by the anxious aftermath. I hope for that understanding which will emphasize the guarantees of peace, and for commitments to less burdens and a better order which will tranquilize the world. In such an accomplishment there will be added glory to your flags and ours, and the rejoicing of mankind will make the transcending music of all succeeding time.

THE "ALLIGATOR PEAR."

The earliest mention of the manner in which the name "Alligator pear" was first applied to the avocado, the true name of the fruit, is found in the writings of James Grainger, a Scotch physician and poet, who went to the West Indies in 1759, and died there at St. Christopher, December 16, 1766. Grainger produced a number of works, including essays, and among them, "The Sugar Cane," published in London in 1762, in which he says, in allusion to the corruption of the name avocado: "The avocato, avocado, avigato, or as the English call it, 'alligator pear.'"

Phrase Hardly Justified.

The "Three Tailors of Tooley Street" were three worthies who held a meeting in Tooley street, Southwark, London, for the redress of popular grievances, and addressed a petition to the house of commons, while Canning was prime minister, beginning; "We, the people of England."

U. S. PLAN NOT KNOWN

Delegates Literally Stunned by the Nature of the Program.

OUTLINE SOON PUBLIC

Necessity of Special Protection Recognized for Island Powers—American Plan in Hands of Naval Experts for Study.

Washington.—While naval experts of the foreign powers continued to examine the American proposals for limitation of naval armament, the heads of the American, British, Japanese, French and Italian delegations conferred to map out a plan of procedure to expedite consideration of the whole armament question.

American officials emphasized that the plan presented to the conference by Secretary Hughes was purely an American proposal and that advance knowledge of it had been kept carefully from all the representatives of the other powers. Although it had become known that some far reaching plan would be presented early in the conference, it was declared that no details either as to the basis of the proposal or the exact time of its presentation were permitted to reach any of the other delegates.

In consequence it was assumed that several days would be required for the naval advisers of Great Britain and Japan, the powers chiefly concerned, to prepare any estimate of the acceptability of the sweeping American proposals. It was indicated that the meeting of the five heads of the delegation were not for the purpose of actually considering the plan, but rather was devoted to more or less routine discussion of a method of procedure.

At the state department there was every indication that the public reaction from this government's first bold step in the conference had been entirely reassuring.

A synopsis of the proposal for armament reduction has been sent to American diplomatic and consular agents throughout the world for such use as they may deem expedient. It was explained that this step was another part of the effort of the American government to give the negotiations the widest possible publicity.

Delegates to the arms conference had not recovered from the shock of Secretary Hughes' blunt presentation Saturday of the proposal for immediate reduction of the fleets of Great Britain, the United States and Japan and for a 10-year holiday.

The concrete terms of the American plan laid before the opening session on limitation of armaments were still in the hands of the naval experts of the other two powers chiefly concerned. Pending their conclusions no further step is probable. The spokesmen here for Britain and Japan had nothing to add to their comments on Mr. Hughes' suggestions. As far as they went these statements were encouraging and it was certain, at least, that no possibility of flat rejection of the plan existed. Without doubt it will form the basis of reaching whatever conclusions the conference bring forth.

Without further time for study by interested officials of all nations, the American plan began to stand out in its true proportions. Apparently it is far more than a 10-year naval holiday that is projected coupled with immediate heavy reduction of the fleets of the three powers. Beyond that is a third, equally blunt and direct, suggestion for a continuing agreement to limit the size of the battle fleets permanently. That is what Mr. Hughes' naval replacement plan really amounts to.

FE USES EOUNDRY LIMIT

Allied Council Proposal Turned Down by Jugo-Slavia.

Belgrade.—Jugo Slavia cannot accept the decision of the Allied coucil of embassadors limiting the boundary line between Jugo Slavia and Albania, the cabinets decided at a meeting recently. A note to this effect will be sent to the Allies.

It is stated in official circles here that Jugo Slav troops have not advanced beyond the legitimate boundaries of Serbia. The council of ambassadors recently sent a note to the Jugo Slav government demanding immediate withdrawal of its troops from the territory within the limits previously defined by the council.

The newspapers are unanimous in declaring the council's division unjust and urge strong opposition to further meeting or consultation on the subject.

Thirty thousand troops are believed to be advancing toward the Serbian border.

Pleased With Proposal.

London.—The American proposals for drastic limitation of naval armament have been received with expressions of much favor in British official circles. While the cabinet will not officially discuss the proposals until the British experts have reported after examining them, it is stated that the individual members of the cabinet whole heartedly support the broad principles contained in the address of Secretary Hughes at the opening of the conference in Washington.

MOTHER! OPEN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, irritable, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup," which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Beginner's Luck.

An ardent angler took a friend fishing. The friend knew nothing about the gentle art, but was set up with all the necessary tackle, and a nice, comfortable seat on the bank.

The experienced hand started fishing a few yards higher up the stream. Presently the novice said: "How much do those red things cost?"

"I suppose you mean the float?" said the angler. "That only costs about twopence."

"Well, I owe you twopence," said the novice. "The one you lent me has sunk."—London Tit-Bits.

SHE DYED A SWEATER, SKIRT AND CHILD'S COAT

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—advertisement.

Against All Rules.

As every golfer is aware, it is against the rules to remove anything growing on the course.

The other day a player asked: "What should I do on the putting green if a worm lay between my ball and the hole? Am I entitled to lift it or brush it aside?"

"Well," replied his companion, "I think you should brush it aside."

"Yes," he replied, "you may be right, but this was a young and growing worm, you know!"—Houston Post.

Cole's Carbolisalve Quickly Relieves and heals burning, itching and torturing skin diseases. It instantly stops the pain of burns. Heals without scars. 30c and 60c. Ask your druggist, or send 30c to The J. W. Cole Co., Rockford, Ill., for a package.—Advertisement.

Real Compliment.

Bishop W. S. Anderson during his visit at the Edison-Ford-Firestone camp in Maryland, said apropos a recent society wedding:

"There are women, it is true, who make fools out of men, but I am happy to know that the majority of women make men out of fools."

Mistaken.

"You didn't open your mouth once during the entire session." "You are quite wrong, my friend, because each time you took the floor I yawned."—Paris Le Journal Amusant.

Weak and Worn?

The Engine's Ears.

Mr. Smith was a commercial traveler, and only came home at long intervals. On one of these he was telling his five-year-old son all about his wanderings. "And then I came home," he finished.

"And did you come home in a train, daddy?" asked Johnny.

"Yes, sonny."

"And did you see the ears of the engine?"

"Of course not," laughed Daddy. "Engines don't have ears."

"Oh, yes they do!" persisted the small boy. "Haven't you ever heard of the engineers, daddy?"—London Tit-Bits.

SUFFERED SEVEN LONG YEARS

Finally Relieved by taking Lydia E. Pinkham's Vegetable Compound

Ravenswood, W. Va.—"For seven long years I suffered from a female trouble and inflammation so that I was not able to do my housework. I consulted several doctors but none seemed to give me relief. I read in a paper about Lydia E. Pinkham's Vegetable Compound so I decided to try it, and before the first bottle was gone I found great relief so I continued using it until I had taken eight bottles. Now I am very well and can do my own housework. I can gladly recommend Lydia E. Pinkham's medicine to suffering women."—Mrs. BERTHA LIERING, R. F. D., Ravenswood, W. Va.

The ordinary day of most housewives is a ceaseless treadmill of washing, cooking, cleaning, mending, sweeping, dusting and caring for little ones. How much harder the tasks when some derangement of the system causes headaches, backaches, bearing-down pains and nervousness. Every such woman should profit by Mrs. Liering's experience. Remember this, for over forty years Lydia E. Pinkham's Vegetable Compound has been restoring health.

There Was No Reply.

Robert Perry, age six, is the son of Paul Perry, of Greensburg. Like all boys of school age, he is of an inquisitive turn of mind, and frequently asks questions of his father which bring only a grunt in reply.

At dinner the other evening Robert was eating steak.

"Papa, what is steak? Where does it come from?"

That was an easy one for papa, and he promptly responded:

"From cows, son."

But he was not prepared for the next one:

"From our two cows, papa?"—Indianapolis News.

Make Your Own Opportunities.

When you feel the fancied greater opportunities of other fields tugging at your sleeve just hold a short communion with yourself and remember that it's the man and not the line which achieves success. Potiphar Wampoodle had words with his wife at breakfast about the way the eggs were cooked.

"I'm tired of this sort of thing," he declared. "From here I go to the river."

So he did.

He loafed around the river front, kidded the boatmen, and even accepted a little guaranteed hootch.

It was very late when he wended his way homeward.

First "Weather Man."

An Englishman, Francis Galton, was the first real weather man. Galton was a cousin of Charles Darwin. He was born in England in 1824. Whether he was really able to forecast rain and sunshine with more accuracy than his successors is an open question; but it is certain that he was the first to attempt the charting, on a large scale, of the progress of the elements of weather. The methods devised by him, in modified form, are used to this day.

Why guess about it—
When you can know about it?

Suppose a guide said—

"This way there's a safe and pleasant road to your destination, with no risks or troubles on the way," and—

"That way there's a road that a good many have stalled on and turned back from, but you may get through."

Which would you take?

Postum is a thoroughly agreeable and satisfying meal-time drink, and you're sure that it's perfectly safe for health. Coffee contains drug qualities which disturb and harm the health of many.

Postum or coffee? Which road?

Why guess when you can know?

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

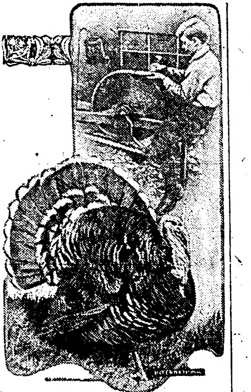
Gobbler's Swan Song.



Gobble-gobble, how I wobble
  When I think of my poor fate;
Every day the time grows nearer
  For the old Thanksgiving plate.

Gobble-gobble, how I wobble
  With the things I get to eat,
Just to get me plump and tender
  For the old Thanksgiving treat.

Gobble-gobble, soon I'll hobble
  To the execution place;
Then done up in chestnut dressing
  The old Thanksgiving board I'll grace.

If we are wiser than our fathers in our philosophy of the relation of special providence to the contingencies of human life, are we better than they in our estimate of public fasts and thanksgivings and our base (ball) methods of their observances?

THANKSGIVING IN WAR TIMES

Soldiers in the Field Made Merry on Pork and Hard Tack, Washed Down With Coffee.

"After the battle of Missionary Ridge," said Lieut. Col. J. A. Watrous, U. S. A., retired, "the work of getting rations and clothing to the needy army began

"As the commander rode along our line there was a lull for a moment—a cessation of the cheers that greeted his approach—and he said:

"'Tomorrow is Thanksgiving. You shall have a feast.'

"By daylight the rations began to arrive. There were great piles of hard bread, rows of pork, coffee and sugar barrels.

"We had a thanksgiving breakfast. It was the first full meal we had had for over a month. How we ground up that hardtack and those chunks of raw pork and poured down that good, black coffee!

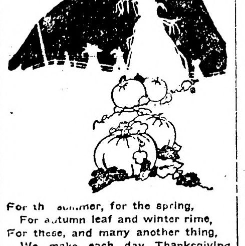
"But the dinner was the great meal. Nine of us chipped in to prepare it. Other parties did very much as we did. The ground was our table. On a plate made of leaves there was a pile of hardtack. A barrel head was the meat plate, and it was piled high with fat pork, well boiled. One of the boys had seized a large tin pail from a colored cook's outfit at a general's headquarters when the cook was not looking. This was full of hot coffee. We sat down like Turks, and while Bill was reaching for a cracker Sergeant Webster said:

"'Boys, in my old home in New York they always gave thanks for the year's blessings before beginning the feast. Shall we do so here today?' No one spoke. Bill laid down his cracker. Webster bowed his head, and so did the rest of us. I can't remember all he said, but he gave thanks for the hope of an early coming of peace and that our lives might be spared to see the country united and that we might return to our homes and loved ones.

"We went on eating without delay when Webster raised his head, but it was some time before a word was said. Bill was the first to speak:

"'Sergeant, that was a nice vote of thanks you gave. It made me think of Sue and the baby. But how could you pray today when yesterday you gave Tom a push with your musket and said: "D—— you; keep in line."'"

Each Day Thanksgiving Time.



For the summer, for the spring,
  For autumn leaf and winter rime,
For these, and many another thing,
  We make each day Thanksgiving time.

Dogs Trained Not to Bark.

The dingo, or wild dog of Australia, neither barks nor growls in its wild state, but learns to do both when tamed and placed among domestic dogs. The Australian kelpies, the most prized of cattle dogs, which contain a strain of dingo blood, are trained never to bark.

Mortgage Foreclosure Sale.

Notice is hereby given that default has been made in the conditions of that certain mortgage executed and delivered by Luella McKenzie and K. McKenzie her husband, mortgagors, to Merchants State Bank of Red Lake Falls, a corporation, mortgagee, bearing date of July 30th, 1915, with power of sale therein contained, duly recorded in the office of the Register of Deeds of Marshall County, Minnesota, on August 5th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 366; and which mortgage together with the debt secured thereby was assigned by said Merchants State Bank of Red Lake Falls, mortagee, to Cliff W. Gress by written assignment, dated November 19th, 1915, and recorded in the office of the said Register of Deeds on November 20th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 193 thereof; and which mortgage and the debt secured thereby was further duly assigned by said Cliff W. Gress, assignee, to Merchants State Bank of Red Lake Falls, by written assignment, dated September 12th, 1921, and duly recorded in the office of said Register of Deeds September 21st, 1921, at 8:00 o'clock A. M., in Book 80 of Mortgages on page 433; which default has continued to the date of this notice by the failure and neglect of said mortgagors to make payment of the sum of $21.00 which became due July 1st, 1918, and other amounts since falling due. And whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $354.95 principal and interest, from July 1st, 1920, and the further sum of $21.00 interest coupon by said mortgage secured with interest thereon at 6% per annum since July 1st, 1918, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1919, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1920, being a total due at date of this notice of Four hundred twenty-six dollars thirty-five cents ($426.35); and said mortgage containing a power of sale and no action or proceeding at law or otherwise having been instituted to recover the debt secured by said mortgage or any part thereof; Now therefore notice is hereby given that by virtue of said power of sale and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage to-wit: the Southeast quarter (SE¼) of Section Nine (9) in Township One hundred fifty-eight (158) North of Range Forty (40) West in Marshall County, Minnesota, which sale will be made by the Sheriff of said County of Marshall, at the front door of the courthouse in the City of Warren, in said County and State on the 28th day of November, 1921, at 10:00 o'clock in the forenoon, at public vendue to the highest bidder for cash to pay said debt of $426.35 and interest from date of this notice and taxes if any, and an attorney's fee of $25.00 as stipulated in said mortgage in case of foreclosure, the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

Death of Mrs. Fitch

Mrs. M. B. Fitch died last Friday Nov. 18, at her home in College View, Nebr, aged 53 years. 9 months and 10 days. The funeral services were held Monday of this week.

She had been sick for more than a year and confined to her bed for the last month and a half. The cause of her death was amenia.

The deceased was born in Winneshiek County, Iowa, Feb. 8th. 1868.

She was united in marriage with Dr. M. B. Fitch in 1888 and they made their home in Decorah, Iowa until they moved to Holt, a few years ago.

Seven children were born to this union of whom two preceeded their mother in death, Roy in 1917 and Martin on June 6th. of this year.

The husband and father died on Jan. 8th 1920 at their home in this village. Shortly after her husbands death, Mrs. Fitch moved to Nebraska where her daughter, June, was then attending college. She has since been obliged to give up her school work on account of the sickness of her mother.

Mrs. Fitch was a sincere christian, a loving mother and a true friend and neighbor.

Sincere sympathy is extended to the sorrowing family and relatives of the deceased.

We have enjoyed (?) some real genuine zero weather since last Saturday morning.

The Nazareth Young Peoples' Society took in $48.15 at their basket social on Friday night.

Do your Christmas shopping early and mail your packages soon, to avoid the holiday congestion.

Roscoe Batten returned Monday from Minneapolis where he hes been taking treatments for a couple of months.

Oliver Davidson bot Paul Lund's interest in the Holt Garage last week, and Mr. and Mrs. Lund are moving out of town.

In the United States, as a whole, 114 out of every 100,000 people died of tuberculosis in 1920, while in the state of Minnesota 90 people out of every 100,000 died of tuberculosis, which goes to show that the work against this disease in Minnesota is bearing fruit.

Ludwig Sagstuen went to St. Paul Saturday with a car of cattle for the state. These cattle had been condemned by the state veterinary, who has tested several herds at Golden Valley. The state pays the farmers for the cattle, so that this work does not mean a real loss to them.

Others should have their herds tested for tuberculosis, as this might be the means of saving human life and even some one in their own family.

We believe the day is coming when those who sell dairy products will be compelled by a law, (and would be only just) that every cow must be tested for tuberculosis, and that such a law would materially reduce the death rate among our people.

An evangelist in a village church asked all present to stand who made a practice of paying their debts. All but one man stood up and the evangelist asked him if he dident pay his debts and he replied that he couldent. When the evangelist asked him to explain he replied as follows: I am the editor of the village paper and nearly all of these people who have just stood up are owing me for their subscriptions.

The Holt Farmer's Elevator sells Cremo, Gold Seal and Occident flour at lowest prices.

The Red Lake elevator shipped in a car of corn this week; which they sold for fifty cents a bushel.

Clean up, trim up, with a Hair cut and a good smooth Shave, at the City Barber Shop, Holt, Minn.

The sooner the farmers depend on raising potatoes and dairying instead of grain raising, the sooner they will commence to make money.

Everyone taxed for the excavating of Consolidated Judicial Ditch No. 1 should try to be present at the hearing on Nov. 28, in Warren.

Holstein sires from stock with good records can be bot for $150.00, according to L. V. Wilson, livestock specialist at university farm.

Potato shippers should use marsh hay for linning cars and around the doors, as this kind of hay will not spread the seeds of noxious weeds.

Small farm of 37 acres in the village of Holt for sale at a reasonable price. Six room house, barn, wood house, drilled well, etc.

If interested call at this office.

Minnesota's first carload of corn raised in response to the cry for help from 300,000 boys and girls starving to death in southern Russia and the Holy Land, is ready to go.

It is the gift of Lincoln county farmers. The corn will be shipped by the railroads free of all freight charges.

We have about about 200 twenty foot telephone poles with four inch top, and 40 twenty-five foot poles with five inch top for sale cheap. For particulars, see or write, either Hjalmer or Victor Johnson, Holt, Minn

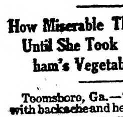
SO WEAK SO NERVOUS

How Miserable This Woman Was Until She Took Lydia E. Pinkham's Vegetable Compound



Toomsboro, Ga.—"I suffered terribly with backache and headache all the time, was so weak and nervous I didn't know what to do, and could not do my work. My trouble was deficient and irregular periods. I read in the papers what Lydia E. Pinkham's Vegetable Compound had done for others and decided to give it a trial. I got good results from its use so that I am now able to do my work. I recommend your Vegetable Compound to my friends who have troubles similar to mine and you may use these facts as a testimonial."—Mrs. C. F. PHILLIPS, Toomsboro, Ga.

Weak, nervous women make unhappy homes, their condition irritates both husband and children. It has been said that nine-tenths of the nervous prostration, nervous despondency, "the blues," irritability and backache arise from some displacement or derangement of a woman's system. Mrs. Phillips' letter clearly shows that no other remedy is so successful in overcoming this condition as Lydia E. Pinkham's Vegetable Compound.

The Buck's Revenge.

The telephone in the Division Q. M. office rang and the brand new and highly important shavetail reached for it.

"Hello!" said the voice. "This is the operator at headquarters. May I speak to Colonel Lummux?"

"He isn't in," said the shavetail shortly.

"Major Dingus, then?"

"Isn't in."

"How about Captain Doodab?"

"No—isn't in."

"Eh—who is this, please?"

"This, young man, is Lieutenant Bumpshus."

"Oh, yes, thank you, lieutenant," said the voice sweetly. "And if an officer should come in, would you please ask him to call?"—American Legion Weekly.

ARMS MEET LEARNS THAT UNCLE SAM MEANS BUSINESS

American Plan Stuns Old World Envoys to Washington Conference.

HUGHES PROPOSES JUNKING SIXTY-SIX BIG WARSHIPS

Proposition Means Immediate Economy—U. S. Would Equal Britain in New Craft and Japan Rank Third—Delays Seen in Destruction of Vessels.

Secretary Hughes' courageous and clean-cut proposal is certainly drastic enough to satisfy all except the proponents of complete disarmament. It leaves the sea powers adequate navies for the protection of their interests, but ends, once for all, the extravagant expenditures necessitated by unrestricted competition.—Sydney Ballou, treasurer of the Navy league.

Washington, Nov. 14.—A radical reduction and strict limitation of naval armament by the chief naval powers was proposed by the United States "right off the bat" at the opening of the international conference here.

Actually before the delegates were aware of what was happening Secretary Hughes, true to his promise, had laid the cards of Uncle Sam's hand face up on the table.

The effect of the unexpected move was heightened by the spontaneous indorsement of the executive proposals on the spot by the legislative branch of the American government. The senators, who occupied one balcony, and the representatives, who were in another, simultaneously arose as Mr. Hughes concluded presentation of the reduction program and loosed a torrent of applause.

Huge Saving From the Start.

It is pointed out that the proposals mean in the direct, immediate matter of economy to the American people a saving of $200,000,000 through the scrapping of the 15 capital ships now building. It would cost that sum to complete them. Already $332,000,000 has been spent on them.

Moreover, there would be a total annual saving of $200,000,000 in maintenance of the 30 capital ships, built and building, which it is proposed to junk.

Also it would be possible to man the navy with 60,000 instead of 120,000 men.

Here's the American Plan.

The American proposals summarized follow:

1. The United States, Great Britain and Japan agree to a navy building holiday for ten years, during which time no new ships shall be built.

2. All uncompleted capital ships and numerous specific older capital ships to be scrapped at once.

3. All building programs, either actual or projected, to be abandoned at once.

4. The sea power of the three nations to be maintained on a basis of a tonnage parity between the American and the British navies and of a Japanese navy of three-fifths the tonnage of either of the others.

5. The capital ship to be the unit of measurement of naval strength and a proportionate allowance of auxiliary craft to be prescribed.

Size of Replacements.

6. The size of the capital ships built for replacement shall be limited to 25,000 tons, compared with 46,000 tons, the maximum now building, and aggregate capital ship tonnage is to be limited to 500,000 each for England and the United States and 300.000 for Japan.

7. Auxiliary cruisers and destroyers, the keels of which have been already laid, to be completed, but replacements to be on a basis of a maximum 450,000 tons each for England and the United States and 270,000 tons for Japan.

8. Same provision for submarines, with the maximum tonnage 90,000 each for England and the United States and 54,000 for Japan.

9. Total tonnage of airplane carriers to be limited to 80,000 each for England and the United States and 48,000 for Japan.

10. Only capital ships and airplane carriers 20 years old, cruisers 17 years old, and destroyers and submarines 12 years old may be replaced.

No Limit on Naval Aircraft.

11. Limitation of naval aircraft deemed impracticable because of easy converting of commercial aircraft to war uses.

12. Conversion of merchant marine to warships to be regulated by agreement.

13. No ships to be built for or disposed of to other nations.

The United States having shown its hand, it is now up to Great Britain and Japan to play theirs. The American delegation has presented what it regards and is prepared to defend as a feasible reduction of the burden of expense of maintaining naval armament.

British Approve Idea, Belief.

The indications are that the British regard the plan in outline with great favor, but will have some suggestions to make as to details.

The Japanese are inclined to be more reserved, their viewpoint suggesting that Japan cannot afford to accept the naval limitation proposed unless there should be a satisfactory agreement on Pacific and Far Eastern questions.

It was the boldness and openness and plain assertiveness of the American that astonished the foreign delegates, those veterans accustomed to the concealments and maneuverings of old-world diplomacy. It startled them to find themselves confronted with open diplomacy, American shirt-sleeve diplomacy at the outset.

Then Mr. Hughes got to the outline of the program proposed by the United States. He dwelt with telling effect on those details disclosing the great sacrifices of naval defense which the United States is prepared to make in order to bring about a general reduction of armament.

U. S. Willing to Sacrifice.

The willingness of America to junk its entire 1916 building program, on which it has expended $342,000,000 to date, created a sensation, and immediately the proposal by the American premier was backed up by the applause of the senators and representatives present.

Just what chances the United States is willing to take in order to achieve a boon for all mankind was strikingly illustrated when it was shown that in junking the 1916 program America would be compelled to scrap every one of the six battle cruisers under construction, although the United States has no battle cruisers now, while Great Britain has nine and Japan has four.

After scrapping its uncompleted battle cruisers the United States would be able to lay down battle cruisers only in replacement of capital ships on the list of 18 allotted to the American navy, and such replacement could not be undertaken until ten years from the signing of the agreement.

Sees Long Delay.

Action on Secretary Hughes' proposals for reduction of armaments cannot be taken until the parliaments and governments of the powers have passed legislation permitting it.

There cannot be a scuttling of entire squadrons of the fighting ships of Britain, Japan, and America until a vast machinery, terminating in ratification of triple treaties among the parties is exchanged.

BRITISH EDITORIAL OPINION.

London, Nov. 14.—The London Times says in an editorial: "President Harding of the United States set the right note for the Washington conference when he assured the delegates that he welcomed them not alone for their high purpose, but for their 'high faith.' If that faith be strong enough, general enough, and continuous enough in the masses of the people whose wills are the force behind the conference, success in the great objects of the conference will be attained."

An editorial in the Daily News says: "By a single gesture America has changed the whole face of international affairs. A despairing world has been shown a path of salvation. This path, which was missed at Versailles, is revealed once again at Washington as broad and straight."

The Daily Express says in an editorial: "Valiant if staggering is the proposal of the United States. It brings an ideal to the verge of practical politics."

The Daily Telegraph's editorial says: "The United States has astonished and impressed the world by her audacity and by the grand sweep of her proposals. These will stagger humanity. They are tremendous proposals on which no hurried judgments are possible, but we may be sure the American and British people will appreciate the courage of the statesmen who have laid down such a proposition."

The Morning Post in an editorial says: "Fleets and armies are but instruments of warfare. Neither France, America, nor Great Britain desires to spend one penny more than the sum requisite to secure that justice and those rights to which President Harding referred."

The Daily Chronicle's editorial says: "The world is in debt to the United States for its broad humanity and incisive vigor. It is our English way to turn over critically all proposals affecting the strength of our navy, but it should be at once said that, apart from certain reservations on account of the vastness of the sea area which we patrol, the American proposals strike us as being quite fair to ourselves."

FRENCH LIKE PLAN.

Paris, Nov. 14.—Dispatches outlining the developments at the opening of the armament conference in Washington take first place in all the Paris newspapers.

President Harding's high idealism, as evidenced in his opening address, is termed by the Petit Parisien "a ray of sunlight coming to rekindle the heart of our people, so greatly touched by the war."

The Journal Des Debats says the Hughes plan involves the abrogation of the Anglo-Japanese alliance.

The Journal, while approving the American proposals set forth by Mr. Hughes, says the problem confronting the conference in this respect is the attitude to be taken by Japan.

The Washington conference commenced with "a dramatic surprise," says the Temps, which calls Mr. Hughes' plan "at the same time definite and grand."

American Editorial Views.

Following are American editorial comments made on Secretary Hughes' proposals for the limitation of armaments:

Philadelphia Public Ledger—The proposals strike straight and clean home to the heart of the world. At one stroke America has cut the ground from under the feet of those who would maneuver, hesitate and delay.

Buffalo Express—The United States is saying, in effect, to its only rivals for sea power: "We will stop this competition for naval armament if you will, we will sacrifice if you will, and we will sacrifice more than we ask you to give up." Will they? How can they refuse?

Detroit Free Press—If well begun is half done, then the world has the right to hope for great things.

Providence Journal—The sacrifice will be more apparent than real. The relative naval strength of the powers is to remain practically as it is. No country will be more exposed to invasion or conquest or more efficient in offense by reason of the plan.

Boston Herald—Mr. Hughes' address is simply business, straight, specific, definite. The peoples of the world are waiting upon Washington with anxious hearts.

Syracuse Post-Standard—Secretary Hughes proposes a plan for disarmament so precise that it leaves little to be said but "Amen" and little to be done but sign on the dotted line.

Cincinnati Commercial-Tribune—If the spirit of the conference is the spirit of President Harding's address above the new tomb of America's composite soldier dead the affairs of the nations are possible of adjustment in peace for peace. It is today the spirit of America.

Cleveland Plain Dealer—The calling of the conference and its manner of beginning has a meaning infinitely great, not only to America but to all the war-weary men and women of all civilized nations.

FIGHTS FIRE IN AIR DROP

Parachute Jumper Puts Out Flames in Long Fall at Oakland, Cal.

Oakland, Cal., Nov. 14.—Hundreds of Armistice day celebrants watched Price Miller, a parachute jumper, put out a fire in his parachute while dropping hundreds of feet. The apparatus took fire soon after Miller had leaped from the airplane several thousand feet up. He climbed up the ropes on one size and flapped the fabric together until the flames were out. The parachute righted itself about 1,000 feet from the ground and Miller landed safely, despite the hole burned in it.

MOTHER! MOVE CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Hurry, mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Business Methods.

When the agent brought Mrs. Tarley her fire insurance policy he remarked that it would be well for her to make her first payment at once.

"About $100. Wait a minute and I'll find the exact amount."

"Oh, how tiresome!" she exclaimed. "Tell the company to let it stand and deduct it from what they will owe me when the house burns down."—The American Legion Weekly.

SMITHERS AND THE LIVERS

Synonymous Symposium That Resulted in a Change in the Custom of Many Years.

Smithers sat slyly sipping slivers of liver into his mouth. Smithers always had livers for dinner. And he demands his livers in small slivers.

Suddenly a frown came over his face. "Garcon!" he demanded.

Smithers was proud of his French accent.

The waiter slipped softly to his side.

These livers are not cut into small enough slivers."

The waiter became confused. He was all apologies; in fact, he was one large apology.

"Monsieur Smithers wants his slivers in smaller livers."

"No! No! I want my livers in smaller smithers."

"You mean your slippers in slivered livers?"

"No! Smithers livered in slithered slippers."

"Oh! Slivers of slithers smithered in slippered livers?"

"No! I say slippered, slivers in smaller smithers."

"Oh, yes, smithered slippers of slippered slithered 'ivers."

Smithers changed a custom of years. "Bring me a kidney," he croaked.—Harvard Lampoon.

Went a Little Farther.

Eight-year-old Jack was invited to a party, but his ten-year-old brother Joe was not. Yet Joe desired some of the refreshments, so he gave Jack some orders about procuring some. "If they have good cakes or anything you can carry, take some every time they offer you any and what you can't eat bring home to me."

And when Jack came home he was well laden with cakes. The bosom of his blouse fairly bulged with them. "Oh, you did take some every time they offered you any," said Joe.

"Yes," admitted Jack, "and some when they didn't offer me any either."

DEADLY WEAPON OF SAVAGES

African Tribes Use Poisoned Arrows Which Inflict Death That Is Instantaneous.

The most effective weapon of the Masai and Andorobo is the arrow which they poison with the Accanthera schimperi, a small tree, according to a National Geographic society bulletin. They boil the leaves and branches until the mixture becomes thick and pitch-like in appearance, and place it on sheets of bark which they hide high on the branches of trees away from children until it is needed. When an animal is shot with an arrow dipped in the poison it dies almost immediately. The natives cut out the flesh around the wound as soon as possible and throw it away. The remainder is eaten and the blood is drunk. This love of blood as an article of food is common among many African tribes, several of them going so far as to bleed their cattle and drink the blood hot or mix it with their porridge.

A certain clergyman is a great believer in the widening influence of travel. When he and his wife set off last month for a holiday in Switzerland they took their maid with them.

She was much envied by the other girls of the village, and when she got back, one of her friends asked: "Well, Gladys, what did you think of Switzerland?"

"Not much," was the answer. "I couldn't really see what the country was like. The mountains got in the way!"

In some respects, human experience is like railroading.

Every moment of the business and social day the block signals are giving right of way to keenness and alertness—while the slow and the heavy must wait on the sidetrack for their chance to move forward.

His First Christmas

By MARY GRAHAM BONNER

Copyright, 1921, Western Newspaper Union.

IT WAS very quiet in the house. Outside the snowflakes were chasing each other with vigor and a gayety and a sense of the merriment of the season.—

Voices could be heard shouting across streets, wishing others "A Merry Christmas."

Now and again the wind blew loudly, but not shrilly nor harshly nor with a wailing sound. The wind, too, seemed to be quivering with happiness. All of nature had joined together to be as beautiful, as radiant, in honor of the day as possible.

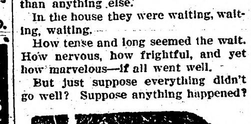
The hills were covered with snow. The branches of the trees were laden with it. Icicles hung from eaves and from corners of houses, and windows were frosted with exquisite designs.

The shrubs, too, were covered with snow. It looked more like Fairyland than anything else.

In the house they were waiting, waiting, waiting.

How tense and long seemed the wait. How nervous, how frightful, and yet how marvelous—if all went well.

But just suppose everything didn't go well? Suppose anything happened?



Ray Clarke paced up and down the floor and wondered how he could have been so happy—so free from nervousness for so long a time.

He hated the great beauty of the outside world. When he heard people wishing each other "Merry Christmas" he almost hated their smiles and their cheerful voices.

How deeply he loved Lillian. She was worth all the Christmas presents in the world! Of course. There were no two ways about that.

And the doctor had said with such a genial, merry twinkle in his eyes:

"Well, I fancy the young son and heir will be a Christmas present from the missus to you!"

He had laughed at the time, and Lillian had blushed and smiled and laughed, too. The doctor was such a friendly old soul—he had been the doctor when Lillian had been born. And he was fine, too.

But perhaps he counted too much on Lillian's strength. Ray had been sent out of the room and he had been alone here now for so long.

At first he had been so full of high spirits. But the delay had been so strange. They hadn't told him there would be any such delay. They had simply sent him out of the room and had said that everything was all right, and that they'd come and tell him soon to be back to see his child.

He would go upstairs. He couldn't stand this another moment. And it was so quiet. He had fancied it would not be quiet. Then he heard a strange shrill voice.

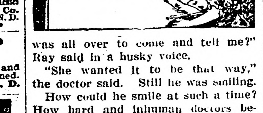
How curiously it sounded. Was that Lillian. She must be very ill to have a voice sound so curiously. He never heard it like that.

They couldn't keep him from her. She would want him, too. Of course she would!

He hurriedly ran up the stairs. The doctor was at the top of the stairs.

"Wait a moment; not so fast; not so fast," the doctor smiled. "I was coming to tell you."

"Couldn't you have let me come to her? Did you have to wait until it



was all over to come and tell me?" Ray said in a husky voice.

"She wanted it to be that way," the doctor said. Still he was smiling.

How could he smile at such a time? How hard and inhuman doctors became.

"I don't believe a word of it," he said. "She wanted me, I know. I heard her cry. That was it. You kept me from her. You wouldn't let me go to her and she—she—wanted me."

"My dear Ray, just a minute," the doctor said, but Ray had rushed past him and was in his wife's room. Tears were in his eyes.

Oh, he'd never forgive himself that he had consented to do what the doctor had told him to when suddenly he noticed that Lillian was looking at him, her eyes wide open, smiling happily.

"Did you hear him shout out a Merry Christmas' to you, Ray?" she asked.

"It was the baby who cried?"

"Not a cry, my love, 'Merry Christmas' was what he said!"

"Lillian, my own, my own," he murmured as he bent down over her. And now the tears came freely. He didn't care at all about them. Nothing mattered [illegible] the tears—they were the [illegible]

Women in Pulpit.

Numbered among the preachers of the Disciples of Christ (the Christian church) are almost one hundred women. The first woman minister of this sect was ordained 47 years ago and an average of two women a year has been added to its ministry since then. Illinois boasts 15 women preachers, while Kansas is second on the list with eight.

Important Omission.

"Your collection doesn't seem complete," said the visitor to the natural history rooms.

"What do you mean, sir?"

"I don't see here that most baleful of all insects, the one that brings disappointment, spoils pleasure, causes divorce, deceives the credulous, frustrates hope and leaves the fondest expectations unfulfilled—I refer to the fly in the ointment."

PUT TRUTH IN SECOND PLACE

Salesman, Like Some Oldtime Advertisers, Must Have Had a Strangle Hold on Conscience.

Frank Irwin Fletcher, the New York advertising expert, said in an address to advertisers:

"Another fault that is fast disappearing is exaggeration—lying, you know. Some of the advertisements of the past remind me of a dialogue between a salesman and a patron. It runs like this:

"'What's the price of the article?'

"'One dollar, sir.'

"'Bought direct from the manufacturer, I presume?'

"'No, sir, we got it at a sheriff's sale of the manufacturer's stock.'

"'Why did the manufacturer bust up?'

"'Through selling this article at a dead loss.'

"'I suppose he'd paid too much for his raw material, eh?'

"'Oh, no; he stole the raw material.'

"'Gee whiz! Wrap me up half a dozen.'"

Robert Was Wise.

Grandfather had taken little Robert, age six, to the movies where both "boys" laughed over the antics of the comic creatures in one of the "Aesop's Film Fables" series. After talking over the film fable, the grandparent thought he would test Robert's ability to draw a moral. Here's the conversation that followed:

Grandfather—What is the lesson for good which we learn from the busy bee, Robert?

Little Robert—Not to get stung!

No Need of Reason.

Jack—Papa, what is reason?

Fond Parent—Reason, my boy, is that which enables a man to determine what is right.

Jack—And what is instinct?

Fond Parent—Instinct is that which tells a woman she is right whether she is or not.—Stray Stories.

WERE NOT REALLY "VAMPISH"

College Girls Hastily Become Prim When Their Favorite Professor Hove in Sight.

The girl might have been born in Greenwich village. She wore her hair bobbed, tortoise shell-rimmed glasses, a loose jersey dress, green earrings which dangled from her ears, and she smoked a cigarette in an imitation jade cigarette holder. Not to overlook long green beads made of wood.

Her companion was a little less true to type. They were conspicuously at luncheon in a chop suey restaurant.

Suddenly a tall, rather distinguished looking man entered the tea room. The girls, who faced the door, gasped: "Good Lord, Dolly, there's Professor ——! Lay off quick."

Instantly the earrings were jerked out of the girl's ears, her cigarette was thrown to the floor and hastily stepped on, the cigarette holder was tucked into her bag and she rubbed her napkin briskly over her lips.

The professor sat down at the opposite table and never once glanced at the two girls.—Milwaukee Journal

Always in Luck.

A fellow who has nothing to eat is in luck. The stomach really needs a rest now and then.

Again, if there is something to eat three miles away and he has no carfare, again he is in luck, for a three-mile walk will help any man's appetite.

According to how you look at it, there is no such thing as "up against it."—Richmond Times-Dispatch.

Fatal Turn of Affairs.

"Mrs. Wiggs," said Mr. Huggins, "I asked your daughter to marry me and she referred me to you."

Mrs. Wiggs—I'm sure that's very kind of Sadie, she always was a dutiful girl. Really, Mr Huggins, I had no thought of marrying again at my age, but if you insist, suppose we make the wedding day next Thursday.

Infallible Signs

"How far have you studied English history, John?" inquired Miss Cross, the new governess, as she and John and sundry sisters settled down to their first lesson together.

"Just as far as my history book is dirty, Miss Cross," said John.

The Key to Success Is Work—There Is no Substitute for It!

In order to do your best work, you must be healthy. You must sleep soundly at night, your nerves must be strong, steady and under perfect control.

If you are accustomed to drinking tea or coffee with your meals or between meals, you may be loading yourself with a very great handicap. Your nervous system may be stimulated beyond what is natural for you.

For tea and coffee contain thein and caffeine. These are drugs as any doctor can tell you. They are known to irritate the nervous system by their action and to cause restlessness and insomnia, which prevent the proper recuperation of the vital forces.

If you want to be at your best, capable of doing the very best work that lies in you, why not stop drinking tea and coffee? Drink Postum, the rich, satisfying beverage made from scientifically roasted cereals.

Postum contains absolutely no drugs of any kind, but in flavor tastes much like rich coffee. It helps nerve and brain structure by letting you get sound restful sleep.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Ask your grocer for Postum. Sold everywhere.

"Fi-Fi of the Toy Shop," a musical extravaganza is to be staged at the Auditorium in Thief River Falls on the evening of November 25th.

This is a home talent production, under the auspices of the Young Ladies Sodality.

The story in brief is that of Bonnie, the Toymaker's daughter, who wanders into the woods at the close of the day and is overtaken by the sandman who cast her into a magic sleep. She dreams a wonderful dream wherein the bisque and wooden creatures of her father's shop come to life and indulge in a night of revelry. Strange things befall the toys and dolls transplanted into the world of life and motion for the first time until Bonnie wakens from her sleep at break of day, with the strains of fairy music ringing in her ears.

The following is an extract from a write-up of the production:

"There is a plot which moves consistently to a happy ending. The situation which arise when the dolls find themselves for the first time in the world of life and motion, are ludicrous in the extreme. Any diversified amusement is, in fact, so well supplied that the audience wonders that the production can contain so many good features and can be so ably handled by amateurs,

The elaborate costuming and scenic equipment gives a finish and tone to the production that places it in the professional class.

The price of the tickets is 75 cents and mail orders for reserved seats are now being received by Lambert's Drug Store, Thief River Falls, Minn.

Mortgage Foreclosure Sale.

Notice is hereby given that default has been made in the conditions of that certain mortgage executed and delivered by Luella McKenzie and K. McKenzie her husband, mortgagors, to Merchants State Bank of Red Lake Falls, a corporation, mortgagee, bearing date of July 30th, 1915, with power of sale therein contained, duly recorded in the office of the Register of Deeds of Marshall County, Minnesota, on August 5th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 366; and which mortgage together with the debt secured thereby was assigned by said Merchants State Bank of Red Lake Falls, mortgagee, to Cliff W. Gress by written assignment, dated November 19th, 1915, and recorded in the office of the said Register of Deeds on November 20th, 1915, at 8:00 o'clock A. M., in Book 76 of Mortgages on page 193 thereof; and which mortgage and the debt secured thereby was further duly assigned by said Cliff W. Gress, assignee, to Merchants State Bank of Red Lake Falls, by written assignment, dated September 12th, 1921, and duly recorded in the office of said Register of Deeds September 21st, 1921, at 8:00 o'clock A. M., in Book 86 of Mortgages on page 433; which default has continued to the date of this notice by the failure and neglect of said mortgagors to make payment of the sum of $21.00 which became due July 1st, 1918, and other amounts since falling due. And whereas there is actually due and claimed to be due and payable at the date of this notice the sum of $354.95 principal and interest from July 1st, 1920, and the further sum of $21.00 interest coupon by said mortgage secured with interest thereon at 6% per annum since July 1st, 1918, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1919, and the further sum of $21.00 interest coupon with interest thereon at 6% per annum since July 1st, 1920, being a total due at date of this notice of Four hundred twenty-six dollars thirty-five cents ($426.35); and said mortgage containing a power of sale and no action or proceeding at law or otherwise having been instituted to recover the debt secured by said mortgage or any part thereof; Now therefore notice is hereby given that by virtue of said power of sale and pursuant to the statute in such case made and provided the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage to-wit: the Southeast quarter (SE¼) of Section Nine (9) in Township One hundred fifty-eight (158) North of Range Forty (40) West in Marshall County, Minnesota, which sale will be made by the Sheriff of said County of Marshall, at the front door of the courthouse in the City of Warren, in said County and State on the 23th day of November, 1921, at 10:00 o'clock in the forenoon, at public vendue to the highest bidder for cash to pay said debt of $426.35 and interest from date of this notice and taxes if any, and an attorney's fee of $25.00 as stipulated in said mortgage in case of foreclosure, the disbursements allowed by law, subject to redemption at any time within one year from date of sale as provided by law.

Take the Sting Out of Winter

The owner of this house set out to spend a comfortable winter. He equipped the windows with storm sash upstairs and down.

Storm windows shut out those piercing drafts that work into the house around every window. The rooms can be kept at an even temperature. And the furnace doesn't have to work overtime, either.

The modern, economical hardware for hanging storm sash is a great convenience. You can adjust them from the inside at varying angles, thus giving proper ventilation to sleeping rooms or any other rooms. See how this is done in the picture.

This is the best time to equip your house with storm windows and storm doors. You'll be surprised to learn how little it costs.

We'll be glad to give you an estimate. It's no obligation.

Married

Miss Stella Mickelson and Adolph C. Burtness were united in marriage last Thursday evening by Rev. M. B. Ordahl at the Lutheran church.

It was a public wedding and many friends and relatives were present to witness the ceremony.

As the wedding march was being played by Miss Amanda Mickelson the bridal couple attended by the bridesmaid, Miss Olive Mickelson and Mr. Richard Joringdal as best man took their places at the altar.

The bride wore a beautiful white satin dress, with bridal veil and orange blossoms and carried a boquet of flowers.

After the wedding, a reception was held at the home of the bride's parents. The home was prettily decorated for the occasion.

The bride is one of Holt's most popular young ladies and has a host of true friends who wish her a hearty much joy. She is a fine young woman and well fitted to make a happy home for the husband of her choice.

The groom is a fine young man and has a large circle of friends who will join The News in extending hearty congratulations to the happy couple.

They will make their home at Thief River Falls where the groom has rented a house.

Relatives present from a distance were the bride's sister, Miss Amanda Mickelson of Crookston, and the groom's father, Mr. K. O. Burtness and wife of Thief River Falls.

Just received a sample line of Sweaters for everybody. Prices 98c and up, at Carlson's.

ANOTHER WOMAN ESCAPES

Mrs. McCumber Avoided a Serious Operation by Taking Lydia E. Pinkham's Vegetable Compound in Time

Georgetown, Ill.—"After my first baby was born I suffered so with my left side that I could not walk across the floor unless I was all humped over, holding to my side. I doctored with several doctors but found no relief and they said I would have to have an operation. My mother insisted on my taking Lydia E. Pinkham's Vegetable Compound and I soon found relief. Now I can do all my own work and it is the Vegetable Compound that has saved me from an operation. I cannot praise your medicine too highly and I tell all of my friends and neighbors what the Compound did for me."—Mrs. MARGARET MCCUMBER, 27 S. Frazier St., Georgetown, Illinois.

Mrs. McCumber is one of the unnumbered thousands of housewives who struggle to keep about their daily tasks, while suffering from ailments peculiar to women with backache, sideaches, headaches, bearing-down pains and nervousness,—and if every such woman should profit by her experience and give Lydia E. Pinkham's Vegetable Compound a trial they would get well.

Why They Fell Out.

The elevator boy in the hotel was a great friend of Tommy's and often gave him a ride; but a time came when they ceased to love each other.

"What's the matter with you and the elevator boy, Tommy?" asked his father. "Don't you speak any more?"

"No," said Tommy. "He put me out of the elevator last night."

"Why?"

"Because I punched him."

"Well, wasn't he right to do it?"

"Maybe so," said Tommy, "but he needn't have put me out on the tenth floor and make me walk down!"

Walker, the present county seat of Cass county would continue to be the county seat of the remaining Cass county. The election was authorized by proclamation by

Pine City—Pending action of the grand jury, Joseph Chranzez, paroled convict who surrendered to Sheriff Hawley of Pine county after killing his wife with an axe, has been returned to Stillwater prison. Chranzez was sentenced to one year in the state prison for attacking his wife with an axe last August. He was paroled recently. Returning home, Chranzez again attacked his wife, this time while she was milking a cow. Two blows from the axe nearly severed the woman's head from the body and she died before medical aid could be summoned.

St. Paul—Governor J. A. O. Preus appealed to all citizens of Minnesota to support the prohibition laws "in a whole-hearted and determined way." In a proclamation stressing the importance of upholding the constitution which has made the United States a haven of peace and prosperity, the governor pleaded with those who have encouraged law violation to change their attitude. Those who have been supplying themselves with liquor, he said, should realize that they are "conniving with lawbreakers and promoting the lawlessness which in other directions they are among the first to condemn." Home brewing and distilling also are arraigned as an illegal occupation, and the misuse of the physicians' prescriptions is warned against.

Minneapolis—Mayor George E. Leach will carry his fight to safeguard the power rights at the high dam for the twin cities and the state university into the courts, he announced, following receipt of a letter from Mayor L. C. Hodgson of St. Paul refusing to call a meeting of the Municipal Electric corporation, of which he is president.

Fergus Falls—Papers were filed in the district court here in a suit brought by Marie Ostad against the Rev. O. A. Huseby, of Pelican Rapids, asking $7,500 for alleged breach of promise of marriage.

She Thinks So, Anyway.

The feminist orator was wound up as she addressed the gathering of mere men.

"Women," she shouted, "have in all times and in all countries been the mainspring of national existence. Who was the world's greatest hero? Helen of Troy! Who was the world's greatest ruler? Queen Victoria! Who was the world's greatest martyr? Gentlemen, who, I say, was the world's greatest martyr?"

And with one voice that immense crowd of men arose and cried:

"My wife!"—Tulsa World.

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Got His Though

When daddy returned home from work he asked Buddy what was the matter with his lip.

"Nothin'," he answered, "only John hit me."

"Well, what did you do to him that caused him to hit you?" asked father, quite interested.

"Nothin'," Buddy answered. "I missed him."

HEALTH IS MOST VITAL TO YOU
So Read This Advice

St. Paul, Minn.—"During twenty-two years while bringing up my family I have depended greatly upon Dr. Pierce's remedies to keep up my strength, and in no instance have they ever disappointed me. It was during my first expectant period that I discovered the wonderful benefits of 'Favorite Prescription' to the prospective mother and I then resolved never to go thru the trying months of expectancy without the help of Dr. Pierce's Favorite Prescription. I have taken it during four such periods as a tonic and nervine, and can honestly say that it not only kept me in good health but I had comparatively no suffering. I believe my babies were benefited, too."—Mrs. Mary E. Carter, 1018 E. Fourth St.

Making It Snappy.

In one of the war training camps an apathetic mountaineer lad was doing his first guard duty.

The officer of the day, a "hard-boiled regular," approached. His disciplinary senses were rudely shocked by a command to halt delivered in a drawling monotone.

"Put some snap in that, you big boob," called the enraged officer. "Make it musical."

As the officer stepped back a few paces and advanced again, the obliging recruit, bringing his rifle up with a jerk sang out to the well-known refrain of "Shave and a Haircut—"

"Hump diddy um tum. Halt, who's there?"

Punishing the Fraction.

Pat caught a youngster stealing his apples. As he was a persistent offender Pat decided to punish him so he laid the boy across his knee. Another youngster who was hanging around said: "Don't beat him, mister; he's not to blame."

"Why isn't he to blame?" asked Pat.

"Folks say he's not all there."

"Well," said Patrick, "I can't help that. I'll just lick what there is of him."

W. N. U., FARGO, NO. 49 1921

ANSWER GIVEN TO AMERICAN PLAN

No Change From Original Figures of Secretary Hughes.

TRUE NAVAL STRENGTH

United States Will Stand Firmly on "5-5-3" Ratio—Viviani, French Delegate, to Sail for Home December 14.

Washington.—American naval experts presented to the Japanese and British officers detailed answers to questions presented last week as to the American naval reduction program. The full membership of the technical commission of the armaments conference was not in session.

The extensive campaign of figures of all three powers as to existing naval strength of each country, has not resulted in any change of the original figures in Snator Hughes' proposal. It was said authoritatively that no mistakes in calculation had been revealed during the discussion with the experts.

Will Hold to Ratio.

The data submitted by the American group had to do, it is understood, with questions asked by the Japanese as to the exact meaning of certain paragraphs of the American reduction plan. The specific nature of the points involved was not revealed. It is known, however, that the American experts feel that they have been able to show that there exists no reason to change any of the tonnage estimates for the three powers upon which the American plan was based and it is assumed that of hours, the naval reduction problem during the week, possibly in a matter of hours, the naval reduction problem will be formally returned to the conference for action.

Assurances that the American calculation as to existing Japanese naval strength has been found to be accurate in the American views, lends additional weight to the repeated declaration that the American delegates will stand firmly for the "5-5-3" ratio proposed for limitation of naval construction at the end of the 10-year holiday period.

It would also indicate the improbability that the American delegates would agree to retention by Japan of the battleship Mutsu, although no definite statement in this regard has been made by any member of the delegation.

Senator Lodge of the American delegation presented the resolutions dealing with Chinese postoffices and foreign territorial rights. The latter resolution was discussed and it was said there was general assent to the plan of the subcommittee of which Senator Lodge is chairman, for an international committee of jurists to go to China and study Chinese court administration. Senator Lodge's subcommittee is called to meet later to draft the final form of the resolution.

A resolution declaring for relinquishment of foreign postoffice privileges in China was adopted by the nine powers sitting as a committee on Pacific and far eastern questions, January 1, 1923, was set as the date of abandonment.

45,000 MILE "BALL" CIRCUIT

Telegraph Lines Would Reach Nearly Twice Around the World.

To satisfy the demands of fans in every quarter of the United States and Canada who could not be reached quickly enough by the press and who could not crowd in at the newspaper bulletin boards during the world series just ended, the Western Union company in addition to providing telegraph circuits for all the press associations and for scores of individual newspapers was obliged to set up a "circuit" containing over 45,000 miles of wire.

An idea of the magnitude of the circuit which furnished the news of every game simultaneously to all the hundreds of cities connected to it, without the intervention of any human agency other than the man at the Polo grounds and his worthy assistant, may be gathered from the fact that it bounded the country in the form of a vast rectangle, New York to Montreal, Toronto, Detroit, Chicago, Winnipeg, Vancouver, Seattle, Portland, San Francisco, Los Angeles, Phoenix, Albuquerque, San Antonio, New Orleans, Jacksonville, Savannah, Wilmington and Norfolk back to New York via Boston, and that between these fringes of the electrical spider's web side lines criss crossed and intersected each other at every important repeater point of the Western Union system, and extended to the haunts of the fans in many a village whose total population is less than a thousand souls, mostly rooters.

Booze Agents Give Warning

Washington.—Talkative prohibition agents are banned by the government. Instructions have been sent to all federal enforcement agents in the different states, it was added, cautioning them to be discreet in their public utterances. The attention of the treasury has been called, it was stated, to indiscreet remarks by prohibition agents in different parts of the country. The duties of prohibition forces in the official view is to prevent illegal liquor traffic and field agents have been so instructed.

BRITISH PLAN REMAINS SAME

Craig's Time Limit for English to Present New Plan Has Expired.

DAIL DELEGATES LEAVE

The Irish Peace Negotiations Have Broken Down, According to Statements in Responsible Quarters —Delegates Return Home.

London.—The Irish delegation has informed Premier Lloyd George that the government's latest proposals were unacceptable to the Dail Eireann cabinet.

The time limit set by Sir James Craig, Ulster premier, for the submission of a further plan by Mr. Lloyd George expires soon. Sir James is to address the Ulster parliament, and should no new terms be forthcoming, he is expected to announce the peace negotiations at an end.

Had Own Plan for King.

The Sinn Fein, it is believed refused even a conditional promise of allegiance contingent upon a settlement the most it offered being to "recognize" the king as head of the commonwealth of free nations.

The closest examination of the government's latest terms satisfied the Sinn Fein delegates and the Dail Eireann cabinet, it is asserted, that they contained no advance on the terms of Prime Minister Lloyd George's original letter, which was formally rejected in July by Eamonn De Valera in his speech to the Dail parliament. Two months of negotiations with Downing street had not got the Irish any further, it was argued, and according to well informed quarters some of the delegates were opposed even to the consideration of the new proposals by the Dail cabinet last Saturday, these delegates being satisfied that acceptance by the negotiators would not be indorsed by the Sinn Fein in Ireland.

Dail Decided Quickly.

It did not take the Dail cabinet long to decide the issue, it appears. After a short discussion in which all the cabinet members rejected the government's proposals, Mr. De Valera turned to the delegates and said:

"These are your instructions; they are the instructions of the people of Ireland."

The truce continues to exist until notice of its termination is formally given, and both the government and the Sinn Fein say they have no intention of giving that notice. Nevertheless, both sides feel, it is declared, that the course of events will be bound to involve a renewal of hostilities.

The Sinn Fein delegates visited Downing street. It is expected they conferred with the government representatives concerning the question of continuing the truce.

Firm on Allegiance.

The meeting of the Dail Eireann cabinet in Dublin emphasized the principles involved in the scheme, and the impression conveyed was that no principle would be sacrificed to gain Ulster's assent, or to put Ulster in wrong if it refused assent.

Premier Lloyd George's difficulty, according to those in close touch with him, is that he cannot ask Ulster to agree to any terms which British opinion would not endorse.

He is firm in the stand that the allegiance question cannot be abandoned or camouflaged and this, it is said, has proved the most insuperable of all the obstacles to a settlement.

The crux of partition was almost equally serious. The Sinn Fein regards Irish unity as fundamental and was firm that no proposal aimed at securing Ulster's assent should prove a possible permanent bar.

67th CONGRESS HAS OPENED

Bills Bearing on Arms Parley Listed—Session Will Be Long.

Washington.—Congress has reconvened after a two week's vacation from the rigors of the special session, to enter upon a tour of duty expected to occupy the next seven months.

President Harding plans to give his message to the new session soon. New and added prominence is attached to the event from the fact that probably for the first time in American history, the message to congress will be delivered in the presence of members of an international conference. Many of the delegates to the conference on armaments are expected to attend.

Any action by the conference on naval or army reduction is regarded as certain to be reflected in appropriation bills for those services and leaders say there probably will be frequent outbreaks of discussion on the floor concerning the army conference and its doings.

President's Message to Congress

The first national budget will be sent to congress by President Harding, inaugurating a new system of national expenditures, but consideration of the document is not on the program.

The proposal that the king might be recognized as the head of a British federation of free states, but not as a king of Ireland, was objected to by the British ministers. It was declared it would be scouted by Ulster and would not be intelligible to the British electors. An attempt was made to devise some form of allegiance the Sinn Fein accept but this apparently proved unsuccessful

Fergus Falls—From reports received by Paul H. Kirk, Minnesota agricultural statistician, from growers, buyers and shippers of commercial potatoes, it is estimated that the carlot movements of Minnesota potatoes for 1921 will be about 22,734 cars compared with slightly more than 23,000 for 1920.

Cook—John Wilkin, living nine miles west of here, was found murdered in his cabin. A broken window pane indicated, authorities said, that he had been shot by an unknown assailant while he lay in bed. The body was taken to Virginia. Authorities expressed the belief that Wilkin had been dead at least a week.

St. Paul—E. M. Phillips, state high school inspector appearing before the joint commission on education in session at the capitol, denied the state department of education has made numerous threats to take state aid away from schools in case new buildings were not erected. Mr. Phillips said he believes state aid for schools in some cases should be curtailed rather than increased.

Faribault—"Road of Remembrance," the highway beautiful of all Minnesota, will be the description of all tourists of the Jefferson highway pavement from Faribault to Northfield, if the plans of Dr. Allen Hoban of Carleton college, are carried out. Dr. Hoban proposes that the "twin cities" of Rice county, Faribault and Northfield, unite on a project of planting shade trees along the entire length of the highway between the two municipalities.

Minneapolis—Sixteen agricultural associations, four of them with members throughout the state numbering several thousand in each, have combined to give from Dec. 13 to 16, at the Hennepin county courthouse, what is believed will be the greatest agricultural exhibition, exclusive of livestock, the state has ever seen. More than 1,000 competing entries have been made. Thousands of visitors are expected to attend the show. The railroads have announced a reduced rate of fare and a half, according to announcement by the Civic and Commerce association, with whose cooperation the show is given.

St. Paul—Minnesota farms produced forest products worth $9,067,015, in 1919, according to a federal census bureau report. This was a large increase over 1909, when 71,215 farms reported products valued at $6,181,508. For 1919 there were 64,798 farms reporting forest products. They sold or held for sale $3,133,922 worth, and used on the farms $5,953,093 worth. There were 15,878 farms reporting merchantable timber, with an estimated acreage of 529,392. Only 36.3 per cent of Minnesota farms reported forest products, and in spite of the state's great timber resources, its farms did not produce as much value in forest products as Missouri Ohio or Indiana.

Minneapolis—Andrew Johnson, a farmer from Kenyon, has asked police to aid him in the search for his brother, Mons Johnson, who was a mechanic for a Minneapolis motorcab company until a few months ago, when he disappeared from his lodgings. The brother feared foul play, he said

St. Paul—Adjutant General W. F. Rhinow was notified that equipment for the First Minnesota observation squadron of the twin cities will be forwarded by the war department within a short time. The equipment includes 13 airplanes, cameras, and various other apparatus.

BEFORE AND AFTER CHILDBIRTH

Mrs. Williams Tells How Lydia E. Pinkham's Vegetable Compound Kept Her in Health

Overpeck, O.—"Lydia E. Pinkham's Vegetable Compound helped me both before and after my baby was born. I suffered with backache, headache, was generally run down and weak. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and decided to try it. Now I feel fine, take care of my two boys and do my own work. I recommend your medicine to anyone who is ailing. You may publish my testimonial if you think it will help others."—Mrs. CARRIE WILLIAMS, Overpeck, Ohio.

For more than forty years Lydia E. Pinkham's Vegetable Compound has been restoring women to health who suffered from irregularities, displacements, backaches, headaches, bearing-down pains, nervousness or "the blues." Today there is hardly a town or hamlet in the United States wherein some woman does not reside who has been made well by it. That is why Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for such ailments.

MOTHER! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

HIGH QUALITIES OF FANCY FOWLS

Ornamental Varieties May Provide Attractive Revenue When Properly Developed.

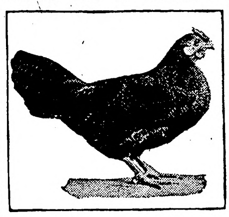
HAMBURG IS PROLIFIC LAYER

Principal Characteristic of Frizzles Is Peculiar Feathering—Have No Particular Qualities to Recommend Them.

(Prepared by the United States Department of Agriculture.)

Eggs and meat for home uses or for marketing are not the only possibilities of the poultry industry. In addition to the fowls kept primarily for their economic value or utility there are many throughout the country whose owners breed them merely for pleasure and secondly for the profits more than likely to result in supplying others whose fancy takes the same channel.

Ornamental breeds and varieties may and often do possess considerable economic value, and some of them undoubtedly could be developed, according to the poultry specialists of the United States Department of Agriculture, into birds having high utility qualities. For example, the Hamburgs are fowls which always have been rated as very prolific layers, although their eggs are small. Because they have not been extensively kept in this country and because they have not been bred very systematically for any purpose except exhibition, their utility qualities have not been developed to the highest possible point. In the same way the Polish fowls frequently are prolific layers, but the crests they carry, while unique in appearance and adding greatly to their beauty, are handicaps when the birds are kept for utility purposes.



Golden Pencil Hamburg.

In the Polish breed are these varieties: White-Crested Black, Bearded Golden, Bearded Silver, Bearded White, Buff Laced, Non-Bearded Golden, Non-Bearded Silver, and Non-Bearded White. The Hamburg breed has these varieties: Golden Spangled, Silver Spangled, Golden Penciled, Silver Penciled, White and Black.

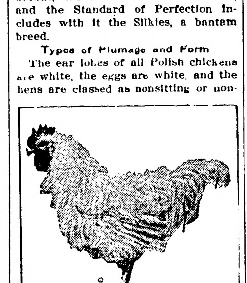
Farmer's Bulletin 1221, recently issued by the Department of Agriculture, credits the game breed with eight varieties: Black-Breasted Red, Brown Red, Golden Duckwing, Silver Duckwing, Birchen, Red Pyle, White, and Black.

The Oriental class includes two breeds, the Sumatra of which there is one variety, the Black, and the Malay with one, the Black-Breasted Red. The Standard of Perfection gives this class also the Black-Breasted Red Malay Bantam.

The miscellaneous class includes two breeds, the Sultan and the Frizzles, and the Standard of Perfection includes with it the Silkies, a bantam breed.

Types of Plumage and Form

The ear lobes of all Polish chickens are white, the eggs are white, and the hens are classed as nonsitting or nonbroody. The legs and toes are slate blue in all varieties except the White-Crested Black in which they are a darker blue, approaching black. The skin is gray or grayish white, which does not recommend the birds for table purposes in this country where the demand is for yellow skinned fowls. The crest which all Polish carry is characteristic of the breed and adds much to its beauty. The contrast between the white crest and the black body of the White Crested Black makes this variety very beautiful, and rather difficult to breed in perfection.



Male Frizzle—Feathers Have Not Dried Like This From Recent Washing, but Grow in This Unusual Fashion.

The color scheme of the Bearded Golden Polish is very beautiful, the plumage being a golden bay laced with black throughout except for the fluff which is light bay with some black mixture or tinge, and for the primary feathers which are bay with a black end. The color schemes of the male and female are identical.

The Bearded White Polish is a pure white throughout, free from any foreign color.

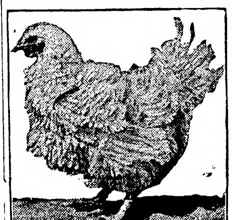
The Hamburg, said to have originated in Holland, although the name has come from the German city of Hamburg, is a small fowl, if anything, smaller than the Leghorn. There is more or less variation in size among the varieties, the Black and Silver Spangled tending to run largest. There are no standard weights for this breed. In type it resembles the Leghorn very closely. The birds are neat bodied, well rounded, and well finished throughout. The comb is rose, and runs rather large for the size of the bird. The ear lobes are of good size, white and nearly round.

Hamburg Popular in Europe.

The Hamburg lays white eggs, and the birds are classed as nonsitting and nonbroody. In Europe these birds have an enviable reputation as layers of large numbers of eggs, but they have not been kept and bred extensively along that line in this country. The small size of the egg has been one reason for this.

An interesting peculiarity of the Sumatra, one of the Oriental class, is the small red ear lobe on a hen laying a white egg. The breed is classed generally as broody, and the hens have the reputation of being excellent mothers. The Sumatras are black throughout, the surface having a very highly developed green sheen, while the undercolor is dull black.

The Frizzles, in the miscellaneous class, are peculiar birds. In an exhibition they are certain to attract attention. Their principal characteristic is the peculiar feathering. Instead of the feathers growing in the usual manner, they have a curled or curved appearance, the end of the feather tending to curl up and back toward the fowl's head. A considerable variation occurs in the amount of this curving, but the more pronounced it is the better. The comb should be single, and the number of toes four. A number of colors are allowed in the Frizzles, without dividing the breed into separate varieties. These are black, white, red, and bay, the only requirement being that each bird shall be a solid color unmixed with any others. Shown in pens the birds, male and female, shall be of the same color. Frizzles are not often seen in this country, and are kept only on account of their unusual appearance. They have no particular qualities to recommend them over normally feathered fowls.



Female Frizzle.

The bulletin referred to above, No. 1221, contains complete descriptions of many of these interesting and peculiar breeds and varieties of ornamental poultry.

BALANCED RATION IS ESSENTIAL FOR EGGS

New Things Discovered to Be Given Consideration.

To Overcome Acid in Feed Mixtures Necessary to Supply Meat Scrap or Something Similar—Fresh Milk Will Help

Every person who keeps poultry is sure to be impressed sooner or later by the importance of feeding well-balanced rations, especially for the production of eggs. Ordinarily a balanced ration means a ration that has the proportions of carbohydrates protein and fat that have been found by experience to produce the best results, but new things are being discovered that need to be given consideration in balancing a ration. For instance, it is now thought that it may be well to have a balance between the acid and alkaline feeds and that there is a possibility that the continued use of an acid forming diet may lead to a great er susceptibility to certain diseases.

The grain mixtures that are commonly used by poultrymen are acid. Mash mixtures containing sufficient quantities of digester tankage, meat and bone meal, dried milk or dried blood will be alkaline. The acid in feed mixtures can be overcome by these feeds just mentioned and by ground limestone and oyster shell. This further emphasizes the necessity of feeding a mash containing meat scrap or some feed of this kind. Green feed and fresh milk also help to overcome acidity.

FEED FOR PIGS AND POULTRY

Nothing Better Than Buttermilk for Supply of Protein in Most Digestible Form.

There is nothing so good for an animal and best for pigs and poultry as buttermilk. It furnishes protein in the most digestible form and contains the vitamines that are now known to be absolutely essential for the growth of the young and the health of all animals.

RAILROADS CUT RATES, PRODUCE

Voluntarily Announce Readiness to Lower Charges Throughout U. S.

GRAIN PRODUCTS OUT

Earlier Order of I. C. C. Reducing Rates on Grain and Forage in Middle West 16½ Per Cent Will Take Effect Dec. 27.

Washington. — Voluntary railroad proposals for inauguration of a 10 per cent decrease in freight rates on practically all farm, range and orchard products in the United States, outside of New England, have been accepted by the interstate commerce commission. Orders were issued allowing the railroads to disregard all usual restrictions in making up the new rate schedules as well as such violations of the long-and-short-haul clause of the interstate commerce act as might be brought out by percentage reductions. The orders also permit the rates to be put into effect on one day's notice "on as early a date and in as inexpensive a manner as possible," for a six months experimental period.

Omit Grain Products.

The commission left standing its order of October 20, requiring an approximate 16½ per cent rate decrease on grain, grain products and hay through the entire trans-Mississippi district, which the railroad were later instructed to put into effect by December 27. The railroad executives, in applying to the commission last week, suggested that the general ten per cent decrease of agricultural products which they contemplated should apply to the western grain and hay as well as to the other commodities and become a substitute for the 16½ per cent. No mention of this point in the railroad procedure was made by the commission in the last announcement, except that grain products and hay in western territory were omitted from the permissory orders accepting the general decrease.

While the commission swept away all administrative barriers to the 10 per cent decrease, it was pointed out that further steps would have to be taken by the railroad managements before the lower rate basis actually comes into effect. The commission's failure to consider the 10 per cent decrease on grains and hay as a substitute for the greater reduction it previously had ordered, it was said, might bring about proceedings and conference.

Start Investigation.

The commission's investigation into the reasonableness of the general level of transportation rates in the United States will begin next week, and if the railroads are disposed to withdraw their voluntary offer, the tariffs on the agricultural products may be left to adjudication in that proceeding.

PACKERS FIGHT IS BEGUN

Meat Cutters Union Prepares for Defiance of Industrial Court.

Chicago.—A fight to the finish between the "Big Five" packers and the Amalgamated Meat Cutters and Butcher Workmen of North America was in prospect as each virtually finished its plans for the strike of union packing house employees ordered to begin here Monday of this week.

The packers posted notices that employees who go out on strike will lose their jobs and also advertised for men to take the places of the strikers. The union officials were equally firm and indicated they had no intention whatever of receding from their stand when they advised packing house workers in Kansas City, Kas., to disregard orders of the Kansas court of industrial relations to appear before it and to put the strike into effect. The court of industrial relations issued subpoenas for the officers of the Kansas locals

Family Moves, Village Is Emptied

Lancaster, O.—George Fralure, who moved his family and 15 children from Hocking county to North Berne two years ago, thereby doubling the population and causing the census enumerator to change it from a hamlet to a village, literally wiped the place off the map again by moving away. Fralure operated a general store and was mayor and postmaster. Owing to the removal of this big family, North Berne now loses its postoffice and will receive its mail by rural delivery out of Lancaster. Petitions are being filed for Fralure's return.

Confident of Settlement

Tokio.—The Shantung question will probably be settled soon by an Anglo-American mediation board, according to seemingly reliable indications here. Dispatches from Pekin received here say British and American ambassadors recently visited the Chinese foreign office and proposed mediation of the Shantung question

Disagreement of Jury

San Francisco—The "Fatty" Arbuckle jury reported disagreement at 12:15 Sunday afternoon and was discharged. The foreman reported that the final standing of the jurors was 10 to 2 in favor of acquittal. This means that the district attorney will either ask for a new trial or move that the case be nolle prossed. It is believed he will hold the comedian for a new trial for the death of Virginia Rappe. The jury had the case three days.

What Did He Mean?

"I long for the kind of a man who would love and protect me always," she murmured, "one who would understand, a man who would kneel in the dust to kiss the hem of my skirt," her voice trailed dreamily.

HE'LL STAY AWAKE NOW

Awful Possibility Contained in Barber's Warning Must Have Stirred Up Mr. Brown.

As John Brown sat in the barber's chair sleep overtook him, and while the knight of the lather prepared the creamy stuff, John Brown dozed off.

"I beg your pardon, sir," said the barber five minutes later. "You'll have to wake up. I can't shave you!"

Nervousness sounded in the barber's voice. He hated to disturb customers.

"What! Can't you shave me whilst I am asleep?" roared John Brown. "And why, pray?"

"Because," answered the barber apologetically, "when you sleep your mouth is open so wide I can't find your face. And I wouldn't like to drop the razor into your mouth!"

With a frightened look John Brown held open his eyes with both thumbs to keep awake while he was shaved.—London Tit-Bits.

The Greater Danger.

"Landslides and the like are not the only things to be feared in the Alps," says an American traveler.

"An American bride and groom were spending their honeymoon in Switzerland. One day, as they were climbing over the difficult passes, admiring the scenery, they suddenly came upon a bear.

"Oh, Henry, look!" exclaimed the terrified wife. "Let's run for the valley, quick!"

But the young man stood still undecided. "Impossible!" he said.

"Impossible?"

"Yes, my dear. Why we'd run right into the clutches of the hotel keepers!"—Philadelphia Ledger.

Love never counts the cost, probably because it seldom has the price.

Unsophisticated.

The proud escort of a pretty girl at the race meeting said to her as the horse cantered past to the gate: "That's Donoghue, the famous jockey, on the second horse."

"Oh, yes," said the girl, "he's quite one of the chief jockeys, isn't he?—and certainly one of the dressiest. He seems to turn out in a differently colored suit in every race."—Tit-Bits.

Queer.

"A great many titles, if they are sounded, ring false," said Cortlandt Bleecker at a Newport tea. "Since the World war, especially, there has been a queer lot of titles floating about.

"Some of them are as suspicious as Rev. Washington White's. His title was 'D'—'Rev. Washington White, D.' A stranger asked him to explain it, and he said:

"'De Holy Saints' university of Vicksburg, sah, will sell me a D. D. title fo' fo'ty dollars. Wall, Ah took up a collection among mah flock, and collected $20, sah, and de university done sent me mah fust D. Soon's Ah send de udder twenty Ah gits de full title.'"

Matters Were Even.

An elaborately dressed woman got into a smoking compartment just as the train was moving. A few minutes later she informed a man who was smoking a pipe that she would be obliged if he did not smoke.

"Do you object to the smell of tobacco, ma'am?" he asked politely.

"Yes," she said emphatically.

"Well," he replied, with a laugh, "I'm sorry, but, as it happens, I object to the smell of scent—so we are quits."

May Versus Can.

Policeman—"Boy, don't you know you can't ride your bicycle on the sidewalk?" Boy—"Can't I? Watch me."—The Echo.

Do the difficult things first and the easy ones will take care of themselves.

Real Rest Depends Largely Upon the Depth of Your Sleep

A warning to "light" or "poor" sleepers

The deeper and sounder you sleep the better you feel. Five hours sound refreshing sleep does you more actual good than ten hours restless, disturbed sleep.

This is because the final conversion of food into vital tissue and nerve cells goes on more rapidly when the physical and mental forces are at rest.

You can't get sound refreshing sleep if your nerves are agitated with tea or coffee. Both these drinks contain caffeine, which is sometimes very irritating to the brain and nervous system.

If you want to know the joy, vigor and stamina that comes to the person who gets sound, healthful sleep, why not stop taking tea or coffee for a while, and drink delicious, invigorating Postum instead.

Thousands of people everywhere have found that this was the only thing they needed in order to bring about these very happy results.

Order Postum from your grocer today. Drink this delightful cereal beverage of coffee-like flavor for a week. Perhaps, like thousands of others you'll never be willing to go back to tea or coffee.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

You can't have good health with a disordered stomach. Correct your stomach disorders with Tanlac and you will keep well and strong.
C. H. Gunheim.

Mr. and Mrs. J. H. Knutson went to Thief River Falls Tuesday with their eight months old baby that had been sick with a bad cold for a couple of weeks, to consult a physcian.

Mrs. Sizer, state president of the W. C. T. U., delivered a very able address at the Mission church Sunday, and at the close of her talk preliminary arrangements were made for a local organization in this village.

Mrs. Loyd Adams slipped on the board walk at their home Friday morning and badly sprained her ankle. Dr. Spinks was called and he put her ankle in a plaster cast for a few days until the swelling was reduced.

Mrs. J. Nelson was taken quite sick last Thursday night at the home of a former neighbor south from Crookston. Friday morning a message was sent for Mrs. Hagberg and she accompanied by her brother and sister, Joseph and Ingeborg Nelson, immediately left for their mother's bedside. At last reports Mrs. Nelson was getting better. Her daughter, Mrs. Hagberg is still taking care of her.

Later:-- Mrs. Nelson was able to return home yesterday and was accompanied by Mrs. Hagberg and Miss Idella Ingebritsen.

Pound Social

A pound social for the benefit of the high school girls' basket ball team will be given at the school house at 8 o'clock Saturday night Dec. 17th. Everybody invited to come and help the girls in their effort to raise a much needed fund for expenses, shoes, etc.

Steenerson Sticks

The following copy of a telegram sent to the editor of the Thief River Falls Tribune, was received too late for last weeks paper:

"The statement originating in the city of Minneapolis that I had decided to retire from office is wholly unauthorized and untrue. In working for legislation in the interest of the farmers especially regarding marketing and grading of grain I know I have incurred the hostility of certain interests in the grain trade and their wish to retire me is no doubt father to the thought. My grain grading bill is now on the calendar and a favorable indorsement by the Congressional Convention would greatly help in securing its passage.

Halvor Steenerson."

Undoubtedly Mr. Steenerson can get his bill thru better than anyone else, and it is of so much importance that it seems like a poor time to make a change.

Dairy Rations

The problem of feeding dairy cattle seems to be one that is in the minds of many of the farmers. It must be remembered that wild hay is not even a maintenance ration for a cow. A cow is a machine, and we have to put the raw material into the machine to get a manufactured product from it. Therefore we must feed our cattle properly if we expect returns. Inasmuch as oats are scarce and rye quite plentiful it is advisable to feed the cattle a mixture of ground rye, oats, and a little flax. For a cow giving 20 pounds of milk per day the following ration will be a balanced one: 20 pounds wild hay, five pounds ground rye, 4 pounds oats, and 1 lb. flax. If using tame hay the grain ration can be cut down one-half. If you are feeding distinct type dairy cattle, you can not loose money by feeding too much. The more we feed the cow, if she is a distinct type and does not put it upon her back, the more milk you will get in the pail.

I wish some of the farmers would get the cost of feeding their cattle for one week, secure the returns and determine their profit; then the following week feed a ration already mentioned, or another combination of feeds as good and then see if there is not a greater profit.

J. W. Taylor, Co. Agt.

Safety and Convenience

Do you know that nine-tenths of the business of the United States is done by some form of check? This convenient condition is possible because the banking system of this country has been placed on such a safe basis that corporations and individuals have faith in it. The welfare of the banks depends in a large measure upon maintaining this confidence.

A checking account with this bank is an absolutely safe proposition. Your money is safer than it is in your own pocket and your check is as good as your money in any business transaction. We shall be pleased to have you open a checking account with us. You will find your account to be a means to safety and convenience.

SUFFERED ALL A WOMAN COULD

Mrs. Meyer Finally Found Relief and Health in Lydia E. Pinkham's Vegetable Compound

Orange, Cal.—"I always feel very grateful to you, as some twenty years ago three doctors said I had to have a serious operation. I had a tumor, and ulcers which would gather and break. I had displacement so badly that I could hardly sit down at times, and it seemed as if I suffered everything that a woman could suffer. Then some one advised me to take Lydia E. Pinkham's Vegetable Compound, and I took it until I was cured and saved from the operation. I have told women of your wonderful medicine times without number, and I am willing that you should use these facts and my name if you like. I also used your Compound during the Change, and I can do all my own work but the heavy part, and can walk miles every day as I help my husband in the office."—Mrs. J. H. Meyer, 412 South Orange St., Orange, California.

It is quite true that such troubles as Mrs. Meyer had may reach a stage where an operation is the only resource. On the other hand, a great many women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

He Desired Peace.

In a vaudeville house the other day a man in the audience went to sleep. His energetic neighbor punched him. "What's the matter?" the would-be sleeper growled.

"The program's begun," the other returned.

"Program be hanged," snorted the other; "I want to sleep."

"Sleep in all this noise!" The other voiced his amazement.

"Noise nothing," the other closed his eyes. "This is quiet. My wife's on a jawing spree at home."

MOTHER! OPEN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, irritable, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup," which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

PARLEY MEET IS IN SECOND MONTH

Homeward Reservations Now Being Discussed by Foreign Delegates.

TREATY GIVEN NOTICE

Status of Negotiations for Reduction of Armaments Unchanged—Four Power Treaty Dealing With Pacific to Be Signed Soon.

Washington.—The beginning of the second month of the international conference on limitation of armament—to give it the official title—finds the conference so far advanced toward achievement of its announced objectives that in practically every visiting delegation, discussion of homeward reservations has become a matter of immediate importance.

Outstanding in any tabulation of accomplishments, is the four power agreement. By this covenant, the United States, Great Britian, France and Japan agreed "as between themselves to respect their rights in relation to their insular possessions and dominions in the region of the Pacific ocean," for the next 10 years.

Upon ratification of this agreement the Anglo-Japanese alliance, long regarded with disquietude in the United States and several British dominions, will be abrogated.

Action of Conference.

The conference on Pacific and far eastern questions, comprising China, Belgium, Portugal and Holland, in addition to the five powers in the major conference, have taken action as follows:

Adoption in plenary session the four "Root points" binding the nine per cent progress powers to respect the independence, territorial and administrative integrity of China; to provide unembarrassed opportunity for China to develop and maintain an effective government; to maintain equal opportunity for all in China; to refrain from taking advantage of existing conditions to obtain special rights which would abridge the rights of friendly states.

Adopted in plenary session resolutions on extra territoriality providing for the sending of a commission of jurists to investigate conditions in China with a view to abolishing such rights and in the meantime agreeing to abolition in principle.

Adopted in plenary session resolutions binding signatory nations to respect neutrality of China in any war to which she was not a part.

Adopted in plenary session resolutions against treaties not in harmony with Root four points.

Adopted in committee of the whole resolutions declaring for withdrawal of foreign postoffices from China and limiting use of foreign radio stations in China.

Appointed expert committee to consider the question of Chinese fiscal autonomy.

Received Chinese "ten point" declarations setting forth the views of the Chinese delegation as to the principles which should be laid down to govern relations between China and other powers. (Several of these are comprised in the matters already dealt with; others have not yet been taken up by the conference.)

Debated the proposal that foreign troops be withdrawn from China.

Remaining on the agenda are the questions of Siberia, Yap and Shangtung. Siberia will bring before the conference several questions of the same nature as were met with in the case of China.

YAP TROUBLE SEEMS THRU

New Adoption of Treaty Ends Quarrel Over Island of Yap.

Washington.—The controversy between Japan and the United States over the Island of Yap has been settled and the terms of the settlement have been announced by Secretary Hughes, addressing the far eastern committee of the Washington conference.

The agreement which is in the form of a treaty, includes all the islands over which Japan has the mandate in addition to Yap. The pact has been approved by the government heads, but announcement as to whether it was actually signed was withheld.

Although the terms of the treaty were held for an official announcement in the daily communication of the far eastern committee it was understood the convention gives the United States certain definite rights as to the island of Yap including cable rights.

Germany Falls in Reparations.

Paris.—Germany has failed to pay 190,000,000 gold marks due during the first two weeks of December under the schedule of payment calling for 26 per cent of her export and certain portions of her customs duties. The German government has informed the reparations commission that the tremendous decrease in the value of the mark makes impossible the conversion into gold marks of the marks of the fund of paper marks which has accumulated to meet these payments

CANADA DID WELL

Honors Worthily Won at International Live Stock Show.

Friendly Rivalry at Chicago Splendidly Revealed the Possibilities of Our Northern Neighbor.

Further evidence, if any were needed, of the friendly relations between Canada and the United States might have been found by a visit to the International Live Stock Show recently held at the Chicago Stock Yards. There the Canadian and American were to be found side by side in the friendliest competition, the loser willingly admitting defeat when the other fellow carried off the blue ribbon. Some of the Choicest and best of Canadian stock was there, and much of it returned loaded down with ribbons denoting firsts, championships that indicate pedigree, breeding and worth, and cups and trophies that were won in hard and severe contests.

The hay and grain classes were points of great interest, and here Canada did well, securing many prizes.

Twenty-five first prizes were listed in the oats class; Canada carried away 22 of them. A sample of oats from the Province of Alberta, weighing 48 pounds to the bushel, was the heaviest sample in the show. It was Alberta oats that took the sweepstakes, the exhibitor in this case, J. W. Lucas, of Cayley, repeating what he did last year.

In wheat there were 25 first prizes to be awarded; Canada got 23 of them.

The greatest interest was shown when the horse classes were called. Here also Canada stood well to the front. The Percheron entries showed that Canada breeders were popular and successful exhibitors. Championships were awarded to a number, and first prizes were common. The same may be said of Clydesdales. This breed stood out prominently, there were many entries, and this old-time popular breed had an unusual number of admirers. This was especially so in "Wee Donald's" case. Here was a Saskatchewan horse, his owner taking back to Canada the grand championship. Not only has he done it this year, but last year as well—two years in succession—something never before done at the Live Stock show. In Clydesdales Canada won places in every class in which entries were made.

The same story could be repeated in sheep and hogs, honors being heaped upon honors on Canadian entries. Particularly important is the fact that first prize for alfalfa seed was awarded for seed grown at Brooks, Alberta, in competition with 43 entries. Alfalfa growing in Western Canada has been increasing by leaps and bounds, and this victory will give it—and the dairy industry, which is always linked with it—a further impetus.

A visit to the Canadian government exhibit of grains, grasses, vegetables, fruits, minerals and other products of the Dominion to the north, revealed in tabloid form what the great country to the north could do. A great interest was aroused in this exhibit, and it was greatly admired by visitors to the Live Stock show. Representatives of the government were on hand for the purpose of giving information to those desiring it.—Advertisement.

Foolish Question.

Careless Ike—Any of you fellows see a pair of leggings around here?

Boston Mike—Well, as there are about two hundred men in this company and they all wear leggings, I don't suppose it would surprise them any if they did see a pair.—The Leatherneck.

A Grievous Mistake.

At Jim Rose's boarding house is a fellow all out o' humor. He does his own mending—likes to do it. Hasn't a wife to do it for him, so just does it himself. But what he's angry about is—well, he has reason for feeling a bit feverish in temperature. The other day he made the mistake of cutting a leg from his Sunday trousers to patch a pair of old ones.—Exchange.

Blue Nose.

Blue Nose is a popular name for a native of Nova Scotia. Haliburton, in "Sam Slick," gives the following account of its origin; "'Pray, sir,' said one of my fellow passengers, 'can you tell me why the Nova Scotians are called Blue Nose?' 'It is the name of a potato,' said I, 'which they produce in the greatest perfection, and boast to be the best in the world. The Americans have in consequence, given them the nickname 'Blue Noses.'"

Railroad Improvement.

A south coast railway company is experimenting with a new engine which can not only go from side to side but forward.—London Punch.

"God Be With Ye."

As a matter of fact we English-speaking folk have a word to say at parting which means a lot. "Good-by" is a contraction of "God be with ye," but not one person in a million thinks of this when using it. While we may not object to our butcher having divine guidance, the wish is certainly not in our mind when we say to him over the telephone: "Now don't forget about the lamb chops; good-by!"

Cooks may come and cooks may go but the eating habit stays forever.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Rochester—In connection with the poultry show now on here a school for the study of poultry is being conducted.

St. Cloud—A class of 75 candidates were initiated into membership in the St. Cloud council of the Knights of Columbus, with a St. Paul degree team conducting the ceremony.

Ortonville—Fifty years ago, Orlette F. Hagaman became the wife of William H. Matthews at Lavalle, Wis. Last week they celebrated their golden wedding anniversary here.

Mayer—Turie Borg, former corporal in Company A of the Forty-ninth Engineers, received the French medaille d'honeur, given for distinguished service in action, at Fort Snelling.

Jackson—At the annual meeting of the directors of the Jackson County Agricultural society, F. G. Albertus was elected president, and B. E. Grottum, secretary, for the ensuing year.

Thief River Falls — Congressman Halvor Steenerson, of Crookston, declared his intention to run for re-election in a telegram sent from Washington to J. S. Arneson, editor of the Tribune.

Windom — S. L. Rogers, aged 60, prominently known in Windom business circles for many years, died suddenly at his home in this city, while partaking of a meal with members of his family.

Aitkin — Ole and George Sam, Indians, wanted for the murder of Joseph G. Slima, a Minneapolis peddler, were captured at Sandy Lake, thirty miles from here, and lodged in Aitkin county jail.

St. Paul — Only one state in the United States census bureau. And, while New York's production was 6,000,000 bushels greater than that of Minnesota, the percentage of sales was slightly less, the figures showed.

Thief River Falls — To be shot in the back o fthe head with a .22 caliber rifle at very short range and live is the experience of Edward Hagen, Malcolm farmer, who is now in a hospital here recovering from his injury.

Fergus Falls—War gas masks were donned by two former service men when the bursting of a large ammonia pipe drove everybody out of the ice-making plant of the Fergus Falls Creamery company, and the leak located without troubel.

Austin — The most important community affair in this city in years was the opening of the new $1,000,000 high school. The building is pronounced one of the finest educational institutions in the state, and will take high rank among all classes of buildings.

Northfield—Minnesota's first milk condensing plant, located here and owned by the Northfield Milk Products company of this city, has been closed for an indefinite period and may be closed permanently. General market conditions are ascribed as the principal cause for the shutdown of the plant.

St. Paul—Ford P. Hall was named Minnesota's 1922 Rhodes scholarship representative at Oxford university, in England. Announcement of the successful candidate was made by Prof. Frank Aydelotte of Boston, American secretary to the Rhodes trustees, through W. B. Millen, chairman of the commission in Minnesota.

St. Cloud — Mr. and Mrs. W. B. Mitchell of this city, perhaps two of the best known pioneers in the state, were hosts here at a golden wedding reception for which 300 invitations were issued. Seven daughters and one son gathered to assist in the observance of an occasion which it is the good fortune of only a comparative few to celebrate.

St. Paul—Charles M Babcock, state highway commissioner, announced tentative awards of nearly $925,000 of winter projects on Minnesota trunk highways under the "more work—better roads" movement to reduce unemployment and speed needed highway improvements. In every case the tentative award is to the lowest bidder, it was officially announced.

St. Paul — Essential phases of the Red Lake drainage project have been approved by federal authorities at Washington and it only remains to work out detailed plans for formal approval, E. V. Willard, state commissioner of drainage and waters, said. It has been agreed, he said, that development of agricultural lands is to receive primary consideration, the regulation of river flow for power development to be secondary.

Winona—In order to avert a reduction in the working force, 400 employees of the division shops of the Chicago & North Western railway here, agreed to go on a four day week schedule. They had been working but five days a week for some time.

Fergus Falls—From reports received by Paul H. Kirk, Minnesota agricultural statistician, from growers, buyers and shippers of commercial potatoes, it is estimated that the carlot movements of Minnesota potatoes for 1921 will be about 22,734 cars compared with slightly more than 23,000 for 1920.

THE SCHOOL HERO CHANGES

No Longer Does the Freshman Win Football Games Single Handed—Style Improved.

There has been a noticeable slump in the demand by boys at libraries for the school story, with the hero who always won the big football game and who knocked the home run with three on bases when, as a substitute player, he brought the baseball honors to Tushtushville prep school. Boys who have tried to go out and win football games single handed and who have sought an opportunity to make home runs at crucial moments in school baseball series, have found out what rot has been handed them in fiction. They know that boys simply don't do such things—not as "frosh," anyway.

The school hero still maintains, but he is traveling at a slower pace. Prexy does not kowtow to the gifted youth as suddenly as in the heyday of such fiction. Librarians say that the big improvement in school fiction has come through saner plots and more careful work in characterization. The author must really show his own interest in a school character if he is going to get the hero "over."—Arthur Chapman in the New York Tribune.

KNEW HOLY LAND GEOGRAPHY

Insurance Man Could Do More Than Guess at the Birthplace of His Acquaintance.

An insurance man of Indianapolis, who is also a Biblical student, was recently making his usual weekly calls in Irvington, and stopped at a residence to inquire of the young woman at the door about the birthplace of her mother.

She said that it was the same name of a town mentioned in the Bible.

"Was it Jerusalem?" he asked.

"No, but I am sure it was a town near there," she said.

"Well, then," the man replied, "it must have been Antioch."

So in the evening when the mother returned home from a social function the daughter related the conversation that had taken place when the insurance man called.

"It seems strange," said the mother, "but he was right. I was born in a little town in Ohio by the name of Antioch, and nearby was another village called Jersusalem."—Indianapolis News.

Roadside Episode.

"Can you direct me to Perkins' ferry, my good man?" asked the supercilious motorist.

"Certainly," said the millionaire, who was dressed for hill-climbing. "But I wouldn't advise you to be too condescending with the ferryman. He's a queer old duffer and very independent."

"And who are you, my good fellow?"

"Oh, I'm merely the owner of all this country around here, including the ferry."—Birmingham Age-Herald.

Theories may work fine after you have got everybody to agree to try them out.

When a Federal Bureau reminds you that children should not drink coffee or tea—why not think of your own health?

The Federal Bureau of Education includes in its rules to promote health among the Nation's school children, the warning that children should not drink coffee or tea.

The reason is well known. Coffee and tea contain drugs which stimulate and often over-excite the nerves, and so upset health.

The harm is by no means confined to children, as any doctor can tell you.

If health is valuable to childhood, it is valuable always. If harm to health should be avoided until bodies grow up, is it worth taking a chance with health when bodies have grown up?

You can have that delicious and satisfying cereal beverage, Postum, with any meal, and be safe—you, and the children, too. There's charm without harm in Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

The road to health is a good road for anybody to follow

BEFORE Christmas try this fascinating method of determining the real value of different perfumes.

Let us send you three miniature vials of perfume with instructions for duplicating the famous international perfume test. You can then choose for yourself the special perfume which will surround you with that individual atmosphere of fragrance that so delightfully portrays your personality.

This famous test was conducted by two prominent New York men, assisted by a jury of 103 women—famous actresses—college girls—society women—all fastidious about their perfume. It not only demonstrated beyond a question of a doubt HOW the individual can safely select her personal perfume, but it developed some surprising facts about the REAL preference of these fastidious women. Every girl should read this interesting story; it is told in a little folder packed in each test equipment package.

Three trial size vials of wonderful fragrance—a package of perfumer's test slips—full instructions for use and the story of the famous test—all packed to reach you safely—for a two cent stamp and your address. Send today to Perfume Test Bldg., COLGATE & Co., P. O. Box 645, City Hall Station, New York City.

It Was a Fine Stream.

A New Hampshire man had his estate up for sale, and a prospective purchaser had been looking over it. "I find everything just as you advertised," he reported; "that is, all except the fine stream you mentioned."

"It runs through the piece of woods at the end of the meadow," the owner explained.

"What! that little brook? Why, it doesn't hold much more than a spoonful. You don't call that a fine stream, do you?"

"Well, if it was much finer you couldn't see it at all," said the owner blandly.—Boston Transcript.

Uses Carbon Copy for Love Letters.

"I'm through with Gloria for the rest of my life," said Charlie as he seated himself in a comfortable chair at the club.

"What's the trouble?" asked Jack. "Hasn't she written to you lately?"

"Yes, I just received a long letter from her," answered Charlie with a long face.

"Wasn't it as endearing as usual?" asked Jack with a twinkle in his eye.

"Yes, just as much as ever," replied Charlie.

"Then, for Pete's sake, what is the trouble?" inquired Jack impatiently.

"The letter," mumbled Charlie, "was a carbon copy."

Sometimes the voice of conscience seems to sound as if it came from the neighbors.

"PERFECT" CRIME PROVES FAILURE

Clews Left Behind by Oregon Dentist Brought About His Arrest.

BOASTS ARE FUTILE

Convicted of Killing Rancher, Then Exchanging Identity With Victim, Doctor Brumfield May Be Sentenced to Hang.

Roseburg, Ore.—Dr. R. M. Brumfield has been found guilty of murder in the first degree in connection with the death of Dennis Russell. In Oregon the penalty for first degree murder is death by hanging. The verdict brought to a close one of the strangest murder cases in the West. Brumfield, a dentist, known to have been an avid reader of lurid crime and detective tales, is alleged to have boasted that he could commit a "perfect" crime, leaving no clews.

But, having now been found guilty, Brumfield undoubtedly realizes the fallacy of his belief in his criminal ability. He did leave clews, and they brought about his arrest and conviction. Brumfield disappeared the night of July 13, when Russell was murdered. He was captured August 12, while working on a ranch near Calgary, Canada, under the assumed name of Norman Whitney.

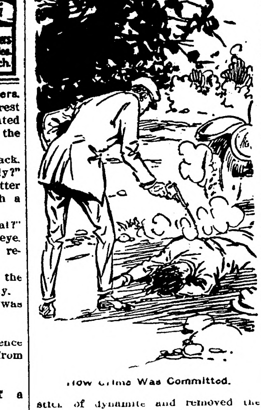
Lingerie Led to Arrest.

It was the Roseburg dentist's strange desire to obtain possession of a box of women's lingerie which led to his arrest. It had been learned Brumfield shipped the dainty garments to Seattle on the afternoon preceding the murder, addressing the parcel to "Mrs. Norman Whitney."

The authorities had no idea Brumfield himself would venture to recover the box, but hoped it might eventually put them on his trail; but while safely hidden on the Canadian ranch, with the chances all in his favor of being able to maintain his new identity indefinitely, Brumfield betrayed himself by writing to the Seattle express office for the parcel of underwear.

The prosecution showed that Doctor Brumfield visited the cabin of Dennis Russell, who was a rancher living near Roseburg, plied Russell with drugged liquor, took him out for a "ride" in his roadster, beat in the skull of the rancher and then shot him twice in the back to make sure he was dead. It further declared Brumfield exchanged clothes with the dead man and ran his car over an embankment, attempting to make it appear that Doctor Brumfield had been killed in the wreck.

The state further contended that the dentist, following the wrecking of the roadster, blew off Rusesil's head with a stick of dynamite and removed the jaws of the victim so there could be no chance of using the teeth to identify the murdered man as Russell. The jaws and other parts of the head have never been found. Besides his own clothing, Brumfield is alleged to have placed his own ring on the dead man's finger.



How Crime Was Committed.

Mrs. Brumfield, after viewing the body of the murder victim and until her husband was captured a month later, persistently maintained that the murdered person was the dentist. Whether she knew differently and preferred that her three children should remember their father as a murder victim, is unknown. The state contended that financial difficulties was the real motive. It was charged that Brumfield tried to make it appear that he was the murder victim so that his wife could collect $26,000 in insurance. Brumfield, to the last, maintained a rigid silence. Insanity was the defense plea.

Measurements.

A two foot rule was given to a laborer in a Clyde boatyard to measure an iron plate. The laborer, not being well up in the use of the rule, after spending considerable time returned.

"Now, Mick," asked the plater, "what size is the plate?"

"Well," replied Mick, with a grin of satisfaction, "it's the length of your rule and two thumbs over, with this piece of brick and the breadth of my hand and my arm from here to there, bar a finger."—Everybody's Magazine.

DECISION MADE IN PEACE PARLEY

United States, France, Great Briiian and Japan Makes Treaty Known.

TO LAST TEN YEARS

The International Compact Is Vigorously Affirmed by Heads of the Four Powers—Will Cover a Ten-Year Treaty.

Washington. — A new quadruple agreement to preserve peace in the waters of the pacific was announced to the world by the United States, Great Britain, Japan and France.

As a consideration of the international realignment, Great Britain and Japan agreed to consign to the scrap heap the Anglo-Japanese alliance, long viewed with apprehension in America and Asia.

The provisions of the agreement which is in the form of a 10-year treaty are confined to the "region of the Pacific ocean." Under them the four powers are to respect each other's island possessions and to meet in consultation if a dispute arises or if the rights of any of the four are threatened by any other power.

Must Be Ratified.

Announcement of the treaty terms was made at a plenary session of the arms conference by Senator Lodge of the Ameican delegation and was followed by expressions of approval by the pleinpotentiaries of Great Britain, France, Japan, Italy, China, Belgium, The Netherlands and Portugal.

To be binding on the United States the treaty must be ratified by the senate several of whose members withheld comment pending a further study of the text. Open war was declared on it by some of the "irreconcilables" group of the Versailles treaty fight, but Republican leaders and some Democrats declared ratification was certain.

Affix Initials.

The signatures of the representatives of the powers have not yet been affixed to the document and there is an intimation that they may be withheld until the question of naval ratio has been settled definitely. The naval situation remains unchanged pending word from Tokio, but there is general confidence that approval of the American "5-5-3" plan will be made unanimous in the very near future.

In lieu of signature, the principal delegates have put their initials on the official copy of the treaty, and Senator Lodge said this act of affirmation was to be interpreted as meaning that the document has been "approved to all intents and purposes."

The treaty agreement is expected in itself to hasten a decision not only on the naval ratio, but on all the other issues before the arms conference. The delegates believe they are over the top of the hill, and a British spokesman went so far as to characterize the session as "practically the breakup of the conference," so far as major considerations are concerned.

Point Out Differences.

One of the first impulses of the senators was to compare and contrast the treaty with the league of nations covenant which so lately was the subject of a bitter senate fight. By an official spokesman of the American delegation, it was pointed out that a feature of the covenant on which the attack was concentrated was omitted from the four-power peace agreement. In article 10 of the league, the members agreed to "respect and preserve" each others territorial integrity, but in the new treaty the pledge is to "respect" territorial rights in the Pacific.

MURDERER CHEATS HANGMAN

"Lucky" Tommy O'Connor Makes His Getaway.

Chicago.—Five thousand Chicago policemen with pistols and rifles are searching for "Lucky" Tommy O'Connor, who cheated the hangman by slugging guards, locking them in cells, and holding a reign of terror over the county jail for an hour, and then leading four of his jail companions at pistol point to freedom.

O'Connor who was under sentence to hang Thursday for the murder of Detective Patrick J. O'Neill locked an assistant jailer and three guards into cells, liberated dozens of murderers, burglars and other desperate criminals from their cells, then played a cruel joke by locking all but four from the stairway which led to escape into the jail yard.

One companion who followed O'Connor in leaping from the rear jail wall broke his leg and is now held under guard at the jail.

Three Year Suspension Urged

Washington.—Suspension of immigration for three years except for husbands, wives and minor children of naturalized citizens is proposed in a bill introduced by Chairman Johnson of the house immigration committee. The present 3 per cent immigration restriction law expires next June 30. Mr. Johnson said he offered the bill to meet the views of many persons who had studied the workings of the present law and were not satisfied [illegible]

Prompt Punishment.

There was a great stampede for the omnibus. A man was pushed off the step and he and his son failed to secure places.

"Did God see that man that pushed us off?" asked the little boy.

"Of course he did."

"And will he punish him?"

"He has punished him, sonny."

"Already, father?"

"Yes, I've got his watch."—London Tit-Bits.

"MISSING" MAN WAS CONVICT

Long Mourned as Dead, English Woman Learns Her Husband Had Served Prison Sentence.

Many people, doubtless, "disappear" for reasons of their own. Debt, crime or some other hidden page in their apparently blameless lives may be the real reason for their going.

Little did the wife of a Manchester man know into what terrible entanglement her husband had got ten years before. He was thought to be a respectable merchant; his home life was happy and blameless.

One day he went out to buy a newspaper and returned no more.

For years his wife mourned him as dead, until one day during the war he came back. He was now a soldier, but his disappearance was explained by the fact that, under another name and in another town, he had been carrying on a fraudulent stock and share office—a "bucket-shop"—and had been arrested and sentenced to a long term. He was released during the war, and while serving in France had thought of the once happy wife he had so misled. Hence his sudden reappearance to a world which had almost forgotten him.—London Answers.

Took a Chance.

Rub—"What caused the motor accident?" Dub—"A short skirt and a windy day."

Don't follow the crowd if you want to be a leader.

Fools try to convince a woman but wise men persuade her.

Surrender! Never!

"Why don't you get rid of that horse, if he's so vicious?" asked one farmer of another.

"Well, you see, Jim, replied the other, "I hate to give in. If I was to sell that horse, he'd regard it as a personal victory. He's been tryin' for the last six years to get rid of me."

Surplus Loveliness.

Nutts—Artists say that five feet four inches is the divine height for women, sweetness!

"Oh, but you're more than divine!"—London Answers.

Good Reason.

A Scottish parish church was in need of a minister, and the beadle, who was rather a gawky character, was very loud in his praise of one of the candidates. This gentleman was duly elected, and proved a great success. Whereupon some of the members of the congregation asked the beadle what there had been about the candidate that so conclusively proved his good qualities.

"Oh, naething at a'," said the beadle; "but, ye see, I aye get the minister's auld claes, and he wis the only yin o' the candidates that wis about ma size."

Elaborate Carving by Monks.

A wood carving descriptive of the life of Christ, on which five monks worked for 15 years, is now on exhibition in New York. The carving, valued at $125,000, was brought to the states by Father Germanos Ageltes, one of the monks who made it in the monastery of the Brotherhood of Nicodemus, at Mount Athos, Macedonia. The composition is 28 inches high and 21 inches wide, and includes a hundred figures in high and low relief. The central figure is "The Last Judgment," reproducing in wood the detail of Michael Angelo's famous painting.

More to the Point.

The old lady could not help going to sleep during the sermon, and when the minister called upon her, he could not refrain from commenting upon the fact.

Aware of one of her habits, he said: "Why don't you take snuff during the sermon?"

"Ah!" she retorted. "Why don't you put snuff in your sermon?"

An all-day rain can make a blue Sunday blue black.

What Kind of a Day Do You Wish Yourself?

Suppose you could make a wish at the breakfast table and finally have the wish come true. Would you say,

"I want this to be a good day," or "I am willing for this day to drag along?"

If you keep on wishing your days with the food you eat, finally the wish is likely to come true.

Grape-Nuts helps your wish for a good day. Nothing miraculous; just the natural result from right food with the right taste.

There is a charm of flavor and crispness in Grape-Nuts that is like the smile of a good friend at the breakfast table—

And Grape Nuts, with cream or milk (fresh or tinned), is fully nourishing—feeding the tissues and glands, the bone and blood, with just those elements which Nature requires—building strength without any "heaviness."

Grape-Nuts is the perfected goodness of wheat and malted barley, scientifically developed—ready to eat from the package. A Grape-Nuts breakfast or lunch is a practical wish for good luck.

Our Greetings

In the Meaning of Christmas

IN THE true spirit of the occasion and with due appreciation of all it implies, we extend Christmas greetings to the readers of this publication. Christmas has a meaning possessed by no other holiday throughout the world. America has its national and special days, other countries have theirs; Christmas is the only one alike in spirit and celebrated in all Christian lands. So pure is its principle that it commands respect and admiration among people who worship their Creator in different ways from ours.

Christmas typifies all that is best in mankind. It is the culmination of the human mind throughout the ages dwelling upon the wonders and mysteries of existence, turning to a reverence for God and His representative on earth. It expresses the ascendency of spirit, the realization of men of their interdependency and their duty to one another; and so it is marked by the bestowal of gifts and other sentiments of benevolence and well wishing.

The makers of newspapers, concerned as they are with the doings, manifestations and thoughts of their respective communities and the world at large, and recording them in their more important aspects for the information, mayhap the education of readers, are brought into an intimate sense of the spirit and meaning of Christmas. Would that we could express to you all the good that we see in the hearts of men and the increased brilliancy behind a few shadows of the light which has upheld the world for so many centuries. In the happy auguries we see for the future, there is every reason to be merry.

Our Yuletide thoughts go out to the people of this community and our thanks are due the patrons and kind friends who have given us practical support or extended encouragement during the year. May this be the best Christmas you have ever spent, is our wish to all.

A STRANGE STAR

Birth of New Life Which Was to Shine Over the Earth.

Conference of the Beasts of the Nativity as Portrayed by Imaginative Writer.

"CAREFUL, Brother, thy horns! Keep thy head straight. Remember, tonight we share but the one stall between us. The man and his mate, there, have thine." The little tawny-hided ox of Palestine on the farther side leaned hard against the stable wall.

"'Tis a strange star that shines tonight," his yoke-fellow answered, sighing restlessly as he turned back his gaze from the open door. Even with care their horns clicked in the narrow space. "If men must take my bed, why did they not turn us out into the free air? The grass would have dew on it tonight—and I could watch the star."

"Ho!" snorted the little gray ass which had carried hither the woman who lay stretched on the straw between them. "What grass wouldst thou pluck from the cobblestones of the city?"

"Aye," lowed the first ox. "There is hay here; eat and be still. The star is no concern of thine."

"The star shineth on the whole broad earth, Brother. He hath the peaked hills to wander in, and the dark valleys, the fields and the towns alike. I wish I were free like the star."

"Then, like him, thou wouldst come slipping in at our stable door again. Hey, come off thy knees! We must sleep standing," his mate grunted warningly.

"Hush, Brother. There is something wondrous in my old stall! Something very small and white! It gleameth as with hoarfrost in the star's light. It hath the smell of lilies. It moveth. The star can stroke it with its long, pale tongues." He leaned longingly against the barrier which shut him away, until it creaked.

The little ass slipped his soft ears between his own bars and sniffed inquiringly. "Why, 'tis a child!" he whinnied with delight. "Children are lovely things. His small fingers will play with my mane and he will sing little songs to me as I bear him along. Look up, little Master. We will see great days together."

"There, that serveth thee right!" reproved the far ox as the woman made a quick motion toward the inquisitive nose. "Thy black muzzle belongeth in thine own manger, Brother Ass."

"She did but brush it aside," the little gray beast breathed contentedly. "She is pleased that we know her son. No fear, Brother Ox. Her husband will not take his staff to us. She is gentle, this woman of mine. Her child, too, will love us."

But the ox had not drawn back. He knelt there, his broad forehead pressed against the bars, his wondering eyes fixed on the new life which was to shine over the whole broad earth with a brighter glory than that wondering star's.—John Breck, in the Detroit News.

GROWTH OF CHRISTMAS TREE

Abandoned Farms in Foothills of Green Mountains in Vermont Provide the Yuletide Sprouts.

SINCE five million Christmas trees are annually shipped out of Vermont, it is only natural to wonder where they all come from. They must come from farms—not farms operated to produce the Christmas tree crop, but abandoned farms where the trees have planted and reared themselves.

These abandoned farms lie in high valleys in the foothills of the Green mountains. One may see sections covered by thirty-odd farms, once thriving settlements, but now all but two or three may be unoccupied. Such land, once under the plow is gradually coming back to forest. Along the fern-choked, faintly-traced furrows, young spruces come up and in the open sunshine take on a vivid green. And more than that the symmetrical branches are a lively green clear to the ground.

Christmas trees cannot be cut in areas of spruce forest because when they grow in dense clusters the under branches die for want of light, and hence the trees have no value as decorative Christmas trees.

Few, indeed, see the harvest. One or two lonely partridge hunters perhaps, will see it as it lies covered with the first early snow squalls in the mountains. But back in October, when the days have not lost all of the mellowness of autumn, a gang of twenty choppers will have been busily at work cutting the scattering young spruces and tying them with twine.

The cutting and bundling is the easiest part of the harvest, for the trees must be hauled for miles to the railroad, and at this time of year the mountain roads are nothing more than frozen ruts and waterholes. Despite this fact, however, heavy two-horse wagons and even motor trucks, bristling with great criblike bodies, struggle slowly out loaded high with the trees. Two horses are able to draw out at a load about seventy trees of average size.

At the chosen town on the railroad every disused spot is hired and a mountain of trees begins to grow, till eight thousand of them may be packed in a solid mass.—St. Nicholas.

CHRISTMAS CAROL

Music and Song Always Associated With the Yuletide.

Original Sacred Character of Carols Was Almost Lost Sight of in Thirteenth Century.

MUSIC and song have always been associated with Christmas.

In Roman Catholic countries, as early as the Third century, it became the custom to usher in the Christmas festivities with musical masses.

The practice of singing carols or canticles was supposed to recall the "In Excelsis Gloria" of the angels and the song of the shepherds on the first Christmas night.

A very old carol, published in 1521, gives an amusing description of church revelries:

A wooden child in clouts on the altar sat,
About the which both boys and girls do
dance and timely jet,
And carols sing in praise of Christ.
The priests do roar aloud!
And round about the parents stand
To see the sport, and with their voice
Do help them, and with hand.

At first, carols were generally religious in character, and were written with Latin and English words in alternate lines, or with a Latin refrain. The well-known carol

When Christ was born of Mary free
In Bethlehem, that fair citie,
Angels sang with mirth and glee
In Excelsis Gloria.

and another with a chorus,

Christus natus hodie
The babe, the son,
The holy one
Of Mary,

are good examples of this class.

When the tendency to ribaldry became marked, some of the carols got to be very peculiar in subject and language. Joseph is treated with a great want of respect, for one carol runs:

Joseph was an old man,
An old man was he,
When he wedded Mary,
The Maid of Galilee.

Another relates the story of the shepherds watching their flocks by night:

A shepard upon a hill he satt.
He had on him hys tabard and hatt,
Hys tarbox, hys pipe and hys flagatt;
Hys name was called Joly-Joly Watt.

Having been informed of the birth of Christ, the shepherd sets off for Bethlehem, and on arriving, says:

Jhesu! I off Thee my pype,
My skyrte, my tarbox and my scrype.
Home to my fellows now will I skype,
And loke unto my shepe.

In the Thirteenth century the sacred character of these Christmas songs was almost entirely lost sight of. The Puritan parliament abolished Christmas and carols altogether, but feasting and revelry returned with the Restoration.

Carol singing, which had fallen into disuse, was revived by a collection of carols published by D. Gilbert, in 1822, but caroling, which was formerly ushered in by the chiming of church bells, and the sallying forth of choirs which chanted their way round villages until their throats were hoarse and their noses red from cold and friendly Christmas potations, is now almost a thing of the past.—Tit Bits.

CUSTOMS AND THEIR ORIGINS

Numerous Yuletide Ideas Are Relics of Pagan Observance, Especially Those of Druidism.

MANY Christmas customs are relics of pagan observances, especially those of Druidism the religious system of the ancient Gauls and Britons. Groves of oaks were their chosen retreat, and today the acorn is found as a Christmas symbol on some Christmas greetings although it is not used as much as formerly.

Druidism considered mistletoe most sacred, and when growing on an oak tree, parasite as it is, it was cut with a golden knife by a priest clad in a white robe and two white bulls were sacrificed on the spot.

The Yule log in England is a relic of Druidism. Its name is considered a corruption of "wheel log," a wheel in Druidical symbolism typifying the march of the sun. The lighting of the Yule log harks back to the sacred fires kindled by the Druids at midwinter in the round towers which yet remain in many parts of Great Britain, Ireland, France and Spain. The use of the Christmas tree has descended from the German Druids. The dressing of the tree with candles and presents was a feature of their midwinter festival.

Ivy is not used for Christmas decorations, as it was once sacred to Bacchus and constituted almost the sole leafy adornment at the Roman saturnalia. The early Christian clergy desiring to wean the people from their pagan practice as far as possible, forbade the use of ivy, and the precedent still obtains.

In medieval Europe a peacock was the favorite dish for Christmas dinner. After being skinned carefully the bird was cooked. Then the skin with the plumage intact was replaced and the bird served in a manner as nearly as possible resembling real life.

Mince pies are first mentioned in 1596 as in common use at Christmas times. Authorities in the matter then said they might be eaten as early as December 14.

THE RETURN AT YULETIDE

CHRISTMAS comes and the old world turns
Fondly back to its fairy days—
Days that saw Him whose splendor burns
Bright through eras of murk and maze;
Back to the Star whose speaking rays
Wise men spied as it beckoned them
Over Judea's winding ways—
Back to the Babe of Bethlehem!

Christmas comes, and the old heart goes
Gayly back to the dear days past—
Days whose breath of the budding rose
Scents the years that have followed fast;
Back to the Star whose spell was cast
Over young eyes and dazzled them,
Filling rapt youth with a wonder vast—
Back to the Babe of Bethlehem!

Christmas comes, and the old faith lives.
Summoned back from the days gone by—
Days begemmed with the joy that gives
Mortals balm for their sob and sigh;
Back is the Star in the smiling sky,
Pilgrims haste as it urges them
On to the haven ever nigh—
Back to the Babe of Bethlehem!

Christmas! come, when the world shall go
Bounding back to the best of days—
Days when He in a manger low
Sages charmed into prayer and praise;
Back to the Star whose speaking rays
All men spy as it beckons them
Over Judea's winding ways—
Back to the Babe of Bethlehem!

—James C. McNally, in St. Louis Post-Dispatch.

Cookies for Christmas Time.

Cream one-half cupful of shortening with one cupful of sugar; add two well-beaten eggs, one tablespoonful of milk or cream, two and one-half cupfuls of flour sifted with two teaspoonfuls of baking powder and one-half teaspoonful each of powdered nutmeg and ginger. Mix and stand aside to chill for one hour. Roll out, cut into fancy shapes and bake in a moderate oven. Fancy cutters furnish an assortment of cookies and are desirable when they are to be enjoyed by children. Lacking a variety of cutters, a pastry wheel can be used, or patterns cut out of stiff cardboard can be laid on the dough, and the outlines followed with a slender knife.

Hard Christmases for G. Washington

NO ONE has told us much about George Washington's Christmases. But from the record of his life we learn how he spent some of his Christmas days.

It was a very cold Christmastide in 1777 at Valley Forge. Snow was on the hills. Everything was frozen. And Washington's army was in great need of food, clothing and shelter.

Instructions of parties of men to go foraging for food are entered in the orderly book for that Christmas day at Valley Forge, which was anything but merry for Washington.

Still more desperate were the food conditions at Morristown, in 1779, when Washington reported that his army was on half allowance and near starvation. "We have never experienced a like extremity at any period of the war," declared Washington, pleading that food be sent.

There was a welcome Christmas present for Washington and his men at New Windsor in 1780 when a big Christmas wagon came with over 2,000 shirts and other comforts made by Philadelphia women patriots—things needed by the men under Washington, who were cheerfully suffering all sorts of hardship in order that this country might be free. The Philadelphia women also raised, that year, over $300,000 in aid of the soldiers.

The fine old Colonial mansion (the Craigie house) in Cambridge, Mass., (now widely known as the home of Henry W. Longfellow), was the place where Washington spent his first Christmas as commander of the Revolutionary army in 1775. Mrs. Washington was there with him (as she was later at Valley Forge), and there was some pleasure in the midst of the heavy cares and responsibilities carried by the great Washington.

A year later Christmas day found Washington at the head of his 2,400 brave men making his celebrated crossing of the Delaware river, nine miles above Trenton. The snow and sleet were blinding, it is recorded, and the cold was intense. But hearts were brave.

Wherever he was at Christmastide, Washington was cheered with the thought that the cause of the struggling colonies would surely win. A few days before Christmas, 1776, he wrote to his older brother, John Augustine Washington: "Between you and me, our affairs are in a very bad situation. . . . However, under a full persuasion of the justice of our cause, I cannot entertain an idea that it will finally sink, though it may remain for some time under a cloud."

Washington must have had some very merry Christmases at Mount Vernon. There were no children of his own with whom Washington could romp. But we can easily imagine the big-hearted general putting on a false beard of fuzzy white whiskers and slinging a pack over his back for the delight of the little ones in the neighborhood.

General Washington was truly the "Father of His Country" and we have a very good idea of the sort of holiday spirit in which he observed the "glad Christmastide" when our republic was in its infancy.

No one in all our bright history as a nation has handed down a more radiant Christmas message of hope and faith.

CHOICE BETWEEN TWO LOVES

Can One Wonder That Malvina Turtledove Hesitated When It Came to a Showdown?

Malvina Turtledove weeped bitterly. Those dear, bright blue eyes were in danger of being washed clearer and bluer still.

She was in love!

Then she dressed hurriedly, in preparation for Jack's expected visit.

Promptly at eight he arrived.

"Jack," she breathed, "I am so worried."

"My pet, my angel, what is it?" asked Jack, in great concern.

"I have got to give one of you up, and I don't know which I love best. Can't I—" the maiden wept.

"No!" returned Jack, determinedly. "You must choose between us—he or I!"

"Jack," she wept, "show me some mercy!"

But he showed her none, and so, with a last look of love, Malvina threw her Pomeranian, Bob, out of the window and said:

"Jack, I am yours!"

ATTORNEY SURELY A WONDER

But Old Darky's Admiration Must Have Been Embarrassing Under the Circumstances.

In Alabama they tell of a prosecuting attorney who was so uniformly successful with his cases that he became both the terror of evil-doers in the vicinity and the admiration of all, especially the dusky portion of the population.

Upon his withdrawal from office he was at once sought out by those charged with crime. Much to his disgust, the first two cases that he defended resulted in the conviction of his clients. An aged darky, named Joe Clinton, who had watched his prosecutions with wonder and who looked on with equal amazement now he conducted the defense, met the attorney just after his second defeat.

"Mistah Cal," said the old chap, in awed tones, "yo' shore is a wonder. No matter which side you is on, they goes to the pen just the same."—Milwaukee Sentinel.

No Offense.

Chairman Lasker of the shipping board said, in an interview:

"These men are taking needless offense. They were taking offense where none is intended.

"A tall, gaunt, vinegar-faced woman walked into Wawa station one day and said to the ticket agent:

"'Gimme a ticket for Chester Heights.'

"'Single?' asked the agent.

"The woman's eyes flashed steely sparks.

"'None o' yer darn business,' she hissed. 'Gost knows, though, I might have married a dozen times over if I'd been willin' to grubstake some shiftless, putty-faced monkey like yerself.'"

The Height of Deception.

"Why were you not suspicious of that thief who grabbed a tray of diamonds and darted out of the door?"

"He disarmed suspicion," said the jeweler.

"Yes?"

"He said he wanted to look at some engagement rings, and the fellow acted the part so well he actually stammered and turned red."—Birmingham Age-Herald.

Couldn't Fool Him.

An Indianapolis woman was visiting her three-year-old grandson, and one day saw him standing before the mirror looking at himself, and saying:

"Yes, that's me."

"Thomas," said grandmother, "you should say, 'That's I.'"

"Well, it might be I, but it looks like me."

Surprise for Mother.

Marjory—Mamma, were you at home when I was born?

Mother—No, darling. I was at grandma's in the country.

Marjory—Wasn't you awf'ly s'prised when you heard about it?

MOTHER! MOVE CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Hurry, mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

DIFFERENT, OFF THE STAGE

Master Crook Had to Seek Ordinary Mortal to Perform What Would Seem Simple Task.

Dareham Drake, the world-famous film villain, had had a very busy day at the studios.

In the performance of part nineteen of "The Master Crook" he had deftly cut open with his electric saw five formidable safes, mastered swiftly the mysterious combinations of nine more, and with a nonchalant air had picked the lock of his prison cell.

And now, his day's work finished, he breathed a sigh of relief as he alighted from his car and reached the door of his flat.

It was locked.

Anxiously he searched every pocket of his clothes for the latchkey, but failed to unearth it.

"Here's a fix!" he groaned.

After another vain search the Master Crook walked around to the nearest locksmith's shop, flung a $20 bill into the counter and begged the unshaven man in charge to come and open his "blessed" door!

The Court Understood.

"You admit you were speeding?"

"Yes, your honor."

"A frank confession goes a long way in this court. What excuse have you to offer for exceeding the speed limit?"

"A man in a little old rattletrap flivver drove up behind me and bawled to me to get out of the way and let somebody use the street who could get more out of one cylinder than I could get out of six."

"Umph! I do a little motoring myself. I'll let you off with the minimum fine this time."—Birmingham Age-Herald.

On the Other Hand.

The late Edgar Saltus, the brilliant and satirical novelist, said one day at a New York wedding breakfast, where the bridegroom was a millionaire of forty-five:

"Our Rockefellers and Schwabs and Russell Sages married in their first youth. Well, our successful men don't marry now as early as they used to, but, on the other hand—"

And Mr. Saltus looked round the table with a bland smile.

"On the other hand, they marry oftener."

Real Dilemma.

Parker—What's wrong? You look worried.

Streeter—I am. I wrote two notes—one to my broker, asking him if he took me for a fool, and the other to Miss Golding, asking her if she would marry me. While I was out somebody telephoned "Yes," and I don't know which of them it was!

Did She Admit It?

"Well, remarked a gentleman, after a long argument on the question of man's superiority over woman, "at least there is one good, sweet and perfect thing which a man can have and a woman cannot."

"Never!" cried his wife passionately. "Never! I deny it! What do you mean?"

"A wife."—The Scotsman.

Her Only Chance.

Sleepy Eye—At a special election here a $40,000 school bond issue for the erection of an agricultural division of the high school was carried by a 2 to 1 vote.

Red Wing—Andrew M. Dahl, a pioneer stone mason of this city and a resident for almost 60 years, died here at the age of 77. Death was due to heart disease.

Hibbing—Con Kepple, who has been directing the sale of Irish bonds here, says that $10,000 of the bonds have been disposed of, and asserts they are now at a premium, locally.

Minneapolis—Captain George H. Mallon is to receive an additional war honor, the Italian war cross, according to an announcement from the Italian embassy in Washington.

Jackson—Judge E. C. Dean, in district court here, denied citizenship to four applicants because they had claimed exemption in the war on the ground that they were aliens.

Owatonna—Henry Hanson, 67 years old, wealthy and prominent farmer living 12 miles south of here, committed suicide by hanging. Despondency is believed to have been the cause.

Tracy—A corn show is to be conducted here Dec. 26 to 30. Exhibits will be received from residents of Lyon, Redwood and Murray counties, and $2,500 in prizes will be offered.

Duluth—Robert Finkelstein, 3 years old, died in a local hospital from injuries received when struck by a heavy truck, which skidded on the snow covered street and leaped to the sidewalk.

Red Wing—One man was killed and three others injured, one probably fatally, in a head on collision between a special freight and a switch engine just outside the switching yard here on the Great Western railway.

Gilbert—At a special election here to vote on the question of separating the village from the town of Missabe and on the issuing of $200,000 bonds to take up the village indebtedness, both propositions were carried.

International Falls—Selby Vance was arrested here by Sheriff Hugh Van Etten charged with passing worthless checks. He is also alleged to have raised two checks, one from 90 cents to $90 and one from $10 to $100.

International Falls—Two years ago Milford Olson swallowed a shingel nail. The nail could not be located and the incident was forgotten until now, when he was seized with a fit of violent coughing and the nail came hurtling out of his mouth.

Duluth—Drifting helplessly about in Superior bay on a cake of ice, a 12 year old schoolboy was rescued by the coast guard. After being taken ashore in a small rowboat, the boy told his rescuers he was playing on the shore ice when the cake broke away.

International Falls—Forced to leave the track because of an approaching train while walking across the Rainy river bridge, Emil Strand of Fort Francis, Ont., fell into the river and drowned. His brother, John, clung to the railing until the train passed.

Pelican Rapids—Santa Claus is going to have three additional little stockings to fill this Christmas when he calls at the home of Mr. and Mrs. Nick Johnson, who live a few miles south of here. The stork visited the Johnson home and left triplets, all girls.

St. Paul—The Minnesota state supreme court affirmed a verdict for Harold Carlson, a Great Northern brakeman, for $45,000, the largest verdict for personal injuries that has ever been passed on by the Minnesota supreme court. Carlson was injured in October, 1919, when he lost both arms and suffered internal injuries.

Cloquet—George Korpi, aged 15 years, was surprised when a black bear ran out of a hole into which he had poked his hand, expecting to start a rabbit. The lad fired a shot from the only weapon he had, a 22 calibre rifle, at the beast and then ran a mile to his home. Returning with his father a 500 pound bear was found dead.

Washington—There were 55,909 babies born in Minnesota last year. That is an increase of more than 5,000 over 1919. The birth rate per 1,000 population last year was 2[illegible]3. While that is an increase over the previous year, when it was 21.9 per 1,000, it is still below the rate for the years 1915, 1916, 1917 and 1918. In 1915 the rate per 1,000 was 24.6, in 1916 it was 24.4, while in 1917 and 1918 the rates were 23.8 and 23.9, respectively. Of the 55,909 babies born in Minnesota in 1920, there were 444 colored and 55,465 white.

Blue Earth—The body of [illegible] Johnson, who was killed while serving with the American forces in France, has arrived in Hoboken, N. J., and will be shipped to Blue Earth soon, according to word received by his parents.

Minneapolis—[illegible], professor and dean [illegible] of the University of Minnesota and recognized as one of America's leading men [illegible], died at his home. Death was due to heart disease complicated by an acute attack of pneumonia. He had been ill but [illegible] days.

FRANCE MAY ACCEPT RATIO

Further Discussion May Be Necessary to Bring Italy's Views in Accord.

DETAILS IN DISCUSSION

Naval Reduction Agreement in Announcement May Be the Outcome in Conference Circles—Further Discussion to Be Brought Up.

Washington.—An atmosphere of complete mystification envelopes headquarters of the French delegation as the plenipotentiaries waited for their experts to decipher the long cablegram from Premier Briand.

Having asked for a 350,000 ton capital ship fleet for France, the French delegation could not understand newspaper dispatches from abroad saying their premier, without their knowledge, had agreed to a strength of something like half as much as the French naval experts recommended.

The meeting of the arms conference naval subcommittee of 15 was postponed until later by Chairman Hughes upon request of M. Sarraut, head of the French delegation. The committee had been called to meet soon.

The French delegation through Ambassador Jusserand explained to Mr. Hughes by telephone that M. Sarraut had cabled Premier Briand for further instructions and that a dispatch of some length had been received from the premier that would take some time to decode. Accordingly a delay of 24 hours was requested.

Washington.—Unofficial advices from London and Paris saying France had accepted the naval ratio proposed for her by the American government created something of a sensation in armaments conference circles because the development generally was interpreted as marking one of the longest steps yet taken toward a naval reduction agreement.

Among those directly concerned in the latest phase of the ratio negotiations, there has been a confident belief all along that the Paris government would accept.

Details of the settlement effected in London between Premier Briand and Ambassador Harved had not been communicated officially to the armaments delegates but the Associated Press dispatches announcing an agreement were received with general expressions of gratification. The result it was said, would be to clear the way at least for consideration of details of the naval program and perhaps for an early conclusion of the whole conference.

Further Discussion.

Some further discussion may be necessary to bring Italy's view into accord with the five power ratio proposal, but no prolonged negotiations on that point are expected. The complete American proposal for expansion of the three cornered agreement in a five power treaty reported in the Paris unofficial dispatches provides for a ratio of 1 [illegible] for France and 1.68 for Italy as compared to the 5-5-3 already agreed on for the United States, Great Britain and Japan respectively. The Italian delegation has insisted heretofore that its government should have as large a figure as France.

Throughout the discussions, however, the Italians have shown a tendency to make every reasonable concession in the interest of harmony and it would surprise the conference if any serious hitch arose over the narrow margin that has been left between the French and the Italian standings.

OPINION STILL A SECRET

Treaty Ratification to Be Voted on by Way Members.

Dublin.—While the Dail Eireann adjourned after two long public sessions devoted to earnest debate, nothing tangible had developed to indicate how members would vote on the question of ratifying the treaty designed to set up the Irish Free State.

Immediately after adjournment the correspondent interviewed four prominent Sinn Feiners, Deputy Duggan, Mrs. Sheehy Skeffington, Tom Johnson, secretary of the Irish liberal movement and Colonel Maurice Moore. Each declared it was impossible to make any estimate of the relative strength of those favoring and opposing the treaty or to hazard a guess as to which side would eventually gain a majority.

The [illegible] as many of the [illegible] members have indicated their intention of speaking. No time limit has been set for the speech.

SAW THING IN RIGHT LIGHT

Old Mose Taylor Undoubtedly Had the Situation Sized Up, but Who Got the Dime?

"At the end of a Georgia negro meeting," says an Atlanta man, "it was decided to take up a collection for charity. The chairman passed the hat himself. He dropped a dime in it for a nest-egg. Every right hand encountered that hat, and yet, at the end, when the chairman turned the hat over and shook it, not so much as his own contribution dropped out.

"'Fo' de land's sake!' he cried. 'I has even lost de dime I started with!'

"All the rows of dusky faces looked puzzled. Who was the lucky man? Finally the venerable Mose Taylor summed up the situation.

"'Gentlemen,' he said solemnly, rising from his seat, 'der 'pears to be a great moral lesson round heah somewheah!'"—Pittsburgh Dispatch.

Lost a Sale.

"I want," said the very plain girl, "a book entitled 'Cultivate Your Natural Beauty.'"

"Here it is," said the clerk, who wanted to be sociable. "Are you getting it for a friend?"

And the very plain girl put her purse back into her bag and went right out.—From the Retail Ledger, Philadelphia.

Accident to Soldier

T. B. Folden received a telegram Thursday evening stating that his son Bergman was a patient in the hospital at Fort Sam Houston, Texas, suffering from a gunshot wound in the head and that his condition was serious.

Mr. Folden received a letter Wednesday from the captain of his son's company stating that Bergman was on a hunting trip when his gun was accidentally discharged and the buckshot struck his right cheek in a slanting way.

The captain assured Mr. Folden that his son would have the very best of care by their surgeons and nurses and that he would keep him informed as to Bergman's condition.

Safety and Convenience

Do you know that nine-tenths of the business of the United States is done by some form of check? This convenient condition is possible because the banking system of this country has been placed on such a safe basis that corporations and individuals have faith in it. The welfare of the banks depends in a large measure upon maintaining this confidence.

A checking account with this bank is an absolutely safe proposition. Your money is safer than it is in your own pocket and your check is as good as your money in any business transaction. We shall be pleased to have you open a checking account with us. You will find your account to be a means to safety and convenience.

Calicut, India—Chambarriseri Thangal, one of the two principal leaders in the Moplah rebellion, has been arrested near Mannarghat. It is believed his arrest will break the backbone of the rebellion.

BONUS MEASURE PROMISED EARLY

Congressional Schedule Provides Consideration of Compensation.

SP'CIAL TAX NECESSARY

Simultaneous Bills Likely to Provide for Payment of Former Service Men and for Means of Raising the Funds.

Washington.—Legislative plans for the present session of congress call for the enactment of bills to encourage the merchant marine, to provide some sort of bonus payment to former service men, enact permanent tariff schedules, and provide the regular appropriations which sustain the government. Representative Mondel, Republican, house leader, said on leaving the white house after a recent conference with President Harding.

No Definite Bonus Plans.

There are no definite proposals on the merchant marine or soldiers bonus which can be said to have the approval of the majority at this time, Mr. Mondell said, but the outline of the subjects to be taken up includes both matters. Every endeavor will be made in the house, he added, to have all the appropriation bills which originate there ,enacted by April 1, so as to give the senate time to consider them on final passage and adjourn the congress in June.

Hard to Find Sources of Funds.

The question of finding the source for funds with which to pay the soldier bouns, the house leader asserted, was the chief stumbling block of proposals for such a bill. Enactment of such a measure, he added, would probably require simultaneous creation of a special tax to meet the outlay.

Will Discuss Merchant Marine.

Mr. Mondell said he did not discuss with the president the "remuneration plan" for subsidizing merchant ship operation and he expressed the view that considerable discussion would be required before congressional leaders could adopt a plan of action on such a measure.

There is a possibility that President Harding will leave Washington before New Year's for a three-day trip to Pinehurst, N. C., but no definite decision as to plans has been announced.

DEBS VISITS IN WASHINGTON

Makes Known Intention to Work for Freedom of Prisoners.

Washington.—Eugene V. Debs, Socialist leader, whose 10-year prison sentence for violation of the espionage act was commutted on Christmas day, came here direct from the Atlanta penitentiary and called upon President Harding and Attorney General Daugherty.

Mr. Daugherty said Debs came of his own "volition" while Debs declared his visit to Washington was at "the request" of the attorney general and that he was given a railroad ticket to the capital by the warden of the penitentiary without choice of destination, although he had planne dto go immediately to his home at Terre Haute, Ind. He intends to to strive to have all prisoners freed.

After his conference with Debs, the attorney general declared in a statement that there were no unusual conditions attached to the commutation of the Socialist leader's sentence, that no advice was offered to Debs nor was any requested, and that he hoped Debs would devote his talents to a useful purpose.

HARDING ADVOCATE SUBSIDY

Transportation Companies to Submit Plans for Shipping Assistance.

Washington.—A final conference of officials of leading marine transportation companies with the shipping board special subsidy committee has been called for January 5 to pass upon a tentative plan formulated by the committee providin for the subsidizing of American merchant marine to insure its maintenance.

The committee was formed to study the broad question of subsidies at the suggestion of President Harding who made special reference to this method of assisting American shipowners in his message to the last congress. The plan as finally approved will be submitted to President Harding, who is expected to adopt some of its provisions in a message to congress.

Debs Released From Prison.

Washington.—The commutation of the sentence of Eugene V. Debs, socialist, is announced.

Expect Continued Opposition.

Washington.—The arms conference naval committee, which faces a perplexing situation in its efforts to agree on limitation of submarine strength, postponed its next meeting so that the French and Japanese might receive from home officials more definite instructions regarding the compromise proposal of the American government.

All indications are, however, pointed to continued objection to the American plan by both the Japanese and the French groups.

BRITAIN PLEADS AGAINST 'SUBS'

England by Herself on Submarine Question. Should be Eliminated.

TONNAGE VERY LARGE

No Intention That Capital Ship Settlement Should Be Affected—France Willing to Negotiate and Cooperate With United States.

Washington.—An 8,000 word communique by the armaments committee of the Washington conference after the last meeting was in the form of a paraphrase of the statement made for the delegation of each power with respect to the British proposal that submarines be abolished as a naval weapon. The argument of Lord Lee, of the British admiralty, came first. It stated the view of the British government "to be that what was required, was not merely restrictions on submarines, but their total and final abolishment."

Lord Lee presented the following estimates of existing submarine tonnage:

United States, 83,500; Great Britain, 80,500; Japan, 32,000; France, 28,360, and Italy 18,250.

He pointed out that under the American proposals of 90,000 each for Great Britain and the United States and 54,000 for Japan, the United States could build 6,600 tons; Great Britain 9,500 and Japan 21,800 with the other two countries in proportion.

"He felt bound to say," the paraphrase continued, "that it seemed to him very strange to put before a conference on the limitation of naval armament, proposals designed to foster and increase the type of war vessels which, according to the British view, was more open to objection than surface capital ships."

Contentions Disproved.

Lord Lee said friends of the submarine contended that it was a legitimate weapon of weaker powers and an effectice and economical means for coast lines and maritime communications. Both contentions could be challenged on technical grounds and "were clearly disproved by recent history," the paraphrase said.

Lord Lee declared that methods of location, detection and destruction of submarines had proceeded much further than the development of submarines themselves and greatly reduced their value. He said he believed Germany had used 275 U-boats in the war, of which 203 had been sunk.

In closing Lord Lee said it was not the intention of the British delegation that the settlement as to capital ships "should be affected of they failed to carry their point in regard to the abolition of submarines." The British would welcome, however, he said, any restrictions or reduction of sumarines and awaited with much interest the proposals of the French delegates.

Figures Differ.

Secretary Hughes, as chairman, intervened to say that figures of American naval experts as to existing submarine tonnage built and building for each power, differed from those presented by Lloyd George. The American figures were, he said: United States, 90,000; Great Britain, 82,464; France, 42,850; Japan, 31,400 and Italy 20 228.

RATES TO BE CUT JANUARY 1

Ten Per Cent Freight Reduction on Cotton, Butter, Poultry, Etc.

Omaha.—The railroads will put into effect on January 1 or as soon thereafter as possible their proposed voluntary 10 per cent freight rate reduction on cotton, butter, poultry, and other commodities, as well as the reductions ordered by the interstate commerce commission for western territory on grain and grain products, and hay, according to a statement issued recently by F. W. Robinson, freight traffic manager of the Union Pacific system.

The voluntary 10 per cent cut is to be effective for six months as an experiment and will apply to the entire country.

Mr. Robertson also announced the roads would continue until June 30 1922, reduced rates on livestock and that a 10 per cent cut in rates for livestock on which no cut has been made, would be put into effect.

A great reduction will be made on grain and grain products and hay, in compliance with the opinion of the interstate commerce commission in the case recently decided. These reductions apply only in western territory, the so-called west group territory, west of Chicago and east of Denver, Colo., and Cheyenne, Wyo. The reduction in wheat, wheat products and hay will be 13 per cent; on corn and corn products, reduction will be 21.7 per cent.

Objection to School Apportionment.

Washington.—Reports coming from the committee on appropriations state serious objection has been made to the appropriation for the Indian school at Bismarck. It is said the school has been violating the law and that the expenditures amount to an average of $400 a student, whereas the law fixes the limit to $250 a student. Chairman Madden has stated repeatedly that violations of the laws in respect to appropriations will not be tolerated.

PROVERBS HELD IN COMMON

Remarkable Similarity of Ideas Noted Among Nations, Both of the Old and New World.

The similarity of ideas all over the world is found in the similarity of expressions to convey the ideas. The old English proverb "A fool and his money are soon parted," finds its counterpart in the phrase, "There is no medicine for a fool." But the Japanese also claim that by good management they can do something even with fools, when they say, "Fools and scissors move according to the mode of using them." Some of us carry our Latin with us all our lives, just because we had a good teacher. To these, the old Latin saying, "The eagle does not catch flies." (Aquila non capit muscas) will recall old memories of the pride and sarcasm of the Romans. So also will they be pleased to read the Japanese aphorism, "The falcon does not peck at ears of corn," which is true, as falcons, especially those of the peregrine type, are much more likely to seize and carry small animals like lambs, rabbits, chickens.—Philadelphia Ledger.

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

HAVE NEW RINGWORM CURE

Roentgen Rays Are Being Used Successfully in Treatment of Most Annoying Affliction.

Ringworm is now successfully treated by removing the hair with Roentgen rays and then applying a lotion which will penetrate the hair follicles and kill the parasites that are the cause of the trouble.

Drs. Howard Fox and T. B. H. Anderson, both of the United States public health service, described in the Journal of the American Medical Association the latest technique and cite a few of the strange results that have followed when the new hair grew in again.

They have observed that sometimes a golden-haired child is transformed into a brunette, a straight-haired into a curly-headed and the kinky wool of negroes becomes straight. But they express much doubt as to the permanency of these changes.

Taking Precautions.

A tourist in Scotland came to a wide river. It was a stormy day and the wind was constantly increasing, but he asked a boatman to take him across. The latter agreed to do so, if the tourist would wait until he'd take his cow over.

Later, as they were nearing the opposite bank, the tourist asked: "Will you tell me why you took your cow over and made me wait?"

"Well, now," explained the old fellow, "ye see the coo wur valuable, and I feared th' wind wud increase so the boat might upset on the second trip."

Man is a miniature universe; all things exist in him tinged with the manners of his soul.

After finding out a man's real disposition, make allowances.

TAKE ASPIRIN ONLY AS TOLD BY "BAYER"

"Bayer" Introduced Aspirin to the Physicians Over 21 Years Ago.

To get quick relief follow carefully the safe and proper directions in each unbroken package of "Bayer Tablets of Aspirin." This package is plainly stamped with the safety "Bayer Cross."

The "Bayer Cross" means the genuine, world-famous Aspirin prescribed by physicians for over twenty-one years.—Advertisement.

OCEANS HARD TO IMAGINE

People of the Middle Ages Found It Difficult to Conceive Extent of Waters.

Eratosthenes was right; the earth was a globe. But what philosopher ever imagined that it was so large! Homer was right when he sang of the "mighty flood," but he was thinking of the insignificant Mediterranean. What poet had imagination enough to picture the vastness of the Pacific! Many had surmised the truth, but none had realized its extent. When the caravels of Columbus had sailed and returned the wise ones of the Renaissance were astonished by the story brought home. It seemed impossible that there could be so much water. And still the girth of the seas was uncomprehended. It was only when Magellan's Santa Vittoria had circumnavigated the globe and dropped anchor in the Bay of San Lucar that a realization of the world of water began to dawn. The Atlantic was astonishing enough in all conscience; but the Pacific was overwhelming and dumfounding.—John C. Van Dyke.

Mysterious Stove.

At a recent electrical exposition a "mystic stove" attracted no little attention. This idea is by no means new; in fact, in one of its most spectacular forms it consists of a kettle of water boiling on a cake of ice. The solution of such mysteries is powerful magnetic induction, which causes the generation of powerful electric current in the pot, pan or kettle. The layman is, of course, greatly mystified, since water can be boiled, eggs fried, and so on, with no visible source of heat. The hand can be passed over the tapestry-covered table without feeling any trace of heat.—Scientific American.

Ancient Taxicabs.

The Chinese claim that about six centuries ago they had invented a carriage or cart which had mechanism so arranged that a pebble was dropped into a box for every mile the vehicle traveled. The first contrivance similar to the taxicabs in comparatively modern times made its appearance in the early part of the Seventeenth century in England in the shape of a "way-wiser" attached to an ordinary stage coach. This measured the number of rods and miles traveled. Other similar inventions were produced in the next hundred years or so, but they did not come into favor either with the traveling public or the proprietors of coach lines and liveries.

Two Tunes.

Ambrose, the piano tuner, had tuned the piano, and found it in good condition.

A few days later he received a letter from the owner of the piano, stating it had not been properly tuned.

The tuner made another trip, and tested every note, only to find no fault with the instrument.

He told the lady so.

"Well," she said, "it does seem all right, doesn't it, when you play on it; but as soon as I begin to sing it gets all out of tune!"

Famous London Street.

Grub street, London has been renamed Milton street. It was a street in which many writers lived who had not yet "arrived," so, because a general name for the haunts of needy writers.

Human Nature Much Alike.

History and geography are not always the truest guide to a people's character. A great deal of the human nature of men is displayed in the local sayings and aphorisms; this will also tell us how human all races are. The remark of Valentine in the "Two Gentlemen of Verona," "that homekeeping youth have ever homely wits," finds its companion in the Japanese phrase "Kawai Ko Ni Wa Tabi Wo-Sase (a pet child should be made to travel). A sentiment agreed to by all persons, except the fond mother and the pet. The Japanese express their contempt for the petted child even more strongly when they say: "A grandmother's pet is three sen cheaper than other boys."—Philadelphia Ledger.

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Delavan—A new American Legion post, No. 468, has been organized here to be known as Edwin Holt post.

Marshall—Will Banford, a farmer, had one of his hands severed at the wrist while working with a corn picking machine.

Virginia—Carlo Gobatz, charged with arson, was found not guilty by a jury in district court after five hours deliberation.

Fergus Falls—Turkey bandits have been doing a big business in this neighborhood, having robbed a dozen farms in the last week.

Virginia—A fight for lower freight rates has been inaugurated by the Virginia Merchants, Wholesalers and Manufacturers association.

St. Peter—Professor E. G. Svenson, field secretary for Gustavus Adolphus college, has tendered his resignation to the board of directors. No successor has been named.

Dundee—Robbers visited a local garage and made away with the entire stock of new automobile tires which had just been received. Nothing else was disturbed.

St. Peter—All former records were shattered at the second annual show of the Nicollet County Poultry association, at the St. Peter armory. The entries totaled 420 birds.

Gilbert—Two families were driven outdoors into subzero weather with only their nightclothes on when fire broke out in a department store. The loss was estimated at $10,000.

Fairmont—Seventy-six persons have paid $1 each for trappers licenses in this county. Some farmers have announced they intend to recoup their losses on grain by fur hunting.

East Union—A large number of friends greeted Mr. and Mrs. A. P. Melquist, residents of Carver county for over 50 years at the celebration of their golden wedding anniversary here.

St. Peter—Funeral services for the three members of the Netzke family, killed as a result of an explosion at their home near Nicollet, were conducted from the Trinity Lutheran church, at Nicollet.

St. Cloud—Rt. Rev. Barnard Richter, formerly pastor of the cathedral at St. Cloud, but since 1894, rector of St. Boniface at Melros, the largest Catholic church in Stearns county, died at the age of 58.

Fergus Falls—The turkey crop has been the most profitable crop raised on Minnesota farms this season. During the last two days a total of more than $17,000 has been paid out by one firm in this city for turkeys.

Slayton — S. A. Baldridge, 58, of Lake Wilson, received a broken shoulder and Harlow Holbrook, 35, of Chandler a broken arm and internal injuries when a gravel pit caved in on them south of Lake Wilson.

Pipestone—A peace pipe made of red pipestone has been sent to President Harding as a gift from the Boy Scouts organization of Pipestone. The pipe is a fine specimen of the sacred Indian pipestone from the quarries here.

Fergus Falls—A wolf chase across Citherall lake in an automobile led Oscar Anderson to his death when the machine he and three other companions were riding in plunged through thin ice and sank in 100 feet of water.

Red Wing—Bandits, who held up the cashier, assistant cashier and a customer in the Farmers State bank at Welch, 13 miles north of here, and got away with between $1,500 and $2,000 in cash, are believed to have made good their escape to St. Paul.

Ortonville—The Big Stone County Livestock association was organized here at a meeting attended by farmers, bankers and businessmen from all over the county. It was decided to incorporate with a capital of $100,000, under chapter 23, laws of Minnesota, 1921.

Luverne—Robbers rifled the drawer of the Omaha depot at Beaver Creek, nine miles west of here, cut the mail sacks, broke into both elevators and a freight car, and opened express packages. There was little cash taken, but how much else is not known.

Duluth—With the final adjustment arranged, two of the largest claimants against the United States railroad administration have been satisfied, counsel for the administration report. The payment to the Northern Lumber company of Cloquet, with insurance, totals $1,082,426.23; the Cloquet Lumber company, $653,000.

Gilbert—Northern Minnesota witnessed its first organized protest against the 18th amendment here when citizens of 22 towns in the eighth congressional district met in mass meeting. Senator Mike Boylan was named chairman for the eighth district of the Minnesota Sanity league and W. D. Hayes was named secretary. Both live in Virginia. Horace G. Whitmore of Minneapolis, state chairman of the league, addressed the meeting. He announced that meetings will be conducted in every town of the district next month when voters will be enrolled to carry on the fight.

Solway—Solway lodge of Odd Fellows dedicated their new hall with appropriate ceremonies. Bemidji and other towns sent large delegations.

Jackson—Vernon Peterson, 17 years old, convicted of manslaughter, was sentenced to an indeterminate sentence in the St. Cloud reformatory by Judge E. C. Dean in district court here.

St. James—The annual poultry show of the Watonwan County Poultry association will be conducted here Jan. 9, 10 and 11, President C. N. Fuller announced. Liberal cash prizes are offered.

Owatonna—Members of township units of the Steele county farm bureau will act on a proposition looking toward the abolition of due bills and "tin money" at meetings within the next month.

Austin—Mower county commissioners sold $25,000 4¾ per cent ditch bonds at a premium. This is said to be the best sale of any municipal or county bonds in Minnesota since prewar times.

Austin—The Mower county commissioners are now advertising for bids on the largest road contract ever let by this county. The bids asked for are on grading a stretch of 58.5 miles of highway.

Blue Earth—The county commissioners of this county have let the contract for gravel surfacing of 19 miles of highway between Winnebago and Wells, passing through the villages of Delavan and Easton.

Ivanhoe—The merchants of Ivanhoe have decided to take the corn held by the farmers at a premium of 10 cents a bushel up to Jan. 15. The farmers will receive credit on old or new accounts for all corn they bring.

Moorhead — Mary Hartman of Barnesville, whose husband, James Hartman, was convicted in the Clay county district court of trying to kill his wife with a hammer on June 7, has instituted proceedings for a divorce.

Luverne—Fire, believed of incendiary origin, destroyed the barn and contents on the farm of Joe Brandenburg, in the northern part of this city. Some time ago a note was found in the barn, threatening its destruction.

Rochester—J. H. Seewald of this city shot a 15 pound jack rabbit which had a ring in one of its ears. He is now eager to hear from the person who "ringed" the rabbit and when it was done, because of the animal's size.

St. Paul—A. M. Cleland, general passenger traffic manager of the Northern Pacific railroad, will retire within the next month, it was made known. For 20 years, Mr. Cleland has been one of the best known figures in Twin City railroad circles.

St. Paul—Employment of 367 farmers on winter state road work in Traverse county is reported to the state highway department by Helmar Hanson of Wheaton county, highway engineer. His report expresses satisfaction over the results of the work.

Sauk Center—The meeting of the Northern Minnesota Editorial association will be conducted here Thursday, Friday, and Saturday, Jan. 26, 27 and 28. It is expected that 75 members of the association will be present and a number of prominent speakers will be heard.

Minneapolis—To avoid mistakes and to carry out a decentralization program, newly appointed postmasters in Minnesota will go to school in Minneapolis, beginning Jan. 1, under the direction of government experts, according to orders received by Postmaster E. A. Purdy.

Red Wing—John F. Erickson, father of William Erickson, probate judge of Goodhue county, and of George Erickson, editor of the Northern News, Spooner, died at his home here after a long illness. Mr. Erickson, who was born in Sweden 74 years ago, came to Red Wing in 1873.

St. Paul—Charles M. Babcock, state highway commissioner; John H. Mullen, deputy commissioner and chief highway engineer, and C. L. Kipp, construction engineer, are in Little Falls, where Morrison county commissioners are opening bids on 10 miles of paving on state trunk highway No. 27 between Little Falls and Royalton.

Pipestone — The Pipestone high school debating team won a unanimous decision of the judges over the Slayton team in a debate here. The Pipestone team supported the affirmative of the question, "Resolved, that the United States government should regulate by direct control, the price of coal in peace times, constitutionality granted."

Owatonna—Steele county farmers will plant corn heavily in the expectation of raising another bumper corn crop, it has been learned here. Answers to a questionnaire sent out by the state farm bureau federation indicate that this county, which is one of Minnesota's leading dairying and pork raising counties, has use for all the corn it can raise.

Minneapolis—Crazed with moonshine liquor and resentful because he had rebuked them for using violent language when the gates stopped them from making the crossing at Washington av. and Erie st. SE., two men shot and killed Lawrence Hogan, aged Milwaukee railroad flagman, according to the confession of one of them now held in the city jail, Captain Frank Brunskill, head of the detective bureau, said.

Redwood Falls—Frank Donlon, aged 25, Bayfield, Wis., was arrested here charged with issuing forged checks. At his examination in municipal court he was bound over to the spring grand jury and was sent to the county jail.

St. Paul—Disagreement among the heirs of Mrs. Mary T. Hill, widow of Mr. James J. Hill, over the disposition of their mother's estate, grew into a legal contest, when Louis W. Hill, chairman of the Great Northern railroad, filed application in the Ramsey county probate court for his appointment as administrator.

VICTIMS LURED THROUGH PARTIES

Members of Sicilian Camorra Deal Out Swift Death in Variety of Forms.

NEMESIS ON TRAIL

Band of Italian Murderers Being Run to Earth by Head of New York Detective Squad, Fellow Countryman.

New York.—The Sicilian camorra can put to shame any ordinary earthquake or tornado when it comes to dealing death in various forms, evidence collected by the Italian detective squad of the New York city police department indicates.

A list of 200 suspected Sicilian killings in New York city alone recently has been compiled. In addition to these there were 70 similar killings in Detroit, 4 in Buffalo, 5 in Syracuse, 4 in Denver, 20 in Chicago and more in other cities of the country.

These Camorra killers do the deadly work assigned them in a neat and orderly manner, leaving no evidence. They are inclined to make rather a social affair of such a murder, as in almost every instance they have lured their victims by promises of a pleasant party. The parties are always provided just prior to the sudden and violent demise of the guest to whom marked attention is paid.

Often Work in Daylight.

No expense is spared to make these affairs real events, in most instances. Weddings, dinners, duck hunts and automobile rides have been used as means to decoy victims out of their own neighborhoods and to lonely spots where the murders have been committed most efficiently. There are exceptions, of course. In a rush a murderer cannot always be expected to provide entertainment for his victim.

For instance, eleven quick daylight murders were committed, on different dates, at the corner of Grand and Chrystie streets, as crowded a junction almost as exists in New York city. Detective Sergeant Michael Fiaschetti, head of the New York city Italian squad, believes that the confession of one Bartolo Fontano, a handsome, youthful, roving barber, will help to clear up more than a hundred of these murders, but he admits that he does not hope to obtain convictions in all cases.

Deal Out Swift Death.

BLIND MAN ROBS BLIND PAL

Sells Watch to Bartender for $18 and Is Convicted in Brooklyn Court.

New York.—Christian Schneider, a blind man, was found guilty in the court of special sessions, Brooklyn, of the theft of a watch, with raised figures, belonging to Peter Fesselmeyer, also blind.

Fesselmeyer and other blind men, it was testified, slept in Schneider's room on the night of November 2. Fesselmeyer said he could not find his watch the next morning, but eventually discovered that it had been sold to a bartender for $18.

Schneider said Fesselmeyer gave him permission to pawn the watch to get money for Schneider's room rent. This Fesselmeyer denied. Sentence was suspended.

THIEVES STEAL A REMBRANDT

Carry Off 200-Pound Safe Which Contained Panel Painted by Famous Master in 1643.

London.—Thieves broke into the house of Mr. Fletcher of Upper George street, Bryanston square, London, W., and carried away from a bedroon a safe weighing nearly 200 pounds and containing the Rembrandt panel "The Adulteress Before Christ." The picture is dated 1643 and measures 10 by 7 inches.

The theives also took property consisting mainly of jewelry and furs to the value of $10,000 and bank and treasury notes.

Mr. Fletcher is well known on concert platforms, while Mrs. Fletcher is a writer

Age of the Earth.

That fascinating and mysterious substance, radium, has stepped into the arena of science in a new part, the part of time-measurer. Lord Kelvin—it seems only yesterday—was content to take the heat of the sun in order to determine the age of the earth. Then came the saltness of the sea as another standard. Both are scrapped. All we have to do now is to find out how slowly uranium gives off radium and how slowly radium breaks itself up into helium or lead and you can then take your choice of any period for the age of a habitable earth as from 10,000 to 20,000 millions of years.

Views of One.

"Then you think a man can't live entirely on peanuts?"

"No, it's a shell game."

Playthings.

What a rattle is to a baby a title is to the heiress.

True.

My neighbor and I were discussing our husbands' likes and dislikes in food while Robert was playing with his tops nearby.

Neighbor said: "My husband doesn't like chicken at all."

Up piped Robert: "Why, that's funny, isn't it? Most men like chicken."—Exchange.

Origin of "Canard."

Canard, the French for duck, has come to be used in characterization of incredible items in the newspapers, and is a word of curious origin. Many years ago a story went the rounds of European journals recounting an alleged experiment in the voracity of ducks. It was said that ten had been taken and one killed and fed to the remaining nine. Of the nine one had been killed, cut into pieces, and ravenously devoured by the eight. Another having been chopped up was gluttonously gobbled by the seven. And so there finally remained only one duck which perforce must have eaten the other nine! This yarn gave rise to the word "canard" when an improbable or ridiculous story was printed.

High Prices.

The night cashier overheard a peculiar conversation in Beaver Crossing the other day. A farmer was in a store buying some groceries. "Want any flour?" asked the grocer. "No, flour's too high. I can git along without it." After a while the grocer said: "Sold your wheat, Bill?" "Nope; I'm going to hang onto mine; they ain't payin' nothin' for it yet."—St. Louis Globe-Democrat.

Gets Big Position

Mr. Emil Rumreich another U. C. C. student was promoted to be Division Chief of the Internal Revenue Department (with headquarters in the Federal Building Grand Forks). This is a big job and only a young man schooled in the knowledge of accounts could handle it. It was the business knowledge we taught him that enabled him to advance to this big job. Miss May Whitson, a former school teacher, after taking our private secretary course went to a position paying $1320 a year at the very start. Safety and Convenience

Do you know that nine-tenths of the business of the United States is done by some form of check? This convenient condition is possible because the banking system of this country has been placed on such a safe basis that corporations and individuals have faith in it. The welfare of the banks depends in a large measure upon maintaining this confidence.

A checking account with this bank is an absolutely safe proposition. Your money is safer than it is in your own pocket and your check is as good as your money in any business transaction. We shall be pleased to have you open a checking account with us. You will find your account to be a means to safety and convenience.

Minnesota Leads

Minnesota ranks second among the states in miles of roads built, under construction or under contract for construction, in conjunction with federal aid funds. The goverment bureau of public roads so reports in a new bulletin covering the period from July 1, 1916. A big part of the 5--year showing, however, was made during the eight months the Babcock good roads plan has been effect.

Minnesota is credited with 1713.4 miles of such roads at an estimated cost of $17,509,911.91 including $6,947,373.63 of federal aid. Wisconsin similarly is listed with 986 miles, South Dakota 676.7, North Dakota 999.5, Iowa 1,509.2 and Montana 680.3 Texas, the only state to lead Minnesota, is credited with 2,485.7 An earlier bulletin put Minnesota first for largest mileage of Class A roads under federal aid laws The lists cover al the important and expensive highway undertakings.

FOLLOW WHEN YOUR BLOOD IS PURE

Here is Advice You Cannot Afford to Overlook

St. Paul, Minn.—"I can highly recommend Dr. Pierce's Golden Medical Discovery as a splendid tonic and blood purifier. In my boyhood I was afflicted with breaking out on my face, but after I took the 'Golden Medical Discovery' to tone up my system the pimples disappeared and I have never had any since. I have also known of others who have taken Dr. Pierce's Golden Medical Discovery with great benefit as a blood purifier and tonic, and I therefore have no hesitancy in recommending it as a reliable medicine for anyone to take who has impure blood or is in a run-down state of health."—W. MOTHER! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

FARMERS NEED STRONG ALLIES

President Howarb of Farm The Farm Bureau Proud of Tie with Railroads

DENIES ANY SECRECY

Leader of Great Organization Shows LaFollette Wrong in Impugning Motives of Financial Conferences.

Fargo.—"Rather than being ashamed of the conferences that I held with representatives of the railroads, together with other farm organization leaders, which have been criticized by Senator Robert M. LaFollette, I am proud of the part that I played in those conferences and the results that have been obtained through them," said James R. Howard, president of the American Farm Bureau federation before the annual convention of the North Dakota Farm Bureau federation here.

"As a result of the conference which Mr. LaFollette has charged as being secret, we secured a saving of 10 per cent through freight rate reductions on farm commodities. This agreement will run for six months and the saving for this six months period will amount to more than $100,000,000. I have no apologies whatever to make for helping to make such a saving to American farmers."

Hope Lies in Co-operation.

Mr. Howard departed somewhat from his prepared speech and discussed the LaFollette incident at some length and in some detail. He declared that the hope of American agriculture lay in perfecting farmer-owned and controlled co-operative marketing machinery; that the farm bureau believed in an economic rather than a political solution of the farmers' problems; that freight charges must be further reduced in order to bring North Dakota agriculture back to normal; that agricultural organizations must drop petty jealousies and work together for the common good of the farmer and the consuming public; and that the agrarian "bloc" must be supported in order to secure justice for agriculture in Washington.

No Secret Meeting."

"The fact is there was no attempt at a secret conference," said Mr. Howard, in discussing LaFollette's charges. We did have conferences but there was nothing that could in any way be construed as collusion. Statements were given out absolutely covering everything that was done at the conference.

"This charge by Senator LaFollette that we have done wrong in holding conferences with the railroads is typical with many such charges that have been made against me and against the farm bureau.

"We have been accused time after time of being in collusion with 'big business.' I have sat in with the representatives of many of the great interests. We have conferred with the heads of the railroads, with steel men, with lumber men, with the large manufacturers, with newspaper men, and with many others. But I have always considered that I had a right there because I represented a bigger business than any of them.

Prepares Public Letter.

"I have always taken it for granted that every interest is more or less dependent on every other interest, and much of the success of the American Farm bureau has been through those very conferences. By putting our case sanely and intelligently before the great interests that are more or less dependent on agriculture, we have got results."

Mr. Howard announced that he had prepared an open letter ot Mr. LaFollette, covering every detail of the conferences in which the latter had charged collusion, which would be made public through the office of the American Farm Bureau federation at Chicago.

The Resolution.

"Whereas, there is a world surplus of wheat of approximately 12 per cent of normal, and

"Whereas, the trend of prices of farm products indicates that the cost of production of wheat can scarcely be attained in 1922, therefore

"Be it resolved, that the North Dakota Farm Bureau federation go on record as favoring a substitution of other crops such as forage, corn and potatoes for wheat to the extent of approximately 12 per cent of the usual wheat acreage. This change in acreage is in accord with principles of good farm management and seems desirable from the standpoint of prospective prices for wheat."

Group Insurance Popular.

New York.—Many railroads of the country soon may insure their employes, it was indicated after the Delaware & Hudson company announced it had taken out group life and permanent disability insurance for every one who has been on its payrolls six months or more.

Other railroads are negotiating for similar protection for their employes.

The company pays the entire cost and the men to select their own beneficiary.

DRUG DREAMS CALLED MYTH

Research Has Shown That Habitual Users of Opiates Can Do No Lasting Good Work.

The gulf between the songs of poppies that breathe of sleep, the golden and green dragons, and the ecstatic dreams that mark the "literature" of drug addiction and the dismal side of the vice which the police behold, is brought out in an article by Dr. Carlton Simon, who emphasizes in the Scientific American the fact that opium, hasheesh, cocaine, heroin, morphine and the rest are far from lyrical.

"From the standpoint of the police," he writes, "all the romance of the songs and short stories is swept away on the fumes of a drug which brings depression, poverty, despair, and death." It has long been suspected that the drug dream, as a literary motif, was much overrated. By the time the addict is able to write of his visions—if he has them—after a debauch, he is ill and purposeless and ready for another dose. For anybody but a DeQuincey a sniff is inspiration enough for a drug poem or tale. Go further, and the dreams vanish in a loathsome reality.

Knowledge.

Edward, age four, fell and hurt himself, and his mother fully expected him to cry, but was agreeably surprised when he did not.

"Oh, you are a little man, aren't you? Men don't cry," said his mother.

"No, but they cuss," Edward said, knowingly.

Speech is truly free only when the vast majority want to hear it.

When a man says "I'll think it over," he has already decided.

HIS GOOD BUSINESS SENSE

Easy to See That This Restaurant Proprietor Will Succeed in His Line of Trade.

First Guest—Hi, waiter, open that window, please. I can't stand this heat.

Waiter—D'rectly, sir. (Opens the window.)

Second Guest (a little later)—Waiter, there's draught enough to give one a death of cold. Do shut the window.

Waiter—Yes, sir. (Shuts the window.)

First Guest—Waiter, are you mad? Why have you closed the window? Open it again at once.

Waiter—Very good, sir. (Goes to proprietor.) Sir, one of the gentlemen wants the window open and the other wants me to shut it. What am I to do?

Proprietor—Do what the gentleman says who hasn't dined yet.—Peterson's Weekly.

Fur Beavers.

The government forest rangers report a great number of beavers this year, and the indications are that there will be plenty of skins for furs unless the laws which now protect the animals are greatly relaxed. Two years ago in the Cochetopa forest in Colorado there were 200 beavers, estimating four or five to a house, which is a conservative estimate. This year there are 12,000 animals. Beavers have complete protection in 25 states and have become so numerous that they are a nuisance.

The fewer friends a man has the more popular he is with himself.

Amiability often invites impertinence; but risk it, anyway.

"Those Who Dance Must Pay The Fiddler"

There's a settlement in profit or loss, for nearly every indulgence.

Sometimes the pay day is long deferred, and in that case the settlement may bear compound interest.

Often a payment in ill health is required for the dance had with tea or coffee during earlier years. Sometimes the collection comes in sleeplessness, sometimes in headaches, sometimes in high blood pressure, or in nervous indigestion—sometimes in all these penalties.

Nerves won't always stand the whipping of tea and coffee's drug, caffeine.

If you've been dancing to tea or coffee's fiddling, why keep on till payment time comes? If you're beginning to pay, now, why not cancel the contract?

There's an easy and pleasant way to avoid tea and coffee's penalties, as thousands have found who have changed to Postum. It is a delight with any meal—rich, comforting and satisfying—and it never harms. Even the little children can have a breakfast cup of Postum, with no fear for what may happen to sensitive nerves.

Instead of paying penalties for your meal-time drink, let it pay benefits to you, by giving natural health a full chance—and begin the new arrangement today. Any grocer will sell you, or any good restaurant will serve you Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum *for* Health

CRAMPS, PAINS AND BACKACHE

St. Louis Woman Relieved by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I was bothered with cramps and pains every month and had backache and had to go to bed as I could not work. My mother and my whole family always took Lydia E. Pinkham's Vegetable Compound for such troubles and they induced me to try it and it has helped me very much. I don't have cramps any more, and I can do my housework all through the month. I recommend your Vegetable Compound to my friends for female troubles."—Mrs. DELLA SCHOLZ, 1412 Salisbury Street, St. Louis, Mo.

Just think for a moment. Lydia E. Pinkham's Vegetable Compound has been in use for nearly fifty years. It is prepared from medicinal plants, by the utmost pharmaceutical skill, and superior methods. The ingredients thus combined in the Compound correct the conditions which cause such annoying symptoms as had been troubling Mrs. Scholz. The Vegetable Compound exercises a restorative influence of the most desirable character, correcting the trouble in a gentle but efficient manner. This is noted, by the disappearance, one after another, of the disagreeable symptoms.

Not From the Heart.

He had come home with a breath—one of those breaths that makes a fellow about as popular with his wife as a fly in a candy kitchen. The Missus had company and tried to ease him through the hall to the kitchen, but he was feeling jovial and wished to say cute things. So he paid his wife an unusually high-powered compliment.

"Huh!" she blurted. "That didn't come from the heart. That come from a bottle!"—Indianapolis News.

Far From It!

"Was that your wife I saw you with last night?" "I should say not! That was a friend of mine."

HAPPENINGS IN GOPHER STATE

News From All Parts of Minnesota Given in Condensed Form.

EVENTS BRIEFLY TOLD

Where Busy Readers Will Find News From All Parts of State Tersely Chronicled for Their Benefit.

Eveleth—A school for scoutmasters will be started here the middle of January. It will be the only one of its kind on the range.

Blue Earth—Dragged about 60 yards by a runaway horse when he had the halter about his waist, the 10 year old son of Mr. and Mrs. Ira Nelson suffered serious injury.

Luverne—Owing to the erection of the armory on the former city skating rink site, the local school board will flood the central school square for a municipal skating rink.

Chisholm—J. H. HcNivan has been appointed municipal judge here to fill the vacancy caused by the death of Samuel Cooke. The appointment was made by Governor Preus.

Gilbert—Two families were driven outdoors into subzero weather with only their nightclothes on when fire broke out in a department store. The loss was estimated at $10,000.

Blue Earth—Mrs. Jane Franklin, 87 years old, who came to Blue Earth in 1860, is dead at her home here. She is surveyed by a son, E. F. Franklin, and a daughter, Mrs. A. W. Wise

St. Paul—By a vote of 21,549 to 16,123, voters refused to adopt the proposed new city charter. To win this special election, the new charter would have required 60 per cent of the votes cast. It failed to obtain a maority by 5,426.

Canby—Rev. Olaf Hoel, for many years pastor of St. Paul's Norwegian Lutheran church here, celebrated his 80th birthday. A large number of pastors from the surrounding territory gathered here to assist the aged pastor in observing the day.

Hibbing — Attracted by reports of alleged discoveries of gold in northern Minnesota, John A. Moe of Fairbanks, Alaska, mining operator, arrived here to make investigation of the claims with a view of offering capital for development.

Jackson—Jackson's new white way system in the business district of the city is now in full operation. There are 66 lights in the system and it was installed at a cost of $10,000 after the people had authorized the issuance of bonds for the improvement.

Willmar—The money has been secured for the carrying on of the proposed street paving project in Willmar during the summer of 1922. Three loan companies have agreed to take the city's certificates to the amount of $300,000 at par, the certificates to bear 6 per cent interest.

Minneapolis — The number of divorce cases in Hennepin county has almost doubled in 1921, while the number of marriage licenses has fallen off approximately 20 per cent from the 1920 figures, according to the annual report of the Hennepin county district court issued by Walter A. Ryberg, clerk.

Hibbing—Basing the prophecy on the fact that within recent weeks more than 100 applications had been received for licenses to prospect for iron ore on state land on the range, D. C. Bow, deputy state superintendent of mines, declared his belief that the new year would witness discovery of additional bodies of iron ore on the range.

Fairmont—A large touring car in which were six young people crashed into a horse and buggy. The horse was thrown off the road, over a fence and into a field, with both hind legs broken, and had to be killed. The automobile landed nose down in a ditch, with broken radiator and fender, but none of the occupants were hurt, nor was the driver of the buggy injured.

St. Paul — Minnesota's law taxing national banks on their capital is to be held valid unless and until the federal courts overrule it, says an opinion from the state's legal department. The United States supreme court decision in the Virginia case does not touch the Minnesota law, it was held, and national banks should continue to pay state taxes on the same basis.

St. Paul—Minnesota ranks second among the states in miles of road built, under construction or under agreement for construction in conjunction with federal aid funds distributed by the bureau of public roads, Department of Agriculture, since July 1, 1916, according to figures made public by that department. Minnesota is credited with 1,713.4 miles of such roads, at an estimated cost of $17,509,911.01, with federal aid of $6,947,373.63.

Red Wing—Edward Snow, a farmer living on the Red Wing-Ellsworth road having selected five of his best hogs for market, had them in a separate pen, ready to load. In the night some person or persons drove up to the pen and loaded them into a conveyance and drove away.

Red Wing—John F. Erickson, father of William Erickson, probate judge of Goodhue county, and of George Erickson, editor of the Northern News, Spooner, died at his home here after a long illness. Mr. Erickson, who was born in Sweden 74 years ago, came to Red Wing in 1873.

Sherburn—Patrick Kelm, aged 49, died here as the result of a fall of 10 feet in a local garage.

Duluth—With a pistol gripped in the right hand, the frozen body of John Saarela, aged 35, was found in an alley here. Police believe he committed suicide.

Winona—A free dental clinic for school children of Winona county will be opened at the state teachers' college here under the auspices of the Winona county public health association.

St. Paul — The Macalester college endowment fund, collection of which was begun two years ago, totals $1,035,000, President E. A. Bess told the board of trustees at the semi-annual meeting.

St. James—The annual poultry show of the Watonwan County Poultry association will be conducted here Jan. 9, 10 and 11, President C. N. Fuller announced. Liberal cash prizes are offered.

Austin—Mower county commissioners sold $25,000 4¾ per cent ditch bonds at a premium. This is said to be the best sale of any municipal or county bonds in Minnesota since pre-war times.

Austin—The Mower county commissioners are now advertising for bids on the largest road contract ever let by this county. The bids asked for are on grading a stretch of 58.5 miles of highway.

"tie-'em-up" robber is operating in southern Minnesota. The bandit operated in Rochester a few weeks ago, later at Mankato and last week he tied up and robbed Mark Leach at Red Wing.

Willmar—Rev. Walter H. Stowe has been installed as rector of St. Luke's Episcopal church here. Bishop McElwain officiated and at the conclusion of the ceremony, confirmed a class numbering 21.

St. Peter—Funeral services for the three members of the Netzke family, killed as a result of an explosion at their home near Nicollet, were conducted from the Trinity Lutheran church, at Nicollet.

Rochester—Bonds to the amount of $100,000 have been voted by Eyota school districts Nos. 53, 3, 11, 28, 33 and part of 54, for erection of a consolidated school building. Work will start in the early spring.

Fergus Falls—The turkey crop has been the most profitable crop raised on Minnesota farms this season. During the last two days a total of more than $17,000 has been paid out by one firm in this city for turkeys.

Slayton — S. A. Baldridge, 58, of Lake Wilson, received a broken shoulder and Harlow Holbrook, 35, of Chandler a broken arm and internal injuries when a gravel pit caved in on them south of Lake Wilson.

Minneapolis — Minnesota democrats will be asked to subscribe $4,600 as their share of the indebtedness of the democratic national committee, it was announced by Fred E. Wheaton, Minnesota member of the committee.

Buffalo—Peter Gayer was taken into custody here following a raid in which the sheriff seized a large still and a considerable quantity of moonshine. Gayer was taken to Anoka and after being arraigned was held for trial.

Jackson—At a special meeting of the county board of Jackson county, five ditching contracts were let, at figures that will save the farmers several thousand dollars in assessments. More than 200 bidders were on hand.

St. Cloud—Deputy State Fire Marshal E. F. Heimbach is engaged in an investigation of clues which, it is hoped, will lead to the arrest of the firebug who started the blaze that burned the Magnusen lumber yard here on the night of Dec. 22.

Moorhead—Speaking before the annual convention of the Laymen's Holiness association, Rev. J. R. Patrick, of Mount Vernon, Ohio, said the reason the church has failed is that "she has got her eye on the dollar, the pipe organ and the high steeple."

Duluth—Captured by a policeman as he was removing merchandise from a West Duluth store, an unidentified burglar, handcuffed, aided by an armed accomplice, leaped from a speeding police car and escaped after firing several shots at the officers.

St. Paul—Indorsement of establishment in Minnesota by legislative enactment of the New York regulation requiring fraternal insurance societies to frequently value their certificates and ascertain the amount of their reserves and disapproval of the "incontestable law" proposed in the last Minnesota legislature was voted at a convention of 75 delegates to the Minnesota Fraternal congress at the Saint Paul hotel.

Minneapolis—Earl Slater, arrested in Blue Earth City under the name of W. L. McDonough, is in the Hennepin county jail, held on a charge of murder in the first degree for the slaying of Frank L. Kelly of Mankato, whose body was found in the ruins of a schoolhouse near Dayton station, burned and with a bullet hole through the heart. The man made a complete confesison of the crime to Sheriff Earle Brown, County Attorney W. A. Blanchard of Anoka county and Sheriff U. S. Pratt of Anoka after he was brought to Minneapolis, Mr. Blanchard said. He had no accomplices, according to his confession.

Pipestone—Robbers backed a motor truck up to the rear of the tobacco warehouse of the J. N. Robson Grocery company here and loaded on more than $300 worth of tobacco and made good their escape. They left no clue.

St. Paul—Short courses in practical farm power equipment will be given by experts of the University farm and manufacturers in connection with the National Tractor and Power Farming show which will be held in the new exposition building at the Minnesota State Fair grounds February 6 to 11.

TIRES OF LIFE ON LONELY ISLE

Woman Is Glad to Return to Civilization After Seven Months in South Seas.

WANTS PRETTY THINGS

Looks Forward to Shopping Tour After Working on Lonely Copra Plantation With Husband and Friend.

Honolulu.—Mother Eve must have had a fearfully dull time if Eden resembled her home in the South Seas, according to Mrs. W. W. Meng, who has returned to civilization sated with seven months of loneliness, barefoot freedom, moonlight on coral strands, and parrot chatter in sun-baked palms.

She and her husband lived an Adam and Eve existence for 200 days on Palmyra, a tiny island knoll 1,000 miles south of Honolulu, while they cultivated a virgin copra plantation. Their only neighbor was Edward Benner, who helped them with their work.

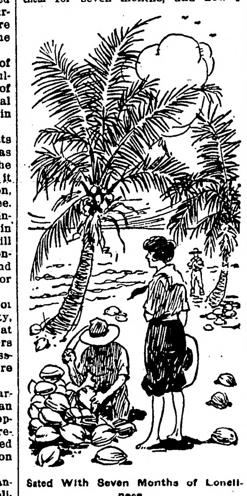
First Question About Styles.

Mrs. Meng, who has just returned to the Hawaiian capital, believes that a few months is all the average white woman can stand of tropical ennui and isolation, so temptingly pictured by the mystic South Sea school of romanticists.

Mrs. Meng's first question was: "What are the women wearing?" During all the time spent on the lonely isle she had read no newspaper or magazine; had seen no living soul except her husband and Benner, the family friend; no sail in the cloudless blue, and had had no message from beyond the briny horizon.

Sick and Tired of Bloomers.

"I hope," said the woman from Palmyra, "that they aren't wearing bloomers in civilization, because I'm sick and tired of bloomers. I've been wearing them for seven months, and now I want some pretty things. My first dissipation is going to be a shopping tour."



Sated With Seven Months of Loneliness.

She had helped the men pick and cure the coconut meat (copra); had kept the primitive shelter looking tidy; had served the scrambled bird's eggs and devil-crab meat—and developed a deep distaste for bloomers and for the idyllic life of the novelists.

OWL KILLS 15-POUND GOOSE

It Flies Into Connecticut Man's Yard to Attack—Ice-Clad by Sleet, It Is Caught.

Winsted, Conn.—A 15-pound goose was killed in combat with a large dark-brown owl in a small inclosure on the premises of Louis Francasso

There were two geese under cover in the small yard when the owl entered and pitched on one of the geese, which flew into the open, where it defended itself as best it could, finally succumbing to the attacks of the owl.

The body of the goose, its breast punctured and one wing torn, was still warm when Francasso entered the inclosure. The victorious gladiator, clad in an armor of ice which had formed during a sleet storm following the battle, stood in one corner uninjured. Francasso caught the owl alive. It is nearly 14 inches tall.

BABY'S CRY CAUSES BLAST

Mother Lights Match to Look at Child and Explosion of Natural Gas Wrecks House.

Scottsville, N. Y.—When Mrs. William Goodberlet struck a match to see what was causing the baby to cry, an explosion of natural gas wrecked the house and burned five persons so severely that they were taken to a hospital. One died later

The house had recently been wired for electricity and the gas shut off, but a leak in the pipe filled the house during the night.

CATS FOLLOW FISH DEALER

Animals of Sheepshead Bay Regularly Take the Trail of the Peddler of Sea Food.

Like the pied piper, the Sheepshead Bay fish dealer has a following of cats as he pushes his cart through the residence section on Friday morning, says the New York Sun. The cats for blocks away hear his shrill cry of "Fresh fish!" or perhaps smell his cargo and come slyly through the streets for a chance at a delectable bit of sea food.

When the fishman gets a customer he cleans and scales the fish on the ground. This is the chance for the neighborhood cats. Their part of the feast consists of the discarded heads and tails of fluke and sea bass.

Obtaining a prized portion, most of the cats break for home to enjoy the repast, while others not so fortunate hang on the peddler's heels and follow him about until he finally makes a sale and permits them to profit on his loss.

Two by Two.

It was Sunday morning and the car was crowded with persons on their way to church.

At one stop, an elderly man with a beard got on. A three-year-old piped up shrilly, and pointed to him excitedly. The father's face flushed, but he succeeded in quieting his young daughter. Two blocks further on another man, wearing a beard got on. This time all the passengers around caught the words of the tot, and this is what she said: "Oh, look, father, there's another man with a tail on his face."

He Was Only Sparring.

Judge—A few minutes ago you swore that you were only sparring with the plaintiff and that was what injured him. Now we have proved that you struck him over the head with a blunt instrument. Why did you lie?

Prisoner—I was telling the exact truth, your honor; it was a piece of spar I hit him with.

Scene: A Milwaukee police court. James Montgomery, negro, is being arraigned. He is charged with theft. Archie Carey, lawyer, rushes in.

Carey—Your honor, I've just been called to defend this man. I've had no chance to confer with him. I enter a plea of not guilty and request continuance.

Safety and Convenience

Do you know that nine-tenths of the business of the United States is done by some form of check? This convenient condition is possible because the banking system of this country has been placed on such a safe basis that corporations and individuals have faith in it. The welfare of the banks depends in a large measure upon maintaining this confidence.

A checking account with this bank is an absolutely safe proposition. Your money is safer than it is in your own pocket and your check is as good as your money in any business transaction. We shall be pleased to have you open a checking account with us. You will find your account to be a means to safety and convenience.

Pay Your Bills by Check

One of our customers came into the bank not long ago and asked to see a certain check which he had issued, and which he described. It was one that he had paid in the settlement of a business account. Thru unintentional error he had not received proper credit for the amount.

He was given the check and with it proved that the bill had been paid. He was given credit for the amount because the check with the proper endorsement was accepted as a receipt. A checking account is the surest safeguard against paying an obligation a second time. We invite you to call and let us explain more fully the advantages of a checking account.

REGINA McCABE and RICHARD LEARY Jr.

THAT Tanlac is a wonderful medicine for delicate children is conclusively proven by the remarkable results accomplished in the cases of the three children shown in this picture.

Little Blanche Blair, of Providence, R. I., age 13, gained 10 pounds; Regina McCabe, at right, age 9, of Scranton, Pa., gained 15 pounds; little Richard Leary, Jr., of Philadelphia, who was very delicate, is now in fine, robust health. The statements made by their parents are as follows:

Mr. A. M. Blair, residing at 20 Atwood street, Providence, R. I., said: "We are just so happy over the change Tanlac has made in our little girl that we can't do or say enough to show our appreciation. She had lost nearly 20 pounds in weight and looked so frail and weak that her mother and I were both almost worried sick over her condition. Since taking Tanlac, she has already gained 10 pounds, her color is better than it ever has been and she looks and acts like a different girl."

Mrs. Catherine McCabe, 414 Dickens Ave., Scranton, Pa., said: "The 'flu' left my little Regina in such a bad condition that I have no idea she would be with me now if it hadn't been for Tanlac. It is a mystery to me how she lived on the little she was eating and was so lifeless she never even cared to play with the dolls and toys she got at Christmas. Since taking Tanlac she is as hardy and well as any child could be and has gained 15 pounds in weight. I will always praise Tanlac for restoring our little girl's health."

Richard Leary, 2342 Palethorpe St., Philadelphia, said: "There is no doubt in my mind but that Tanlac saved my little boy's life. For two years I wouldn't have been a bit surprised to have seen him drop off at any time. He had stomach trouble and many a time the gas pressed up into his chest until his heart palpitated so I thought sure he couldn't breathe but a few more gasps. But Tanlac gave him back to us strong and well and we will praise it to our dying day."

The effect of Tanlac on the delicate stomachs of the young is one of the strongest evidences of its wholesomeness as well as its unusual merit. Although a powerful reconstructive, Tanlac contains no harmful ingredients, minerals or opiates which are so often found in other medicines. Being composed of the most beneficial roots and herbs known to science it is purely vegetable and can be taken by the most delicate children, and does not upset or injure the weakest or most delicate stomach.

There is a Tanlac agent in every town.—Advertisement.

Cities as Thunderstorm Spots.

The conclusion has been reached by a well-known engineer who has given the subject considerable attention that certain cities, if not indeed most inland cities of say 100,000 population or more, appear to be "thunderstorm spots." The observation has been made by E. R. Horton, of Voorheesville, N. Y., who also points out that "a shallow lake with sandy margins located in a forest may serve as a thunderstorm breeder" and cites as proof observations made by him over Oneida lake, New York.

Old Court Has Much Power.

In Liverpool (Eng.) there still exists one of the very few remaining medieval borough courts of record. At one time there were 215 in various parts of the kingdom. The Liverpool court of passage, as it is called, has practically unlimited jurisdiction in causes of action arising within the city, and has more power than has the City of London court which has jurisdiction only when the defendant is employed in the city itself.

Misery loves company, but the company isn't apt to make a second call.

Nature's Supreme Wisdom.

If it were not for the check that winter interposes, vegetation would climb skyward until we had tropical jungles and flowers high in the branches of the forest, instead of violets and daisies and lady's-slipper orchids. As it is, the year's tender growths decay in the wet and cold of winter, furnish shelter to the seeds of grasses and small woodland plants, and so foster a new growth for the coming of spring. Even in decay there is a purpose; in nature always there is a new beginning.—Youth's Companion.

Jewish Physicians to Popes.

Many examples might be enumerated of popes who patronized Jewish physicians. An exception was Paul IV, who introduced the Ghetto into Rome, but at least a score of popes seem to have gone out of their way in extending friendly recognition to the medical members of this race.

The Alibi.

The Secretary—This speech may get you into trouble.

The Honorable—Then you had better prepare a statement saying that I was misquoted by the newspaper.—Life.

A "balanced diet" may sound confusing to many people

The facts, as explained here, are simple.

The secret of a "balanced diet" is to have food containing all the elements needed for proper nutrition. These elements are protein, to nourish the tissues; starch and sugar to furnish energy; fat to supply heat; and mineral salts to provide the material necessary for building nerves, brain, and tooth and bone structure.

Grape-Nuts, the nourishing cereal made of whole wheat flour and malted barley, served with cream or milk, is a complete food for young and old alike.

Go to your grocer today and get a package of Grape-Nuts. Eat it with milk or cream for breakfast; or with stewed fruit, jelly or jam, as a delicious dessert for lunch or dinner.

Every member of the family will relish this palatable and nourishing food—

St. Cloud—The city commissioners have called a special election on Feb. 2, at which the present officeholders will be candidates against the three nominees on recall petitions, presented and filed a week ago. The present commission denies published charges of incompetence.

St. Paul—A slight increase in the taxes for 1921 to be collected in 1922, is shown in the reports of 34 of Minnesota's 86 counties to Ray P. Chase, state auditor. This increase is in spite of the fact that the state taxes have been lowered, the tax for state governmental purposes having been eliminated.

Jasper—The Highland church in the country southwest of here was destroyed by fire of incendiary origin. When farmers reached the scene, a stranger was found sitting on the side of the road, watching the flames. The man was taken into custody. It is believed that he has escaped from some insane hospital.

St. Paul—The second annual meeting of the Northwestern Medical Officers' association of the World War will be held Tuesday evening, January 10th in the Palm Room of the St. Paul Hotel. Officers will be elected, a general get-together meeting held, to be followed by suitable entertainment and a luncheon. The meeting will continue for two days.

St. Paul—"With a fair labor and investment return, farmers of America will gladly underwrite the permanency of American business and American living, fulfilling the largest contract ever made—that of feeding and clothing 110,000,000 persons with American standards of living." This was the message of James R. Howard, president of the American Farm Bureau federation, who spoke at the third annual convention of the Minnesota Farm Bureau federation at the University farm.

Wheaton—At a joint meeting of the livestock breeders association and the Traverse County Agricultural association it was decided to build a sales pavilion on the county fair grounds. The building is to cost $1,500 and will be ready for a series of purebred hog sales which will take place in February.

Rochester—Ben Farley, a teamster, employed at the state hospital for the insane, was seriously injured when a patient stole up behind him and struck him on the head with a pick. The blow crushed the skull and a piece of bone penetrated the brain.

Duluth—A reduction of 20 cents a ton in the retail price of hard coal and of $1 in soft coal were put into effect here.

Slayton—Edward Krusemark lost thre fingers when he put a shotgun shell on a stove and an explosion followed.

Adrian—Eldon Kilpatrick, aged 45, is dead here from injuries received when he fell from a ladder while repairing a roof.

Marshall—Horace G. Hoffman, aged 70, a resident of Marshall for the last 39 years, died at his home here after a brief illness.

Waseca—Members of the Waseca county fair board have named Aug. 28, 29 and 30 as the dates for the annual county fair.

Barnum—Fire destroyed the $75,000 high school building here. A library costing $3,000, donated by C. G. Barnum, Duluth board of trade, was totally lost.

Minneapolis—The 500 men employed at the Kenwood shops of the Minneapolis & St. Louis railroad returned to work. The shops were shut down Dec. 23.

Moorhead—One of the first steps of Moorhead businessmen in the new year was their promise to assist hockey fans of the city in putting over a Moorhead hockey team.

Duluth—Employes of the Twin Ports Electric lines, operators of street cars in Duluth and Superior, were notified of a 10 per cent wage reduction, effective January 16.

Grove City—Nels Lindskog, aged 80, was killed while chopping down trees on the Adolph Nelson place north of here. He was found dead near a tree which had struck him when falling.

Mothers—Read This Letter and Statement Which Follows

Portland, Indiana.—"I was troubled with irregularity and constipation and would often have to lie down because of pains. One Sunday my aunt was visiting us and she said her girls took Lydia E. Pinkham's Vegetable Compound and got well, so mother said she guessed she would let me try it. It is doing me good and I praise it highly. You are welcome to use this letter as a testimonial." —STELLA NEWTON, R. R. 8, Portland, Indiana.

Mothers—You should carefully guard your daughter's health. Advise her of the danger which comes from standing around with cold or wet feet, from lifting heavy articles, or overworking. Do not let her overstudy.

If she complains of headache, pains in back or lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, give her careful attention.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for your daughter to take, as it is especially adopted to relieve just such symptoms. Remember it contains nothing that can injure and can be taken in safety.

Take Yeast Vitamon Tablets To Clear The Skin

Build Firm "Stay-There" Flesh—Increase Energy.

If you want to quickly clean your skin and complexion, put some firm healthy flesh on your bones, increase your nerve force and power and look and feel 100 per cent. better, simply try taking two of Mastin's tiny yeast VITAMON Tablets with each meal and watch the results. Mastin's VITAMON Tablets contain highly concentrated yeast-vitamines as well as the two other still more important vitamines (Fat soluble A and Water soluble C) and are now being used by thousands. They positively will not upset the stomach or cause gas, but, on the contrary, are a great aid to digestion, to overcome constipation and as a general conditioner of the whole system. Pimples, boils and skin eruptions seem to vanish like magic, the complexion becomes fresh and clear, the cheeks glow with ruddy health, the flesh becomes firm, the eyes bright. Mastin's VITAMON Tablets are positively guaranteed to give you new health, energy and ambition and improve your appearance. Do not accept imitations or substitutes. You can get Mastin's VITAMON Tablets from any good druggist.

Of what use are fine features with an ugly, mottled skin, flabby flesh, sunken cheeks, pouches under the eyes or a careworn, sickly-looking face? Let Vitamon correct these conditions.

HELP INVALIDS TO FORGET

Presence of a Canary or Goldfish in the Sickroom Invariably Has Beneficial Effect.

Next time you sit in a room, the furnishings of which include a bowl of goldfish, consider how much time you spend watching the small fish as they swim slowly about or dart about in pursuit of each other.

Probably you will conclude you were indulging the usual tendency of the normal person to be attracted to moving objects. In sick persons and convalescents this tendency is more pronounced, and in the aged and very young it is still more so.

That psychology of this attraction was given by Dr. Edward N. Leavy, formerly veterinarian to the animals in Central park zoo. He is now connected with a Fifth avenue pet store.

"Sick persons lying in bed spend a great deal of time watching the goldfish if an aquarium is in their room," he said. "It takes their minds off their pains and aches and is very beneficial."

Canaries share with goldfish the honor of being the chief animate entertainment to the sick.—New York Sun.

One isn't troubled much by the laws against violence if he isn't troublesome.

The Wrong Foot.

From a telegram recently received by the district superintendent of an Indian railway from a Babu station master: "Coming on duty early in the morning clad in my new and white uniform I perceived a man seated on a box in a naked and aggressive manner. Taking him to be an ordinary passenger, I proceeded to slap him, whereupon he hastily arose, unlocked the said box, clad himself in a policeman's uniform he took thereout and arrested me. The shoe is thus situated on the erroneous peddle. Please arrange."—London Morning Post.

National Emblems.

The rose, England's national flower, was chosen as the country's symbol at the close of the War of the Roses. The shamrock is firmly imbedded in Irish hearts because St. Patrick used it to illustrate one of his sermons. The thistle was adopted as the national emblem of Scotland because, in the reign of Malcolm II, a moat filled with thistles saved a Scotch fortress from Danish invasion.

A Forgotten Art.

In New York's streets there may be counted hundreds of signs that read "Watchmaker." Yet perhaps less than a dozen of such concerns could make a watch.

The crooked path is longest.

You are entitled to the benefit of the doubt. Why not take advantage of it?

The law is very careful in protecting the rights of a prisoner charged with a crime.

How about the Law of Common Sense and the man who has committed an error only? Isn't this a good place to use the benefit of the doubt, too?

Take your own case: If you don't know for sure whether tea or coffee is harming you, you do know that many are harmed by the drug element in tea and coffee, and that headaches, nervousness, or high blood pressure are symptoms which often tell that the drug, caffeine, is giving the nervous system too much jolt.

Probably you know, too, that some people can't drink a cup of tea or coffee at bed-time, and sleep well that night.

Where many have been harmed by tea and coffee, and you may be harmed, isn't it well to put the benefit of the doubt on your side before doubt becomes an unpleasant certainty?

There's charm without harm in Postum—a pure cereal beverage, rich in flavor, fully satisfying; the favorite table drink of thousands.

Suppose you try giving yourself this benefit today, and keep up the test for ten days; then judge the results. See if you don't feel better and work better. You can get Postum wherever good food and drink are sold or served.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

RYE ACREAGE IS INCRESED

In all Concideration Rye is a More Sure Crop Than Wheet

LARGER RYE YIELDS

Do to Climatic Conditions Last Fall, Made Possible a Larger and More Profitable Plowed Acreage.

Fargo.—The acreage of winter rye sown in the fall of 1921 is estimated to be 1,607,000 acres, an increase of 90 per cent over the 1920 fall sown acreage of 846,000 acres, and 16 per cent greater than the five year average of 1,379,000 acres, according to the December survey of the United States bureau of markets and crop estimates for North Dakota. The tremendous swings of rye acreage in North Dakota during the past eight years has attracted national as well as state wide interest. The fall sown rye acreage in this state increased from 300,000 acres in 1914 to 2,068,000 acres in 1918, then, due chiefly to the discouraging losses from the hopper pest, dropped to 974,000 acres in 1919 and to 846,000 acres in 1920. The increase in acreage is large in practically all countries with the northern third of the state showing the larger gain. A combination of influences have contributed to this heavy change. Farmers believed that the danger of severe hopper damage had practically passed. September rains left soil in favorable condition for rye seeding. Rye cost of production is lower than that of other grains. The financing of labor presented a difficult problem to a large number of farmers. A liberal rye acreage divides up harvest work to better advantage permitting the handling of more acres with home help. Rye is considered useful as a cleaning crop, also a desirable fall and spring pasture crop. The grain feed supply on numerous farms was short of requirements for doing the usual amount of spring work. Rye is considered a more sure crop than wheat.

September rains gave rye growth and an excellent start over the greater part of the state. The fall condition estimated to be 92 per cent of normal has not been exceeded during the past 10 years, and compares with 85 per cent last year and the 10 year average of 85 per cent.

The fall plowed acreage for North Dakota is one of the high records for this state and is estimated to be 60 per cent of the total acreage to be cropped in 1922 and compares with 59 per cent plowed a year ago. Due to the early fall rains over most of the state followed by mild weather into the late fall, conditions were favorable for the completion of a large plowed acreage, especially in the eastern and northern sections of the state.

MORE SEED GRAIN FOR SALE

H. L. Bolley Is Listing Seed Grain for Sale.

Fargo.—There will be no annual seed growers' contest of the North Dakota Improved Seed Growers association at the coming meeting of the Tri-State Grain Growers convention, but Prof. H. L. Bolley announces that he is still listing seed grain for sale and he reports that every year he always has a far greater demand for the kind of seed he will accept for listing than the supply.

"I have a very hard time getting the farmers of the state to recognize the value of listing grain with us," said Professor Bolley. "I have listed several hundred thousand bushels of grain, but every spring we run far short of the demand for this kind of seed."

Professor Bolley, who is the state seed commissioner of North Dakota, explained that the seed commissioner has the right under the state law to build up a list of persons who have for sale seed which he finds good enough to come within the standards he has set for certified seed and to furnish the list free of charge to buyers. No charge is made for the service.

Colonel Visits Bismarck.

Bismarck, N. D.—Colonel J. H. Fraine of Grafton, former colonel of First regiment, North Dakota national guard, spent a few hours in Bismarck, on his return from Mandan, where private business affairs had called him. He was being greeted by many former overseas comrades during his short visit.

Mining Permits Issued

St. Paul—Seventeen applications for 10 permits for prospecting on mining properties were received today under the new law for granting permits for prospecting on state lands. Bids were opened in the office of Ray P. Chase, state auditor, by Mr. Chase, State Treasurer Henry Rines and Attorney General Clifford L. Hilton, members of the board. Prospectors must pay $50 for the permit and a minimum royalty of $1,250 for the first year and [illegible] a year thereafter.

Help Your Kidneys Fight That Cold!

Winter Colds and Chills Weaken the Kidneys and Are the Direct Cause of Many Serious Kidney Disorders

IS winter-time your backache-time? Does every cold, chill or attack of grip leave you lame, achy and all worn out? Does your back throb and ache until it seems you just can't keep going another day?

Then look to your kidneys! Grip, colds and chills throw a heavy strain on the kidneys. They overload the blood with poisons and impurities that the kidneys have to filter off. The kidneys weaken under this rush of new work; become congested and inflamed.

It's little wonder then, that every cold finds you suffering with torturing backache, rheumatic pains, headaches, dizziness and annoying bladder irregularities.

But don't worry! Simply realize that your kidneys are overworked at such times and need assistance. Get a box of *Doan's Kidney Pills* today and give your weakened kidneys the help they need. Assist them also by drinking pure water freely, eating lightly, and getting plenty of fresh air and rest. *Doan's Kidney Pills* have helped thousands and should help you. *Ask your neighbor!*

"Use Doan's," Say These Good Folks:

JOHN FENNERN, Bottineau, N. D., says: "I get attacks something like lumbago, which come from taking cold. I have been so lame in the muscles of my back and hips during these spells I have hardly been able to bend and if I lifted anything, my back hurt as though it would break. My back ached so badly right over my hips, I could hardly get any rest at night. Doan's Kidney Pills, however, have always cured me of these attacks."

MRS. E. SWETLEN, 110 E. 4th St., Hastings, Minn., says: "When I took cold my kidneys were affected, causing my back to become painful. I had pains in the small of my back and I often felt them between my shoulder blades. Sometimes I was so stiff and lame I could hardly get around. My kidneys didn't act right and I had headaches and dizzy spells. I got no relief until I used Doan's Kidney Pills. A short use rid me of the troubles and I have been in better health ever since."

Now the "Hydro-Glider."

A new "hydro glider" just completed on the west coast is described in Popular Mechanics Magazine. It is said to provide all the thrill and speed of a hydroplane gliding over the surface of the ocean. In fact it amounts practically to a flying boat without wings and is driven over the surface of the water by an air-propeller motor at a speed of sixty miles an hour.

Some people are so methodical that they expect even their opportunities to travel on schedule time.

WESTERN CANADA Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at $15 to $30 an Acre

—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying

are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches, schools, good markets, railroad facitities, rural telephone, etc.

"Marshall county can secure a complete system of good local roads in the shortest time and with least expense," says Com Babcock, "by adopting a definite plan of systematic improvement covering several years and then pooling town with county funds to carry it out under modern road-building methods, with the right equipment and so forth. Funds for local road purposes — exclusive of trunk highways — in Marshall county last year were about $228 000. Mr. Babcock urges the holding of a good roads meeting by county and township officials to decide on a definite plan of co-operation to get the best results in road building. This is very important.

Pay Your Bills by Check

One of our customers came into the bank not long ago and asked to see a certain check which he had issued, and which he described. It was one that he had paid in the settlement of a business account. Thru unintentional error he had not received proper credit for the amount.

He was given the check and with it proved that the bill had been paid. He was given credit for the amount because the check with the proper endorsement was accepted as a receipt. A checking account is the surest safeguard against paying an obligation a second time. We invite you to call and let us explain more fully the advantages of a checking account.

LAND OF WEALTH

Potentialities of Western Canada Abundantly Proved.

Prizes Taken at International Live Stock Exposition Show What Land Is Capable of Producing.

Forty years ago the first sale was made of lands acquired by the Canadian Pacific railway. This is but a short span in the lives of many, and there are those who look back upon that period as it being but of yesterday. Yet when one glances back it is to marvel at the accomplishments of that period. One of the most striking of these is the progress that has been made in Western Canada since that day, forty years ago, when an official of the railway placed his signature to the document that gave possession to the new owner of a section of land. This was the first sign of the wealth that in time would be added to the wealth of the world in forty years, this single section of land being the base upon which the future would be built. The potential wealth was but in embryo; today it is a big, living reality. Among the many things that reveal this, may be seen the winnings made by Western Canada exhibitors at the International Live Stock show held in Chicago in 1921. These were so marked in their number as to give to the world—the American world—a splendid idea of the excellence of the products of the farms of the new but rapidly developing country lying to the north of the international boundary line.

The results of the exhibition show, according to the Manitoba Free Press, that in live stock and grain exhibits the three prairie provinces of Canada made something like 150 winnings. Every animal sent from the province of Alberta won a prize. Exhibits included Shorthorn and Hereford cattle and Percheron and Clydesdale horses. An Alberta-bred heifer got fourth place in a class of eighteen outstanding individuals. In grain, Alberta made simply an astounding record, securing the sweepstakes for oats, and eight or nine prizes before even the American exhibitors secured a placing, and while the grand championship for wheat went to Montana, the prairie provinces took 23 out of 25 possible placings. The first prize for alfalfa seed was awarded for seed grown at Brooks, Alberta, in competition with 43 entries. Alfalfa-growing in Western Canada has been increasing by leaps and bounds, and this victory will give it and the dairy industry, which is always linked with it, a further impetus.

In live stock classes alone Saskatchewan had sixty entries and took sixty-four ribbons.

The winning of the grand championship for Clydesdale stallions by a Saskatchewan horse, for the second time in succession, was almost exceptional. He was bred on a Western Canada farm, fitted and prepared for exhibition there, and able to win over horses shown from the studs of men who have unlimited money to spend on the breeding and preparation of their exhibits. This is proof positive that the farmers of Western Canada are not only in a position to breed their own horse power, and that of a very high quality, but to breed horses that will be saleable in any market of the world.

Manitoba takes just pride in the fact that a Percheron stallion, first in his class and Canadian-bred champion, was bred by Vance, of Crandall, Manitoba. Manitoba took 64 places outside of the grain exhibits.

When all is said and done, the real triumphs are the wins of both live stock and grains actually produced in the great Canadian provinces.

Commenting upon the enterprise of agriculturists of Western Canada in sending exhibits to the International Live Stock exposition at Chicago, the New York Herald in a recent issue said: "Western Canada is encouraging diversified farming in a way certain to bring an increased flow of dollars into the pockets of agriculturists, who at one time devoted their energies exclusively to the raising of grain crops."—Advertisement.

Jugo-Slavia.

Above all, Jugo-Slavia is a peasant nation, with a great number of small estates, especially in Serbia. About 42 per cent of the land is cultivated, with wheat and corn for the larger part, 15 per cent is pasture and about 30 per cent is covered with forests. In Bosnia, 60 per cent is forest land. The mineral wealth is richer in promise than in actual output.—Pierre De Lonox, in North American Review.

CURZON CONFERS WITH POINCARE

Poincare's First Step was to Straighten out Parts in Anglo-French Pact.

MUTUAL PROTECTION

Conference Between Permier M. Poincare and Lord Curzon Was Held in Paris, the Conference Lasting Two Hours.

Paris.—Premier Poincare's first official act upon assuming control of the ministry of foreign affairs was in the direction of straightening out points in the Anglo-French pact as agreed to by M. Briand and Premier Lloyd George, to which he objects. He had a conversation lasting two hours with Lord Curzon, the British secretary for foreign affairs, and Lord Hardinge, British ambassador, with the purpose of having the pact ready as amended to present to the chamber of deputies when he reads the governmnt's declaration on Thursday.

It is understood that M. Poincare requested Lord Curzon that the pact be amended to make the military protection clause mutual, namely that France should come to the aid of Great Britain should the latter be attacked, and also that the general staffs of the two countries should meet at the earliest possible moment after the pact is ratified to draw up a plan of defense in which the British and French armies would co-operate in case of an attack from the east.

Forward Proposal to George.

The question of the protection of Poland in case of an attack by Germany was not discussed today. It was learned that this would be a subject of a future interview between Lord Hardinge and M. Poincare after the Polish government is consulted.

Lord Curzon will return to London but a long cablegram meanwhile is being forwarded to the British prime minister, to give him full knowledge of M. Poincare's suggestion.

A cabinet council under the presidency of M. Millerand will be held at Elyse palace, and another with the foreign affairs department Wednesday, when the reply from London is expected to have reached Paris.

Concerning the governmental declaration, no information is forthcoming beyond the statement by M. Poincare to the correspondence:

"I wish that the engagements taken at Versailles be fulfilled—nothing more. My task accomplished, I shall retire."

NEW SILVER DOLLAR FOR U.S.

New Dollar Is Being Coined to Replace Old Oones.

Washington.—Uncle Sam has minted a brand new dollar piece, a few of which have just been put into circulation. This new silver dollar looks exceedingly strange, being of an entirely different design from the "cart wheels" the American public is accustomed to.

Eagle in New Pose.

One feature of the new coin is that it is hollowed out on both sides. Bank tellers are kicking about this because the coins cannot be stacked up like the old dollar pieces. The eagle appears in a new pose, although much more natural than the one heretofore in use, and "In God We Trust" in cast clear across one face of the coin.

With the advent of the new dollar piece comes the announcement from the local banks that the penny is getting out of fashion again. As the result of the war and war taxes, the penny has played a very inportant role in the daily life of the people for some time now, but the repeal of the war taxes on many luxuries has removed many of the needs for the one-cent piece.

Fight on Tidewater Project.

Washington.—A bitter and perhaps protracted fight in congress over the proposed improvement of the St. Lawrence river to provide a channel for ocean-going vessels to the great lakes was forecast by developments in the house after the report of the international joint commission which investigated the project, had been transmitted to Speaker Gillette by President Harding.

Instead of immediately referring the report to a committee as is usually done when communications are received from the president, the speaker withheld reference and announced he would trminate at a hearing Wednesday which of three committe should take charge of it. There is divergence of opinion as to whether the report should go to merchant marine, foreign affairs or ways and means committee.

Delegates to Meet in London.

Dublin.—A delegation of the Irish provisional government, consisting of Eamon J. Duggan and Kevin O'Higgis, will go to London to meet a committe of the British cabinet to complete the details of transferring authority to the provisional government.

The following statement was issued by the publicity department of the Mansion House:

"The members of the provisional government of Ireland received the surrender of Dublin Castle at 1:45.

New Yeast Vitamon Tablets Round Out Face and Figure

With Firm, Healthy Flesh, Increase Energy and Beautify the Complexion—Easy and Economical to Take—Results Quick

Thin or run-down folks who want to quickly get some good, firm, solid flesh on their bones, fill out the hollows and sunken cheeks with strong, healthy tissues, and build up increased energy and vitality should try taking a little Mastin's VITAMON with their meals. Mastin's VITAMON is a tiny tablet containing highly concentrated yeast-vitamines as well as the two other still more important vitamines (Fat Soluble A and Water Soluble C). It banishes pimples, boils and skin eruptions as if by magic, strengthens the nerves, builds up the body with firm flesh and tissue and often completely rejuvenates the whole system. Quick, gratifying results. No gas caused.

If you are thin, pale, haggard, drawn looking or lack energy and endurance take Mastin's VITAMON—two tablets with every meal. Then weigh and measure yourself each week and continue taking Mastin's VITAMON regularly until you are satisfied with your gain in weight and energy.

IMPORTANT! While the remarkable health-building value of Mastin's VI-TA-MON has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anemia, indigestion, constipation, skin eruptions, poor complexion and a generally weakened physical and mental condition, it should not be used by anyone who OBJECTS to having their weight increased to normal. Do not accept imitations or substitutes. You can get Mastin's VITAMON tablets at all good druggists.

DIDN'T IMPRESS THE COURT

Just a Possibility That Motorist Laid Flattery on a Little Bit Too Thick.

"Fine town you have here, judge," said the motorist who had been haled before Squire Witherbee on the charge of exceeding the speed limit.

"Yes," said the squire. "We think so."

"A fine, progressive litle city; broad streets, attractive homes, imposing public buildings and an air of prosperity everywhere. I dare say you have an excellent school system, pure drinking water and all that sort of thing. And Constable Perkins, here, who arrested me, is one of the most alert public officials I've ever seen. If I may say so, in the circumstances it's a pleasure to make the acquaintance of a man who has such keen sense of duty and to appear before a judge whose intellectual powers and integrity I could never question after one look at his honest yet kindly features."

"A fust-rate piece of oratory," said the squire dryly, "but if you're quite certain you've finished I'll just slap on th' fine an' adjourn cote. It's pretty close to my lunch hour an' I'm hungry."—Birmingham Age-Herald.

GENTLE TAP OF FAN FATAL

Man Dreaming of the Days of the Guillotine Died When His Wife Touched His Neck.

Arthur MacLaughlin of Detroit is responsible for this story sent me by my friend, Leo D. Brown, of the Cosmopolitan Book corporation:

"A Reno gent had, on a Saturday night, become very much absorbed in 'The Tale of Two Cities.' Particularly was he impressed with the description of the guillotine and the misfortunates upon whose necks it descended so devastatingly. The vision preyed upon his imagination.

"Next day his wife insisted that he accompany her to church. He drowsed during an inordinately long prayer and dreamed that the guillotine was about to descend on his bent neck. Wife, upon resuming her seat when the prayer was over, noticed that her husband was asleep and still leaning forward, his head resting on his hands on the pew ahead. And so, with her fan, she tapped him lightly upon the back of the neck. Whereupon the gent fell dead."

What a fearful lesson for wives!—W. O. T. in the Philadelphia Public Ledger.

Eats From the Earth's Interior.

An oil prospector, boring in Texas, got down to about 470 feet when the drill, passing through solid rock, struck a cavity filled with thin sand and salt water. When the sand pump was brought into play, up came the sand and salt water, and with it hundreds of tiny shell-fish of the "clam" variety. These were not fossils—they were alive, and a number were cooked for supper.

The Suez canal was opened in November, 1869.

Will your "Good Morning" last all day?

Easy to start from the breakfast table with zest and enthusiasm, but how easy is it to keep on? Does ambition last, or lag, as the day develops?

The afternoon "slump" is a factor to be counted upon, in business or social life.

Usually, there's a reason.

Nerves whipped by tea or coffee won't keep on running, and they won't stand constant whipping.

Many a man or woman who has wished the afternoon would be as bright as the morning has simply been wishing that the nerves wouldn't have to pay the natural penalty for being whipped with the caffeine drug.

Postum gives a breakfast cup of comfort and cheer, without any penalties afterward. There's no "letting down" from Postum—no midday drowsiness to make up for midnight wakefulness; no headaches; no nervous indigestion; no increase of blood pressure.

Think it over. There's full satisfaction in Postum—a cup of comfort for anybody (the children included), any time.

You can get Postum from your grocer or your waiter today, and probably you'll begin to have better tomorrows, as so many thousands have had, who have made the change from coffee to Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.
